

THE DAILY NEBRASKAN

VOL. XXIV—NO. 72.

THE UNIVERSITY OF NEBRASKA, LINCOLN, NEBRASKA, SUNDAY, JANUARY 18, 1925.

PRICE 5 CENTS

KOSMET CHOOSES PLAY BY COMBS

"Tut-Tut," Three-act Comedy, Will Be 1925 Production.

PRESENT FEATURE SONG AT PAN-HELLENIC BALL

"Tut-Tut," a three-act musical comedy, written by Cyril L. Coombs, '23, has been selected by Kosmet Klub for its 1925 production. Announcement was made by the Klub at the Pan-Hellenic formal last evening. A feature song of the play, "On The River Nile," was sung by Orville Andrews as a special number at the ball.

Mr. Coombs was author of the 1923 Kosmet play, "The Yellow Lantern," and the 1924 production entitled "The Wishing Ring," proclaimed the best University production in Nebraska history. Both plays were produced both in Lincoln and Omaha. Mr. Coombs has had much experience with dramatics and music. All lyrics in "Tut-Tut" were composed by him as well as the speaking parts.

"Tut-Tut" is expected to be even more successful than past productions by the Klub. A cast of forty is required. A number of solos and seven or eight chorus ensembles are included. The director of the play will be announced soon and work will be started as soon as possible.

The play will be presented at the Orpheum theater April 24 and will be staged in Omaha the following week. The Omaha theater has not been selected yet but will probably be the Brandeis or the Gayety, where "The Wishing Ring" was produced.

MU SIGMA WINS IN RIFLE MATCH

Lambda Chi Alpha and Sigma Chi Take Second and Third Honors.

FRATERNITIES COMPLETE ANNUAL MEET SATURDAY

Mu Sigma won the annual interfraternity rifle match held last week in Nebraska Hall, with the highest average among twenty-four fraternity teams. At the finish at 11:30 o'clock Saturday morning, only fifteen of the teams had completed their requirements and were eligible to be listed. Lambda Chi Alpha took second honors and Sigma Chi third.

The final results, as issued yesterday from Captain Eggers' office, gave Mu Sigma a total of 886 points, Lambda Chi Alpha 875, and Sigma Chi 871.

Mark Fair, Lambda Chi Alpha, had the highest individual score with a total of 189 points. He dropped only eleven points out of the possible 200.

Captain Eggers, in charge of the meet, stated that the men showed much more interest than last year and that the meet had been entirely satisfactory. Only three of the final averages were below the winners' total of last year.

The members of the first three teams and their scores are as follows: Mu Sigma; Perso 180, Phelps 179, Wanek 178, Jewell 175, Ward 174; total 886.

Lambda Chi Alpha; Fair 189, Ilgen 173, Hall 172, Brackett 172, Leach 169, Total 875.

Sigma Chi; Millson 178, Welpton 178, Caldwell 177, Houke 171, Rogers 169; total 871.

Following are the averages of the other twelve teams: Kappa Psi 870, Pi Kappa Alpha, 870, Phi Gamma Delta 870, Phi Alpha Delta 870, Kappa Sigma 857, Alpha Gamma Rho 857, Phi Tau Epsilon 841, Alpha Delta 835, Farm House 832, Delta Chi 808, Sigma Nu 807. Alpha Sigma Phi 800.

Each man fired ten shots in the following positions: prone, sitting, kneeling, and standing, making it possible to secure 200 points for each man and 1000 for the team.

Zora Schaupp Is New Philosophy Instructor

Zora Schaupp, '19, who has held a fellowship and assistantship at Bryn Mawr three years and is now working on her doctor's thesis, will join the instructional staff of the department of philosophy the second semester.

SYRACUSE UNIVERSITY—That women cause most of the distraction in the library, is the report of a committee which has been making observations of individuals supposed to be studying. Observations show that the average student is distracted four times every half hour and that each time he spends two minutes in looking around. The clock was the object of the most attention.

Mrs. J. J. Snipes Explains Pictures in Exhibit from Metropolitan Galleries

"Lincoln people do not realize that looking at this exhibit they are enjoying metropolitan advantages. These paintings have come from New York and Chicago, and will go from here to Kansas City and Minneapolis." This was the opening comment of Mrs. J. J. Snipes, membership secretary of the Nebraska Art Association, in the Art Gallery yesterday morning.

