

## ENGINEERS HEAR PLANS FOR TRIP OF INSPECTION

### Men Meet To Make Arrangements, And For Final Instructions

## FIFTY STUDENTS GOING

### Will Leave Sunday Afternoon For Chicago; Itinerary To Be Ready Thursday

The fifty engineers who are going to make the inspection trip to Chicago held the final preliminary meeting yesterday afternoon. The itinerary has not been printed yet but will be ready Thursday. The train will leave Lincoln at 4:40 Sunday afternoon and will be in Chicago Monday morning.

Professor H. J. Kesner, chairman of the committee in charge of the trip, announced that a report of the trip is expected from each student. The reports will be in narrative style, about 2,000 words in length, and will be due no later than May 15.

Professor Kesner impressed upon the men that the trip is primarily for business and that everything should be carefully observed. A serious and business-like attitude is expected from the men. The importance of being on time in making the small trips around Chicago was also stressed by Professor Kesner.

Says Benefits Well-Worth the Cost. In the opinion of the chairman of the trip the benefits derived from the visiting of the large plants is well-worth the cost of the trip. The fact that the plants which are visited assume no responsibility for accidents was mentioned by Professor Kesner.

Professor O. W. Sjogren, member of the committee in charge, stressed the importance of making a good impression on the companies in Chicago. The trip is for the purpose of getting jobs for the students and Chicago is the nearest large center. Professor Sjogren also declared that the University of Nebraska is competing with other nearby schools because all send their engineers to Chicago for inspection trips.

The impression that is made by the representatives of Nebraska will either secure jobs for Nebraska graduates or cast reflections upon the school, was Professor Sjogren's warning. The importance of being courteous to the employees of the plants that are visited was stressed. The managers of the plants are inconveniencing themselves for the students and the students should show appreciation of the courtesy extended them.

In regard to taking pictures in the places visited Professor F. W. Norris warned the men that usually no plants permitted snapshots to be taken of their equipment.

## LET CONTRACT FOR NEW CONSTRUCTION

### Morrill Hall Will Be Built By Bickel Construction Company for \$224,890

The contract of Morrill Hall, Nebraska's next building on the program of its campus extension campaign, was let to the Bickel Construction Company of Lincoln, for the low bid of \$224,890. This company also holds the contract for the Agricultural College buildings. Some of the options were not named in the contract furnished by the Bickel Company but it is expected they will be incorporated in the contract by the end of the week.

Morrill Hall, which is to be built as a memorial to Charles H. Morrill of Stromsburg, Nebraska, in view of the fact of his great contributions to the Nebraska Museum, will be a three story affair with a basement. It is to be built at the corner of 15th and U, and will have the same style of architecture as Essey Hall, and will be larger. The building will be the home of the Nebraska Museum, the School of Fine Arts and the geology department.

Excavation for the building began Tuesday morning. The contract states that the building should be done by February 1, 1927. Chancellor Avery estimates that the building will cost near \$300,000, including all extra fees.

## WOAW To Broadcast Historical Pageant

Chancellor Avery has received a letter from the Woodmen of the World of Omaha announcing that a historical pageant, "America," will be broadcast from Radio Station WOAW on Saturday, April 3. The program will begin at 8 o'clock Saturday evening and will continue for approximately eight hours.

## VOTE FOR MAY QUEEN TODAY

### Polls Are in Library; Identity of Winners Will Be Kept Secret

The May Queen will be elected by senior women today at the Library where the voting booth will be open from 9 o'clock in the morning until 5 in the evening. A list of the names of the senior women will be posted, and each senior may vote for one woman for the office. The polls will be in charge of Silver Serpents, honorary organization of junior women.

The woman who receives the most votes will be the May Queen and the one who receives the second highest number will be Maid of Honor. The identity of the May Queen will be kept secret until Ivy Day when she will be crowned by her Maid of Honor. All senior women are eligible to vote.

## G. B. SMITH TO LECTURE HERE

### Chicago University Professor Will Speak on "Religion and Modern Life"

Professor Kesner impressed upon the men that the trip is primarily for business and that everything should be carefully observed. A serious and business-like attitude is expected from the men. The importance of being on time in making the small trips around Chicago was also stressed by Professor Kesner.

Says Benefits Well-Worth the Cost. In the opinion of the chairman of the trip the benefits derived from the visiting of the large plants is well-worth the cost of the trip. The fact that the plants which are visited assume no responsibility for accidents was mentioned by Professor Kesner.

