

# FRAT BASEBALL GETS STARTED

Alpha Theta Chi and Phi Delta Theta Win in Openers of Tourney.

## TWELVE MORE GAMES SLATED THIS WEEK

Four Greek letter baseball teams got into action yesterday in the first round of the interfraternity baseball tournament, and two teams, Phi Delta Theta and Alpha Theta Chi, moved up to the second bracket.

The Alpha Theta Chi team trimmed the Delta Sigma's in a neatly played contest. Kerr, pitching for the Alpha Theta's, showed fine form and let down the Delta Sigs with one run, while his mates piled up a total of fifteen tallies. Kerr struck out fifteen men.

The Phi Delta Theta aggregation won a lop-sided contest from Alpha Delta by a score of 18 to 1. The Phi Deltas hit at will and knocked the ball all over the lot. Reavis, pitching for the winners, held his opponents to one counter in the seven innings.

Two more games are scheduled for today and the entire first round will be played off this week. Lambda Chi Alpha will meet the Zeta Beta Tau team today and Kappa Sigma will play Delta Sigma Kappa at 5:30 at Rock Island Park.

Among the Thursday games are Beta Theta Pi against Mu Sigma, Delta Upsilon against Alpha Gamma Rho, Acacia against Kappa Psi, Sigma Chi against Farm House, Sigma Nu against Phi Tau Epsilon, and Alpha Sigma Phi against Delta Tau Delta.

The teams are expected to be simmered down by the end of this week into a fast race. The Thursday game between Alpha Sigma Phi and the Deltas should be a fast one, as both are said to have good teams.

Among other contenders for the skin award are the winners of last year's tourney, Sigma Phi Epsilon, Delta Upsilon, Alpha Theta Chi, and Pi Kappa Alpha.

The D. U. team has played three practice games and won each one. They bested the Phi Deltas, the Phi Gams, and the Betas. The Alpha Thetas proved themselves to be dangerous contenders by their decisive win yesterday, and the Pi Kappa Alphas have a snappy, fast-playing team.

## MAY SIGN FOR VARSITY TENNIS

Must Meet Eligibility Requirements to Become Candidates.

Men may sign up all this week as candidates for the Varsity tennis team at the athletic office in the Armory. This is open only to men who can meet the Varsity eligibility requirements.

Drawings will be made at the end of this week and weather permitting, the elimination contest will start next Monday. The last eight men remaining in the elimination contest will make up the Varsity squad and they will from time to time hold trials to decide the three or four men who will represent Nebraska in the Missouri Valley meet and in the several dual meets that are now being arranged by the athletic office.

To be eligible for the squad the man must have been in the University for two full semesters; he must have made twenty-seven hours in his last two semesters, twelve of which was made in the preceding semester; and he must be carrying twelve hours this semester.

At the time he signs up, every man must present a statement from the registrar's office to the effect that he is eligible to compete in Missouri Valley athletics.

Men on this squad who win two dual meets, or take first or second in the Missouri Valley meet are eligible for a minor sports "N" sweater. The winning of a preliminary match in the Missouri Valley meet shall be counted as one dual meet.

Alpha Sigma Phi-Delta Tau Delta	100 000 0-0

Another thrilling chapter in Missouri Valley track history will be written at the Drake Relays Saturday if conditions are as ideal as those at Kansas last week. The Kansas meet ended as the greatest of all Kansas Relays, and unless the weather and the track are poor at Des Moines a similar report should be forthcoming.

Taylor, Kinsey, and Orebaugh, foremost among Valley hurdlers, will get another chance at Ed Weir, Nebraska's ace, next Saturday. The four ran a great race last week in a time of 15 flat for the high barriers. It clipped one-half of a second off the old record set by Crawford of Iowa the year before. The hurdles should be one of the most interesting events at Drake.

Grinnell flashed to a dark-horse victory last week in the mile relay. The red and black runners lowered the Kansas mark and won over a field of the Valley's best. A great race should be seen again this week. Nebraska held the lead last week for two laps until Watson of Kansas spurred to the front. Frank Daily of the Husker team took the lead, with

the dusky Kitchen of Grinnell close on his heels. The two ran a dead heat as they passed the stick to their anchor men. Then Taylor, crack hurdler and sprinter of Grinnell, took the lead and crossed the tape in front.

