

GREEKS WIN PRIZES FOR DECORATIONS

Sigma Phi Epsilon and Alpha Delta Theta Win in Organization Contest

LOVING CUP IS AWARDED

Are First to Have Names Engraved on Trophies Donated by Fenton Jewelry Co.

Featuring a large figure of a college student dressed in white duck trousers and red sweater with outstretched hands holding illuminated letters N and K, and a large red illuminated "Welcome" sign above the whole emblematic of the college spirit welcoming back the old graduates, Sigma Phi Epsilon won first prize among the fraternities in the annual Homecoming decoration of fraternity and sorority houses, and the right to be the first organization to have its name engraved on the new cup donated by the Fenton B. Fleming Jewelry company.

"Help us pluck the Jayhawk's feathers" was the theme of Alpha Theta decorations that won first place among the sororities, and the silver loving cup also donated by Fleming. A fuzzy Jayhawk suspended in the middle with the sign "Help us pluck the Jayhawk's feathers" was the center of the decoration. Above it was a large "Welcome Grads" sign. On either side were large N letters with long streamers extending from the top to the ground.

There were so many good decorations this year that the judges were hard put selecting the honorable mention displays. Four fraternities Phi Kappa, Phi Kappi Psi, Mu Sigma, and Sigma Alpha Epsilon were awarded honorable mention grading. Three sororities, Alpha Chi Omega, Theta Phi Alpha and Alpha Omicron Pi were given honorable mention.

The Alpha Chi Omega, first honorable mention motif was an apt accompaniment to the prize winner's "Help us pluck the Jayhawk" scheme and showed a Cornhusker chasing a Jayhawk from which all the feathers had been plucked.

The Homecoming sentiments were predominant in the Theta Phi Alpha decoration, which centered about a red brick hearth with the motto above "Back to Our Hearth." A large letter N formed the Alpha Omicron Pi decoration.

The competition for first honorable mention among fraternities was so close that the judges decided to rate them all practically on par. Phi Kappa had a large letter N in red with an electric N above that, and the University seal on either side of a welcome sign. Phi Kappi Psi had an elaborate scheme with an electric "Welcome" sign in the middle, and a number of tombstones on the side signifying the games won and to be won by Nebraska. Kansas was described as dying from Nebraskaitis. Mu Sigma fraternity had a changing red and white system of illumination playing on a huge letter N. Sigma Alpha Epsilon had Jayhawk behind bars on top of a rock arch, with a great ear of corn on top of the whole.

The rainy weather note was struck by Pi Kappa Alpha fraternity showing an alumnus rowing a boat on the ocean and heaving into port. The basis of judging the displays was 50 per cent on artistic appearance, 25 per cent on originality, and 25 per cent on execution. The judges were Otto F. Rempke, of Mayer Bros. Company, D. V. Manrose, of Kirsch of the School of Fine Arts. A Chandler car was donated for the evening by the Ford Delivery Co.

Tuesday Night Radio Program Announced

The University night program to be broadcast from the University radio station operated in connection with station KFAA next Tuesday evening, October 27, will include an address, "Agriculture," Foreign markets, and the Navy," by Col. John C. Maher, chairman of the Nebraska "Navy Day" committee; and address, "Training for Vocation and Citizenship Through the Nebraska High School Debating League," by Prof. M. M. Fogg, director of the School of Journalism and president of the league; an address, "Provincialism and Peace," by Prof. Roy E. Cochran of the department of history; and musical numbers by Mildred Nefsky, soprano; Helen Howe, flutist; Bernice Mingo, pianist; Beatrice Long, soprano; Burdette Taylor, violinist; Catherine Dean, contralto; Elizabeth McPherson, soprano; and the University band under the leadership of Wm. T. Quirk.

Organization presidents must turn in their names, organization, address and telephone number at the Y. M. C. A. office in the Temple.

Chancellor Welcomes Discussion On Future of Two Old Buildings

In a letter to the Daily Nebraskan Chancellor Samuel Avery invites comment on disposition of old University Hall or the erection of a memorial to it. Because of the sentiment attached to the building, the first on the campus, graduates will be particularly interested in offering suggestions, he thinks.

