

THE DAILY NEBRASKAN

VOL. XXV. NO. 109.

THE UNIVERSITY OF NEBRASKA, LINCOLN, NEBRASKA, WEDNESDAY, MARCH 17, 1926.

PRICE 5 CENTS

DEBATE WITH SOUTH DAKOTA ON MARCH 24

Nebraska Has Affirmative On "Regulation of Child Labor by Congress"

IS FORTY-THIRD CONTEST

Open Forum Discussion Will Follow Debate; Tickets Go On Sale Thursday

The University of Nebraska's 1926 intercollegiate debaters will meet the University of South Dakota in the annual debating contest here on Wednesday, March 24, in Memorial Hall. The subject for the debate will be the Regulation of Child Labor by Congress and will be the forty-third contest since the organization of the Nebraska Think Shop.

Nebraska will be represented by Lincoln Frost, Jr., '27, Lincoln, Edward G. Jennings, '26, Lincoln, David Sheer, '28, Omaha, and Reginald C. Miller, '29, Lincoln, and will uphold the affirmative side of the question.

Following the debate an open forum discussion will be conducted by the presiding officer, who will be announced later. In this discussion questions will be fired at the debaters by the audience in the form of a give-and-take rebuttal. In former years these forum discussions have been features of the debate and have had to be cut short on account of the numerous questions brought up by the audience.

Crocker Is Business Manager. Judd Crocker has been appointed business manager of the intercollegiate debate, and announces that tickets for the coming argumentative classic will be placed on sale Thursday.

Tickets will be sold at fifty cents each and groups desiring to reserve seats together may do so when purchasing their tickets. Tickets will be on sale at the College Book Store, Latsch Brothers, and the Student Activities office and may also be secured from students selling tickets.

The committee in charge of the ticket sales, composed of Wendell Cameron, Richard Brown, Eldred Larson, John Allison, Kenneth Cook, and Robert Hoagland, has appointed one member of every sorority and fraternity to take care of the ticket sales at each house.

BEGIN WORK ON AGRICULTURAL COLLEGE BUILDING

Let Contract For Students Activities Construction; To Be Completed September 15

Ground was broken for the erection of the new students activities buildings, at the Agricultural College campus, Thursday, March 11, and a large force of men is working on the basement.

The general contract for the new building was let by the Board of Regents to the Bickel Construction Co., for a base bid of \$93,453, to which \$900 is added for special acoustic materials in the auditorium. The structure is to be completed September 15, by the time school opens, and the site is west and slightly north of the present Home Economics building.

The structure will serve much the same purpose as the agricultural campus as the new field house on the city campus, but will be considerably smaller. It will be used for large gatherings, basketball, and social purposes. A number of rooms in the basement are especially fitted for social affairs.

The building will be of light pressed brick, like that used in the other new buildings on the agricultural campus.

RECEIVE REPORTS ON RIFLE MATCHES

Team Wins From Akron University But Loses To Ohio State; Lammli High Man

The University of Nebraska broke even last week in their matches with Ohio State and the University of Akron, losing to the former and winning from the latter.

The Nebraska ten-man team shot a score of 3,681, Lammli being high point man with 875. Ohio State, the winner, turned in a score of 3,760, while Nebraska just noosed out the University of Akron, which reported a score of 3,624. The other schools who had against Nebraska had not reported last night.

The Nebraska team is meeting three teams this week, the State University of Iowa, the University of Wyoming, and the University of

'The Nebraska Alumnus' Publishes Reply To Emmett Maun's Letter

The letter written by Emmett Maun on "The Inadequacy of My University" has gained considerable comment. Many individuals and papers have replied to this letter which was published in "The Nebraska Alumnus." In replying to Mr. Maun's letter, the Alumnus believes that the letter resolves itself about the question, "What Can the University Reasonably Be Expected to Do, for its Students?"

We believe the alumnus who wrote the letter last month is mistaken in his conception of "What Can a Man Reasonably Expect from His University?" largely because of three factors. 1. Failure on the part of secondary schools—grade and high schools—to clearly define the value of a higher education. 2. The conception the public generally has regarding the value of College education. 3. A failure on the part of some University instructors to explain and to make clear the problems which the student may expect to meet upon his graduation.

Regarding the third point, alumni generally will understand what is meant. In the press of the duty of teaching a particular course, some

instructors forget the importance of giving University students more than a mere knowledge of the subject matter of those courses. They sometimes fail to realize that students require an insight into the problems of life as well as a general knowledge of the subjects which they teach. Too often they fail to realize that education alone will not enable a man to meet the problems of life, that the best educated man may not be the man who has the most complete knowledge of mere facts.

