

## SUBSCRIPTION DRIVE OPENS

Select Group of University Men To Sell Daily Nebraskan to Students.

### SALE STARTS MONDAY

New Features Have Been Added And More Cuts Will Be Used This Year.

Sorority women will not aid in The Daily Nebraskan subscription campaign this year as they have done heretofore. Instead a select group of University men will handle the entire campaign upon a purely commercial basis, according to an announcement made from the business office of the paper Saturday. The campaign will start Monday and end Friday.

The management of the paper is striving for a goal of 3000 subscribers this year, and it is thought, according to the business manager, that it will be reached easily by the close of the campaign.

More interest, if such a thing is possible, is being taken in the paper than ever before. Already more than 700 students have come to the office and subscribed for the paper without any solicitation. The first issue of the publication came out Friday and deliveries will probably start this week.

Subscription price for the paper this year is the same as last. It is \$2 for local deliveries or \$1.25 a semester. It will be mailed to any place in the world for \$3 a year, as has been the previous custom. Fraternity, sorority and dormitory subscription prices will remain the same—\$50 a year, delivered.

The paper is greatly improved this year. More cuts will be used than has been the custom in the past and several new sections have been added to the publication. A special girl's shopping section will appear every day, and a fashion column will be published frequently.

## WILL CONDUCT WORLD FORUM

Joint Committee From Y. W. C. A. And Y. M. C. A. To Have Charge of All Meetings.

The world Forum discussion group will be conducted this year on the same plan as formerly. A joint committee from the Y. M. C. A. and Y. W. C. A. including Laura Whaley, David Webster, and Douglas Orr will have charge of the meetings. Although the committee was not prepared to make a definite announcement as to the first meeting, it is probable that the series will open on Wednesday noon, September 30. Among the subjects for discussion there will probably be those of the entrance of the United States into the World Court (due to the fact that the matter comes before the senate on December 17) and a series on education—its needs, its benefits, and its possibilities. The committee stated that it would be glad to receive suggestions relative to topics for discussion.

Last year the World Forum discussion group met each Wednesday noon at the Grand Hotel for lunch after which came a short talk and discussion. Series were given on the subjects of war, the R. O. T. C., various religious philosophies, and included such speakers as Dr. S. Mills Hayes, Bruce Curry, "Shorty" Collins, Lieutenant-Colonel Frankfurter, Major Erickson, Prof. J. A. Rice, Jr. and others. The average number of men and women present was about one hundred.

Almost human is the automatic correlation computing machine recently invented by a University of Wisconsin professor.

## Temple Cafeteria Makes Changes To Accommodate Larger Enrollment

The Temple Cafeteria which is located on the first floor of the Temple building has made many changes this year which will prove advantageous to students. Meal tickets which were formerly sold for \$5.00 will be sold for \$4.50.

This cafeteria is not a concession but is run by the University under the management of Mrs. Louise Vinning. Mrs. Vinning has been working with the University for thirteen years and is very capable of managing the cafeteria. It has been through the efforts of Mrs. Vinning that the new equipment for the cafeteria has been obtained. A large coal range has been installed to take care of the enlarged enrollment.

## Professor Alexander Returns From Abroad

After a six months' trip abroad where he visited France, Italy, and England, Prof. H. B. Alexander, chairman of the philosophy department of the University of Nebraska, has returned to resume his duties here. He left in February, 1925, for Paris where he gave a series of lectures on "The Art and Philosophy of the North American Indian." In May he left for Italy and made a tour of the general places of interest. While in England he made a brief visit to Oxford University which was cut short, however by the necessity of being in Lincoln by the first of September.

## TRACK PROSPECTS BRIGHT THIS YEAR

Coach Schulte Will Spend Entire Time on Cross Country Work This Season.

With five letter men returning and excellent material coming up from the freshman ranks of last year, Husker prospects for cross-country are better than ever before. Coach Schulte will devote his entire time to track from now on, and will be in charge of the cross country work this fall.