The quarter mile relay will be a hot race. Last week Kansas broke the world record for that race, with Illinois close behind. Nebraska is out for Illinois in that race. The Illinois speedsters may get a surprise when they run the 440-yard relay at Drake this week. Coach Schulte has put his men through rigorous practice in the technique of relay racing. The Huskers' main foe at Kansas proved to be in passing the stick. With this remedied it may be a different set of relay men who journey to Des Moines.

Two thousand athletes will crowd into Des Moines for the Drake classic.

## WORLD RECORD TIED BY WEIR

Gains High Score in 60-yard High Hurdles in Tuesday Tryouts.

## LOCKE NEARLY ATTAINS 300-YARD DASH RECORD

Yesterday's tryouts for the cinder artists were featured by the remarkable race that Weir made. The speedy Husker hurdler tied a world's record in the 60-yard high hurdles when he ran the distance in 7.8 seconds. He had a slight wind in his favor but the performance is remarkable because of the conditions under which it was done.

Just to prove that world's records were an every day thing with the Huskers, Locke followed Weir's performance with a near tie in the 300-yard dash with the highest record time. The "speed wagon" came within two-tenths of a second of the world's record in this event.

A Mandery was another surprise of the afternoon. In the 220-yard dash, he beat Scherrick by a short distance and was timed at 21.8. Beerle finished third and Reese fourth in this event. All four of the men were running in top form and the finish was close.

In a special three-quarters of a mile race, Houderscheidt turned in a time of 3:19.6, Hays finished in 3:20.5, McCartney was third with 3:23, and Lawson was timed at 3:31.4. Zimmerman, running the distance alone at a later time, made the distance in 3:27.

In the quarter, Crites was first with a time of 52.3 and Lewis crossed the line a tenth of a second later. In the half, Ross showed up well, taking first place with a time of 2:03.5. Tappan was second, Johnson finished a close third and Randall was fourth.

The only event run off for the tryouts for the freshman telegraphic meet was the 880. Hunter won the event with the time of 2:08.5. Johnson was second in the race and Fetterman finished third.

In the field events, only one event was scheduled. Krimmeyer heaved the shot 43 feet 8 inches and Molen put it 41 feet 8 inches for his best effort.

The tracksters will leave Thursday noon for Drake where they are expected to make the teams from all over the country sit up and take notice. It is especially certain that the 440-yard relay team will be out for a real race.

## Engineers Will See Movie at Convocation

"Power" is the title of a moving picture to be shown at a College of Engineering convocation at 10 o'clock Friday in Mechanical Engineering 206. The picture is composed of 3,000 feet of colored film, dealing with hydro-electric power. It is sent out by Stone and Webster, division and construction engineers at Boston, Mass.

## Which Point Will You Have?

1. Extra fine like this
2. Fine like this
3. Medium like this
4. Broad like this
5. Stub like this

You can get all five degrees in the Classic Duofold Pens

And All Points Guaranteed for 25-Years' Wear

FOR what kind of writing do you use a pen? How do you hold it? And what style of writing is entirely natural to your hand? Close figure work or fine memosanda, for example, call for a fine or an extra-fine point. But the medium point, the broad, or the stub—these give one's penmanship a personality and character that make mighty valuable impressions in a letter or a signature.

These are reasons why, in the classic Duofold Pens, Geo. S. Parker gives the world the whole five degrees of points that the five degrees of writing require.

Points you can lend without a tremor, for no style of writing can distort them. Points that are tipped with super-smooth Iridium, for which we pay a premium of 200%. Points that we guarantee, if not mistreated, for 25 years' WEAR.

And every point set in a shapely, hand-balanced barrel that feels so inspiring you hate to lay it down.

Any good pen counter will sell you this beauty on 30 days' approval. Flaming black or black-tipped lacquer-red, the color that's handsomer than gold and makes this a hard pen to mislay.

## Where food ferments

Cross-section of a tooth, showing Acid Decay at The Danger Line.

FOOD collects in those tiny V-shaped crevices formed by the joining of the teeth and gums—The Danger Line. This food ferments. Acids form. Acid Decay of the teeth results. The gums, too, become irritated and sore.

Squibb's Dental Cream, made with Squibb's Milk of Magnesia, safely neutralizes these acids. It protects the teeth from Acid Decay at The Danger Line and elsewhere. It keeps the teeth clean, attractive and sound. It soothes the gums. Use it—morning, noon and night. Keep a tube or two on hand. At drug-gists everywhere.