"First, the writer of the letter contended that the University last spring 'turned loose' nearly a thousand and young men and women 'without a word of advice, with hearts honestly believing that the world needed them, with minds trained in methods of study, crammed full of history, philosophy, theory but absolutely untrained to meet the world and its problems.' We do not believe the author meant the words 'absolutely untrained' to meet the world and its problems' literally. No man who has gone to the University four years and has made any kind of a serious

LARGER SQUAD REPORTS FOR GRID PRACTICE

Bearg Sends Seven Teams Through Stiff Workout Tuesday

TO EMPHASIZE PASSING

Overhead Game Will Receive Generous Attention; Husker Coach Not Satisfied

The second spring football practice was held yesterday, and an increased number of candidates turned out. Coach Bearg was able to form about seven teams of warriors. Drill of the fundamentals was the main item on the program. The men passed the oval round to get loosened up. Skeleton teams were formed, and passing was drilled upon. Then a good signal drill was indulged in, the men perfecting a few good picked formations and plays.

The coach talked to the men before sending them, telling them of the importance of spring practice, and advising them to report as many nights as possible for workouts. The practice are being held on the field just south of the sod field in the stadium.

Coach Bearg said that a lot of passing practice will be done this spring. On last year's team no man took a major part in the aerial attack. Stephens, Mandery, Rhodes, Locke, Brown and Presnell all did some flipping. Brown probably showed up the best, doing especially well in the Notre Dame game, when he threw the pigskin twice to Avard Mandery for nice gains. He has not had much practice on long passes, however.

Passing Game Is Potent Force. The forward passing game is fast becoming a potent force with some teams. Dartmouth, in particular, in the last two years has relied greatly upon the overhead tactics. Their brilliant success in this department can be attributed chiefly to the accurate passing of Oberlander and very well-trained and reliable men on the receiving end.

Oberlander could place the oval in perfect position for an end or back going at a dead run, to snatch out of the air. They completed many long passes, which would enable them to score.

The Husker receivers were last season only ordinary, and Coach Bearg will devote considerable time to the development of art of pulling down the ball while going at top speed. This enables the receiver to elude the defensive backs with greater ease.

WRITE-UPS MUST BE IN THIS WEEK

Articles About Organizations Due at Cornhusker Office; Should Contain Future Plans.

A few organizations have not turned in their write-ups for the 1926 Cornhusker. This should be done this week. Write-ups may be left at the Cornhusker office, with the managing editor or editor.

The article should contain about two-hundred words, giving some of the history of the organization, its work and activities, and something of the future plans. The latter point should be stressed to conform with the theme of the book, The Cornhusker of the Future.

Presidents of the following organizations should see that a write-up is handed in at once:

- A. S. C. E., Delta Sigma Pi, Kappa Epsilon, Phi Delta Phi, Sigma Delta Chi, Alpha Kappa Psi, Alpha Zeta, Delta Sigma Rho, Gamma Epsilon Pi, Innocents, Iron Sphinx, Mortar Board, Pershing Rifles, Phi Sigma, Scabbar and Bluffs, Vikings, Band, Corn Cobs, Dramatic Club, Kindergarten Club, Komensky Club, Nu Keds, Pharmaceutical Society, Palladian, Sigma Lambda, Student Council, University Players, Quartette, Debate Teams, Stock Judging Teams.

WEATHER FORECAST

Wednesday: Generally fair; no decided change in temperature.

Weather Conditions

Clear, moderate, warm weather prevails in the Missouri valley, the Great Plains and the Rocky Mountain region. A center of low pressure and warmer weather appears in western Canada. There is an area of cloudiness with light scattered snowfall in the upper Mississippi valley, the Ohio valley and the Lake region. Fair and cool weather prevails in the southern and eastern states.

THOMAS A. BLAIR, Meteorologist.

St. Patrick's Day Celebration Calls for "Wearin' O' The Green"

Give every man his due! Today belongs to the Irishman! By the 'wearin' of the green' it is St. Patrick's Day!

Today is not the advent of Spring at Nebraska as the prevalence of green on the campus might lead one to believe. The arrival of this famous holiday is always the signal for a frantic search for the old green hat and tie and a rush on shamrock counters.

Little do the majority of these ardent St. Patrick enthusiasts know, however, about the origin and history of the day which they celebrate.

The seventeenth day of March is supposedly the date of the death of St. Patrick, renowned in Ireland as a great priest and performer of miracles.