His letter follows: "University officials welcome the discussions as to what should be done with historic buildings, and appreciate the tone and temper of your recent editorial. However, it contains one important error which should be corrected. The writer has confused old Nebraska Hall with the old U. Hall. Professors Besey and Brace did not work in U. Hall. Their work was in Nebraska Hall. Many distinguished professors, however, such as Dean Edgren and others, labored in U. Hall; and the building has been the center of student activities, publications, etc., from the beginning of the University. It is rich in historical sentiment, but unfitted for practical use.

"Let us hear from alumni, old and young, as well as from the present students and faculty, discussions in regard to what shall be done with old buildings, taking care not to confuse University Hall, the old main building, with Nebraska Hall, the old science building, from which the roof and third story have been removed recently."

The Omaha World-Herald, in a recent editorial as to what should be done with U. Hall says: "Chancellor Avery, in a current number of the Nebraska Alumnus, proposes that a bronze monument be erected on the university campus to mark the site of the University Hall, condemned for early destruction as unsafe for much further use.

"A memorial to a building is unusual, but the chancellor's suggestion will meet with wide response from tens of thousands of Nebraska university students and alumni.

"For 'U. Hall' was the first university building. It marked the

NAME WORKERS FOR CARNIVAL

Robert M. Scouler Announces Committees for Annual Military Fete

NOVEMBER 14 TO BE DATE

The names of the different committees who will have charge of the military carnival have been announced by Robert M. Scouler, general chairman of all committees. This carnival, which is a yearly event put on by Scabard and Blade, will come immediately after the mid-semester examinations. The affair will be held in the Armory on the evening of November 14.

The names of those on the different committees have been selected from the names turned in by students of the military department who were desirous of helping with the carnival. The committee chairmen and the members of the different committees are as follows:

Publicity—Victor Hackler, chairman, Judd Crocker and Wm. Cejnar. Bar committee—Clark Beymer, chairman, Paul Treadwell, Jacob Whalen, Wayne Gratigny and A. Parriott.

Confetti—Forrest Hall, chairman, Whitney Gilliland, Harold Zinnecker and Arthur Breyer.

Check room—Floyd R. Wagner, chairman, E. A. Jones, E. C. Hodder, Reginald Miller and Ralph Wagner.

Decorations—Floyd Stryker, chairman, Austin Sturdevant, Franklin Dur, Loren Nelson, Lloyd Tucker, E. T. Johnson, Jr., Watson Foster and Clarence Paine.

Gambling—Robert Tynan, chairman, Theodore Ratcliff, Edward Crowley, Leslie Brinkworth, Richard Biore and Paul Stauffer.

Police—Mark Fair, chairman, T. Ray Tottenhoff, Leo Black, Rudy Lucke, Harold Stebbins, John Taylor, Robert Diller and Roy Clarke.

DIRECTORY READY FOR PUBLICATION

Work Will Start Soon on Booklet Put Out by the University Christian Association

Student and faculty lists for the Student Directory published each year as the official University directory by the University Christian Associations are in the hands of the printer.

"Proofs will be posted for each person's check as soon as they are available from the printer—probably the latter part of next week," announces V. Royce West, '27, Elmwood, editor. Each person will hand in any corrections to be made on a card furnished for the purpose. The lists will be posted in Social Science building and in the main building at the Agricultural College. Both students and faculty are urged to take advantage of the opportunity to see that information concerning them is correct since the responsibility has been placed in their hands.

The social organization section, including fraternities, sororities and literary societies, has been proof-read, and is ready for final printing. Lists by home towns are practically completed in their setting by the printer.

Organization presidents must turn in their names, organization, address and telephone number at the Y. M. C. A. office in the Temple.

Brown Returns Punt For Final Touchdown

"Jug" Brown

John "Jug" Brown whose heady work at quarter was largely responsible for the Cornhusker victory. In the dying moments of the game he returned a punt 45 yards through the entire Kansas team for Nebraska's second touchdown.

Faculty to Speak at Teacher's Meeting

Several members of the University faculty will take part in the program arranged for the science section of the Nebraska State Teachers Association of district No. 1, which will meet on the afternoons of November 5 and 6 during the annual convention. Ralph W. Tyler, assistant supervisor of sciences, is in charge of the science section program. Prof. Herbert Brownell of the department of secondary education will speak on "The Status of the Science Teachers;" R. D. Moritz, director of the teachers' placement bureau, will discuss "The Administrator's View of Science Teaching;" and Dr. F. D. Barker of the department of zoology will give an address on "Evolution and Inspiration."

