The College Press
THE STUDENT'S PART
 Are University students in Canada taking the part in solving the difficult problems of the world, or even of their own country that their opportunities and education fits them to? The Brown Daily Herald, in an editorial comment contrasts the American student with his fellow in Germany and China and the result is not at all favorable to the former. While the German and Chinese students, and indeed almost all European students, have launched youth movements and are taking an active part in political life of their country. "In America" says the Herald, "we see students who are well-groomed football fanatics."
 This criticism is almost equally applicable to Canadian Universities. Though in this country not so much is made of athletics, nevertheless we are no more interested in present day problems than our American contemporaries. The Youth Movement in Germany, comprised as it is of students who are genuinely interested in the affairs of their country, has attained enormous proportions and wields a considerable influence, while at McGill, even on the eve of a general election, politics are hardly ever a topic of campus conversation.
 European students have always been in the forefront of all democratic reforms. Students have always been largely responsible for the maintenance of a national spirit and consciousness in those countries which were under foreign domination. In Poland the students were always active against the Czar. It was a Serbian student who, labouring under a keen sense of national oppression, fired the fatal shot that started the World War.
 The Chinese Nationalist Party is largely led by students who are trying to keep alive the fires of Republicanism and Democracy in that disension ridden country, and whose influence is largely responsible for the growth of a national sentiment in China.
 It is continually being impressed upon us by our elders that today is the age of Youth, that it is now our turn to undertake the task of dragging the World from the muddle into which Age has driven it, but apparently the youth of the country is quite unimpressed with the responsibility that has been delegated to it.
 This editorial is not meant to advocate following the example of the Serbian and to assassinate the Prince of Wales on his next visit, or that of the Chinese students and prevent the landing of cargoes at the Port of Montreal, but we do believe that McGill men should use to the best advantage the opportunities given them and take their part in the study of the affairs of the country.—McGill Daily.

English Spelling Scale.
 A high school spelling scale including fifty words to be given to normal-training students in Nebraska high schools has been published in the University Extension News. The results in the various schools will later be tabulated by the Extension division.
 Writing in the University Extension News, Coach Henry F. Schulte declares that the conference of high school football coaches and officials held in Nebraska this fall were much bigger and more successful than ever before. There were twice as many officials in attendance as last year.
 "To be a good football player a man must have brains, 'guts,' speed, self restraint, motor coordination, fire of nervous energy and, to a lesser degree, physique and an unselfish point of view of sacrifice for the team." This is the definition of a football player given by Knute K. Rockne, world famous Notre Dame coach in his book, "Coaching."

Issue Poultry House Bulletin.
 A bulletin on farm poultry houses prepared by Prof. F. E. Mushehl, chairman of the poultry husbandry in the College of Agriculture, and S. J. Marsden, instructor in poultry husbandry, has been published by the College of Agriculture extension service. It contains plans for poultry houses for laying hens, portable brooding houses, and open air roosting sheds, with discussions of ventilation systems, labor-saving equipment, and feeders.
Have Fellowship in German.
 Miss Ada Klett, of Berlin, Germany, has a fellowship in the department of Germanic languages here this year. She has been in the United States for two years and is continuing her work for an advanced degree here. Miss Emma A. Stekelberg, formerly of the Chadron State Normal school, also has a fellowship in the department of Germanic languages this term.
 Freshmen at Pennsylvania State college are forbidden the privilege of entering pool halls, smoking in public, and keeping their hands in their pockets. They must carry matches at all times and be exceedingly courteous to the upperclassmen.—Kansas State Collegian.

An annual allowance of 400 pounds is to be granted Rhodes scholars at Oxford University instead of the 300 pounds heretofore allowed, according to late advices. The increase in the cost of living was given as the reason for the change. This makes the total about \$2,000.—The Minnesota Daily.

HUSKIES START NEBRASKA TRIP
Washington Followers Hope For Showing After Game With Montana.
DUE HERE FRIDAY NOON
 SEATTLE, Wash., Oct. 13.—Still fresh from their brilliant march over the Montana Grizzlies last Saturday, the Washington Huskies tonight will complete their preparations for the invasion of the Cornhusker camp at Lincoln next Saturday.
 The Huskies will leave Seattle this evening at 7:30, and will be on the train almost continuously until Friday noon, when they will arrive in Lincoln. That afternoon they expect to workout on the Nebraska stadium field.
 Tomorrow morning the Huskies are due at Spokane at 8:30 where they will get a chance to stretch themselves. Early Thursday morning they are due at Billings, Mont.
 Washington followers were taking hope this week after the brilliant showing the Huskies made against Montana. Montana's experienced line and brilliant backfield was expected to cause the Huskies a lot of trouble, but once the Purple Tornado started on its march, the Huskies succeeded in ringing up 30 points while the Grizzlies were satisfying themselves with 10.
 Then, too, the Huskies were still reading the accounts of the Nebraska-Missouri game in which the Huskies took a trimming. That, too, gave the Washington team a lot of encouragement, for they had been led to believe the Huskers would trounce Missouri without much effort.

RUMORS OF POST SEASON GAME WITH CALIFORNIA
 (Continued from Page One.)
 ports of having to do with the Cornhuskers coming west, no matter how groundless and unofficial such stories may be. They believe the 1925 combination is as great as any that has fought for the Scarlet and Cream in past years and should make a great showing against any Pacific coast team.
 Californians, particularly in this section, know but little about middle Western football. They had heard of one Red Grange, however, and no little surprise resulted here when the Nebraska stopped the Illinois flash. Cornhusker stock went up with a bang following the victory at Urbana.
 But the main idea is this. It is much too early to talk about post season games on the Pacific coast and the possibility of the Nebraska Cornhuskers appearing here. With Washington and Notre Dame out of the way, Nebraska will be the logical team to come west and comparisons and predictions will then be in order.
 All freshmen women at the University of Denver must wear green scarfs on the campus after October 17. The scarfs are made of green woolen material with a narrow red border and a yellow "D. U." at each end. Any girl appearing on the campus without her scarf will be promptly hailed before the police court, composed of members of the Women's council.—The Denver Clarion.

Adds Gloss and Lustre, Makes Your Hair Easy to Manage

If you want to make your hair easy to manage and add to its natural gloss and lustre, this is very easy to do.
 Just put a few drops of Glostora on the bristles of your hair brush, and brush it through your hair when you dress it. You will be surprised at the result. It will give your hair an unusually rich, silky gloss and lustre—instantly.
 Glostora simply makes your hair more beautiful by enhancing its natural wave and color. It keeps the wave and curl in, and leaves your hair so soft and pliable, and so easy to manage, that it will stay any style you arrange it, even after shampooing—whether long or bobbed.
 A few drops of Glostora impart that bright, brilliant, silky sheen, so much admired, and your hair will fairly sparkle and glow with natural gloss and lustre.
 A large bottle of Glostora costs but a trifle at any drug store or toilet goods counter. Try it! You will be delighted to see how much more beautiful your hair will look, and how easy it will be to manage.