The birthplace of this famous saint is not definitely known. Scotland, England, France and Wales all claiming to be his native soil. Scotland, however, is the country usually recognized by historians. That he was of a patrician family, his name implies. Born about 372, he was carried off by pirates at the age of 16 and was sold in Ireland where he

was employed as a swineherd in the well-known mountains of Slamish, county of Antrim. Seven years later, after having learned the customs, language and habits of the Irish, he escaped from captivity and succeeded in reaching the Continent.

Successively ordained deacon, priest and bishop, he returned to preach the Gospel to the heathen Irish. Then began the period of his life which, at his death, caused the Irish to set aside a holiday in commemoration of him.

Opposed by the native Druidical priests, who quite naturally resented any innovation on the part of a strange priest, St. Patrick was forced, contrary to his natural peace-loving disposition, to contrive means for his own safety. By the performance of great miracles, he attracted the people away from the Druid religion to faith in his own preaching. It is reported that he was finally forced to have the Druid priests, great magicians themselves, swallowed up by the earth.

The greatest miracle, however, and the one which all Irishmen love to

SHOW FILM TO ENGINEERS

Depicts Details In How Ore Is Mined Smelted and Turned Out

A film entitled "From Mine To Consumer" will be shown at a meeting of the N. E. S. in Room 110, Nebraska Hall, at 10 o'clock next Friday morning.

The film shows in detail how the ore is mined, then smelted and turned out into the various brass and copper products. A man from the American Brass Company, to which the film belongs, will accompany it and answer any questions and discuss any part of the process.

The film should be very interesting and all engineers are especially urged to attend.

HARRISON GIVES VESPER TALK

Subject of Address Is "Women's Responsibility In Abolishing War"

DISCUSSES CURE FOR WAR

Thomas Q. Harrison, secretary of the Fellowship of the World for Peace, spoke at Vespers Tuesday at 5 o'clock in Ellen Smith Hall on "Women's Responsibility in Abolishing War." Sylvia Lewis led the service and Inez Fossler played a violin solo.

Mr. Harrison stated a number of reasons why women tolerate war, which are because they do not know the real causes of war; because they do not understand the cures for war, because they do not realize the progress that the world has made in outlawing war, and because they do not realize the hatred of war and the longing of nations of the world for world fellowship.

"Women of the world," stated Mr. Harrison, "do not know that the real causes of war are conflicting economic conditions. You can trace the foreign policy of any nation by the one or more of the five or six necessary raw materials which they lack. During the war two-thirds of the world was distributing raw materials peacefully among themselves so why cannot all of the world do this peacefully now?" questioned the speaker.

In discussing the cures for war the speaker suggested that all of the disputes among the nations be brought before the world organization for that purpose and that arbitration of disputes be carried on in the open.

Must Outlaw War Between Nations. "We do not realize," asserted the speaker, "the enormous growth of the policy of outlawing war. We have outlawed war between cities, and now the only thing to do is to outlaw war between nations." Religion, cannot in another war uphold the principles of warfar nor can the churches bless war. A million men were killed at the front while three million were killed behind the front. We cannot carry on such a thing as war again between men who are all sons of God and brothers together and ask for the churches' blessings.

The speaker stressed the point that Americans did not realize the hatred of war and the longing of other nations of the world for fellowship. Recently the youth of Japan revolted against militarism which was especially shown in the recent examinations for two hundred posts in the army and navy. Instead of thousands of young men taking exami-

START WOMEN'S CAGE TOURNEY

Announce Tentative List Of Team Members and Schedule For Tournament

BEGIN GAMES THURSDAY

The Women's Athletic Association basketball tournament will start on Thursday, March 18, with a game between the Freshmen and Sophomores at four o'clock. The tentative teams have been announced, and all women having ten complete try-out practices, and all training-rules checked up to date, should be present at the games. Lists of those women who are eligible for class teams are posted on the W. A. A. bulletin board in west Armory.

The schedule for the tournament is as follows:

Thursday, March 18, Freshmen-Sophomore.

Friday, March 19, Junior-Senior.

Monday, March 22, Senior-Sophomore.

Tuesday, March 23, Freshmen-Senior.

Wednesday, March 24, Junior-Sophomore.

The permanent teams will be announced after the tournament. The team members as announced are:

- Freshmen: Bergstrasser, Bradstreet, Peterson, Eastabrooks, Hallgren, Frohm, Oliver, Kendall, Hall-Grau and Clayton.
- Sophomore: Platt, Otten, Lohmeier, Clark, Soukup, Olds, Benz, Kuncel, Ayres, Morehead, Snavelly.
- Junior: Safford, Hermanek, McDonald, Kidwell, Schuebel, Schlytner, West, Schrader, Chapman and Zorbaugh.
- Senior: Morris, Sturdevant, Dame, Wohlford, Pfeiffer, and Hymmer.