Professor O. W. Sjogren, member of the committee in charge, stressed the importance of making a good impression on the companies in Chicago. The trip is for the purpose of getting jobs for the students and Chicago is the nearest large center. Professor Sjogren also declared that the University of Nebraska is competing with other nearby schools because all send their engineers to Chicago for inspection trips.

The impression that is made by the representatives of Nebraska will either secure jobs for Nebraska graduates or cast reflections upon the school, was Professor Sjogren's warning. The importance of being courteous to the employees of the plants that are visited was stressed. The managers of the plants are inconveniencing themselves for the students and the students should show appreciation of the courtesy extended them.

In regard to taking pictures in the places visited Professor F. W. Norris warned the men that usually no plants permitted snapshots to be taken of their equipment.

## FAIR BOARD WILL ISSUE GUIDE BOOK

### Official Announcements For Annual Farmers' Frolic Available Third Week In April

The Guide Book, the official announcement of Farmers' Fair to the students and public in general, will be issued the third week in April.

The Guide Book gives the program of the day, which includes the time and place of every attraction and the Pageant program. It also contains write-ups telling of the Educational Exhibits which are one of the big features of the day, advertisements by the leading merchants of Lincoln, and short accounts of all the other attractions.

The names of the Farmers' Fair Board, the Faculty Advisory Board, and the chairmen and names of the students of every committee will be in the Guide Book.

Four guide books have been published in the past and each year the book has been an improvement over the previous one. The Guide Book this year will contain twenty pages, which is eight more than last year. The attractions will have longer descriptions than usual, and several other changes will be made which the committee hopes will make it the largest and best ever printed. Copies will be distributed at the Agricultural College campus, and on the main campus where all will have a chance to see it. The committee in charge of the Guide Book is Arthur Hauke, Chairman; Lillian Leitner, Alice Klein, and Don Bell.

### WEATHER FORECAST

Wednesday: Mostly cloudy; not much change in temperature. Weather Conditions.

The southern storm center has moved to Texas, attended by rain or snow in the southern Mountain region, the southern plains, the lower Missouri valley, the middle and lower Mississippi valley, and the southeastern states. Heavy snow has fallen in southern and eastern Kansas, Oklahoma and northern Texas. Temperatures have risen somewhat in the northern Mountain region and the upper Missouri and upper Mississippi valleys, but continue below normal for the season.

THOMAS A. BLAIR, Meteorologist.

## Glee Club Which Starts Tour This Week

Courtesy Lincoln Star.

Top row, left to right; Raymond Lewis, R. A. Krause, Carl Olson, Irving Changstrom, Ernest Carlson, Francis Obert.

Second row; Wallace Banta, Lawrence Smith, Paul Morrow, William Damme, Kenneth Cook, Ed Hays.

Third row; Charles Pierpont, Arthur Schroeder, John McDaniels, Charles Johnson, John Culver, Arnold Strom, Wendell Dodd.

Fourth row; John Schroyer, Ivan McCormick, Wallace Nelson, Marshall Neiley, Paul Woolwine, Aldrich Hanicke, Paul James, James Shane.

The Glee Club, under the direction of Parvin T. Wittee, will make a tour of ten Nebraska towns between April 2 and April 11. They will also stop at Sioux City, Iowa.

## PRIZE JERSEY IN UNI HERD

### Completed Test Shows Loretta Lincoln Holds State 305-Day Record

## THREE OTHERS TESTED

The dairy husbandry department at the College of Agriculture, University of Nebraska has just completed a test on Loretta Lincoln, one of the Jersey cows, that established the highest 305-day record that has ever been made in this state. Loretta Lincoln started on test at eight years of age and in the following 305 days she produced 483.87 pounds of butterfat and 8,220 pounds of milk. She was with calf for 204 days of this time, qualifying in class AAA. Jerseys in the University herd now hold three 305-day test records.

At the age of 6 years Loretta Lincoln produced 526.43 pounds of butterfat and entered the Register of Merit at that time. According to E. N. Hansen, instructor in the department of dairy husbandry, a test of a good dairy cow is her inherited ability to produce well over a long period of years.

The sire of Loretta Lincoln is Purdy Lincoln, a foundation Jersey bull of the University herd. His six daughters averaged 9,761.2 pounds of milk and 497.64 pounds of butterfat for a year. The dams of these six cows averaged 8,842 pounds of milk and 440.84 pounds of fat, showing an increase of 919 pounds of milk and 56.8 pounds of fat per daughter.

