

KLINE TO LEAVE AT END OF YEAR

Bearg to Take Over Duties of Present Basketball Coach Next Year.

HAS HAD SUCCESSFUL TEAMS AT NEBRASKA

Announcement was made yesterday that Coach W. G. Kline's contract with the University, which expires June 1, would not be renewed, due to the fact that Coach E. E. Bearg will act as head coach of basketball as well as football next year. Coach Bearg was a basketball coach at Illinois and it was understood when he was selected that he would act as head mentor for the cagers here.

The Athletic Board expects to secure a coach who will take charge of freshman basketball, coach varsity baseball and assist in tutoring the grid team. It is the plan of the athletic department to use only one head coach over the three sports.

Coach Kline came to the University in November, 1923, although he spent the S. A. T. C. year, 1918, in coaching football and basketball here. His basketball team this year won second place in the Valley and was a threatening contender for first place all through the season. His system of five-man defense has been widely used and he is known through the country as an authority on the cage sport. He is at present collaborating with E. C. Quigley in the writing of a book on the sport.

He coached at Nebraska Wesleyan from 1911 to 1917 and is credited with putting that institution on the athletic map. After his year here in 1918, he went to the University of Florida where he was football and basketball coach for three years.

SEASON OPENS FOR BALL MEN

Play Missouri, St. Louis and Washington in First Conference Games.

The Varsity baseball squad will leave tomorrow for Columbia where it will play their opening conference games with Missouri Tuesday and Wednesday. The trip will also include one game with St. Louis University and two with Washington. The game with St. Louis will be the last game out of the conference to be played this season.

The names of the men to be taken on the trip have not yet been announced. However, on account of the length of the trip, Coach Kline will probably carry along four pitchers, two catchers, a utility infielder, and an extra outfielder.

The squad completed its pre-season training yesterday afternoon by defeating the freshmen in a practice game by a 5 to 1 score. The yearling squad showed up well in its initial struggle with the varsity.

"Choppy" Rhodes had the freshmen vainly striking the air most of the time, allowing them but one hit in seven innings. "Choppy" had been having a little trouble during the first part of the week in locating the plate, but yesterday's work-out found him cutting the corners consistently.

WILL STUDY WOMAN'S FAIR FOR W. S. G. A.

Marial Flynn Leaves for Chicago as Representative of Organization.

Marial Flynn, '26, Ulysses, left Friday afternoon for Chicago as a representative of the University of Nebraska Women's Self-Government Association to the Woman's World Fair which is to be held April 18-25.

The fair is an exposition showing the attainments of women in the field of business and the fine and practical arts. Women in all branches of activity, from Nellie Tayloe Ross, governor of Wyoming, to Jane Magan, plumber, will be represented at the various stands. There will be manufacturers and women politicians, women writers and women inspectors, women doctors and chorus girls. The purpose of the fair is to show the great strides made by women toward economic independence and to assist girls in choosing a vocation.

A similar exposition is to be conducted, on a much smaller scale, in Lincoln next year, according to plans made by the Altross Club, Lincoln professional women's organization, and the University W. S. G. A. Miss Flynn has been chosen to study the organization of the fair, to confer with the secretary, Miss Helen Bennett, those in charge of the booths, for suggestions and methods for conducting such an exposition.

Miss Flynn is a member of the W. C. A. cabinet, the W. S. G. A. board, Silver Sorority and Alpha Chi Omega.

Bishop Shayler To Address Students

Bishop Shayler of Omaha will conduct the services at the University Episcopal church, Sunday, April 19. Father McMillin, pastor of the church, has left Lincoln to attend the National Convention of Religious Educators held in Nashville, Tenn. Father McMillin is the chairman of the Department of Religious Education in this diocese.

Bishop Beecher of the diocese of western Nebraska will hold the 11 o'clock service in the church April 26. Everyone is invited to attend these services.

DR. ROWE LECTURES TO GEOLOGY CLASS

Tells of Possibilities of Oil Development in State of Montana.

Professor J. P. Rowe, chairman of the department of geology, University of Montana, and speaker at the University convocation Thursday, lectured before Professor E. H. Barbour's geology class at 11 o'clock, Friday.

The general structural and stratigraphic geology of Montana was sketched in detail by Professor Rowe. He described some of the large anticlines which occur in the eastern and central parts of the state and pointed out their possibilities as oil reserves. The major portion of southwestern Montana is not stratigraphically favorable to the formation and accumulation of oil, however, according to Professor Rowe.

Views of the geysers in Yellowstone park, showing the geysers in action, were illustrated in the lecture. Further slides pictured the Yellowstone canyon and falls, Electric Peak and the Snowy Mountains. Motion pictures of the bird and animal life of Montana were shown at the close of the lecture. Herds of buffalo, elk, deer, antelope and mountain sheep were shown in their native habitat. Further pictures showed the bear, beaver and badger at work, and the retreats and habits of the pelican, duck, fish hawk or osprey, grouse, California gull and Rocky Mountain jay.

Dr. Rowe is making an extensive lecture trip covering several eastern and middlewestern educational institutions. He is a graduate of the University of Nebraska, having received three degrees here.

PUBLISHES SCHOOL RULES

Extension Division Sends Out Accrediting Regulations

The University Extension division recently published the regulations for membership in the North Central Association of Colleges and Secondary Schools, of which Prof. A. A. Reed, director of Extension, is state chairman. Among the new regulations, the most important is that high school teachers employed by member schools after September, 1925, must have at least twenty-five hours of professional training. This means that each new teacher must have fifteen hours of training in the methods of teaching.

Teachers employed at present will not be affected. Certificates of accrediting will be mailed to all member schools in the state before April 10. They are valid for one year. This has never been done before. The general report of schools now accredited, which is due every five years, will be submitted this year. A less complete report of all changes is submitted each year.

The list of Nebraska high schools accredited is included in the bulletin, among them the following admitted in 1925: Dix, Omaha Technical, Omaha North, Mt. St. Mary's Academy (Omaha) and Sacred Heart (Omaha).

REGRETS FAILURE OF BILL

Chancellor Discusses Mill-Levy in Alumni Article

Regret at the failure of the legislature to pass the University mill-levy bill, but confidence that such a measure will be passed in the future is expressed by Chancellor Samuel Avery in the April issue of The Nebraska Alumnus. The building program will go forward as if the bill had been passed, the chancellor states, and the campus revision plans adopted ten years ago will be revised and put on a more extensive basis. Thanks is extended by the chancellor to the alumni and other friends of the University who aided in the sponsoring of the bill. That the effort was not for nothing is shown by the fact that the appropriation for this year is more nearly adequate than if the campaign had not been waged, the chancellor states.

Iowa Will Build New Laboratories

IOWA CITY, Ia., April 18.—The new medical laboratories building at the University of Iowa, construction of which began Saturday, April 11, will be the first complete unit of the new college of medicine to be built from the fund of \$4,500,000 given jointly by the Iowa legislature and the Rockefeller Foundation of New York.
