Fashionably smooth hair

**This has caused the great change in the appearance of men's hair**  
**YOU** cannot go into a classroom, or a club, or a fraternity house, without noticing it—  
Somehow, college men have found a way to make their hair, the most conspicuous part of the appearance, look just as they want it to look at all times.  
It was not always so. Before Stacomb was introduced, they tried countless methods to make their hair lie smoothly and stay that way—from old-fashioned pomades, which only matted the hair and made it greasy, to plain water, which kept it in place an hour at the most and then left it drier and more brittle than ever. Small wonder that they greeted Stacomb with such instant enthusiasm! Here at last was something that would make the hair stay in place without harming it or making it sticky and unnatural-looking.  
Today the great change which Stacomb has brought about is noticed everywhere. Men whose hair used to be out of place an hour after being brushed, men whose otherwise correct appearance used to be spoiled by hair that was hopelessly unkempt—today they keep their hair constantly in perfect order.  
Use Stacomb tomorrow morning—and look your best all day. A delicate, invisible cream. Non-staining and non-greasy. In jars and tubes, at all drug and department stores.

**Is he a hard taskmaster or a loved leader?**  
**IF** you are a good soldier, you take orders from the major. But there is a great deal of difference whether you find the training an irksome routine or an enjoyable development.  
When you follow the right major in your course, the work can become vitally interesting, and your college career will be more worthwhile.  
"But what is my right line of work?" may be a puzzling question. All the thought you can give to finding the answer will be fully repaid. Analyze yourself and you will surely discover your natural aptitude.  
And when you've found what line you feel you ought to follow, stick to it. Stand by your major and your major will stand by you.
