

R. O. T. C. IS REORGANIZED

Permanent Assignment of Cadet Officers Made by Major Erickson.

SEVERAL CHANGES MADE SINCE LAST SEMESTER

Reorganization of the Nebraska R. O. T. C. advanced course unit to take care of promotions recently announced, permanent assignment of junior officers, and some minor transfers of line and staff officers, were announced in a special order issued yesterday by Major Sidney Erickson, Commandant.

Charles C. Caldwell is reappointed colonel. Emmett V. Maun is reappointed lieutenant-colonel. Nathaniel Foote, Roland Estabrooks, David G. Richardson remain in command of the battalions.

The old organization of two captains to each company remains, with the exception of headquarters company at the Agricultural college campus, of which Raymond H. Swallow is captain.

The complete assignments follow: Colonel Charles C. Caldwell, Commanding Regiment.

Lieutenant-Colonel Emmett V. Maun, Executive Officer.

The Regimental Staff Captain John A. Ricker, Adjutant, assigned for purpose of drill only, to Company D.

Captain Evarad G. Lee, R-4, assigned for purpose of drill only, to Company C.

Captain Harold E. Warren, Morale Officer, assigned for purpose of drill only, to Company I.

Captain Mathias George Volz, Athletic Officer, assigned for purpose of drill only, to Company B.

Captain John H. Kellogg, R-3, assigned for purpose of drill only, to Company H.

Captain Frederic S. Campbell, Assistant Adjutant, assigned for purpose of drill only, to Company F.

Captain Milton, H. Tappan, R-2, assigned for purpose of drill only, to Company B.

Major Nathaniel Foote, Commanding First Battalion.

Major Roland L. Estabrooks, Commanding Second Battalion.

Major David G. Richardson, Commanding Third Battalion.

Headquarters Company Captain Raymond H. Swallow, to command.

First Lieutenant—Jack W. Ross, second in command.

Second Lieutenants—Leo Barnell, Theodore R. King, Melvin C. Lewis, Richard T. Rogers, Donald E. Wight.

Company A Captain Richard N. Johnson, to command.

Captain Dudley R. Furse, second in command.

First Lieutenants—Frank F. Frye, Allen W. Tiltotson.

Second Lieutenants—Elton N. Baker, Edward R. Crowley, Herman J. Frerichs, Earl L. Gillette, Aldrich Hanicke, Erwin A. Jones, George B. Martin, Lloyd I. Tucker.

Company B Captain Edward L. Stemen, to command.

Captain Robert P. Stephens, second in command.

First Lieutenant—Max R. Shostak.

Second Lieutenants—Ralph O. Bartling, Henry H. Branch, Jr., Clement S. Jeep, Walter Key, Bernard Maxey, Loren W. Nelson, Ray D. Rawson, Carl S. Smith, Arlie V. Stewart, Paul C. Treadwell.

Company C Captain Dale D. Skinner, to command.

Captain Forest W. Brown, second in command.

First Lieutenants—Francis V. Moynahan, John E. Kieven, Jack P. Wimple.

Second Lieutenants—E. Oscar Weinstein, John Allison, Arthur G. Gouson, Harry K. Dwyer, Victor T. Hackler, Paul H. Herron, Charles R. Hrdlicka, Tynan A. Parriott, Robert E. Powell, Stanley G. Reiff, Paul D. Stauffer, Clinton S. Woodward.

Company D Captain W. Harold Shultz, to command.

Captain Ralph R. Hudson, second in command.

First Lieutenants—Victor F. Foss, Arthur M. Ekstrom, Arthur Huddleston.

Second Lieutenants—Wendell F. Krause, Benjamin A. Laughlin, Verle McBride, Gilbert H. Noh, Parke O'Brien, Harold P. Stebbins, Robert R. Tynan, Glenn Williams, George W. Wright.

(Continued on Page Three.)

Invited to Attend Opening of Building

Dean O. J. Ferguson of the College of Engineering has been invited by the University of Oklahoma to be present at the formal opening of the new engineering building, March 21. The new structure is attractive in appearance and extremely practical from an engineering point of view.

WILL COVER TOURNAMENT

Journalism Students Again Assigned Task of Reporting Basketball Games.

MACHINERY FOR BUREAU SET UP BY DIRECTOR

The students of the School of Journalism are again going to cover the annual basketball tournament for their home-town papers. On the 1924 tournament they sent more than 60,000 words to about a hundred newspapers.

The machinery of a correspondence bureau was set up Tuesday by Prof. M. M. Fogg in the School of Journalism library and reading room (U. H. 111) and to the students a bulletin of twenty-seven instructions was issued concerning getting the news, the form of copy and time of submitting it, the structure of stories, and accuracy.