Other Cows Hold Records. Another Jersey herd sire, Golden Shylack, has thirteen daughters in the University herd that show an average increase in production over their mothers to the extent of 1589.4 pounds of milk and 93.88 pounds of butterfat per year. One of the daughters, Reba Lincoln, recently completed a year's record of 13,420 pounds of milk and 675 pounds of butterfat at the age of 12 years and 7 months. This record makes her the highest producing aged cow in the state. Her half-sister, Ula Lincoln, also sired by Golden Shylack and bred and owned by the University of Nebraska, has the splendid record of 14,880 pounds of milk and 815.22 pounds of butterfat produced at the age of 11 years and one month which is another state record that won her the coveted gold medal award by the American Jersey Cattle Club. The best record of this cow's dam was 509.75 pounds of fat which the daughter bettered by 305.47 pounds. This record emphasizes the importance of carefully-selected sires in order to raise the standards of the herd, as the average production of the ordinary herd can usually be raised by the use of better sires.

Lammali, who has led the list of high scorers almost every week, has the high-point average for the season, nosing out Shafer by a margin of slightly over two points. The eight scores, and their averages for the season follow:

Lammali, 376.56.  
Shafer, 374.32.  
Currier, 372.  
Otradorsky, 370.61  
Madsen, 368.73.  
Skinner, 368.23.  
Kossek, 366.92.  
Plotts, 366.73.

## REES WILL MEET ENGINEERS

### To Confer With Any Interested In Regard To Employment

Colonel R. I. Rees, New York City, Assistant Vice-President of the American Bell Telephone and Telegraph Company, will confer with senior mechanical and electrical engineers, and any others interested, in regard to future employment. He will be at Room 104, Electrical Engineering building, at one o'clock Wednesday afternoon.

Colonel Rees is a man of eminence in the field of engineering and is held in high regard by engineers throughout the country. All seniors are urged by Dean O. J. Ferguson to talk with Colonel Rees.

## Announce New Members Of Phi Beta Kappa At Convocation Thursday

New members of Phi Beta Kappa, honorary scholastic society for students in Arts and Science college, will be elected at a meeting Wednesday noon and will be announced at convocation on Thursday morning at 11 o'clock at the Temple.

The University String Orchestra under the direction of Mr. Paul Thomas, instructor in the School of Fine Arts, will present the following numbers:

Vivadi: Allegro Moderato from Concerto in a minor.  
Bach: Air from D major Suite.  
Bach: Prelude No. 20 in A minor.  
Wagner: Lohengrin Vorspiel.  
Grieg: Spring.  
Grieg: In Der Heimath.  
Grainger: Mock Morris.  
The program will not be repeated on Sunday of this week since many of the churches will be having Easter services.

## MARKSMEN WIN IN FINAL MEET

### Rifle Team Has Successful Season With Twenty-One Wins, Twelve Losses

## LAMMALI IS HIGH MAN

The University rifle team ended the season last week with the best score of the season, 3707, defeating six of their eight opponents. The Missouri marksmen, turning in a remarkable team score of 3933, were the only squad to hand Nebraska a defeat, although Iowa State College, at Ames, had not been heard from last night.

The team's record for the season show twenty-one wins, twelve losses, one tie, and one match undecided. Captain Eggers, who is just finishing his third year in charge of the rifle team, expressed himself as being well pleased with the showing of the team. He will have charge of the range when the 1926-1927 season starts next fall.

Lammali, who has led the list of high scorers almost every week, has the high-point average for the season, nosing out Shafer by a margin of slightly over two points. The eight scores, and their averages for the season follow:

Lammali, 376.56.  
Shafer, 374.32.  
Currier, 372.  
Otradorsky, 370.61  
Madsen, 368.73.  
Skinner, 368.23.  
Kossek, 366.92.  
Plotts, 366.73.

## WILL HOLD SECOND PARADE

### Companies Assemble At 5 O'clock Today For Military Practice

The second parade of the entire military department will be held this afternoon on the drill field. The companies will assemble at 5 o'clock. The military department is trying a new system this year, holding parades on different days of the week. The first parade was on Thursday, and this one on Wednesday. In this manner it is hoped that some of the men who could not attend a single practice affair last season because of conflicts, will have an opportunity to attend some of them this year. The date of the third parade will be announced shortly after vacation.