The present schedule includes two home meets and three meets away from home and the Missouri Valley run. The season opens with a dual meet at Missouri, October 10, when the football team meets the Tiger gridsters. The Jayhawk harriers will meet the Nebraska runners on the Nebraska home course October 24 between halves of the homecoming game, and the week following, the Oklahoma Hill and Dale crew will meet the Scarlet and Cream runners between halves of the Husker-Sooner conflict.

On November 7, the Huskers meet the Drake runners at Des Moines between halves of the Drake-Nebraska game. The date has not been set as yet for the Missouri Valley cross country run which will be held at Lawrence, Kansas, late in November.

Coach Schulte has placed Captain James Lewis in charge of the cross-country work during the periods he will be gone on his football official's meetings out in the state.

There are about twenty men out for the sport at present and equipment may be obtained any afternoon after three o'clock at the store room under the east stands of the stadium. Former Coach McMaster and Anderson, an Olympic man of 1912, who is also a former Husker runner, have been spending some time with the team this fall.

Besides Captain Lewis, Jack Ross, holder of the Varsity record in the mile run, Lawson, letter man from last season, and Ex-Captain Zimmerman, who holds the Varsity indoor two-mile record, are out this fall. Among the other promising men are Jake Schultz, Hays, and McCarty, who are veterans from the squad of last season. Rogers, also a veteran of two years ago, will be back. From the freshman team are Searles, who won the Missouri Valley freshman telegraphic mile last spring, and Johnson and Roberts who ran the half in good form.

## Miss Pound Honored by German Scholars

Prof. Louise Pound of the department of English has been invited to allow her name to appear among the list of friends and well-wishers to be included in the "tabula gratulatoria" of the Festschrift in honor of Eduard Sievers, professor of English philology at the University of Leipzig. Those in charge of the project for honoring Professor Sievers are Professors Eugen Mogk, Wilhelm Streitberg, Friedrich Neumann, Julius Schwietering, and Fritz Karg.

## PLEDGE LISTS ARE ANNOUNCED

Names of New Men in Social Fraternities Are Made Public Today.

### ORGANIZATIONS GIVEN

Pledges of thirty-two social fraternities were announced late Saturday, and the complete list is appearing in this morning's Nebraskan. The men were pledged during rush week, which was held beginning September 7.

## Promotions In Cadet Corps Will Be Made Public In Two Weeks

Lieutenant-Colonel Jewett is now working on the list of promotions in the cadet corps, and expects to have the general order out within two weeks. The order will include besides the senior appointments, the final decision concerning the rank of juniors and their assignments to companies.

Colonel Jewett announced yesterday that the basis of promotion will be based on previous record in the unit, and work at Fort Snelling summer camp.

A visit to corps headquarters at Omaha was made Friday by Colonel Jewett for the purpose of talking over R. O. T. C. problems with other commandants of the area.

## GRID MANAGERS ARE ANNOUNCED

Gerald Davis Is New Senior Manager Assisted By Cameron And Breyer.

### WILL USE NEW SYSTEM

Wendell Cameron, '27, College View, and Arthur Breyer, '27, Norfolk, will be the junior managers in football this year, according to announcement of the selections of the athletic board of control Friday.

The new sub-managers were chosen from a group of ten sophomore candidates and will be candidates for the position of senior football manager in 1926. Gerald Davis, '26, Norfolk, is the senior manager this year.

The selection of the junior managers is the beginning of the end of the old method of choosing managers of the various major sports. A new system devised by the athletic board will be in use from now on, and will provide a consolidation of the managerships of all sports as far as sophomore work is concerned.

Thirty sophomore candidates for managership are being called for now by Herbert Gish, acting director of athletics. All sophomores who intend to try out for a managership of any major sport will report immediately at the athletic office for applications, and will be assigned work in football at the stadium Monday at 3 o'clock.

Under the new system the thirty sophomore candidates will receive a general training in all sports. While thirty men will not be needed at all times, work will be divided so that all candidates will receive training in each sport.

