

TRACKMEN GET OUT-OF-DOORS

Slow Times Made in Most Events Because of Field Wet from Rain.

FINAL VARSITY TRIALS WILL COME SATURDAY

The east stand of the stadium, a beehive of track activity all winter and early spring, was deserted yesterday as Coach Henry F. Schulte's track and field men took to the open air on the outdoor track around the football field, in the first outdoor varsity track tryouts of the year. The track was heavy from the downpour of rain Monday, and slow time was made in most of the events, except the mile run. At the conclusion of the tryouts, Schulte announced that the final tryouts would be held again Saturday afternoon.

The best race of the afternoon was in the mile run in which Cohen, Ross, Hays, O. Johnson, and McCarthy ran. Cohen reached the tape first in a time of 4:34.5, one and a half seconds ahead of Ross, whose time was 4:36. Hays finished in 4:42; Johnson 4:47; and McCartney 4:48.

Hein Wins Quarter.

Bill Hein, running in his first varsity tryout race since recovering from an operation in winter, was first in the 440-yard dash, which he ran in 53.2 seconds. Beckord was second in the same heat, R. Johnson third, and Reese, fourth. In the other heat of this distance, Varney was first, finishing in 54.5 seconds. Ballah and McKenty were second and third. In a third heat, Houdersheldt tied the time made in the second heat. Fetterman and Lawson were second and third with times of 55 seconds and 56 seconds, respectively.

Jimmy Lewis, still sore from the indoor meet last Saturday when he won first in the half mile run, made the best time in that event yesterday, running against two quarter milers in turn. His time was 2:03.1. In the regular heat of this event, Houdersheldt was first. He ran around the track twice for the half mile in 2:03.5. Tappan finished second in the same race in time of 2:04.5, and Randall was third in 2:07.3.

Zimmerman Wins.

A good race developed in the mile and a half run in which Zimmerman and Lawson finished one second apart. Zimmerman was first, covering the distance six times around the track, in 7:23. Lawson's time was 7:24.

Locke raced away with the field in the 100-yard dash, but his time was slow on account of the heavy track. The time was 10.1 seconds. Bill Hein was second, time 10.5. Avar Mandery ran a heat in 10.2. Davenport and Varney were third and fourth. Locke led also in a 300-yard dash practice heat in which he ran against Ed Weir and Choppy Rhodes.

In the 220-yard low hurdles, Ed Weir was half a second ahead of Rhodes. The time was 26 seconds flat. Beerkle and Reese were third and fourth in the race. Weir was also first in the 120-yard high hurdles, covering the obstacle stretch in 16.3 seconds. Reese was second, time 16.7. Beerkle finished third.

Not much was done in the field events on account of the condition of the ground. Avar Mandery was high in the broad jump with a jump

of twenty feet, nine inches. Aiken jumped nineteen feet, five and a half inches. Wirsig jumped nineteen feet, eleven inches.

Pole-vault tryouts were abandoned after a few attempts. No records were kept for the shot-put and the discus and javelin. The tryouts for these will be held Saturday.

The College Press

(Continued from Page Two.)

editorial policy of the college paper were dictated by the personal whims of each succeeding editor, where would the college be? With the glee clubs and winning football teams drawing students to the college, this one editor by his personal opinions might be undoing all their good work. Suppose for instance, that an editorial appearing in the college paper praising Senator Walsh should fall into the hands of a trustee whose wealth was invested in Standard Oil holdings. . . anyone can see the absurdity of it all.

Rather let the comparison be made between the college paper and the "house organ" of some large business concern. Why can't we consider the University a thriving business concern whose "line" is education. The college paper, like any other student activity, exists for the purpose of selling this education to the public. This same business man's attitude is being recognized more and more by college students. Again and again "The New Student" receives letters from students protesting that this or that item will give their college "unfavorable publicity." It is encouraging to reflect that these students are realizing more and more that each bit of news emanating from the college must be judged from the advertising man's point of view, that each editorial must contribute in some way to building up the college's

reputation as a reliable place to do business.

