

HUSKERS FACE STRONG TEAMS AT MANHATTAN

Triangular Track Meet with K. U. and Kaggies Is No Set-Up

AGGIES MOST DANGEROUS

Schulte Taking Every Available Man; Team Leaves by Bus This Afternoon

Coach Schulte, Trainer McLean, Student Manager Wilson, and twenty-two Cornhusker track men will leave by motor bus this afternoon for Manhattan, Kansas, to engage in what Schulte expects to be one of the toughest meets for Nebraska this year, when they tangle in a triangular meet with Kansas University and the Kansas Aggies Friday afternoon.

Coach Bachman of the Kaggies has some strong material, running the Huskers a close second at the Valley indoor. He told Schulte that he was going to give him a mighty tough meet. So Schulte is taking every man that might scrape in a point.

Hein's Leg Still Bothering

Bill Hein is still suffering from injuries to his leg sustained in the mud at the Drake Relays and will not participate. This will leave only Locke to handle the sprints. Locke's work can be depended upon, but the loss of Hein cuts into possible extra sprint points.

The men making the trip are: Locke, Wyatt, Davenport, Dailey, Lewis, Roberts, Johnson, Ross, Searles, Zimmerman, Ed Weir, Reese, Leffler, Wirsing, Rhodes, Stevens, Paige, J. Weir, Pospisil, Kriemelmeier, Steiner, and Almy. The team will leave the gymnasium at 1:45 o'clock this afternoon. Four others, Ballah, Raish, Mandery, and Molzen, may make the trip in another car.

The team will return after the triangular encounter Friday to help run off the state high school track and field finals here Saturday afternoon.

STUDENTS SURVEY STRIKE CONDITIONS

Undergraduates from Colleges in East Go To Passaic Textile Strike Area

(By New Student News Service)
NEW YORK CITY—Students from Columbia University, Union Theological Seminary, Barnard College, Washington Square College, and the College of the City of New York, visited the strike area at the Passaic Mills, New Jersey, this week in an effort to acquaint themselves with actual conditions in the industry. They were led by Hillman Bishop of the Columbia Social Problems Club.

It is probable that a student mass meeting will soon be held on this subject to be addressed by Norman Thomas, (jailed last week at Passaic on a free speech test), Rabbi Wise, and the students who made the trip.

DANCE DRAMA TO BE PRESENTED MAY 26

Creative Dances, Instead of Usual Ballet, To Feature Annual W. A. A. Program

The date for the Dance Drama to be presented by the Women's Athletic Association has been set for the evening of May 26. It will be presented outdoors, north of the Administration Building.

It is to be something different than even presented previously, as the dances are from creative dancing, and not of the ballet type as has been the former custom.

The first part of the drama will consist of comedy dances and solos. The second part, which will make up the drama proper, will be the "Cycle of the Hours." The dances to be used are original creations. Miss Dorothy Simpson, the instructor in the Department of Physical Education, who has charge of dancing, is supervising, and Leora Chapman is the dancing leader.

Committees have been appointed to take charge of the presentation. They are: lines, Ruth Flanders; properties, Kathryn Grieg; costumes, Mildred Wohlford and Hazel Safford; publicity, Ershel Freeman and Lucille Bauer; and the ticket committee is composed of Kathro Kidwell, Esther Peterson, and Marjory Eastbrooks.

April Issue of Awgwan To Be Distributed Today

The long over-due April issue of Awgwan, the "Lucky Number", will be distributed to all subscribers from the Station A postoffice today and Friday. Extra copies are on sale for twenty cents at the Awgwan office in the basement of University Hall.

The magazine contains the usual departments.

R.O.T.C. READY FOR INSPECTION

War Department Officers To Review Work of Nebraska Regiment Friday

FOR BLUE STAR RATING

With the parade yesterday evening, finishing touches were put on the University R. O. T. C. regiment's preparation for the government inspection tomorrow, which will determine or not whether Nebraska will receive the Blue Star distinguished rating for the third successive year.

All members of Companies E and G are excused from their morning classes Friday to report at the military department. They will be inspected to determine the efficiency of the theoretical instruction being given in the basic course. All advanced course men will also be excused in the morning for the inspection of the work in these courses.

In the afternoon, the entire regiment will assemble on the parade field for inspection on the practical instruction received this year. This will be the last severest test for the whole unit until "compet", May 28.

