

BREAK RECORDS AT K. C. MEET

Osborne Goes Over Own Mark and Riley Forced to Record Time by Weir.

LOCKE EQUALS WORLD SPEED FOR 50 YARDS

Two world's records were broken and another tied at the annual Kansas City Athletic Club meet held in the Missouri City Saturday night. Osborne, Olympic high jump champion, broke his own record when he cleared the bar at 6 feet 3-8 inches and Riley, also an Olympic man, broke his own world's record in the 50-yard high hurdles. He was forced to record time by Weir of Nebraska, who finished a few inches behind the winner. Locke the Husker sprint star, placed himself on the honor roll by running the 50-yard dash in 5 1-5 seconds equalling the world's dash record.

Although the Huskers made only a fair showing in the meet as a whole Coach Schulte was well satisfied. Kansas and Missouri loomed up as strong contenders in the coming Missouri Valley indoor meet and Oklahoma and the Kansas Aggies have some men of promise in several of the events. Ames is strong in the distances again this season.

Locke Wins First Event.

"Gip" Locke won the first event of the evening when he stepped away from the other sprinters after a bad start and won the event in record time. Pitted against Locke in this event was Farley of Missouri, who defeated the great Jackson Scholz in this event at Missouri University this spring while the sprint champion was visiting there. Wongwai o Kansas the sprint champion of the Hawaiian Islands, had to be content with third.

Ed Weir was following Riley of the Illinois Athletic club by only a few inches in the final heat of the high hurdles, which resulted in a new record. The great Keeble of Missouri was decisively defeated by the Husker hurdler and was forced to take third. Riley, in speaking of the race, said, "I had to break a record to beat Weir." In the 50-yard low hurdles Weir was defeated by his own teammate, Rhodes, when he made a poor start. Keeble of Missouri was eliminated in the semi-finals of this event.

James Lewis ran a game race in the 600-yard Shannon Douglas cup race. After being boxed in for a greater part of the race he came up with a strong finish, passed Greenlee,

HUSKER SWIMMERS WILL MEET OMAHA

Eight or Ten Men to Compete in Dual Meet of Athletic Club Friday.

Eight or ten men will be taken to Omaha Friday, February 13, for the first swimming meet of the season, a dual contest with the Omaha Athletic Club. Approximately twenty men are on the squad, which has been regularly practicing in the city Y. M. C. A. pool for the past few weeks.

Events in the meet are: 50-, 100-, 220-, and 440-yard dashes, free style; 50-, and 100-yard breast stroke; 200-yard relay; fancy diving; plunge for distance. Norman Plate is captain of the team.

Ames captain, and finished only a few yards behind Pittenger of Missouri, the winner.

Wirsig Ties For First.

In the pole-vault, Wirsig tied with Potts of Oklahoma and Lancaster of Missouri for first place, with the bar at 11 feet, 11 inches. Gleason was held out of the competition by Coach Schulte when he injured his knee. Wirsig vaulted higher than ever before in his first chance at Varsity competition. Poor of Kansas second to Osborne in the high jump.

The shot-put went to Kuck of Emporia Teachers College with a distance of 46 feet, 1 inch. Kuck holds the world's interscholastic record for the 12-pound shot-put. His win overshadowed the best that Richardson of Missouri could do, which was 42 feet, 8 inches.

Grady of Kansas won the 1000-yard race, and his team-mate Pratt, won the mile event in the fast time of 4 minutes, 33 seconds. The half mile was won by Phillips, running unattached. Stewart of Creighton was second. The time was slow. In the special relay races, Missouri defeated Drake, Oklahoma won over Kansas Aggies, while Kansas won from the Huskers. The Kansas, Nebraska race was the most sensational of the evening. Captain Crites came from behind and all but defeated Fisher in the last quarter mile of the race.

The 2-mile relay was won by Ames after a hard struggle. Kansas Aggies forced the Ames team to run the 2 miles in 8 minutes, 6 seconds, which is exceptional time for so early in the season. Notre Dame placed third.

MAKES HIGH SCORE ON FIRST TARGETS

Rifle Team Tops Mark Set Last Year, but Is Defeated by Iowa.

The University rifle team completed the first week of intercollegiate match shooting last Saturday with a total team score of 3476—52 points more than was made in the initial week of firing last year. The score was 93 points too low, however, to match the mark fired by Iowa University, the first opponent from whom returns were received. The other two schools fired against were Delaware University, and Oregon Agricultural college.