Now where stands your editor who insists upon bringing independent intellectual standards into the making of "The Tobacco Journal" house organ of the Chu Rite Tobacco Co., refusing to "support the company?" Picture him publishing an article in his paper that was contributed by the Anti-Tobacco League! Preposterous! He would be fired in a hurry. His paper exists for the purpose of breaking down sales resistance and inspiring languid salesmen. Let the college editor go and do likewise. Let him spend his time puzzling out ways of selling his college. Let his editorials be inspirational, exhorting application to study, denouncing immoral students, people who do not cheer at basketball games, radicals and Freshmen Who Walk On The Grass. That is the proper path for him to follow.—The New Student.

Some 1,478 bachelors and other first degrees were granted by the University of Wisconsin at its 1924 Commencement.

Exchanges

At McGill the unusual institution of the Mock Parliament, originally adopted by the Debating Society as a burlesque, has developed into one of the most important undergraduate debating clubs in the British Empire. It carries on its proceedings with established parliamentary forms and can count on an attendance of two or three hundred. The Debating Society has almost given up the old-fashioned set form of debate in favor of the parliamentary type.

The students in the department of political science of the University of Chicago are learning from experience the practical methods of voting in Chicago. In the last election 275 students were assigned as officials at the polls in various precincts of the city. The purpose of this was not only to observe the methods used in voting but to watch for any evidence of illegal practices.

At the University of New Mexico a man to be eligible in any branch of athletic sports has only to enroll in school. The school is small and athletes are scarce so the rules are not so strict.

Le Baron Russell Briggs, former president of Ratcliffe College, is resigning the position of Dean of Arts and Science in Harvard University, which place he has held since 1902.

About 80 women have enrolled in the Wisconsin Law School since 1885 but only about one-third of them have completed the course.

Summer session enrollment has grown from 200 students to 5,000 students at the University of Wisconsin in the past 26 years.

Paris—La Folies here we are

We landed at Cherbourg, where they had a funny toy Express train to take us to Paris—no cow-catchers on the engine. Kitty's aunt met her on the tender and she said we must come and have tea some time at their home on the Rue de la Chat, in the Catier Latin. To Paris \$3.00

Jack and I found a wonderful little cat pension hotel near Kitty's over on the left bank where they have the best milk and fish and mouse grille. Better'n' we ever had back in Murphy's Alley. And all for only \$1.50

Today we got 18.60 francs for each of our \$s, and tonight we're going to the original Folies, ole cat, and we're going in the promenoire for only—\$0.25

Jack just went out for a walk, and I saw him headed down the Rue de la Chat. I suspect that cat of felinuous motives.

Yours,
FELIX.

WHAT WOULD HAPPEN IF YOU DID NOT KEEP THE CAP ON YOUR GASOLINE TANK?

Foolish Question Number 23? That's easy, you say? Gas evaporates—dust gets into gas—Sediment accumulates as fast as evaporation takes place—soon a muddy mess that gets into the carburetor and then—how that engine sputters and stops,—works with spasmodic jerks that irritate you to great verbal outbursts! Consider your fountain pen!

Do you use it that way? Are you particular about the ink? Do you take care to see that your pen is used right? Step into Latsch Brothers store at 1118 O Street and let them give you interesting information about the care of your pen. No obligations on your part. Bring in your pen and let them diagnose its ailments.—Latsch Brothers, 1118 O Street.—Adv.

Are You The Man?

An old established concern wishes to employ three college men to solicit business in Lincoln, beginning June 8th. Men who are graduating this spring preferred. You will receive personal training and pay twice a month. No traveling. Splendid opportunity for advancement. Successful men draw big money. Reply will be strictly confidential. Box No. 123 Daily Nebraskan. Give phone number.

Service and Satisfaction

THE Daily Nebraskan is always striving to give service and satisfaction, to both the reader and the advertiser. The Murray Mat Service has been purchased by this publication in order to fulfill a long felt need of the advertisers that is to furnish them with mats and cuts which will typify that which the college student expects to see in a college publication. This service will also benefit the readers, in that it will illustrate in a much better way the merchandise which the reader is desirous of buying.

For the advertisers we have also created a copywriting department which will write copy to fit the needs of the advertisers and will also suggest type, borders and layouts. This is a service which very few college publications furnish.