On the south wall hangs a collection from the Grand Central Galleries of New York City; on the other three walls are paintings from the thirty-seventh annual exhibit of the Chicago Art Institute, with five or six displayed by courtesy of Carson Pirie Scott and Company of Chicago. The paintings will be on exhibition until February 15.

"The collection is particularly outstanding for the youth of the artists, many of whom are among the best known in the country," said Mrs. Snipes. "For instance, Malcolm Farcell painted his 'Portrait of My Mother,' which won the Harris Bronze Medal, at only twenty-nine years of age." She indicated a canvas portraying a gentle old lady sitting quietly in an armchair.

"This is the prize of the Chicago Art Institute—the 'Recessional.'" It was an intricate, intensely colored painting on the east wall.

"What is your interpretation of the 'Recessional.'" Mrs. Snipes was asked.

Committee Will Meet at 5 O'clock Monday

The committee in charge of University night will meet in Ellen Smith Hall at 5 o'clock on Monday, January 19. Reports will be made by members of the committee as to the number and nature of the skits to be presented by the various organizations.

Anyone wishing to submit skits may do so by notifying Bennett S. Martin, '26, Oregon, Mo., chairman, or any member of the committee.

SWEDISH PROFESSOR WILL VISIT CAMPUS

Physicist Will Lecture Wednesday and Thursday Before Local Societies.

Prof. Manne Siegbahn of the University of Upsala, Sweden, will visit the University Wednesday and Thursday, January 21 and 22, to conduct technical societies and to conduct conferences with advanced students in physics.

He will lecture on "X-Ray Spectra and Atomic Structure" at 4, Wednesday, in the lecture room of Brace Laboratory at the open joint meeting of the Physics Colloquium and the Nebraska section of the American Chemical Society. "Exact Determinations of Wave Lengths in the X-Ray Spectra" will be the subject of his discussion before the Physics Colloquium at 4, Thursday, in the same lecture room.

Dr. Siegbahn has played a large part in the development of methods of measurement of X-Ray wavelengths and has published many researches in this field. He is touring the larger universities of the United States under the auspices of the International Education Board and the National Research Council and presented a paper before the American Association for the Advancement of Science at the recent meeting in Washington, D. C.

DR. MARVIN WILL BE SIGMA XI SPEAKER

Scientific Society Will Hear Lecture on "Dissection of the Atom."

Sigma Xi will hold its regular meeting Monday, January 20, at 3 o'clock in the general lecture room of Brace Laboratory, instead of Tuesday, January 20, as previously announced.

"Dissection of the Atom," will be the subject of the lecture given by Dr. Henry Howard Marvin, professor of theoretical physics and chairman of the department of physics. He will treat briefly with the research of B. E. Moore, professor of physics, and its connection with the solution of the problem of the structure of the atom.

A general account of some of the researches of Sir Ernest Rutherford, Doctor Niels Bohr and others who have contributed largely to the solving of atomic structure will be featured. The meeting is open to the public, and non-members are invited to attend.

ed. "Many observers complain that they are confused by it."

Mrs. Snipes studied the picture in silence for a moment. Then she said, "Robert Savage, the artist, got his inspiration for the 'Recessional' from Kipling's quotation,

"Lest we forget, Lord God of Hosts, Lest we forget."

"On the ground lies a young soldier, killed in battle. A vulture perches nearby, ready to attack the body. Here you see a Madonna, holding her child out to the world—and perhaps wondering if he is to share the fate of the soldier. She is looking down at the Bible, opened at the Sermon on the Mount. Above these figures are two powerful, militant men, one a patriarch, the other a strong figure on horseback. I think that they are trying to take the world by other means than that which the Madonna advocates—you see the churches lying in ruins about them.

"Several Nebraska artists are represented in the collection," Mrs. Snipes continued, after a moment, pointing at two portraits of children by Mrs. D. R. Leland of Lincoln. One is of Little Miss Casey Campbell, daughter of R. E. Campbell, '10, Cleveland, Ohio. The other canvas portrays Miss Gwendith Orr, daughter of Dr. H. W. Orr, Lincoln.

