

AMES MATMEN BLANK HUSKERS

Iowa State College Wrestlers Win Every Match By Decisions.

NO FALLS SCORED BUT HOME TEAM OUTPOINTED

The invading wrestlers from Iowa State college handed a drubbing to the Nebraska wrestlers in the Armory last night, 14 to 0. The Ames men won every match and although they scored no falls they clearly outpointed the home team in every way. The heavyweight and 145-pound matches were the cream of the evening. In the heavy class Highley of Nebraska and Biller of Ames put up a good fight but the latter won with a time advantage. A fall looked sure several times, but neither was able to make it.

Captain Skinner of the Cornhuskers lost his match to Woodhall. Skinner was outpointed most of the time but scared the Iowan at times.

Blone, wrestling in the 115-pound class, lost his match by a time advantage of eight minutes' time. Mayers of Ames had an advantage of eleven minutes and twenty-five seconds over McCloskey in the 135-pound class.

Brannigan in the 158 and Fowler in the 175-pound classes both lost matches by decisions.

Valley Sports

Coach C. W. Corsaut of the Kansas Aggies should be given the prize for novel and interesting methods of training his athletes. Latest word from the Manhattan school reports that Coach Corsaut used violet rays centered on his basketballers while they were practicing. Gaining the knowledge from experiments in the animal husbandry department, Coach Corsaut worked his men under violet rays a few minutes each day.

According to the results of the animal experiments, the players should have had much more vigor than before, and should be able to do a lot to their opponents. Did it work? A few days after the violet treatments the Aggies walked over Kansas, conference leaders, and bewildered the whole Valley. Whether the violet rays did it or not cannot be said, but they must have failed when the Aggies were defeated by Oklahoma and Missouri.

Among the new Valley stadiums to be erected are those of Oklahoma and Oklahoma Aggies. The southern schools are campaigning intensively for the bowls and the University of Oklahoma has already raised \$400,000.

Members of the Chemical Engineering society held their regular meeting in the Chemistry building Thursday evening. Several amendments to the constitution were discussed and passed and committees were appointed to start work on the annual Engineer's Week.

YALE UNIVERSITY—Following a lively snow fight on the Yale campus the faculty placed plain-clothes men on duty to try to catch the wholesale offenders who broke several hundred windows.

UNIVERSITY OF CALIFORNIA—A huge Golden Bear will take his stand on the crest overlooking the Stadium if plans of the junior class are carried out. It will be laid out in golden evonymus, a plant which maintains its color the year around.

NEBRASKA WINS FROM KAGGIES

Huskers Display Powerful Offensive Which Baffles Kansas Visitors.

FINAL COUNT OF FRIDAY CAGE GAME IS 32 TO 20

Displaying a powerful offensive which worked in and around the Kansas Aggies quintet, the Nebraska basketball team won from the Kaggies, Friday evening, 32 to 20. The visitors were unable to solve the Nebraskans and were defeated with little difficulty.

Goodson, high-point man, played consistently well, as did Tipton at guard. The Nebraska team followed the tactics used against Grinnell and launched a fast attack instead of using a cautious defensive. They proved themselves as well versed in the offensive game as in guarding.

The working of the guards, Captain Volz and Tipton, was noticeable. Tipton especially played a good game standing out as the mainstay of the defense. Eckstrom and Smaha started the game as forwards and Klepser was paired with Smaha later in the game. They made good.

Bunker, scoring ace for the Aggies, was injured in the first half and lost the speed which he displayed in the first part of the game. He was replaced by Weddle, a guard, who in turn was replaced by Doolen. Tebow, center, showed to advantage, scoring six points.

Bunker got the first score of the game, thirty seconds after the starting whistle. Smaha tied the score some three or four minutes later, but Byers sank another basket immediately.

It took the Cornhuskers just five minutes to get warmed to their task. Volz tied up the count at four all with a long shot and a moment later made a pretty pass to Goodson for another tally. The home team piled up counters until the score at the half was 17-5.

The Kaggies cut down the Nebraska lead somewhat in the last frame but were never close enough to threaten. Almost every man on the Nebraska squad got into action. Black, Beerkle, Usher and Andreson each showing their stuff.

Klepser amused the crowd with his "fooling". He has the knack of baffling his opponents with fake passes and tricks. Only once did he slip up, when Tebow snatched the ball from him and dribbled down the floor.

INTERFRAT RELAYS NEXT ON PROGRAM

Five Events Scheduled for First Relay Carnival at Nebraska.

