

## EXPECT RECORDS AT K. U. RELAYS

Locke, Husker Sprinter Looked To For New Record in 100-Yard Dash

### MEET TO BE APRIL 17

LAWRENCE, Kas., March 27.—Three potential world record makers will appear in the fourth annual Kansas Relays April 17 in three of the nine special events, to say nothing of the possibilities of marks falling before the efforts of relay teams in fifteen different races.

John Kuck, weight star of the Kansas State Teachers of Emporia, is the coming shot put king of the colleges from all indications, and he will get his first outdoor competition of this year at the Kansas games. Kuck broke the indoor record for putting the shot this winter with a heave of 50 feet 6 inches, but this mark was bettered by Schwarze, giant weightman of Wisconsin University. However, Schwarze will not be competing in collegiate meets this season and Kuck easily appears to be the class of the collegians in the event. According to Coach Bill Wargiss, Kuck has been tossing the shot about 52 feet in practice, which means a new world record if he can do it in competition.

Roland Locke, of the University of Nebraska, in the 100 yard dash is expected to tie or break the world mark in this event this season. Twice last year he was timed in 9.8 seconds but due to wind at his back he did not get the records. We will have some classy dash men from the Missouri Valley and the Western Conference as well as from southern, far western and eastern conferences to push him in the Kansas Relays so he may be able to do the expected and hang up a new figure.

**Weir Will Run Hurdles**

K. C. Werner of the University of Illinois is expected to compete at the Kansas games in the high hurdles although definite word that he will do so has not been had. He has been a consistent high class performer indoors this season, making a new world indoor record for the 60 yard highs in one meet and equalling the world record for the 75 yard high hurdles in another meet. Among other hurdlers who will meet with Werner at the Kansas Relays is Ed Weir, great all-around athlete of the University of Nebraska. He will be defending his Kansas Relays high hurdle record of 15 seconds.

With the Kansas meet only some three weeks off, athletes in all sections of the country which send entries to Kansas are getting in regular outdoor workouts and the early spring which has prevailed throughout the country will mean a crop of athletes in excellent shape for their initial outdoor test.

Gov. Ben Paulen of Kansas and his staff will see the fourth annual Kansas Relays in the University of Kansas Memorial Stadium at Lawrence, Kansas, April 17. Governor Paulen saw the relays last year and declared his intentions of seeing them regularly hereafter.

**Awards Scholarship**

The Social Science Research council at the University of Wisconsin awards fifteen scholarships annually, which are financed by the Laura Spellman Rockefeller memorial fund for the purpose of promoting scientific research in the field of social sciences, including anthropology and economics.

## Grid Candidates Are Divided Into Groups

(Continued From Page One)

only two centers out for practice, and as they were both on the same squad, Morrison was shifted to the Red team for the scrimmage.

The scrimmage took the form of a regular game, with the Whites kicking off. In the line for the Reds were Morrison, Nimmo, Whitmore, Byrnes, M. Grow, Holm and Praesnell. The backfield was Bronson, calling the signals, Beck and Schram at halfbacks, and Howell fullback. The Whites lined up with Zuver for center, Drath and McMullen at guards, Hunt and Brand tackles, and Lee and Jolley on the wings.

The White ball carriers were DuTeau quarterback, Swartz and Andrews halves, and Grace at fullback. For quite a period neither team could make any noticeable gains, and a punting duel ensued between Bronson and Lee, with Bronson having the edge. The Reds worked the ball up to about the opposing thirty yard line, where they lost it on downs. The Whites attempted a forward pass and Howell snatched the oval out of the air and raced for a touchdown. He had perfect interference, and although DuTeau, the safety man spilled most of the interference, he could not grasp Howell. Howell missed the try for point.

**Whites Make Touchdown.**

Immediately after that the Whites got started. They worked the ball down the field on straight plays, Andrews lugging the ball. He looked very good, with a twisting drive that netted yard after yard when it looked as if he had been downed. At about the four yard line the Whites were stopped in their drive. DuTeau attempted to sneak through center and it seemed as though he had made it, when Howell, backing up the line met him head on with a punishing tackle which drove the White man back.

The Whites again drove down the field. Andrews was again carrying the ball for good gains and the line was working together very well, making holes and spilling interference. They finally put the ball over the goal, Andrews going off left tackle. A clever play was used to make the extra point. Busby was back at drop kick formation. When the ball was snapped, Lee blocked the Red end very prettily, and Busby raced around the flank with a clear field.

**Holm Shows Up Well.**

The outstanding players of yesterday's practice were Andrews, halfback; Morrison, center and Lee, end. Morrison time and again stopped the White ball carriers in their attempts through the center. Lee is full of fight, fast and a clever player.

In Friday's practice supervised scrimmage was held. Each man was shown his faults by the coaches after each play so that he could improve his work. Elmer Holm, Omaha Tech player showed very well in this practice. He has been playing end, and last fall played that position on the freshman team. He was shifted to the backfield, and did some very nice playing. He is adept at blocking men out of the interference, and seems to be a very likely prospect. Saturday, however, he was handicapped with a "charley-horse", and was only able to scrimmage a few minutes.