## CONVOCAION AT AG COLLEGE

### Will Make Further Plans Thursday Morning For Annual Farmers' Fair

## IS LARGEST IN AMERICA

The convocation which will be held Thursday morning, April 1, at 11 o'clock, in the auditorium at the Agricultural College will be to further plans and instill more pep into the students about Farmers' Fair. Dean E. A. Burnett will preside over the meeting. Prof. H. J. Gramlich and Miss Edna Benson will be the main speakers.

The Farmers' Fair at the Agricultural College is the largest student event of its kind in America, it was learned today after compiling the statistics of other similar events at the various Agricultural Colleges. The Nebraska Ag College Farmers' Fair drew an estimated attendance of over 30,000 visitors for the last three fairs or an average of over 10,000 for each year. The fair of 1924 drew over 15,000 people for the day, a record which no other farmers' fair even approaches. The fair of the year before brought out a crowd of 8,000, and last year's fair approached the 7,000 mark although threatening weather was on hand during the entire day.

## Missouri Fair Is Oldest

The Farmers' fair at the Missouri Agricultural College is the oldest such event in the country, yet in size, it has been surpassed by the one held at the Nebraska College of Agriculture. Missouri's attendance figures for the past three years are considerably below those at Nebraska. Their banner year was in 1923 when they had an attendance of 12,000 people, according to figures as given in the College Farmer, the Missouri Ag College publication.

The student's fair at the Ames institution is of three days duration, yet its total attendance, according to J. R. Redditt, a former student at that place and now of the Nebraska College of Agriculture Poultry Department, is below that attained at the Nebraska Ag students event. The figures for the Ames event run up to the 12,000 mark. Other institutions where a farmers' fair is held show that their event is older than the one held at Nebraska but none indicates as impressive records, or a fair as large.

## Plants Collected By Hanson Are Described

The March number of the University of Wyoming Publications in Science contains descriptions of nine new species of plants collected in Arizona by Dr. Herbert C. Hansen of the Department of Botany. Two of the species, Penstemon Hansonii and Machaeranthera Hansonii were named in his honor. Of the several hundred specimens now collected in Arizona by Dr. Hanson, twenty or more were new to science.

## Article By Compton In "The Step Ladder"

An article by Miss Nellie Jane Compton, a member of the staff of the University Library, appeared in the last issue of "The Step Ladder," a publication issued by the Booklovers, a national organization of booklovers and writers. Miss Compton's article is entitled "Old and New."

## DISTRIBUTE APRIL AWGWAN

### Booster's Number Contains Satire On Organizations

The April issue of the Awgwan will be distributed today.

This is the Booster's number and contains a special feature cartoon by Knudsen. A number of new cartoonists have been added to the staff for this issue.

The subject matter is mostly satire on local social organizations. "Captain of His Soul," a feature story by Tucker is one of the outstanding numbers in the book this time.

## MANY COMMENTS ON TOURNAMENT

### Principals Of Omaha High Schools Give Reasons For Withdrawal

## SAY IT IS A PRECAUTION

Acting Athletic Director Herbert Gish returned to Lincoln Tuesday afternoon but was not ready to make any statement concerning the withdrawal of the Omaha high schools from the 1927 State Basketball tournament.

Mr. Gish had been in Manhattan, Kans., visiting relatives and varied reports had reached Lincoln as to whether or not he would go to Omaha to try to straighten the matter out. Upon his return to Lincoln he said that he knew very little of the affair and that he was going to "see what it was all about" before he made any decision.

In the meantime "social conditions connected with the tournament which had become unwieldy," the charge made by the Omaha principals when they withdrew, was traced to one alleged drinking party in which seven Omaha high school girls, (four from Tech, two from Central, and one from a private school), and seven youths participated, in a single room at the Lincoln hotel.

### Give Personal Stands.

Two of the Omaha principals gave their personal stands Monday afternoon, giving reasons for their actions.

Principal Dwight E. Porter of Omaha Technical High School said, "So far as the four Technical High students are concerned it was more a case of sinned against than sinning. We took the withdrawal steps more as a precaution than anything else. Technical High school will not be back in the tournament until we are

(Continued To Page Four)

## RICE IS FORUM SPEAKER TODAY

### Series on "Progress" to be Concluded With Address on "Individual In Progress"

"The Individual in Progress," the sixth and last address in the series of talks on subject of "Progress" will be discussed at the World Forum luncheon at the Grand Hotel this noon by Prof. J. A. Rice.