SCHEDULE OF RELAYS.

- 8-lap Relay—Monday.
- 2-lap Relay—Tuesday.
- 12-lap Relay—Wednesday.
- 4-lap Relay—Thursday.
- Medley Relay—Friday.

The first event of the interfraternity relay carnival will come Monday afternoon at 4:30 on the indoor track underneath the east stand of the stadium. Frat tracksters are sharpening their spikes for the first event of its kind at Nebraska.

Registration for the meet will be completed at noon Monday, the hour set for the closing of entries and the

payment of the entrance fee of one dollar.

The Relays, following close upon the heels of the annual interfraternity track meet, are expected to arouse an interest as great as that of the general track meet and a good crowd is expected to view the meet.

Regulations which will govern the tracksters were announced Saturday. Teams will race against each other in sections, but the winners will be decided by their time. Fraternities will also be allowed as much as possible to select their opponents, so as to match fast teams with fast teams.

The winner of the carnival, will receive a skin trophy, but must have entered a team in every event. Fraternities may enter in separate events, but they must be represented in each one to have a claim on the prize.

Scoring on the meet will be conducted like that of a cross-country meet, first place in each relay counting one point, and so on. The team with the lowest total will be the winner.

The 12-lap event and the medley relay will be interesting to watch. They will be run off on Wednesday and Friday. The medley will consist

of a one-lap run by the first man, two laps by the second man, three laps by the third man, and four laps by the fourth.

As special inducement to fraternities which can not get their men out at 4:30, arrangements may be made to run at 5:15, it was said Saturday.

THE NEW ACCESSORIES

The Joy of Having a Complete Wardrobe

Isn't it a wonderful sensation to know that your costume is really a costume, that nothing more can be added, nothing taken away? And it isn't very difficult to achieve this harmony if, in planning your wardrobe, you choose the smart accessories.

The Smart Glove for Spring is Conservative

Gloves may so easily make or mar a new spring frock. But if you choose wisely—cloth for your sports outfit, shiny kids and silks for afternoon—you will find that they add just the right touch.

Flat Bags with Gay Designs

Your Handbag, especially, should be selected with care because it must be suitable for more than one occasion. A neat leather case for street wear and a silk or bead bag for afternoon will quite complete the picture.

Dainty Neckpieces are Particularly Youthful

There is nothing which dresses up a frock more than a bit of lace or linen at the neck and wrists. Especially in spring these Collar and Cuff Sets add a touch of brightness and are exceedingly dainty and fresh.

Choose your New Accessories on Rudge & Guenzel's Aisle of Accessories—Street Floor.

Good news for all lovers of graphic pie

Graphic pie enough to satisfy the hunger of a life-time; no end of graphic mountains to scale and toboggan down. That's what the man who loves to analyze graphs and statistical symbols can look forward to when he comes with the electrical industry.

Economic study is one of many branches in this broad field. If you have thought of electricity as limited to engineers, this other side of the picture will interest you.

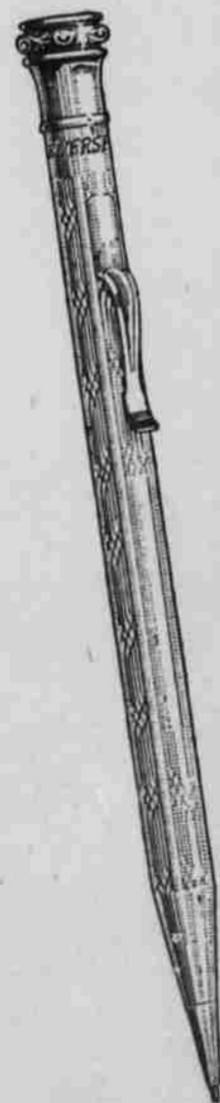

The commercial organization with its problems of distributing, selling, advertising; the manufacturing end with its opportunity for trained technical men; the legal and accounting branches—all this and more totals electrical industry.

It may pay you to keep this in mind against graduation.

A Memory Tonic

It is surprising how the ever-readiness of Eversharp prompts the jotting down of passing thoughts and facts—and how quickly the habit of "writing it down" improves the ability for accurate remembrance.

Six new features make Eversharp a finer writing instrument than before—non-clogging rifled tip, quick reloading, complete interchangeability of parts, are the most important.

Put a new Eversharp in your pocket. And for complete preparedness, match it with a Wahl Pen.

Prices \$1 to \$45, at all dealers.