STUDENTS PETITION STATE LEGISLATURE

Georgia Undergraduates Want More Money Appropriated to Schools There.

(The New Student Service.)

Graduate students and members of the two upper classes at the University of Georgia moved to induce the State Legislature to appropriate more money for Georgia schools. They unanimously adopted a resolution to that effect and sent it to the lawmakers, now in special session.

Sent "without the suggestion or even cognizance" of any University official, the message pictures that University "starved through the lack of funds, hindered in the very worthwhile services it is trying to give—forced always backward and backward into a position of even greater inferiority as compared with the public supported institutions of other states."

Gently, the politicians are asked to put aside back-scratching and log-rolling, and give the university impartial attention: "Shall we tell you what people in Georgia are saying? They say that you are honest men. . . . But they are afraid! They are afraid, not of your good intentions. They are afraid that, here and there, personal feelings will be allowed to creep in. They are afraid that motives will develop less utterly unselfish and generous and statesmanlike than those which ought to dominate your deliberations. They are afraid that, among partisan and secondary issues, the fundamental issues will be strangled."

HARRISON TO BE FORUM SPEAKER

"Fellowship" Secretary Will Discuss Phase of Military Question

TICKETS ARE 25 CENTS

The military question will be discussed at the World Forum luncheon at the Grand Hotel Wednesday noon. Thomas Q. Harrison, secretary of the Fellowship of Youth for Peace, will discuss some phase of this question. He may possibly talk on the movement for voluntary drill in which he is interested.

Mr. Harrison is a graduate of Nebraska Wesleyan and has studied in the Boston Theological School. He discontinued his studies to tour the world. He planned a great world peace conference to be held in 1928 and organized youth against militarism.

Tickets for the luncheon are twenty-five cents and are on sale at the Y. M. C. A. office in The Temple, or at Ellen Smith Hall.

The series of discussions of "Progress" will be resumed the week following Mr. Harrison's address. Mrs. Hattie Plum Williams, of the sociology department, will speak on "Progress and Social Reform."

BAND FRATERNITY PLEDGES SIXTEEN

Gamma Lambda Pick Men For Ability; Will Initiate In Two Weeks

Sixteen men were recently pledged by the national professional band fraternity, Gamma Lambda. They were picked for their ability and eagerness to do band work. They will be initiated within the next two weeks. The pledges are:

- Abbott, Sawyer, '29, Genoa.
- Barnes, Rollins, '28, Omaha.
- Burdick, Howard L., '28, David City.
- Calhoun, F. Charles, '29, Pawnee City.
- Cass, Lyman P., '28, Ravenna.
- Conant, William S., '27, York.
- Detrick, Newman J., '29, York.
- Fisk, Charles N., '28, Denver, Colo.
- Freas, Carleton E., '28, Beaver City.
- Gallamore, Samuel E., '28, Fairbury.
- Janulewicz, Martin H., '28, Loup City.
- Magdanz, Elmer H., '27, Pierce.
- Olsen, Myron J., '28, Columbus.
- Ralston, J. Arthur, '29, Orleans.
- Swanson, Claire P., '28, Holdrege.
- Wilson, Francis E., '29, Lincoln.

To Change Honor System

Yale University has been forced to consider changes to be made in their honor system of examinations. The present system of student-conducted examinations has proved inadequate after a trial of more than 30 years.

Oberlin Richly Endowed
Oberlin college is now the most richly endowed "college" in the world. Its total endowment is well over \$13,000,000. There are only 10 "universities" in the world possessing larger endowments.

MOVEMENT FOR OPTIONAL DRILL BRINGS COMMENT

Acacia Passes Resolution Supporting Compulsory Military Training

HARRISON GIVES OPINION

Says Action Here Will Influence Further Development; Omaha Pastors Oppose It

The question of compulsory military training drew closer about the campus Tuesday. One fraternity issued a resolution. Thomas Q. Harrison of the Fellowship of Youth for Peace movement arrived for a speaking engagement of a few days. In Omaha the ministerial union passed a resolution. Chancellor Samuel Avery while having nothing further to say stood firm by his first statement in favor of the training.

The Acacia fraternity passed resolutions Monday evening supporting compulsory military training with only one dissenting vote in a membership of forty-three. The resolution passed almost unanimously, expressed the views of the fraternity members individually. It is given in entirety at the end of this story.

A resolution favoring abolition of compulsory military drill in state educational institutions was passed unanimously without debate at the weekly meeting of the Ministerial Union of Omaha. Mr. James A. Crain, executive secretary of the Union, introduced the resolution which said that military training "is contrary to the spirit of democracy and that it violates the conscience of those who do not believe in the program."