A half-hundred papers were signed up for by students in News Writing 82 Tuesday morning; and the students in Newspaper Editing 182 and Country Journalism 188 have been given the assignment by Prof. J. E. Lawrence.

On the bulletin board in the office of the correspondence bureau the students are directed to sign three lists: the list of contests for the day, the alphabetical list of towns and papers, and the roster of the students of the School.

Passes for Journalism students who are covering the games will be issued on authority of the School of Journalism.

DR. CONDRA WILL RESUME LECTURES

Next Illustrated Talk on Nebraska Topography to Be Delivered Tonight.

The weekly illustrated lectures on Nebraska topography will be resumed by Dr. G. E. Condra of the conservation and survey division in Representative Hall of the Capitol this evening.

Detailed industrial films will first be shown, describing the process of beet sugar production in the western part of the state. The second part of the lecture will set forth the landscape in the southwestern part of Nebraska, and along the picturesque Republican River valley.

The public is invited to occupy the balcony seats of Representative Hall to hear the lecture.

Faculty Men's Gym Class Is Enlarging

Attendance in the faculty men's gymnasium class has picked up greatly in the last few days. For a while there were many men unable to come out because of vaccinations, but lately the class has been steadily growing.

It was started about two weeks ago, and since that time it has been held at noon every day in the Armory. Light gymnasium work and games are given under the direction of Dr. Clapp. About fifteen faculty men attend the workout daily.

Investigation Shows That Indiana Professors Can Speak Many Languages

That every professor in Indiana University can speak English was the amazing conclusion drawn by a querying reporter for the college paper.

Further inquiry disclosed that most of the language professors at Indiana University have a reading knowledge of Latin and Greek, and that many speak French, Spanish, and German. Some are familiar with Italian, Portuguese and Hebrew.

Several professors in the language departments insisted that they spoke English in spite of what their students might think. One professor in the German department said that he could speak English, and in addition he said, "I can speak French and Dutch, real Dutch. I mean the language spoke in the Netherlands, not what the students call 'Dutch.'"

CAGE CAPTAIN TO BE CHOSEN

Selection Will not be Made Until Board Meets

The captain of the 1926 Basketball squad will not be chosen until a meeting of the Athletic Board, it was announced at the Athletic office yesterday. The Board has not yet decided on the method which will be used in the future in the election of the captains of athletic teams.

The list of letters awarded for basketball this year will probably be announced this week. The amount of work which the annual High School Basketball Tournament brings to the Athletic office has made earlier announcement of letter men impossible.

WRESTLING MEET TO OPEN FRIDAY

Ames and Oklahoma A. and M. Will Have Decided Advantage in Annual Events.

When the annual Team and Individual Championship Wrestling meet opens in the Armory Friday, Ames and Oklahoma A. and M. will have a decided advantage. Neither team has been defeated this season and will come to the tilt with a crew of veterans. Oklahoma has the best team in the southwest, and Ames holds a similar position in this part of the country. The Iowa school is tied with Ohio State, Illinois, Iowa, Indiana, and Wisconsin in the Western Conference.

The jinx is still with Nebraska, and the Huskers are not considered contenders for a high place in the meet. Dale Skinner, Nebraska captain and most valuable man on the team, will probably be out with his injured rib. Mincer is in bed with a crippled leg; Brannigan is injured but it is uncertain whether he will be in shape at the last of the week; and Blore is in the hospital troubled with infection.

Only one old man, Highley, remains on the uncertain list of entries. New men will have to be used in all of the other classes.

Last year the meet was very close. Nebraska took it with a score of nineteen points against eighteen by Ames and Oklahoma A. and M.

Indications point to keen competition at the meet this year. The following contenders for each class were given out by Dr. Clapp.

In the 115-pound division Boyvey of Ames, Skinner of Kansas University and Campbell of Oklahoma are on top. In the 125-pound class Sturton of Kansas University and Kurtz of Ames are high men. In the 135-pound class Bringham of Oklahoma is the best contender from a field of dark horses. If Dale Skinner is able to compete he should take the 145-pound class with little difficulty.

Woodhall of Ames and White of Oklahoma are other possible contenders.

Prunty of Ames and Lookabaugh of Oklahoma will probably fight for the 158-pound class championship. Lookabaugh, an Indian, was on the United States Olympic team, and has done much wrestling. Pillard of Ames who won last year, and Highley of Nebraska are the best men in the 175-pound class. Roberts, second in the event last year, should have little trouble with holding his own with the heavies. He is from Oklahoma.

