

COPPOCK DRIVE LAUNCHED TODAY

Campaign Is Annual One for Support of Graduate as Foreign Organizer.

TWENTY TEAMS TO SEE Y. W. MEMBERS

Final preparations for the Grace Coppock Memorial Drive were made at Ellen Smith Hall Tuesday evening when the captains met with their teams and arranged for a personal solicitation of all the women in the University. Twenty teams will work under the direction of Arvilla Johnson. Teams will meet Wednesday, Thursday and Friday nights at Ellen Smith Hall for luncheon and a report of their drive.

Mrs. E. L. Hinman will speak at the luncheon on Wednesday and will give a talk on the life of Grace Coppock. Helen Guthrie will be leader of devotionals. Katherine Warner will lead devotionals Thursday and Mrs. Chase will give a talk on the work of Grace Coppock. Friday noon Mary Creekpaum will lead the devotionals and Mr. Then, a Chinese student in the University will talk on China.

The University Y. W. C. A. supported Grace Coppock in China from 1907 until 1921, the time of her death. Now the Grace Coppock fund is going to the support of Miss Maud Klatt who teaches English, does girl's club work and teaches the Chinese girls foreign cooking. This year the money will go to the secretary in China who is carrying on the work of Grace Coppock.

The one Christian society in China which is working in non-Christian schools. The vast majority of the girls and women in China are under the influence of the social system in China which encourages the foot-binding and illiteracy among women.

OFFER COURSE IN CAMPFIRE WORK

City Y. W. C. A. Women Open First Lecture Monday in Social Science 107.

The program of the Camp Fire Guardians' Training Course, which is to be offered University women this semester, is to be given by Mrs. F. F. Teal, Mrs. C. O. Bruce, Miss Martha E. Curtis, Miss Dorothy Williams and Miss Eva Erickson. All University women who wish to qualify as Camp Fire Guardians should leave their names with Miss Erma Appleby at Ellen Smith Hall and attend the first lecture at 4 o'clock, Monday, March 16, in Social Science 107.

Camp Fire work, as an extra-curricular activity, is being offered in many schools and University women planning to teach will find this course an asset in securing a position. Last semester fifty-six women received the Guardian's Training Course certificate which is given by the national headquarters of Camp Fire to those who complete the course satisfactorily.

The program for this semester is as follows: March 16—The Scope and Aim of Camp Fire, Mrs. F. F. Teal; March 23—The Spirit of Camp Fire, Mrs. F. F. Teal; March 30—How Camp Fire Does its Work, Mrs. F. F. Teal; April 6—The Symbolism of Camp Fire, How it meets the needs of the Adolescent Girl, Mrs. C. O. Bruce; April 13—Program Making, How to start a Camp Fire, Bluebirds, By Martha E. Curtis, Camp Fire Executive; April 20—The Music of Camp Fire, Demonstration by Camp Fire Chorus, led by Dorothy Williams; April 27—Outdoor Activities, Camp Craft, Outdoor Cooking, Hiking, Nature Lore, by Eva Erickson and Martha E. Curtis; May 4—How to Conduct a Camp Fire Ceremonial, Model Council Fire, Mrs. F. F. Teal and Martha E. Curtis; May 18—Examination and finishing of the course.

Publisher Visits Engineer Faculty

W. O. Wylie, of Wylie and Sons Publishing Company, New York City, visited faculty members of the College of Engineering Tuesday. Mr. Wylie is interested in engineering education and is a publisher of engineering text books. He is a personal friend of G. R. Chatburn, chairman of the department of applied mechanics and machine design.

UNIVERSITY OF OKLAHOMA—

Students get ten minutes to say good night to their dates after they have taken them home from the show. Two whistles blown at the start and finish help them to keep track of time.

University Of Oklahoma Boasts Of Historical Rock Dated "1906"

Seniors Discover Stone and Erect Own Monument; Juniors Bury It.

Apparently the University of Minnesota is not the only school of the middle west which has a boulder with a history on its campus. At the University of Oklahoma, an old limestone rock, with the numerals '06 on it, occupies a prominent position near one of the buildings.

The history of this old rock was revealed recently by the dean of the Graduate College, who has been a member of the faculty for the last twenty-seven years.

According to this story, the members of the class of '06, then seniors, discovered the stone near the Santa Fe railway tracks near Moore, Oklahoma. Apparently it had fallen from a train while being shipped from some southern quarry. Soon after its discovery, a number of the men of the senior class hired a team and wagon and set out for Moore with the declaration that they would haul it to Norman, so that they could leave it on the campus as a lasting mark of their existence.

Two days were required by the men to get the 2,500 pound stone into the desired position, one whole day being occupied in getting it onto the wagon and hauled to the University campus. The next day the stone

was set in the position that it now occupies on the campus oval.