At the end of the year eight men will be selected as junior managers in 1926, and will be assigned to the various sports by the athletic board. It will then be possible to place each man where he will be best fitted.

A definite plan of training is provided by the new plan which was impossible under the old system, according to Herbert Gish. The candidates will receive general training in the sophomore year and specialized training in the junior year which will produce a more thorough preparation for the senior managership of each sport.

Unless the new system proves more successful than the old one the entire plan of student managerships will be discontinued. So far the system has been anything but a success, and whether or not this is because of the plan used will be discovered after the use of the new plan.

The student manager plan is being continued simply because it offers an opportunity for the earning of a Varsity letter to the man who cannot make an "N" on the field. The senior managers, and occasionally a junior manager, make all of the trips with the various teams. They also handle a certain amount of correspondence for the coaches and secure an all-around business training.

California women insist that fine china cups must be used at their tea parties. A heavy cup of the type the committee has been using, is very much out of place when held by dainty hands that are accustomed to grasping delicate chinaware, they declare.

Shoe shining parlors at Oxford University are experiencing a slump in business this fall. The new twenty-five inch bell bottom flannels for boys make shines unnecessary since the cuffs fall completely over the wearer's shoes.

## Nebraskan Business Office Has Openings

The business staff of The Daily Nebraskan is making an interesting profitable offer to 60 university men. Applications for the positions, the details of which have not been disclosed, are being received now at the business office in the basement of U Hall.

## NAME PLEDGES TO SORORITIES

Pledging Started Saturday Afternoon Following a Week of Rushing.

### LISTS ARE NOW COMPLETE

Eighteen social sororities announced pledge lists late Saturday afternoon after a week of rushing that started last Monday and ended yesterday afternoon. The complete list of the new sorority freshmen appears in this morning's Daily Nebraskan.

**Alpha Chi Omega**  
Mayre Lau McQuistan, Pender.  
Margie Ann McQuistan, Pender.  
Louise Wescott, South Sioux City.

## Add New Instructors to Engineering Staff

The College of Engineering has added three new instructors to their faculty this year and the registration list shows an increase over former years.

George J. Johns, a graduate of the Ohio State University in 1924, has been appointed instructor in electrical engineering. Lloyd F. Rader, a graduate of the University of Michigan in 1924, will be an instructor in civil engineering and Jules P. Colbert, a graduate of the Missouri School of Mines in 1921, will be the instructor in applied mechanics.

## CHANCELLOR AVERY GIVES RECEPTION

Annual Affair Is Held At Art Gallery—Wives of University Deans Assist At Tables.

Nearly 450 guests attended the reception given last night by the Chancellor and Mrs. Avery from 8 until 10 o'clock at the Art Gallery. It was the most successful reception of its kind ever given.

The student body was well represented as well as many of the important members of the faculty and the guests mingled with one another in a thoroughly enjoyable "get acquainted" evening.

The wives of the eight deans of the University assisted at the table. They were as follows: Mrs. Sherman, Mrs. James, Mrs. Le Rossignol, Mrs. Seavey, Mrs. Ferguson, Mrs. Sealock, Mrs. Burnett and Mrs. Grubb.

The decorations consisted of potted plants with yellow flowers which were placed on the tables. Ice was served.

## WOMEN'S SPORTS PLANNED

Miss Wheeler and Leaders Make Program; Hockey Practices Will Start Soon.

The plans for the activities of the Women's Athletic Association for this year are being made by Miss Mary R. Wheeler, who is in charge of sports, and the three sport leaders who were elected at the close of last year.

The sport leaders are Marie Hermandek, for hockey, Dorothy Pedersen, for soccer, and Helen Lohmeyer for basketball. The other sport leaders will be elected at the conclusion of each sport this year. They are to be nominated only by the girls who participate in that sport.

This year tennis has been made a major sport and practices for hockey are to begin in a short time.