Nebraska One of Few Universities To Have Federal Weather Bureau

The man who is always looking for sunshine—he is Thomas A. Blair, head of the U. S. Weather Bureau at Lincoln and may be found any day in his office in the science laboratory.

This bureau is one of the few in the United States which is located in University quarters and co-operating with the University. All weather bureaus, and there are over two hundred stations similar to this one in the United States, are connected with the Department of Agriculture. The work in stations differs according to local conditions, and most of them are located in federal buildings.

Mr. Blair has the official government title of Meteorologist, and among the University faculty he is known as Assistant Professor of Meteorology, and conducts a class.

Not many know of the work done by this department. A great deal of it is spent in observing and making records. This consists of a daily reading of instruments, at 7 a. m. and 7 p. m., to determine the

FORUM WILL HEAR SPEECH BY GRUMMANN

Fine Arts Professor Will Give Address on European Art At Weekly Luncheon

TO DISCUSS ATHLETICS

Situation at Large Universities Will Be Considered Pro and Con In Near Future

Prof. Paul H. Grumann, director of the school of fine arts, will address the World Forum Wednesday on "Impressions of European Art." The committee in charge of the World Forum discussions announces that there will be a discussion on the athletic question in the near future.

Professor Grumann visited Europe last year spending a large amount of his time in the art museums and galleries of the European capitals. Several of the most famous galleries in each Paris, London, and Berlin were visited as well as those in other cities on the continent.

In discussing the athletic situation, the committee announces that speakers will present the arguments for and against the athletic situation as it is found in large universities of the present with the idea of contrasting the situation with that in foreign universities.

Over two-hundred and thirty students attended the meeting last week at which Kirby Page spoke. The question of world peace and the recent Locarno agreement was discussed, with Page and Mrs. Morgan of the League for Prevention of War, leading. Tickets will be on sale for the coming meeting at the Y. M. C. A., Y. W. C. A. and at vespers.

JANE ADDAMS TO MAKE ADDRESS

Well Known Founder of Hull House Will Speak on "Recent Movements Toward Peace"

"Recent Movements Towards Peace" will be the subject of the lecture to be given by Miss Jane Addams of Hull-House, Chicago, at St. Paul's church next Monday evening, at eight o'clock on the World Court, its activities and aims.

Miss Addams is the founder of the Social Settlement of Hull-House in Chicago and many eminent women have been associated with her in the work there. Among them are Miss Julia Lathrop, first chief of the Federal Children's bureau a position which she held for ten years; Miss Edith Abbott, a University of Nebraska graduate, who is now Dean of the Graduate School of Work in Chicago; and Miss Grace Abbott, her sister, who succeeded Miss Lathrop as chief of the Federal Children's bureau.

Many social reforms have started at Hull-House. It was there that open air schools, Americanization work, the playground movement, manual training, domestic science and the school garden movement had their origin.

Hull-House has also been influential in obtaining industrial legislation, such as the Illinois child labor law, the juvenile court and women labor regulation.

Tickets for the Jane Addams lecture are available at Miss Appleby's office in Ellen Smith Hall and at the Y. M. C. A. office in the Temple. Balcony seats are twenty-five cents, main auditorium fifty cents.

Presnell Makes Name In Saturday's Contest

Glenn Presnell

Glenn Presnell, former DeWitt high school star, who made a name for himself in yesterday's victory over Kansas. Presnell was given his first opportunity to show his stuff in the Saturday's game and he came through by displaying a brilliant brand of offensive and defensive football.

TO HOLD CANDLE LIGHT SERVICE

New Members Will be Taken In Y. W. C. A. at Vespers Next Tuesday

PURPOSE IS FOUR-FOLD

The annual candle lighting service will be held Tuesday at 5 o'clock at Ellen Smith hall. At this service the girls who join the Y. W. C. A. do so by the symbolic service of lighting the small candles which they carry from the large candle representing the light of the Christian religion. About 150 new members are to be taken in this year. Those interested in the Y. W. C. A. have been meeting in discussion groups every Tuesday at 11 o'clock and Thursday at 5 o'clock. The discussion next Tuesday morning will be the last before the formal service.