Here the history of this boulder is similar to that one on the campus of the University of Minnesota, for the next morning the stone could not be seen, but a fresh mound of earth was visible in its place. During the night the junior class had buried the monument in a deep hole.

To get the stone out of this hole it was necessary to erect a small derrick and then two teams were necessary, but the boulder was restored to its original position, which it still occupies.

When first placed on the campus, the stone was a shiny white, but the last nineteen years have changed it to a murky gray color.

Nebraska Defeats Grinnell, 36 to 21

(Special to The Daily Nebraskan) GRINNELL, Iowa, March 3.—Nebraska defeated Grinnell here tonight by a 36-to-21 score in a fast and rough game. Smaha, who was placed in the Nebraska lineup shortly after the second half started, was high-point man with eight points. Ekstrom and Tipton tied for second honors with seven points each. The half ended 17 to 14 with Nebraska leading.

ELECT W. A. A. DELEGATES

Eleanor Flatemersch and Laura Whelpley Attend Conference.

Eleanor Flatemersch, '26, Milford and Laura Whelpley, '27, Fremont, were elected yesterday to represent the Women's Athletic Association as delegates at the middle west sectional conference of the Athletic Conference of American College Women.

The conference is to be held at Urbana, Illinois April 3 and 4. Miss Flatemersch is president of the Women's Athletic Association, and a member of Vestals, Silver Serpent and Alpha Xi Delta. Laura Whelpley is Associate Editor of the Cornhusker, and a member of Xi Delta and Sigma Kappa.

CAST FOR "TUT TUT" IS CHOSEN TONIGHT

Rehearsals Start at Once; Need Men for Property and Business Duties.

Members of the cast for the 1925 Kosmet Klub production, "Tut-Tut," will be chosen tonight at a meeting of the Klub members who acted as judges for the tryouts held last week. Announcement of the players will be made in the Thursday edition of The Daily Nebraskan.

About eighty students will be chosen and that number will be reduced by further trials to the required number of nearly fifty. Rehearsals will be started at once and the trials will be held at those times. Directors and members of the Klub will make the final selections.

Men in the University who want to aid the Klub in arrangements for the play may sign up in the Student Activities office this week. The work will include advertising, property, makeup work, and other business duties.

LEAVES FOR SOUTH AMERICA

Another Student of Geology Leaves Thursday for Venezuela

South America will be the destination of another University student when Claire Smalley, '25, leaves Thursday for Venezuela. He has been sent by Professor E. F. Schram of the department of geology to serve as geologist in charge of the sub-service department of the Lago Petroleum Corporation at Maracaibo. A year's stay is required by Mr. Smalley's contract, although it is possible that he may remain for a longer time. Six other University students are in Venezuela—Ralph Brehm, Roy A. Kelly, H. C. Matheny, Clarence Lee, Don R. Brown and Earl Sorenson.

Three other geology students will leave soon to work in various parts of the United States. B. A. Lillienburg will leave this evening for Tulsa, Oklahoma to work as an office geologist. A. P. Allison will be employed by the Roxana Petroleum Corporation at Tulsa. C. A. Cabot will go to Park City, Utah, where he will be employed by the Keystone Mining Company as mill man. Mr. Cabot has brought to the department numerous specimens of lead, zinc and gold concentrates.

BAT-SWINGERS OPEN SEASON

First Home Game Comes May 4 with Iowa Cyclones; Play in Missouri First.

NEBRASKA SCHEDULE TO OPEN APRIL 22

THE BASEBALL SCHEDULE
April 22—Missouri at Columbia
April 23—Missouri at Columbia
April 24—Washington at St. Louis
April 25—Washington at St. Louis
May 1—Kansas Aggies at Manhattan.
May 2—Kansas Aggies at Manhattan.
May 4—Iowa State at Lincoln.
May 5—Iowa State at Lincoln.
May 13—Oklahoma at Lincoln. (Tentative.)
May 14—Oklahoma at Lincoln. (Tentative.)
May 19—Kansas Aggies at Lincoln. (Tentative.)
May 20—Kansas Aggies at Lincoln. (Tentative.)
May 22—Iowa State at Ames.
May 23—Iowa State at Ames.
May 29—Kansas at Lincoln. (Tentative.)
May 30—Kansas at Lincoln. (Tentative.)

Nebraska's bat-swingers will open the baseball season away from home, on a four-game southern trip to Missouri and Washington, according to recent announcement of the season schedule.

The season will open for Nebraska on April 22. The first home game will come May 4, when the Iowa State Cyclones, winners of the Valley title last year, meet the Huskers at Lincoln.

Nebraska will meet six different teams during the season, in a schedule which includes sixteen games. Six dates are as yet not entirely settled. Those are the pairs of games with Oklahoma, Kansas Aggies, and Kansas. They may be changed later.