Thomas Q. Harrison, former Corporal Machine Gunner, Tank Corps, A. E. F., now secretary for the Fellowship of Youth for Peace, on his arrival in Lincoln yesterday, stated some of his views in an interview.

"In the United States, there is a growing protest of the average student in such Universities as Missouri, Ohio, and Iowa against the conscription principle," declared Mr. Harrison. "What happens at Nebraska will greatly influence developments for academic freedom at these institutions and will have mark-

(Continued To Page Four)

ENGINEERS TEST CONCRETE PIPES

Students Conduct Series of Experiments For the Department of Public Works

The Department of Applied Mechanics of the University has been conducting a series of tests of high-way culverts for the Department of Public Works of Nebraska. The tests are being conducted in the university laboratories, and are part of the regular work of the engineering students.

It has been the general feeling among engineers that the design of reinforced concrete pipes as used in highway construction in Nebraska would not produce pipe of the required strength. These series of tests were undertaken to determine just what strengths were being obtained.

Forty pipes varying in size from eighteen inches to forty-eight inches have already been tested. Five of these were of the flat-bottom D-shape and the rest were circular.

All of the circular pipes thus far tested except five, have been manufactured with a single line of reinforcing. All circular pipes are being tested by the three-edge bearing method, and deflections are being taken at each end, both vertically and horizontally, for each load movement.

A new series of pipes, with two lines of reinforcing, will be tested. Some of these pipes have been manufactured to show the effect of varying the shell thickness and others for the effect of varying the reinforcing. The tested pipes have been submitted by nine different manufacturers.

A summary of the results thus far obtained was issued at the recent meeting of the Concrete Institute in Chicago and also by Professor G. R. Chaburn when he attended the recent meeting in Chicago of Committee C6 of the A. S. T. M. on drain tile.

ENGINEERING PROFESSORS ILL

Three Members of Department Unable to Meet Their Classes

Professor V. L. Hollister, Professor O. E. Edison, and Professor H. S. Kinney, all of the engineering department, have been ill recently and unable to meet their classes.

Professor Hollister has been absent for the last three weeks because of his illness. Professor Edison is suffering with a recurrence of the flu, from which he had recently recovered.

ADD SIX NAMES TO A. W. S. LIST

Make Additions to Group of Nominees; Chose Board Members Soon

ALL WOMEN MAY VOTE

Six additional girls were named at the mass meeting yesterday in Ellen Smith Hall, preceding Vespers, to be added to the list of nominees already announced. The complete list, to be voted upon soon, is as follows:

- | President |
|--|
| Doris Pinkerton, Omaha |
| Margaret Dunlap, Twin Falls, Ida. |
| Senior Members |
| Helen Aach, Lincoln |
| Alice Cook, Randolph |
| Pearl Diller, Exeter |
| Viola Forsell, Omaha |
| Kathoro Kidwell, Lincoln |
| Sylvia Lewis, Lincoln |
| Eloise MacAhan, Lincoln |
| Katherine McWhinnie, Lincoln |
| Junior Members |
| Helen Anderson, Lincoln |
| Ruth Barker, Hot Springs, S. D. |
| Mary Louise Freeman, Lincoln |
| Helen Van Gilder, Hastings |
| Kate Goldstein, Omaha |
| Orrel Rose Jack, Tekamah |
| Eloise Keefer, Lincoln |
| Sophomore Members |
| Audrey Benles, Blair |
| Ruth Creeley, Blair |
| Katherine Douglas, Omaha |
| Geraldine Heikes, Dakota City |
| Laura Margaret Raines, Marysville, Mo. |
| Julia Rider, Lincoln |
| Vera Stephenson, Aurora |
- All women regularly registered in the University are members of Associated Women Students, and are entitled to a vote in the coming election, the date of which will be announced through the Daily Nebraskan.
- The senior member receiving the highest number of votes automatically becomes vice-president of the Board; the junior member with the highest number of votes, secretary; and the high sophomore member treasurer. The president of the Big Sister Board automatically becomes a member of the board.

Students 'Bootleg' Through College
A student commission of the University of Michigan reports that several students are bootlegging their way through college at Michigan. The same report stated that campus drinking was on the decline there.

Give Buttermilk to Students
Students in the University of Wisconsin may go to the building of the dairy school at any time during the day and drink as many glasses of buttermilk as they desire, free.

The budget of Columbia University exceeding \$10,000,000, is larger than that of ten of the states.

Seniors Will Meet To Elect Officers Today

The Senior class will meet today at 2 o'clock in Social Science 107 for the election of officers and a general business session.