## NAME COMMERCIAL CLUB COMMITTEES

Plans Under Way For Annual Bizz Day; Initiation Will Be Held Early in April

At a meeting of the Commercial Club Thursday the following committees were named: Faculty Advisory committee: chairman, Dean Le-Rossignol, Professors Martin, Spangler, Grether and Kirschman. Chairman of all committees, Lloyd Wagner. Initiation committee, Paul Van Valkenburgh, McGrew Harris, Walter Cronk, and Harold Zinnicker. Monthly dinners: Richard Brown, Roy Pitzer, and Paul Woolwine. Bizz Day, Melvin Kern, Jared Warner, Gordon Luikhart, Richard Brown, Ruby Jorgenson, Erwin Domeier. Publicity, Howard Ahamson, Victor Brink, and George Brinkworth.

The next meeting of the club will be held next Thursday in the club rooms at which time committees will make reports.

The club plans to hold an initiation, probably the second week in April, at which time an opportunity will be given the freshmen and other non-members of the club to join the organization. Plans are already under way for the annual Bizz Day, which will be held early in May. This traditional day is one of the great events of the year in the Bizz college.

## PROFESSORS BACK FROM CONVENTION

A. A. Reed and H. G. James Represent Nebraska at North-Central Meeting

(University News Service)

Prof. A. A. Reed, director of the University Extension division and Dean H. G. James of the College of Arts and Sciences, attended the annual meeting of the North-Central Association of School and Colleges at Chicago, March 16 to 20. Professor Reed reports that with the admission of 130 new schools, the association now has 1966 high school members and about 200 colleges and universities.

A resolution urging all colleges and universities to redefine admission requirements on the basis of senior high schools was passed by the association. The requirements at the University of Nebraska were revised recently in accordance with this plan. A subject of serious consideration was the matter of improper use of

athletic funds at some universities. To find, if possible, a relation between failures in college and preparation in high school, the association has been making a study over a period of years. The research has progressed far enough, says Professor Reed, to permit preliminary study of the data.

A committee is working on a re-definition of the quantitative and qualitative requirements of the high school courses.

## STUDENTS IGNORE ATHEIST SOCIETY

University of Rochester Newspaper Displeased With Formation Of Organization

(New Student Service)

"Damned Souls" was what thirteen students from the University of Rochester (N. Y.) called themselves, when they organized to "prove the necessity of atheism." If atheists go to hell, these certainly were quickly welcomed there. The Society for the Promotion of Atheism opened up its arms. The Campus, student paper of the university, threw up its arms. Quickly it sought to forestall the unfavorable publicity: "The Campus takes this opportunity to reflect student opinion as being displeased with the whole affair and repudiating the group's official connection in any way with the student body of Rochester."

The fatherly New York Times said

with lofty objectivity in a spirit of lightness:

"These thirteen students must have been a little cast down by the refusal of the university authorities to interfere with their glorious project. While in Massachusetts they attempt to prosecute a man for blasphemy, at Rochester they have learned the wiser course of simply ignoring him. Let youth have its fling. Time and experience will sober it out all too soon."

"Obviously the best way to deal with these high-spirited young people at Rochester who fancy they are atheists is to let them alone. Given a free hand and especially a free tongue, they will quickly bore each other to distraction, or else provoke a revolt and the formation of two or three belligerent societies."

Meanwhile Jehovah, whether myth or actuality, was still more fatherly than the New York Times. He has not reported even to have talked about dealing with anybody at all.

## TO HOLD CIVIL SERVICE TESTS

Applications Will Be Received For Junior Chemist Before May 1

The United States Civil Service commission announces the following open competitive examination: Junior Chemist.

Receipt of applications for junior chemist will close May 1. The date for assembling of competitors will be stated on the admission cards sent applicants after the close of receipt

of applications.

The examination is to fill vacancies in the Federal classified service throughout the United States, including the Departmental Service, Washington, D. C., and the Forest Products Laboratory of the Forest Service, Madison, Wis.

The entrance salary in the District of Columbia is \$1,860 a year. After the probational period required by the civil service act and rules advancement in pay without material change in duties may be made to higher rates within the pay range for the grade, up to a maximum of \$2,400 a year. Promotion to higher grades may be made in accordance with the civil service rules as vacancies occur.

Examination will be given in the optional subjects of advanced inorganic chemistry, analytical chemistry, organic chemistry, and physical chemistry.

Competitors will be rated on general chemistry, elementary physics, and the optional subject chosen.

The work of the chemical bureaus in Washington, D. C., covers a wide field embracing chemistry, chemical engineering, and industrial technology, and many problems arise in connection with the work of standardization, regulation, and investigative research, offering splendid opportunity for valuable experience in the lines referred to.

The chemical work of the Forest Products Laboratory at Madison, Wis., includes investigations and re-

search of all kinds connected with the technology of wood products, including wood preservation and hydrolysis. The chances for advancement in the Forest Products Laboratory are good for those who prove capable, and here also experience is considered excellent training for scientific work in industrial research.

Full information and application blanks may be obtained from the United States Civil Service Commission, Washington, D. C., or the secretary of the board of U. S. civil-service examiners at the post office or customhouse in any city.