Coach Bill Kline will start active baseball practice next week, probably as the basketball season ends with the Washington game Friday. Some of the men, especially pitchers and catchers, are working out every day in the Armory, limbering up rusty joints and aching limbs.

FORUM WILL HEAR INAUGURAL SPEECH

No Luncheon Will Be Held by World Forum at Grand Hotel Today.

There will be no regular World Forum luncheon at the Grand Hotel today, the inauguration ceremonies which will be received over radio taking its place. The broadcasting of the ceremonies from Washington will begin at 11 o'clock and will last through the noon hour. They will be received at Ellen Smith Hall as long as the program lasts.

Since no luncheon will be served at Ellen Smith Hall, the committee in charge of World Forum has announced that anyone desiring to hear part of the program may come at any time and leave whenever they wish. Seats have been placed in the hall which will accommodate over two hundred people.

Chancellor Avery has given his radio set to the committee to be used for the program and it has been installed at the Hall. The committee expects a large attendance as this will be practically the only opportunity of the University community to hear the presidential inauguration ceremonies.

MICKEY TO TALK ON "HIGHWAY GRADING"

Bureau of Public Roads Furnishes Slides for Illustrated Lecture.

"Highway Grading" will be the subject of an illustrated lecture at 11 o'clock today by Professor Clark E. Mickey, chairman of the department of civil engineering, in Mechanical Arts 206.

Slides with which the talk will be illustrated, are furnished by the United States Bureau of Public Roads at Washington, D. C. The thirty-eight views show actual road work done in various states. Although the lecture is intended primarily for the senior civil engineering course in Highway Engineering, any others interested in road maintenance is invited by the department.

UNIVERSITY OF FLORIDA—As a symbol of learning and attainment, seniors are wearing black derbies.

Oregon State College Sororities Have Uniform Accounting System

Sixteen Tottering Organizations Are Placed on Sound Financial Basis.

A uniform system of book-keeping has been selected by the sixteen sororities of the Oregon Agricultural College at Corvallis.

Need of some supervision of the financial affairs of the sororities was brought to the attention of the authorities of the school in recent years by the number of incidents that have threatened the financial possibility of the future existence of the houses. At the suggestion of Mrs. Kate W. Jameson, dean of women, an investigation of the situation, which ended in the adoption of the present system of bookkeeping and accounting, was begun.

Beginning last term; special forms were put into use by the managers and treasurers of the houses. These had been especially designed to meet local conditions. After three months of use the system has worked wonders in placing every organization on a strict financial basis where the financial standing in detail may be determined on a few minutes notice.

Because of the elaborate, technical, and often-times expensive set of books that had been imposed on the local chapters by the national organizations, many of the house managers were unable to determine without long and laborious work, the income or out lay of the house for any particular item.

Under the new plan the entire financial record of the house is kept each month on two pages of one book, leaves of which may be added or taken out at will. The form provides for the record of both treasurer and manager, where these officers

are separate. At the end of the month a few minutes cross-totalling will give the exact amount expended for any particular item under the general heads of food, shelter, operating expense and salaries. With these figures at hand a report can be quickly made out and turned in to the supervising committee.

These reports are to be preserved and used as future budgets of the organizations and at the same time they reveal any financial weaknesses in the conduct of the house. The supervising committee, acting as a clearing house, has already been able to make recommendations in the matter of uniform charges for various classes of service that are expected to go far toward eliminating future financial difficulties.

The latest move of this supervising committee is toward compiling the exact information as to the ownership system or plans of the houses regarding their property. It has been found that in many cases a changing personnel, coupled with incomplete records, have left the present membership more or less in the dark as regard to their own affairs.

Seniors Must List Activities at Once

All seniors whose pictures will appear in the senior class section of the Cornhusker must turn in a list of their activities at the Cornhusker office this week. The information desired must be written on cards which will be furnished at the Cornhusker office, U Hall 10. Cards may be filled out at any hour of the day.

DEAN RETURNS FROM MEETING

Committee to Investigate Sororities With View to Their Withdrawal.

MISS AMANDA HEPPNER ATTENDS CONFERENCE

Miss Amanda Heppner, Dean of Women, returned Tuesday morning from Cincinnati, Ohio, where she attended the annual national conference of deans of women which was in session February 26, 27 and 28. Three hundred deans of women were in attendance.

The attitude of young people toward authority was discussed at the general meeting on the first day of the conference. The psychological side of the question was particularly emphasized.

"The speakers did not take the stand that the cause of difficulties in that matter lay entirely with the young people," said Dean Heppner, "they took the attitude that the older people are in the wrong too. The feeling was that the majority of young people are susceptible to guidance of the right kind."

