

TEAM IS GOOD ON OFFENSIVE

Grid Men Show Great Ability In Advancing Ball in Practice Tuesday.

MANY HEAVY YEARLINGS ARE AMONG CANDIDATES

The best defensive line Coach Bearg could put into the field was unable to stop the onslaughts of the charging backs in the spring football practice yesterday. Bearg put his best linemen on the defensive team to furnish opposition for the offensive backs, who tore through time and again for long gains.

The success of the backfield may be taken as an indication of the transformation inside Nebraska training field. Followers of the Scarlet and Cream will have pleasant surprises in store for them next fall when the scarlet-clad players take the field inside the stadium walls.

Five men were used in the backfield yesterday. Brown was at half part of the time and later shifted to quarter. Stephens was at quarter, Presnell at full, Armour at half, and Shostak at quarter. Stephens and Brown handled the quarter job most of the time, Shostak taking the reins later in the practice. Bearg shifted the backs around during the practice to get the best working combination. Peaker played at end instead of in the back field.

The defensive line in which Bearg used the linemen who have showed up best so far, had a letter man, Hutchinson, at center most of the time, and for a while Grow, also a veteran. Guards were Fisher, Randels, Raisch, Whitmore, and Zuver; tackles were Randels, Bass, Grow, and Clarke casey; ends were McIntyre, Shnaer, and Dover and Peaker.

On the offensive line were Gross at center, Joe Weir and Beller, guards; Dunker, Randels, Fisher, tackles; Peaker, Dover, Shaner, Gillan, ends.

The defensive line was composed mostly of first year men, as was also the backfield on the offensive. Big men rule on the freshman squad this year, and Husker football teams will be big in size in the future. The big problem now with the line is to get the men to charge, on the defensive especially. The men have the weight and the ability, and what is needed most now is the trick of charging just when the ball is snapped. That is one of the big things Bearg is aiming for in the spring practice season.

Tea Friday For All Big Sisters

The Big Sister Advisory Board will give a tea for all Big Sisters, Friday afternoon from 4:00 to 6:00 at Ellen Smith Hall. The tea is an annual custom of the Board.

The football field at the University of Iowa has been flooded so that it may be used as a skating rink.

TRUE LOVE

Farmer: Gift out of the water, young fellow.
 Bather: I can't. Somebody stole my clothing.
 Farmer: Wa'ul, seein' its you, I'll sell ye a barrel.
 Bather: No thanks, I buy from nobody but Finchley.

Getting Over

You can "get over" big with "her" or the boys. Rent a Saunders Car—anytime! Drive it yourself as long as you like. Costs from 1/4 to 1/2 as much as taxi. Go anywhere. Coupes, Sedans or Touring Cars.

PREPARE FOR INDOOR MEET

Coach Schulte Submits List of Twenty-four Entries to Officials.

SIXTEEN MEN WILL BE TAKEN ON TRIP

Two additional entries for the Missouri Valley conference indoor track meet at Kansas City, Missouri, Friday and Saturday were made yesterday by Coach Henry P. Schulte. The new men are Mills in the high jump, and Johnson in the quarter-mile and relays. The entry list submitted by Coach Schulte now includes twenty-four men, of whom sixteen will go.

The Husker lineup at Kansas City will probably be short six regulars who would boost materially Nebraska chances of victory in the meet. Injuries and sickness are keeping out Captain Crites, quarter-miler, Beckord, half-miler; Cohen, distance runner; Hein, 440 and dashes; Gleason, pole vault; and Avard Mandery, broad-jump.

Captain Crites pulled a muscle two weeks ago. Bill Hein had an operation for tonsillitis recently. Beckord was ill in bed early in the week, but was out yesterday, and may possibly be able to enter Saturday.

The biggest loss will probably be Captain Crites who was to be anchor man on the relay team. Last year it was Crites who pulled the Nebraska relay team in to victory in the Missouri Valley meet at Lincoln.

No records were broken in the workout yesterday, but practice time was pretty close to the record in several events. Ed Weir stepped off the hurdles within one-tenth of a second of his varsity record. Locke ran a few heats against time in the dashes.

The Nebraska entry list from which Schulte will choose the sixteen men who will go to Kansas City:

- 50-yard dash — Locke, Dailey, Rhodes, Weir.
- 50-yard low hurdles — Weir, Rhodes, Locke, Dailey.
- 50-yard high hurdles — Weir, Reese, Beerkle, Dailey.
- 440-yard dash — Crites, Dailey, Scherrick, Reese, Johnson.
- 880-yard run — Lewis, Houderscheidt, Beckord, Tappan.
- Mile run — Lewis, Ross, Hays.
- Two-mile run — Zimmerman, Lawson, Ross, Lewis.
- Relay — Crites, Dailey, Scherrick, Lewis, Reese, Johnson, Beckord, Houderscheidt.
- Pole vault — Wirsig, Gleason, Davis, Rhodes.
- High jump — Popelar, Rhodes, Mills.
- 16-pound shot put — Krimmelmeyer, Lewis.