Miss Hermine J. Stellar, assistant professor of drawing and painting at the University of Nebraska, is the artist who executed "Portrait of Miss Florence Stellar," and "Girl Reading."

"Over the Hill and Beyond" was painted by Mrs. A. R. Edmiston of Lincoln. This canvas, as Mrs. Snipes explained, was awarded a prize at the annual Nebraska art show sponsored by the Omaha Society of Fine Arts.

"An Interior" is the work of Louis Ritman, pupil of Lawton Parker, who once lived at Kearney, Nebraska.

Blanche Grant, a former instructor at the University of Nebraska, painted "The Saddle Blanket," one of a number of pictures of the great southwest in the exhibition.

(Continued on Page Three.)

MANY ATTEND FORMAL PARTY

Three Hundred Couples Dance at Annual Pan-Hellenic Ball.

The Pan-Hellenic formal, the climax of the winter social season in University circles, was never more splendid or beautiful than last night, when nearly three-hundred couples danced and made merry at Scottish Rite temple. Streamers, pins, crests, skirts, flowers and music all contributed to the attractiveness of the evening and the success of the annual Greek frolic.

Scarlet and cream streamers and ribbons were the basis of the color scheme in the main ball room. Cerise and white flowers in baskets were placed about the hall and a huge red "N" on a black background stood out against the north wall. The lounge room presented a cozy atmosphere with its rugs, divans and seats and its decorations of fraternity and sorority pins which covered the walls. A canopy of scarlet streamers covered a fountain. Refreshments were served from several tables.

Leather coin purses with the Pan-Hellenic crest in gold, and containing the program for the evening were given the ladies at the start of the dance. A bevy of red balloons proved the source of a mad scramble during one of the dances in the early evening. Serpentine was distributed for another favor dance and fireworks caused more excitement. Snowballs were given out for another dance and everyone pelted his neighbor with the missiles.

A feature of the evening was a dance given by two masked dancers during the intermission. A great deal of speculation was evidenced as to the identity of the masqueraders but the secret is still deep and dark. Music was furnished by The Nebraskans, augmented. Orville Andrews, entertainer, sang several numbers including "On The River Nile," a song from the 1925 Kosmet production. Announcement was made immediately after the intermission of the winner of the competition for writing of the Kosmet play. Cyril L. Coombs, '23, a former member of Kosmet Klub and writer of the 1923 and 1924 plays was the winner with a three-act musical comedy entitled "Tut-Tut." The comedy will be produced late in April.

ENGINEERS ELECT FOOTE PRESIDENT

Engle and Tuning Minor Officers in Agricultural Engineer's Society.

Nathaniel Foote, '26, Lincoln, was elected president of the local chapter of the American Society of Agricultural Engineers at a business meeting held Thursday night. Alfred Engle, '25, Fremont, was elected vice-president, and Joseph E. Tuning, '26, Central City, was made secretary and treasurer at the same time.

Nebraska chapter of this organization holds meetings every third Thursday in the month. Among other activities, the chapter sponsors the demonstration of farm machinery throughout the state.

BIZADS WILL HOLD BANQUET

Tickets Will Go On Sale Monday Noon for Annual Event.

FOOTBALL LETTER MEN WILL BE HONOR MEN

Tickets for the annual banquet of the College of Business Administration to be held Friday, January 23, at the Chamber of Commerce, will go on sale Monday noon. Football letter men of the college are to be the guests of honor.

The banquet is an annual affair of the College of Business Administration. Several new and novel stunts have been arranged for the affair, which will begin at six o'clock and will be over promptly at 8:15, allowing plenty of time for other engagements.

A short program has been arranged for the affair. Music will be furnished by the Kandy Kids with John Costello, and the bizad quartet will give several selections. But four speakers have been secured for the affair in order not to make the program too long. J. W. Searson, of the University Publishing Company has been secured for the occasion. Chancellor Avery and Dean LeRossignol of the College of Business Administration, will give short addresses. The last speaker on the program will be John (Choppy) Rhodes, College of Business Administration football letter man. He will speak in behalf of the members of the team who are the guests of the College.