On Friday the four sections of the conference, the normal, the high school, the college and the university, held separate meetings. In the university division the subject taken up in the general meeting was co-operation between the young woman and the dean. Later the section broke up into groups to discuss problems pertaining to sororities, student government and student buildings.

In the group discussing sorority problems a resolution, introduced by the deans from Leland Stanford and Minnesota, was passed providing for the appointment of a committee to investigate sororities and fraternities and report to the conference in 1926. Definite action concerning the problem will be taken in 1927. The authors of the bill have in view the withdrawal of fraternities and sororities from universities and colleges.

"In the group were sorority women and non-sorority women," said Dean Heppner. "Some of the sorority women were national officers of their organizations. As might be expected the resolution caused a great deal of excitement."

"Methods of Improving Scholarship" and "Honors for the Brilliant Student" were the subjects of the evening addresses, by Dean Johnston of Minnesota and President Ajelotta of Swarthmore College.

Student health, mental and physical, was presented on Saturday. The session in the afternoon was held at the University of Cincinnati, a municipal institution.

Several luncheons and dinners were held at one of which Miss Mina Kerr, secretary of the American Association of University Women, spoke on the responsibility of the educated women toward world movements.

(Continued on Page Three.)

RELAY HONORS GO TO DELTS

Only Five Teams Complete Five Relays on Schedule; Seven Run Four.

ALPHA TAU OMEGA AND PI KAPPA ALPHA PLACE

Delta Tau Delta won the first annual Interfraternity Relays by a safe margin, Alpha Tau Omega was second and Pi Kappa Alpha third, when the results of yesterday's races were tabulated. Only five teams completed the five relays on the schedule, seven teams not competing in more than four.

The Phi Gamma Delta and Phi Tau Epsilon teams each completed four relays and may run today in the fifth. Coach Schulte stated last evening that any team which had not competed in all the events could not run off those remaining this afternoon.

Alpha Sigma Phi entrants ran in the medley race yesterday and made a time of 6:22 5-10 in the ten-lap race and the Phi Tau Epsilon team ran the same race in 6:24 5-10. The Alpha Sigs entered in this race were Fettermann, Mann, Hunter and Forsythe; the Phi Tau team was Anderson, Pospisil, Schultz and Dexter. The time of the Alpha Sigs moved them up to fourth place in this event.

The place of the three leaders will not be affected by any further races as they have a safe enough lead to be safe. Phi Gamma Delta can tie for fourth place with Alpha Sigma Phi if its team places second in the medley race.

The standings to date, the lowest scores being the best, follow:

Teams which have run in all the relays:
Delta Tau Delta 7
Alpha Tau Omega 13
Pi Kappa Alpha 15
Alpha Sigma Phi 22
Sigma Phi Epsilon 23

Teams which have run in four relays:
Phi Gamma Delta 20
Phi Tau Epsilon 29

Teams which have run in two relays:
Alpha Gamma Rho 14
Sigma Nu 15
Delta Sigma 17
Farm House 18

The Delta Upsilon team entered only one relay and placed fifth in it: The Delta Tau Delta team kept its lead through four of the relays, the A. T. Os. standing in the lead after the second race. Sigma Phi Epsilon was in third place for the first two days, Pi Kappa Alpha taking the place on the third day and maintaining its place during the rest of the competition. The A. T. Os. kept in second place throughout the meet except the second day when they forged in to the lead.

ORCHESTRA GIVES PROGRAM SUNDAY

Soprano Soloist Will Assist; Entertainment to Be at Lincoln High.

CONDRA SPEAKS ON TOPOGRAPHY

To Appear at Arlington and Milford; Will Continue Broadcasting.

Several lectures on Nebraska's topography are being delivered by Dr. G. E. Condra, director of the conservation and survey division, this week.

"Nebraska's Resources," accompanied by slides, was the topic of Dr. Condra at a community meeting at Arlington Friday evening. Tomorrow evening he will give an illustrated lecture on "Nebraska the Beautiful" at Milford.

Friday evening Dr. Condra will continue over Broadcasting Station WOAW his series of descriptions of the scenery along the right-of-way of the Burlington railroad, dealing with the territory surrounding Casper and Wheatland as it is seen from a moving train. Dr. Condra will not lecture in Representative Hall in the Capitol tonight, as is his weekly custom.

Dean Sealock Returns From Eastern Meeting

Dr. William E. Sealock, dean of the Teachers College, who has been attending a meeting of the National Education Association at Cincinnati, Ohio, returned to Lincoln Saturday after spending a week away from Lincoln.

UNIVERSITY OF CHICAGO—Malcolm Mac Donald, son of the expremier of England, made the statement that he thought the American college fraternity is not a desirable part of the college scholastic system.

UNIVERSITY OF CALIFORNIA—"Go to College Clubs" are being organized in various high schools under the auspices of the University.