The preceding talks on the subject have been:

"The Idea of Progress," by Prof. J. O. Hertler.

"Science and Progress," by Prof. H. G. Deming.

"Progress and Business," by Mr. G. J. Fee.

"Religion and Progress," by Rev. Ervine Inglis.

"Social Reform and Progress," by Dr. Hattie Plum Williams.

The lecture this noon concludes the series. A second series will be started following the spring vacation. Tickets are still available for twenty-five cents at the Temple and Ellen Smith Hall.

## Awgwan Applications

Applications for appointment to the two positions of assistant business manager of the Awgwan will be received until noon Thursday, April 1.

Application blanks may be got at the office of the chairman (University Hall 104) and of Secretary J. K. Selleck (Student Activities Office).

Candidates are requested to submit, in as concise form as may be, evidence as to their qualifications for discharging the duties of the positions for which they apply. Candidates will give all the information called for on the application blank.

M. M. FOGG, Chairman, Student Publication Board

## OPTIONAL DRILL BACKERS WILL HOLD MEETING

### Explain Campaigning to Those Interested in Passing Out Petitions

## TICKETS NOW ON SALE

### Is First Campus Move Against R. O. T. C. Unit; Defenders Of It Have Monopolized Stage

The big guns of the agitation against military training at the University of Nebraska will be wheeled into place Thursday noon at a luncheon at the Grand hotel when campaign methods will be explained to "those actually interested in passing out petitions in their home communities during spring vacations." It is announced that the meeting will be a business session from start to finish.

A committee of eight, six of them girls, are selling tickets for the luncheon at 25 cents. The tickets can also be bought at the door.

This is the first actual campus move in the drive against the R. O. T. C. unit. For two weeks, since the speaking engagement of Thomas Q. Harrison of the League of Youth for Peace, the defenders of military training have more or less monopolized the stage.

### Cosmopolitan Club Approves Drill

Another formal approval of compulsory military training Tuesday noon this time by the Cosmopolitan club of Lincoln, was the latest counter move by the defenders of the R. O. T. C. The club unanimously approved the training following a speech by Colonel Jewett who explained the organization of the National Defense and the function of the R. O. T. C. with the other components.

That portion of Attorney Sorenson's article in the New State, reprinted Friday in the Daily Nebraskan which stated that twenty-one universities have elective R. O. T. C. and that Nebraska could do likewise drew the fire of University executives and the military department in particular. The fact of the matter is, they say, that among schools of the same category as Nebraska, (land-grant colleges) only one (Wisconsin) has made the drill optional. All the others have stood strong for the compulsory feature, and at the last meeting of the land-grant college executives, resolutions were adopted urging the federal government to strengthen and expand the R. O. T. C.

The schools which have optional R. O. T. C. are under an entirely different classification and the distinction has been kept in practically all legislation on the matter. The optional units were adopted in most cases after the present R. O. T. C. system was established, and the schools did not have any previous contracts or obligations to the government.

## PASSION SERVICE HELD AT VESPER

### Read Story Of Last Week of Jesus At the Closing of the Lenten Season Series

The Passion Service, and annual Lenten season service at Vespers, was held at Ellen Smith Hall Tuesday evening at 5 o'clock.

Elsie Gramlich read the story of the Passion and Resurrection of Jesus from "His Last Week" a devotional study of the last week in our Lord's earthly life in the words of the four evangelists. This traced the agony of Gethsemane, the betrayal and arrest, the trial before the Jewish Authorities, the denial of Peter, the remorse of Judas, the trial before Pilate, and finally the crucifixion.

"The Reproaches," an ancient devotion of the church, setting forth in figures drawn from Hebrew history a recital of God's love and man's ingratitude, was sung by Mary Ball, assisted by the Vesper choir. Blanche and Constance Stevens sang a duet in harmony with the Lenten Mediation.

This was the last of a group of services arranged by the Vesper committee for the Lenten season.

## Herbert Brownell Receives Honor

Herbert Brownell, Jr., former student and graduate at the University of Nebraska, and the son of Professor and Mrs. Herbert Brownell, has been made editor of the Yale Law Journal, according to a statement printed by the Yale Daily News, issue of March 21. Mr. Brownell is attending Yale Law School.