Tickets for the banquet go on sale Monday noon, and may be obtained from members of the Women's Commercial Club, Men's Commercial Club, Alpha Kappa Psi, Delta Sigma Pi and at the table in Social Science building. While the tickets are being handled by these organizations, those in charge of the banquet wish it to be understood that the affair is not only for members of these organizations but is open to every one registered in the College of Business Administration.

PHI SIGMA PLANS FUTURE PROGRAMS

Honorary Biological Society Holds Regular Meeting Thursday.

Phi Sigma, honorary biological society, held its regular meeting on Thursday, January 15. Plans for furthering the activities of the society were discussed, and programs for future meetings arranged.

The new members for the present semester are as follows: Paul Heron, parasitology; Rayburn W. Samson, plant pathology; Christine Thygison, botany; William Harvey West, botany; O. L. Williams, zoology; Leonard Worley, animal ecology; Ruth Shattuck, zoology. Edgar C. Tullis was the society's delegate to the recent national convention at Washington, D. C.

The membership is made up of outstanding students and faculty members interested in biology. Students interested in botany or zoology are eligible to election to membership if they meet the requirements. Fifteen hours of biology, exclusive of beginning courses, completion of four semesters of college work, a scholastic standing of eighty-five per cent, faculty recommendation, and the unanimous assent of the members of the local chapter, constitute the minimum requirements. The society aims to increase interest in the biologic sciences on the part of undergraduates, and to furnish incentive for maintaining a high average in studies.

It makes it possible for the undergraduate student in biology to obtain and enjoy membership in a scientific society during his junior and senior years. Both men and women are elected to membership.

WILL ASK WOMEN TO JOIN Y. W. C. A.

Membership Committee Will Interview All Non-Members.

The membership committee of the Y. W. C. A. will invite every woman in the University who has not a card in the membership file to become a member of the association within the next month. A careful check has been made of the file and lists prepared of all women who are not members. A second list of all those who are members will be posted on the bulletin board at the entrance of Ellen Smith Hall.

Many of the upperclasswomen have not signed cards for several years and it is possible that their pledges have been lost. In that case they are asked to fill out a new card. Any woman in the University who is willing to sign the membership pledge is invited to become a member. There are no fees. Cards may be secured at Ellen Smith hall.

EDITORS ASK FOR ARTICLE

Professor Gray Requested to Write For French Review.

The editors of the new French review, entitled "Philosophies," have asked from Prof. Louis H. Gray of the department of philosophy a "Meditation sur Dieu." The new review is devoted to the new and energetic French movement in philosophy, which is under the leadership of men of the younger generation.

Dr. Gray is internationally known for his work in religion, and this request is a very distinguished compliment to the interest which his views have aroused—views which are essentially conservative. Dr. Gray has also contributed an article to the "Revue de Philosophie" under the title "Essai de reconstruction de certaines lacunes dans le texte d'Eschyle," in which he endeavors to fill in some of the gaps in the traditional text.

COLUMBIA MAN WILL BE GUEST

Professor Montague Will Address Convocation Thursday Morning.

ALEXANDER PRAISES EMINENT PHILOSOPHER

Prof. William P. Montague of Columbia University, professor of metaphysics, will be the guest of the department of philosophy January 21-23.

He will give the convocation address at the Temple Theater, Thursday, January 23, at 11 o'clock, dealing with social problems from the philosophical point of view. He will probably also speak at a luncheon for faculty members and students interested in philosophy.

Professor Montague is on his way to the University of California, where he is to give a special series of addresses. Of him, Dr. H. B. Alexander of the department of philosophy says: "He is one of the most notable American philosophers—a human being and as a delightful personality. An English reviewer says of him that he never opens his mouth unless he has something to say. He is like one of Guiver's Laputians—with one eye in the heavens. He is certainly the most eminent of the school of neo-realists in America."

PHYSICS PROFESSOR CONDUCTS RESEARCH

Moore Experiments Upon Condition of Matter in the Magnetic Field.

Prof. B. E. Moore of the department of physics is conducting some extensive experiments upon the conditions of matter in the magnetic field, in cooperation with the Bureau of Standards, Washington, D. C. Recent developments in the theory of atomic structure have revived interest in a method which Professor Moore used nearly twenty years ago.