Install New Engine In Tool Laboratory

A LeBlond heavy-duty engine lathe, one of the most improved types on the market, has been installed in the machine tool laboratory at the Mechanical Building. It was purchased to replace a smaller machine that has been in use during the past thirty years.

VESTALS INITIATE THREE

Ceremonies Held Saturday by Women's Organization

Ione Gardner, '26, Omaha; Ruth Moore, '26, Clarinda, Iowa; and Marjorie Stocks, '27, Muskogee, Oklahoma, were initiated into Vestals of the Lamp, the women's Arts and Science organization, Saturday at 2 o'clock, in Ellen Smith Hall. Corrine Anderson, '26, Omaha, the newly elected president of the Vestals was in charge of the initiation ceremony.

The purpose of the organization is to bring into one group the girls interested in the ideals of the Arts and Science College; to stimulate student interest in this college and its traditions, and to promote college activities.

ALUMNI SWELL COPPOCK FUND

Grace Coppock Memorial Fund Reaches \$1430 with Recent Contributions.

TO NAME FOLLOW-UP COMMITTEE THURSDAY

Alumni contributions to the Grace Coppock Memorial Fund have swelled the fund to \$1430. The follow-up committee will be announced in Thursday's Daily Nebraskan, by Arvilla Johnson, chairman of the Grace Coppock Memorial Fund Campaign.

In Miss Vera Barger's last report, recently received by Miss Irma Appleby from the National Headquarters at New York, Miss Barger gave a report of her work during the months from January to December, 1924.

The money raised in the Grace Coppock Drive goes to the support of the work of Miss Barger, consequently her work is of singular interest to the girls on the Nebraska campus. The two most outstanding features of her work for the past year have been her experiment with the playground and the merging of the physical education school with the Gingham College.

"I have had a very unusual opportunity to watch the development of physical education in China through my very interesting visits to the graduates of our school. In all the places the doors of the government and mission schools have been opened and both have been eager for both help and guidance," wrote Miss Barger in her report.

In speaking of teaching girls to play, Miss Barger writes, "There is no better method for moral training than that which we can get through play. In this way the Y. W. C. A. has a unique opportunity in developing education in China."

COMMITTEES ARE NAMED

Sophomore President, John Boyer, Announces List for Second Semester.

CLASS OFFICERS TO BE SELECTED TODAY

Sophomore president, John Boyer, announced the committees for this semester yesterday afternoon. The other class officers will be elected at a meeting of the sophomore class this morning at 11 o'clock in Social Science 302.

The committees are as follows: General: Paul Stauffer, chairman; August Holmquist, Phil Sidles, Robert Serr.

Entertainment: Ruth Sunderland, chairman; Norman Gray, Allan Wilson.

Publicity: Simpson Morton, chairman; Edwin Hughes, Elice Holovtchiner, Julius Frandsen, Mildred Schwab.

Social: Caroline Everett, chairman; Paul Walter, Stedman French, Marjorie Woodard, Virginia Vorhees, Glen Waltemath.

Men's Athletics: Roy Anderson, chairman; Avar Mandary, Clark Smaha, Harold Gillan.

Women's Athletics: Kathro Kidwell, chairman; Ruth Wright, Leone McFerrin, Marie Hermanek.

Finance: Clarence Wright, chairman; Leslie Brinkworth, Gordon Luikart, Frank Sheldon.

Debate: Donald Becker, chairman; Guy Cooper, Robert Hoagland, William Jones.

Alumni Week: Stanley Reiff, chairman; Fred Chase, Herko Koster, Paul Bass.

Ivy Day: John Shroyer, chairman; Allan Tiltotson, Olivia Van Anda, Francis Hanlon.

VESTALS INITIATE THREE

Ceremonies Held Saturday by Women's Organization

Ione Gardner, '26, Omaha; Ruth Moore, '26, Clarinda, Iowa; and Marjorie Stocks, '27, Muskogee, Oklahoma, were initiated into Vestals of the Lamp, the women's Arts and Science organization, Saturday at 2 o'clock, in Ellen Smith Hall. Corrine Anderson, '26, Omaha, the newly elected president of the Vestals was in charge of the initiation ceremony.

The purpose of the organization is to bring into one group the girls interested in the ideals of the Arts and Science College; to stimulate student interest in this college and its traditions, and to promote college activities.

Differences In Grades At Ohio State Are Recently Investigated

A recent investigation conducted at Ohio State University by two graduate students in the department of psychology, under the direction of a faculty member, shows that greater interest in their work, better study habits, and better health have been found to be the chief reasons for the differences in grades received by "A" students and "E" students.