Walter Lammler was high man on the Nebraska team. His total score was 365. He led in the sitting and standing positions with 97 and 83 points in each respectively. Mark Fair was the best Nebraska shooter in the prone position with 99 points out of a possible 100. Capt. D. P. Roberts, with 95 points led in the kneeling position.

Can Shoot Only Once.

The Nebraska increase of 52 points over the first week of firing last year is especially significant in view of the fact that the firing this year is on registered targets instead of progressive firing as was the case last year. This means that the team members can shoot only once officially in each position. Last year the best score of the whole week of firing was counted as the official mark.

"Nebraska could have the best rifle team in the country," says Captain Eggers, "if all the students who can shoot tried for the team." "There are enough fraternity men alone, as revealed in the interfraternity shoot, to make Nebraska's rifle team the best in the country."

Wants Freshmen.

Freshmen who made good scores in the required freshman shooting are urged again by Captain Eggers to come to the gallery and practice. They will be eligible for the corps area matches and the Hearst trophy match. The corps area match against schools in the seventh corps area must be finished by the first of March.

The individual scores made last week were:

W. Lammler	365
D. P. Roberts	364
R. F. Russell	357
R. M. Currier	355
Mark Fair	354
G. Dunkle	344
P. E. Tredwell	355

WOMEN'S TEAM TO START FIRING TODAY

Six Matches Are Scheduled for This Week; Gallery Is Open in Morning.

The University women's rifle team schedule starts this week with six matches against Vermont university, Missouri, Montana, Cornell, Michigan Agricultural college, and Washington State university. The firing this year will include all four positions, prone, sitting, kneeling, and standing. The ten highest scores of the first fifteen women shooting will be counted.

The shooting gallery has been reserved for the women's team this morning from 9 to 12 o'clock. All firing must be done at this time.

All women in the University who conform to the regular rules governing women's athletics are eligible for the rifle team. Points toward an N sweater can be earned by shooting on the team.

Last year the women's rifle team had a very successful season losing only four matches out of twenty or more on the schedule.

So far this year less than ten women have come up to the gallery to do any shooting. At least fifteen must fire every week to keep up with the schedule. If enough interest is not shown in the sport to have a complete team firing each week, the entire season's schedule will have to be cancelled, according to Captain Eggers, director of marksmanship.

The remainder of the schedule includes thirteen colleges and several matches are still pending.

The schedule:

Week ending February 21. University of Cincinnati, University of West Virginia, Syracuse university.
Week ending February 28. Maine University, Michigan, South Dakota, and Nevada.
Week ending March 7. Oregon Agricultural college.
Week ending March 14. University of North Dakota, Illinois University, Utah Agricultural college.
Week ending March 21. University of Arizona, and Kansas University.

HUSKERS BEAT GRINNELL BY SCORE OF 35 TO 29.

POOL IS OFFERED RESEARCH POSITION

Chairman of Botany Department May Go With Smelting and Refining Co.

Professor R. J. Pool, chairman of the department of botany, has been asked to accept the directorship of the department of agricultural investigation of the American Smelting and Refining Company of New York City. His decision is expected before the end of this week.

This position was held until January 1 by Dr. P. J. O'Gara, '02, but at the present time it is vacant and the company is very desirous of filling his position at once so that the work he started may go on without interruption. A staff of several investigators has been working under his direction and they have made many important contributions to biological and metallurgical research.

The principal laboratories and experimental fields of this department are situated in Salt Lake City, Utah, but extensive operations are being carried on in several other states and in Mexico and South America.

Professor Pool has been an instructor in the botany department of the University of Nebraska for the last eighteen years and upon the death

of Dr. Bessey, ten years ago, he was made chairman of the department. He first became noted for his scientific work in this field by his work in connection with a federal court commission.

Stanford Needs New Men for Track Team

LELAND STANFORD UNIVERSITY, Palo Alto, Calif., February 9, 1925.—New men are fighting to make positions on the Stanford 1925 track squad which will meet the University of Nebraska here April 4. Twelve track men who were point winners last year are missing and new men must be found who can fill their shoes. The Stanford men are strong in field events and should be fast in the hurdles. Several of last year's freshmen are showing up well.

UNIVERSITY OF KANSAS—Chancellor E. H. Lindley has given a large silver loving cup to the University R. O. T. C. unit, to be used as a perpetual award to the company