"I think the membership this year is a little more thoughtful and a little more real because the girls have met in these discussion groups," says Miss Appleby, secretary of the Y. W. C. A.

The purpose of the organization, as it has been expressed is: first, to lead students to faith in God through Jesus Christ; second, to lead them to membership and service in the Christian Church; third, to promote their growth in Christian faith and character, especially through the study of the Bible; fourth to influence them to devote themselves, in united effort with all Christians, to making the will of Christ effective in human society, and to extending the Kingdom of God throughout the world.

The program at these services will be:

Processional No. 248 "The Church's One Foundation."

Prayer.

Scripture Reading.

Vocal solo, "The Lord is My Shepherd."

Candle lighting.

Reading of the purpose.

Silent prayer.

Benediction.

Recessional—The Hymn of the Lights.

Members of the membership committee will serve as ushers and hostesses. They are Helen Howe, Ida May Flader, Helen Anderson, Marcelle Stenger, Romain Dinckinson, Irene Lavelly, Rose Fatinger, Marion Eimers, Pearl Diller, Kathro Kidwell, and Eva Krough.

Mary Ellen Edgerton will conduct the services and in the candle lighting will be assisted by Elsie Gramlich, president of the University Y. W. C. A.

Jorgensen Goes to Washington

Arthur Jorgensen, secretary of the University Y. M. C. A. left Friday for Washington, D. C., where he will attend the annual business session of the national council of the Y. M. C. A. as one of the members from Nebraska. On his return trip he will stop in Chicago to complete arrangements now being made for a series of lectures at the University of Nebraska later in the year by distinguished religious educators.

HUSKERS DEFEAT KANSAS IN HOMECOMING CONTEST

Nebraska Football Team Turns in Twenty-First Win Over Jayhawk Machine, 14-0, Before Audience of Sixteen Thousand in Stadium

GLEN PRESNELL SHOWS UP AS NEW BACKFIELD STAR

Sophomore Back Plunges and Runs in Emulation of Choppy Rhodes; Kansas Gridsters Provide Plenty of Opposition to Nebraska Outfit

The Nebraska Cornhuskers turned in their twenty-first football victory over Kansas yesterday afternoon, 14-0, and along with the victory came the appearance of a new star in the Nebraska camp. He is Glenn Presnell, DeWitt halfback playing with Nebraska as a sophomore, and he plunged his way to recognition yesterday emulating the veteran Choppy Rhodes. It was the annual Homecoming game and was witnessed by about sixteen thousand fans who braved the rain and cold to see the battle in the stadium.

The Jayhawks provided more opposition than they were given credit for in pre-game dope. They held the Huskers scoreless until the closing minutes of the third quarter, and put up such stiff opposition that Nebraska failed to score twice when they were within seven yards of the goal-line.

EXPECT MANY AT LUNCHEON

Pep to be Keynote of Annual Girls' Cornhusker Luncheon Saturday

TASSELS TO SELL TICKETS

Pep, and lots of it, will be the keynote of the Girls' Cornhusker luncheon next Saturday. Phil Sidles will be there and begin by leading cheers, followed by "There is No Place Like Nebraska."

The Cornhusker luncheon needs no introduction to any upperclassman. For years it has been part of the football season, and generally was held on Homecoming. When it started it was always held at the Lincoln, but the dining room only accommodated five hundred girls at the most, some were always disappointed.

For the past two years it has been held in the Armory, but that too, became crowded, and it has been moved to the Scottish Rite Temple.

The Tassels have charge of the ticket sale which begins Monday afternoon and lasts till Friday, at noon. Tickets are seventy-five cents apiece.

The four class honorary organizations, Mystic Fish, Xi Delta, Silver Serpents and Valkyrie, will act as the waitresses. They will be dressed in red and white and will wear their arm bands. Doris Pinkerton will supervise the serving.

The tables will be decorated in red and white and there will be pep favors for everyone.

During the course of the luncheon the University Girls' Quartette will sing. Katherine Gallagher will dance, and there will be saxophone solos, and other music. The Tassels, dressed in red sweaters and white skirts, will sit at a special table and will be the pep center. They will give a stunt, and will start most of the cheering.