The only method of investigation that has been used to any extent in this investigation of students' study habits is that of personal interviews with the "A" students and the "E" students.

The "A" students have been found to be in consciously better health. This was not interpreted by the department of psychology to mean that the "E" students are to be excused from work because of ill health, but that students generally should maintain the highest possible level of health because their physical condition has such a decided effect on the effectiveness of their study hours.

It was also discovered that the "A" class had several better study habits than the other groups. It was said that many of these better study habits could be learned by the others without much effort. Some of these better study habits are: A review of the work every two weeks or so; efficient interpretation of the chapter headings in the text books; better ways of gathering data for reports; and neater and more organized methods of taking notes.

Further inquiry into the customary study habits of students is contemplated by the department, in the interests of better studying by the student body. A brief handbook may be published next year giving the students the benefit of this research work.

RIFLERS WIN AND LOSE IN MATCHES

Reports on Last Week's Shooting Show Two Victories and Two Defeats.

Reports received yesterday from the intercollegiate rifle match firing of last week brought tidings of two victories, over Clemson Agricultural college and Indiana University, and two defeats, at the hands of Iowa State College and the University of Cincinnati.

The Nebraska team score was 3594, which was bested nine points by the Iowa State mark of 3603, and thirty-nine points by the Cincinnati University score of 3633. Nebraska's advantage over Clemson Agricultural college was 449 points, and the Husker score was eighteen points better than the Indiana team score of 3576.

Another new season record, this time in the standing position, was established yesterday by W. T. Lamml, who shot an official standing target score of 92. Two other riflemen, R. M. Currier and D. P. Roberts equalled the old official record of 91.

A marked recovery from the slump of last week, when the Husker marksmen dropped below 3600, seems to be indicated by the targets fired Monday and Tuesday. Besides the three high records in the standing positions there are several combinations of high scores in various positions. Lamml added a 98 in the prone position to his standing mark of 92. About the best group of targets so far is by W. D. Dover who has fired 97 prone, 91 sitting, and 90 standing.

This week and next are the last on the Nebraska rifle team's intercollegiate shooting, and the shooting in these two weeks will more than likely prove the deciding factor in the determination of the six letter men on the squad this year. As the shooting stands, some of the high marksmen are R. M. Currier, Harold Shaffer, W. T. Lamml, D. P. Roberts, W. D. Dover, R. F. Russell, P. E. Treadwell, B. F. Kossek, and E. L. Potts.

The matches this week are with the University of Kentucky, University of North Dakota, South Dakota, Western Maryland University, South Dakota State, and Virginia Military Academy.

BENGSTON GIVES GEOGRAPHY SPEECH

Speaks to Extension Department Workers at Regular Monthly Luncheon.

Prof. N. F. Bengston of the geography department spoke at the luncheon of the workers in the University Extension Division held Tuesday noon at the Grand Hotel.

The subject of Prof. Bengston's speech was, "Geography as a College Subject." "Dean Davis of Harvard was the first man in the United States to introduce the idea of geography as a college subject," said Professor Bengston in outlining the history of the introduction of geography in American colleges and universities.

He brought out the idea further that as yet American universities had not developed the subject to the degree foreign universities had. This point was illustrated by the examination of the credits of students coming from foreign universities. A Russian student coming to America had twelve credits in United States geography. He could not speak English but he knew enough about United States geography to teach it in any university.

Director A. A. Reed of the University Extension Division presided at the luncheon. The next luncheon will be held the first week in April.

Sophomore Meeting Called For Today

There will be a meeting of the Sophomore class at 11 o'clock this morning in Social Science 302. All persons who do not have classes are asked to attend.

WRESTLERS LEAVE FROM OKLAHOMA

Six Grapplers from Southern University Start for Lincoln This Noon.

(Special to The Daily Nebraskan) NORMAN, Okla., March 10.—Six Oklahoma wrestlers leave Norman Wednesday noon to compete in the Missouri Valley tournament. Captain E. E. Schwiem, coach, is in charge of the team. Sooner entries in the meet are Bond, 115-pounds; Landon, 125-pounds; McElyea, 135-pounds; Daubert, 145-pounds; Boote, 158-pounds; and Cooke, 175-pounds.

Oklahoma is pinning her hopes for victory on Landon, Daubert and Cooke. Captain Daubert has not lost a match this year, garnering three falls and one decision for the season. Cooke has won two falls but because of injuries has been out of the last two matches for the Sooners. He has been moved up from the 158-pound class to the 175-pound class for the Valley meet. Landon has also won two falls during the year.