The officers of the association urge that all girls who are interested come out for the different sports although they may not be members of the physical education department.

## First Ag Convocation Will Be Held Tuesday

The first Agricultural College convocation will be held Tuesday morning at 11 o'clock according to an announcement made Friday afternoon by Dean E. A. Burnett. Arrangements for starting the student activities of the agricultural college will be made at the meeting.

### Held Home Economics Conference

The seventh annual state conference of vocational home economics teachers was held at the College of Agriculture. Prof. W. H. Lancelot, director of the vocational education department at Iowa State College at Ames, was the leader of the conference.

## Freshmen Must Abide by Tradition and Wear Green Caps and Buttons

It will not be long until an old tradition, a tradition as old as the school itself, will be enforced at the University of Nebraska. The green cap, the emblematic symbol of all freshmen men and the green button, which will adorn all freshmen women, will be much in evidence about the campus within the coming week.

As aged as the tradition is, it has never grown old on the campus and is used as a distinguishing mark between the freshmen and the upperclassmen. The ultimate purpose of this custom is to bring members of the freshman class into closer union with one another and to establish a bond of friendship that will be lasting throughout their college career. The green caps and buttons must be worn at all times both on and off the campus. The only way in which

## SELL TICKETS ON WEDNESDAY

Athletic Tickets May Be Purchased For \$7.50 At Regular Booths.

### ROOTERS HAVE SECTION

Organizations On Campus May Reserve Blocks of Seats—No Advance Reservations.

Student athletic tickets will be put on sale early Wednesday morning, September 23, at a booth to be erected on the campus. The tickets will be \$7.50 this year and will admit the student holder to all athletic events in which the University of Nebraska participates as a dual contestant.

No reservation for tickets will be made in advance, but fraternities, sororities or any other student organization on the campus may obtain seats in a block. The tickets will all go on sale at the same time and the first students to make purchases will get the preference of location. The purchase of tickets is not compulsory.

The student section of seats will be on the east side of the stadium. The location of this section, however, has been somewhat changed this year and this new arrangement will bring the students nearer the fifty yard line. The student section will extend from D to K lengthways and from 1 to 27 up and down.

A student rooting section will be organized along the fifty yard line. From four to five hundred students will be able to get into this organization. Although those in the rooting section will have a slight advantage in the location of seats, they will be expected to help the cheer leaders with the cheering. Kenneth Neff is in charge of the rooting section and anyone wishing to get into this organization should make application at once. Applications should be made with Neff, Phil Sides or Nick Amos in John K. Selleck's office in the Armory, Monday or Tuesday afternoon between one and five.

Student tickets are for the use of students only and anyone other than a student presenting one of these tickets will not be admitted. It has been somewhat of a practice, heretofore, for students to buy these tickets for outsiders and if the practice continues the price of the student ticket must be advanced. It is wholly up to the student body to protect itself in this matter, according to Mr. Selleck.

## WILL GIVE OATH TO FRESHMEN

Regular Initiatory Services For First Year Men And Women Will Be Thursday.

Annual freshman initiation for both men and women will be held at the Armory Thursday morning from 10 until 12 o'clock when an interesting and instructive program in charge of the Innocents will be presented to new students of the University.

The usual custom is to dismiss classes for freshmen during the two hours initiation, but no definite announcement has been made as yet this year. The announcement will appear in the Daily Nebraskan later. Speakers have been obtained for the event but because the program has not been completely filled, it will not be made public until later. It has been definitely decided that the University band will be on the program.

Cheers will be led by regular University cheer leaders, and the freshmen will take their pledge to the University of Nebraska.

It is advisable for all first year students to get their caps and buttons as soon as they are put on sale. The tradition is in charge of the Innocents, and the Iron Sphinx will have charge of the sale of tickets for the caps. This organization will also have charge of the enforcing of the wearing of the green. This custom is not placed upon as a form of punishment, but it is felt that the green caps and buttons will be an introduction to better school and class spirit.