The committee in charge of the food are making every effort to serve an attractive luncheon as they can to such a large number. Cyrena Smith is in charge, and has planned the following menu: pressed chicken, scalloped corn, pickles, fruit salad, hot rolls, strawberry ice, and coffee.

Marguerite Forsell, general chairman, has sent circular letters to all the houses urging them to close their tables and all come to the luncheon. This is one of the few times when Nebraska women students have a chance to demonstrate their loyalty and school spirit and all should be present.

Miss Amanda Heppner, dean of women, and Miss Erma Appleby, secretary of the Y. W. C. A., will be the honor guests. Many alumnas who are returning for the game are expected to be present at the luncheon.

Article by Brownell Urges Science Training

Prof. Herbert Brownell of the department of secondary education is the contributor of an article entitled "Some Aspects of Physics Teaching" in the current issue of school of science and mathematics, the national publication of the association of science and mathematics teachers. The article is based on the results of a study made at the University last year by Miss Agnes Undeland found that forty per cent of the classes in science in Nebraska high schools are taught by teachers who have not had eight credit hours of University preparation in that subject. She also found that the average high school science teacher is required to teach at least three different science subjects. In his article Professor Brownell discusses these problems and urges that teachers be prepared to meet such conditions.

Kansas Opposition Stiff

The Kansas line was torn open time after time by the Nebraska backs, and the game was played almost entirely in Kansas territory. But with Nebraska touchdowns only seven yards away, the Kansas team twice tightened up and prevented a score.

The first touchdown came near the close of the third quarter. Starting from the 44-yard line, the Huskers plunged straight down the field, using straight football, for a touchdown. First Rhodes made five yards then Presnell plunged for four; Presnell made it first down with another plunge and on the next play broke away for eleven yards. Rhodes went off tackle for fifteen yards. A moment later Rhodes hit the same hole for a ten-yard gain, placing the ball on Kansas' six yard line. Presnell and Rhodes together pushed the ball over for the score, and Brown dropped-kicked the extra point.

The second, and last, touchdown came as the result of another sophomore's flashy play. Jug Brown, who has already made himself a permanent berth on the first squad, ran back a punt for the counter. The Huskers had run the ball to Kansas' five yard line but had failed to score. With his back to the goal-posts, Anderson punted forty yards to Brown, and the former Lincoln high school star ran forty-five yards in a beautiful exhibition of open-field running. He had good interference and crossed the line with no opposition.

Huskies Kept From Scoring

The invaders played sound football, but they lacked the strength to beat Nebraska. The Huskers, in their turn, did not show the goods in the first half at all. They had plenty of power in the middle of the field but when they were within walking distance of the goal line, they lacked the punch to push it across.

Baker, a flashy Kansas end, played the individual star for the Jayhawks. He broke through constantly to worry the Nebraska backs, and was an important factor in both the defense and the offense. Schmidt, Kansas back, did most of the passing for the Jayhawks, but completed only five out of ten attempts.

The playing of Presnell and Brown was a heart-warming feature of the game. Both are sophomores, and will be in the Husker lineup for two more years. To be sure, Presnell did not outshine Rhodes in his plunging feats, but he is a likely follower in "Choppy's" footsteps.

The heralded Kansas passing attack did not come into evidence until late in the game, because the Jayhawks were backed into their own territory most of the time and did not flash any aerial stuff. In the last quarter, however, the invaders completed several passes for long gains which put them temporarily out of danger.

The Play-By-Play Report

First Quarter

Captain Smith of Kansas won the toss and chose to defend the north goal. Captain Ed Weir kicked off, but the ball rolled dead on the fifty-yard line and was brought back for another try. Ed Weir kicked off to Kansas' ten yard line and Anderson returned fifteen yards.

Wellman punted forty yards to Brown who returned seven yards. A pass by Presnell was incomplete. Presnell made five yards off left tackle. Presnell made three yards through the same hole. Ed Weir punted thirty yards to Anderson, who returned five yards. Stiner making the tackle. Schmidt failed to gain at center. Mackie made a yard at center. Wellman's punt was partially blocked and Presnell recovered on Kansas' thirty-six yard line. Presnell made five yards off right tackle. Rhodes made two yards. Lattin broke through and threw Rhodes for a loss of two yards. Brown attempted.
