WEATRER FORECAST

Wednesday: Fair with rising emperature.

Weather Conditions

Another storm area over the upper Mississippi valley followed by high pressure over the northern Mountain region is causing clear cool weather with moderate to strong dry northerly winds over the Missouri valley and the Great Plains. It is raining in the upper Mississippi valley and the upper Lage region, and there has been light rain in Colorado and Wyoming. Temperatures are below freezing in North Dakota, Northern Montana and adjacent portions of Canada and are mostly below normal in the Missouri valley and the eastern half of the country.