At a Washington conference last August, Dr. Zeeman, who received the Nobel prize for pioneer work in this line, when told that Dr. Moore would be interested in the work, expressed his pleasure, saying "Moore's work is the only research available upon the earth metals." The large spectrophotograph and Bragg electromagnet of the physics department, which is used in this study, is one of the best equipments.

WILL ASK WOMEN TO JOIN Y. W. C. A.

Membership Committee Will Interview All Non-Members.

The following students should make appointments at their respective studios for Tuesday, January 20: Townsend. Klinger, Martha Marie; Klotz, Harriet Katherine; Kohns, Marx F.; Kolar, Mildred; Kotinek, Frank Thomas; Krotter, Dean; Kubat, Edward James; Kuhn, Marion B.; Kunce, Sylvia Anna; Lallaman, Anna L.; Lang, Leo M.; Langdon, Mabel; Langworthy, Elizabeth; Lapidus, Estelle J.; Larsen, Andrew; Latta, Arthur; Lau, Frederic L.; Lawritsen, Fr. Murphy; Lawson, DeWitte Theodore; Lawson, Kenneth; Lay, Edwin Thorne; Laymon, Nell Irene; Lean, Lottie F.; Lebrecht, Gould S.; Lee, Clarence L.; Lee, Miles N.; Leech.

(Continued on Page Three.)

Magazines Publish Articles by Weber

Dr. C. O. Weber of the department of philosophy has an article in the January number of the American Journal of Psychology on the philosophy of chance in relation to psychology. The Journal of Criminal Law and Criminology will also publish an article by Dr. Weber on "A Study of the Intelligence and Emotional Traits of Male Reformatory Inmates."

ONLY ONE ALLOWED TO CALL FOR PROOF

Should Go to the Studio Three Days After Picture Is Taken.

Only one person from each group that has its picture taken at the campus studio for the 1925 Cornhusker will be allowed to call for the proofs. Three days after the group picture is taken, the group will send one person to the studio to get the proofs. These proofs with the selected proof must be returned to the photographer within the next four days.

During the past week, as many as twenty-five members of a group have called at the studio to see the proofs of that particular group, and it is impossible for the photographer to continue his work of developing, printing, and taking pictures when he is obliged to stop to show the proofs to several members of the same group. It is on this account that one person must be authorized by each group to get its proofs, and he is made responsible for the safe return of them to the studio.

BERGE CALLS FOR SENIOR PICTURES

Less Than Two Weeks Remain for Photographs To Be Made.

"Less than two weeks are left in which to take senior pictures. Approximately three hundred have been taken. Our goal is seven hundred. We know students are busy right now getting ready for examinations but it is absolutely imperative that these pictures be taken now. It takes less than fifteen minutes to go to the studio for your sitting. Do not delay." This statement in regard to senior Cornhusker pictures was issued yesterday by Wendell Berge, '25, editor-in-chief.

"Many juniors were disappointed when they came around after December first and found they were too late to get in the junior section. Let's not have this happen with the seniors. Every student having more than eighty-nine hours credit should schedule an appointment at either Hauck's or Townsend's this week."

Students listed below should make appointments at their respective studios for Monday, January 19.

Townsend. Hurdum, Herman; Huston, Hobert; Hutton, Hugh W.; Hyde, A. Leicester; Irvin, Marie J.; Jack, Elizabeth E.; Jackson, Erna Bee; Jackson, Lucille; Jackson, Robert W.; Jacobs, A. Irene; Jacobs, Frank W.; Jacobs, Marion L.; Jacobsen, Ole; Jameson, Donald C.; Janda, Albert T.; Jefferson, Glenn V.; Janda, Raymond K.; Jelinek, Viola C.; Jenkins, Fern S.; Jenkins, George L.; Jensen, Anna Viola; Jessop, Lawrence; Jetter, Irvin W.; Jewell, Clifford M.; Johnson, Arvilla H.; Johnson, Frank H.; Johnson, Harriett; Johnson, Harvey B.; Johnson, Melvin A.; Johnson, Mary B.