DELTA UPSILON WILL MEET MEDIC CHAMPS

Interfraternity Championship Game at O. A. C. Friday Evening.

Delta Upsilon, champions of the social interfraternity tournament at the University, will meet Phi Rho Sigma, medical frat champs, Friday evening at the Omaha Athletic club to decide the interfraternity championship of Nebraska.

The D. U. team, twice champions of the Greeks, will leave Friday afternoon for Omaha, where it will be entertained at the Phi Rho Sigma house. A house party will be given in its honor Saturday.

The game is expected to be fairly fast. The Lincoln team won the championship here with little difficulty. Phi Rho Sigma had a harder time winning from Phi Beta Pi in the Omaha competition.

Probably the same lineup will start for Delta Upsilon as played here. Smaha and Campbell will start at forwards, Wostoupp at center, and probably Reese and Barret, guards.

For the first time in her football history Harvard was outscored last season. The Crimson team scored a total of 61 points to its opponents' 78.

The Stanford university polo team will play a series of three games soon with the University of Arizona quintet.

A course teaching the fundamentals of skiing has been established at the University of Utah.

The College Press

EDUCATING THE PROF.

Not long ago a group of students from Mt. Holyoke, Dartmouth and Massachusetts Agricultural Colleges met and discussed "educating the professor." Their conclusion was that the professor must be educated to realize that the student needs to learn how to think, to feel, and live rather than to merely acquire information.

They point to injustices done through the system of grading, saying that sometimes personal prejudices and spite enter with disastrous results to the students. This is a defect of the course system that obtains in the American college. The English tutorial system is considered a vast improvement. The criticism of the American system as viewed by students on this campus, is that it stresses too much the cramming of facts down the student's neck rather than thinking with him, teaching him to think for himself, and exemplifying the broader aspects of life; that it stresses phonographic reproduction of facts distorted into unbelievable forms by the ingenious use of a dictionary and a thesaurus. These helps give showy clothes to facts but nevertheless they are dry and inanimate if not compounded with other essentials which so few instructors have.

Commenting on some of the limitations of the English instructor, H. G. Wells, writing on "Teachers as Statesmen," has said in part, "a lot of schoolmasters seem to be unconscious of the range of their functions. They do not realize that the world is a going concern." some of our instructors think of the world as

a finished thing in which they have a very subordinate and unimportant part. This is a wrong attitude and hinders both instructor and student. This criticism can be applied to this campus, even if not too sweeping. Many of our instructors are sincere in trying to lead their students to think of their college years, not as a time in which to cram facts, but as a time in which to learn to live. But along with them are a generous number whose idea of a university is seemingly that of a canning factory.—The University Daily Kansan.

Wahl Pen and Eversharp are obtainable in matched sets

An unqualified guarantee stands back of every Wahl product

Complete Writing Equipment

Side by side in your pocket, Eversharp and Wahl Pen are ever ready to serve your thoughts.

Durability and dependability are common qualities of these economical, practical writing companions. The non-clogging rifled tip, quick reloading, and complete interchangeability of parts are among the six new features which make the perfected Eversharp.

And the Wahl all-metal Pen is at par with Eversharp in giving thorough satisfaction. Light in weight, perfect in balance, resistant to wear, and beautiful in design—it is the ideal pen. Eversharp, \$1 to \$45. Wahl Pen, \$5 to \$55.

—and even electrical engineers are needed in the electrical industry

Nowadays the electrical industry needs so many types of men that it may be well to point out it still needs engineers, good engineers—but with a difference.

Vision, initiative, technical skill are needed qualities, now as always. But here's another. Can you work on the team? Will you be able to back up the other members in the manufacturing and commercial ends of the business?

The engineer today should be no recluse in a laboratory. He can make his work more effective once he sees how it relates to the work of men around him.

In your studies and college activities, you have the chance now to develop this point of view. In the broader activities of the electrical industry, you may have the chance later on to carry it further.

Service and Satisfaction

THE Daily Nebraskan is always striving to give service and satisfaction, to both the reader and the advertiser. The Murray Mat Service has been purchased by this publication in order to fulfill a long felt need of the advertisers that is to furnish them with mats and cuts which will typify that which the college student expects to see in a college publication. This service will also benefit the readers, in that it will illustrate in a much better way the merchandise which the reader is desirous of buying.

For the advertisers we have also created a copywriting department which will write copy to fit the needs of the advertisers and will also suggest type, borders and layouts. This is a service which very few college publications furnish.
