AN EXPLANATION.

In the Tuesday issue of The Minnesota Daily, Anna D. Blitz, dean of women at that university, explains what she believes was the real meaning and purpose of the resolution which the National Association of Deans of Women passed, calling for an investigation of sororities and their functions on university and college campuses.

"I cannot understand," the Minnesota Daily quotes Dean Blitz as saying, "how, from the wording of the resolution, the impression arose that an unfavorable report was anticipated before the material had been collected, or even before its make-up had been decided upon, and how the idea of abolishing sororities came into the report."

The unusual turn in basketball has twice been made by the Kansas Aggie tossers, the users of the violet ray. Kansas was the victim first, and now Washington university, who had a possible chance to rise from second into first place, fell before the Kansas farmers.

The Husker team were given added opportunity to obtain and insure second place in the running by winning from Missouri, Drake and Grinnell, while the Pkers were losing one game. The real test will come Friday when the Huskers and the Piker crew meet for the second time.

Ames continues to rest at ease in the cellar position and will probably be undisturbed there for the remainder of the round robin. Oklahoma, with second place to their credit last season, has about given up hope for a betterment of their present position.

With the base ball season opening up the Husker pastime artists are warming up a bit and are waiting for the basketball season to end. Coach Kline will then take charge of the Husker club. The present lineup of material from last season looks good, but there are some gaps to fill in the out field as well as on the diamond.

Oklahoma, with her early season, and her strong team prospects as usual will be able to start the season with a bit more polish than the northern teams can present.

Nebraska will not hold the Valley track meet this year, but the triangular meet between Kansas, Kansas Aggies, and Nebraska will be held in Lincoln later in the spring, bringing about seventy per cent of the point winners of the Valley meet together in the contest.

In this group will be two Olympic men from Kansas and a good number of men who will be high in all the middle west contests. The competition in every event will be fast because Kansas and the Kansas Aggies have always been strong contenders with the Husker champions for the top position.

The Memorial stadium track with its 220-yard straight-a-way and the one-turn quarter mile track is the fastest and best in the middle west. Coach Schulte spent a great deal of time and work in planning the three layers of cinders that make the track

UNIVERSITY OF WISCONSIN—A professor here encouraged class attention of his students by asking them to send him anonymous letters criticizing him and his methods.

The College Press

EVEN HIGHER EDUCATION

Any discerning person, more than twenty years old, can remember the time when persons with certificates of graduation from reputable high schools were considered fairly well educated. In those days, a year or two at college gave a person a knowledge far above the average.

But of recent years the college graduate has come into his own, as they say, and college graduates are no longer made jokes of.

There is that decided trend toward higher and ever higher education. We here at college notice it. Those of our friends who five years ago would have been happy to obtain bachelors' degrees are now continuing in school and are taking masters' degrees, and those who five years ago would have thought they had reached the pinnacle with a master's diploma now have ambitions to write Ph.D. after their names.

Now comes Johns Hopkins University and announces that as soon as possible it will cease to give instruction in the courses now given in the first two years of college work, that it will abolish the bachelor's degree, and that it will combine what is now the junior and senior years with two years of what is now graduate work and give a higher degree for graduation from that course.

This is another example of the trend toward ever higher education. To the person on the outside who has not been blessed with a college education of any sort, that is very alarming, for it puts the graduate of Johns Hopkins even further above him in the matter of knowledge. The move can scarcely frighten college students who know that graduate students are usually as dull as ordinary folk.

The experiment will place Johns Hopkins in a unique position in the educational world, and it will afford students at Johns Hopkins exceptional opportunities for study. The move is a protest against the general laxity of colleges and may act as a stimulant toward better conditions in our institutions of higher learning.—Ohio State Lantern.

Valley Sports

The unusual turn in basketball has twice been made by the Kansas Aggie tossers, the users of the violet ray. Kansas was the victim first, and now Washington university, who had a possible chance to rise from second into first place, fell before the Kansas farmers.

The Husker team were given added opportunity to obtain and insure second place in the running by winning from Missouri, Drake and Grinnell, while the Pkers were losing one game. The real test will come Friday when the Huskers and the Piker crew meet for the second time.

Ames continues to rest at ease in the cellar position and will probably be undisturbed there for the remainder of the round robin. Oklahoma, with second place to their credit last season, has about given up hope for a betterment of their present position.

With the base ball season opening up the Husker pastime artists are warming up a bit and are waiting for the basketball season to end. Coach Kline will then take charge of the Husker club. The present lineup of material from last season looks good, but there are some gaps to fill in the out field as well as on the diamond.

Oklahoma, with her early season, and her strong team prospects as usual will be able to start the season with a bit more polish than the northern teams can present.