Hauck. Quattrochi, Gus; Quinn, Vivian B.; Raish, Joh M.; Ralston, Mary Elizabeth; Randall, Gerald E.; Rathsack, Herbert W.; Raun, Alfred D.; Ray, Helen I.; Raymond, Elizabeth; Raymond, Grace; Raymond, Virginia; Ready, Gerobe E.; Reavis, Joseph C.; Reckmeyer, Luella; Regan, John H.; Renie, Irvan S.; Replogle, Edith J.; Rettenmayer, Carl A.; Reynolds, Dale C.; Reynolds, Donald; Rhonds, Helen M.; Rich, Dorothy; Richards, Clinton G.; Richardson, David G.; Richmond, Russell F.; Rieschick, Laurena; Rife, Harry L.; Ringland, Ruth.

The following students should make appointments at their respective studios for Tuesday, January 20: Townsend. Klinger, Martha Marie; Klotz, Harriet Katherine; Kohns, Marx F.; Kolar, Mildred; Kotinek, Frank Thomas; Krotter, Dean; Kubat, Edward James; Kuhn, Marion B.; Kunce, Sylvia Anna; Lallaman, Anna L.; Lang, Leo M.; Langdon, Mabel; Langworthy, Elizabeth; Lapidus, Estelle J.; Larsen, Andrew; Latta, Arthur; Lau, Frederic L.; Lawritsen, Fr. Murphy; Lawson, DeWitte Theodore; Lawson, Kenneth; Lay, Edwin Thorne; Laymon, Nell Irene; Lean, Lottie F.; Lebrecht, Gould S.; Lee, Clarence L.; Lee, Miles N.; Leech.

CAGE ARTISTS DEFEAT DRAKE

Nebraska Team Wins Easily From Des Moines Crew, 20 to 8.

REMAIN AT TOP IN CONFERENCE RACE

Nebraska's cagemen continued to occupy the top berth of the Missouri Valley conference after Drake was defeated last night in the Armory, 20-8. The Cornhuskers had little trouble with Coach Solem's Des Moines men and were sure winners all the way.

Eckstrom and Goodson featured in the goal shooting and Tipton's floor work stood out a bright spot in the game. Everett and Mentz of the visitors showed up fairly well, but their team was unable to show any stuff at all.

Nebraska is tied for first place in the conference with Washington University as a result of the latter's win over Oklahoma Friday night. Washington nosed out the Sooners by a score of 32-30, which makes the race look as if it had another contender.

Nine minutes of the game last night had slipped by before either team was able to score. Eckstrom counted the first one a moment after he substituted for Usher. "Eck" made two more at short intervals and started the ball rolling. After he made a hard shot from the side of the court Tipton got loose under the goal and dropped a basket.

Goodson scored and a moment after fouled a Drake man. Neither his or Tipton's foul netted anything for the visitors. Usher made a goal a few seconds before the half ended with the score at 13-2.

The home team was using the zone defense and working it to good advantage. The Drake players were unable to penetrate it and scored only one goal throughout the first half. The weak spot in the Nebraska play proved to be the inability to make free throws when the opportunity presented itself.

Goodson opened the second frame with two baskets following each other. Mentz got the first Drake shot in the second half and Volz scored a neat one from near center.

With twelve minutes to go, Coach W. G. Kline sent in Black for Usher and Beekle for Eckstrom. A few moments later Anderson got in the game and this lineup played until the final shot.

Play was ragged in the last few minutes of the game. Nebraska was devoting itself mainly to defense and Drake was playing poorly. They got away rarely and only made their counters when the Cornhusker team was weakened by several second string men. The line-up:

Nebraska—fg ft f pts. Black, f 0 0 1 0

Beekle, f 0 0 0 0

Anderson, f 0 0 0 0

Usher, f 1 0 0 2

BOARD TO MAKE DECISION SOON

Athletic Committee Will Probably Select Head Coach This Week.

Decision as to the selection of a head football coach at Nebraska is expected to be reached this week by the athletic board, according to John K. Selleck, business manager of athletics.

The board has been interviewing coaches and receiving applications for three weeks and has met regularly in consideration of them. It was the desire to do the work of selecting a new mentor deliberately and thoroughly in order to get the right man for the position which was formerly held by Fred T. Dawson, now director of athletics.

Coach West of South Dakota State and Assistant Coach Beary of Illinois are among the most prominent coaches being considered. Chet Wynne, former Notre Dame star, was also interviewed and submitted a formal application this week.