The Sooners have won and lost two matches this year. They defeated Southwestern State Teachers College, 19 to 6, and the University of Missouri, 16 to 2, and lost to Indiana University, 18 to 5, and to Oklahoma A. and M., 18 to 5.

WOOD WINS PRIZE IN ESSAY CONTEST

Production Is Judged Better Than Those of Illinois University Professors.

His essay judged better than those of college professors and politicians, Raymond D. Wood, '24, University of Nebraska, was awarded a second prize of \$100 in an essay contest sponsored by the Chicago Council on Foreign Relations on "The Significance to America of the Geneva Protocol."

Every citizen in Illinois was eligible to enter the contest, but second honors were carried off by a very young man who had recently graduated from a university in another state. Mr. Wood was senior assistant in geography previous to his graduation from the University of Nebraska at mid-year in 1924. He has since been a graduate student at Northwestern University, Evanston, Illinois.

The Geneva Protocol, sponsored by the League of Nations, represents a movement toward international agreement upon disarmament. The United States' non-participation in the League has perhaps given the movement less publicity in this country than it would otherwise have received. The depth of the subject may perhaps be indicated by the fact that the winner of first prize in the contest was Quincy Wright, professor of international law at the University of Chicago, while honorable mention, corresponding to third prize, was awarded to Professor James W. Garner of the University of Illinois.

If the present plans work out the University of Oregon will have the honor of participating in the second radio debate in history, so far as is known, where two broadcasting stations are used and the teams are hundreds of miles apart.

NOMINATIONS ARE COMPLETE

Will Elect Members of Women's Self-Government Association Board Soon.

MORE WOMEN IN EACH CLASS NAMED TUESDAY

Two women from each class, sophomore, junior and senior, were nominated for membership on the Women's Self-Government Association Board Tuesday at a mass meeting of all women in the University at Ellen Smith Hall. These nominations complete the list of nominees, which are as follows:

President—Ruth Wells, Muriel Flynn.

Senior members—Dorothy Olmstead, Frances McChesney, Ida Fladner, Marguerite Forsell, Eleanor Pickard, Winifred Steele.

Junior members—Mabel Utter, Margaret Dunlap, Doris Pinkerton, Dorothea Dawson, Katherine McWhinnie, Irma Guhl, Wilhemina Schelleck.

Sophomore members—Ruth Barker, Orel Rose Jack, Alice Leslie, Marie Curran, Mary Kinney, Henrietta Dierks, Helen Anderson.

Elections will be held Tuesday and Wednesday of next week in the Social Science building, from 9 to 5 o'clock. Each girl is to vote for four nominees out of each class.

Because of a three hundred dollar appropriation from the board of regents there has been no drive for funds and membership in the W. S. G. A. does not depend on payment of dues. Every girl in the University is a member of the W. S. G. A. and is entitled to vote. A representative vote is hoped for by the outgoing board so that every phase of the campus problems may be adequately looked after.

PLAYERS APPEAR THIS WEEK-END

"The Masqueraders" Will Be Presented Thursday, Friday and Saturday.

"The Masqueraders" which was adapted from Katherine Cecil Thurston's novel by John Hunter Booth will be presented on Thursday, Friday and Saturday evenings and at a matinee Saturday by the University players. Tickets are now on sale at Ross P. Curtrice's music store, prices being seventy-five cents for the evening performances and fifty cents for the matinee.

The play is one of the most successful of recent years. It ran a year in New York and toured six years with Guy Bates Post in the title role. It has been played on two continents, receiving favorable comment from many critics of fame.

Hart Jenks will take the leading and dual role of the production. Other members of the Players who will appear in important roles are Harold Sumption, Dwight Merriam, Edna Leming, Darrel Starnes and Mary Yarbrough.

ENGINEERS WILL HEAR H. I. DODSON

Acting Chief Engineer of Telephone Company to Speak at Convocation.

H. I. Dodson, acting chief engineer of the Northwestern Bell Telephone Company, will speak at the regular College of Engineering convocation at 10 o'clock Friday in Mechanical Engineering 206. "The Engineer's Responsibility in the Telephone Business" will be Mr. Dodson's subject.

Mr. Dodson graduated from the University of Ohio in 1907. He has gained wide experience in the employ of several telephone companies in various parts of the country, and is well fit to discuss with engineering students the outlook in the field of telephony.

Xi Delta Plans to Entertain Friday

Xi Delta, honorary organization of sophomore women, has invited all sophomore women to a tea at Ellen Smith Hall from 4 to 6 o'clock Friday afternoon. The committees for program and reception have not been selected as yet but will be announced later.

SOUTHWESTERN COLLEGE—The board of trustees has passed resolutions backing the faculty in their teaching of the evolutionary theory.