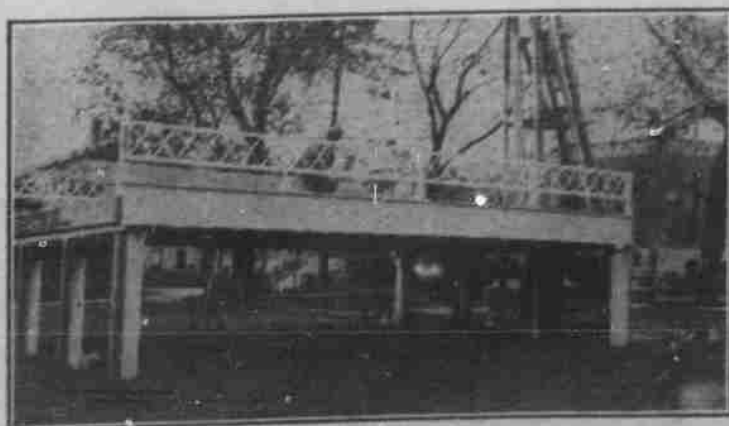

CONCERT SUNDAY BY STRING ORCHESTRA

University Orchestra Will Play in Art Gallery; Address on Exhibit Follows

The University of Nebraska string orchestra will give a concert Sunday afternoon at 4 o'clock in the University Art Gallery. The orchestra is under the direction of Paul W. Thomas. The concert will be followed at 5 o'clock by an informal lecture on the art exhibit.

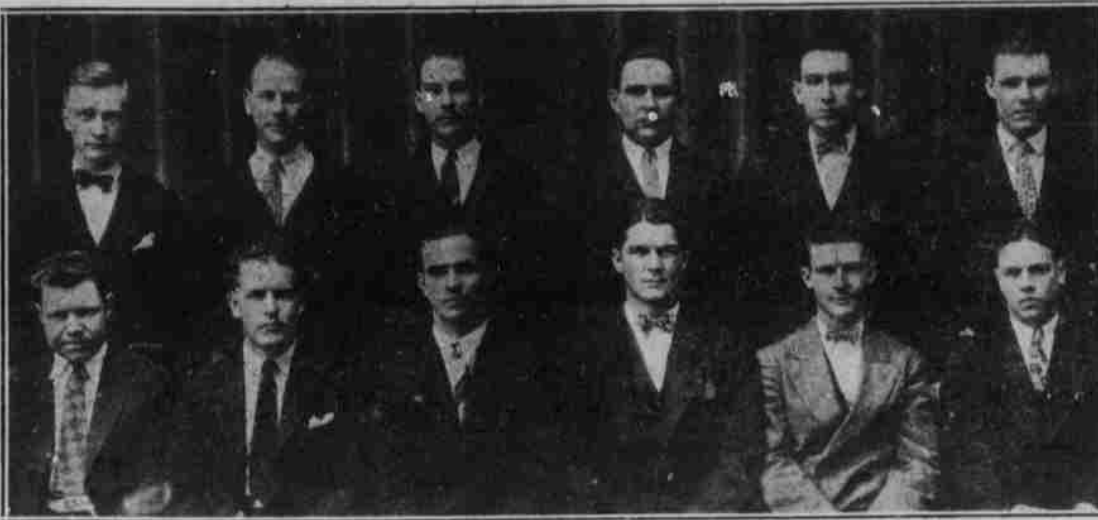

The following numbers will be given:
Grieg—Spring and In der Heimath
Vivaldi—Allegro from Concerto in A Minor
Bach—Air from Suite in D Major
Bach—Prelude No. 20 in A Minor
Wagner—Lohengrin Vorspiel
Gillett—Passe-Pied
Vivaldi—Adagio from G Minor Concerto
Grainger—Mock Morris.

Bridge Erected by Engineers

Above is a view of the transverse-joist-girder highway bridge erected on the campus north of the Administration building by engineering students, under the supervision of the Standard Bridge Company of Omaha, as a monument for Engineers' Week. This is the latest type of highway bridge in use.

Engineers' Week Committee Chairman

Above are the committee chairmen of Nebraska's Eleventh Annual Engineers' Week. These students have charge and are responsible for the entire proceedings and arrangements.

They are, top row left to right: Paul Soderberg, chemical engineers; Ted Johnson, poster and window displays; Mark Fair, program; Lester Shields, convocation; John Unthank, architectural engineers; Eldred Morton, banquet. Bottom row, left to right: Alfred Butler, civil engineers; Edward Richardson, confections; Stanley Reiff, general chairman; Homer Scott, secretary and treasurer; Fred Hunt, pep meeting; Emerson Mead, publicity. Other chairmen who are not in the picture: Gilbert Fish, open house; Don Hannon, parade; William Godtel, agricultural engineers; Rud Smith, mechanical engineers; Ernest Pollard, electrical engineers; Walter Schmeekle, geology.

ENGINEERS' CONVOCATION

Sigma Tau Scholarship Medal Will Be Awarded by Chancellor Avery

ADDRESS BY O. J. FEE

All engineering classes will be dismissed and engineering students will be excused from their classes for the Engineers' Convocation at 11 o'clock this morning.

A special Engineers' Convocation will be held at the Temple Theater at 11 o'clock today. All engineers will be excused from conflicting classes. Lester Shields, Lincoln, president of Sigma Tau is in charge. Chancellor Avery will present the Sigma Tau scholarship medal, given each year to the engineering freshman making the highest grades. Professor C. E. Mickey, chairman of the civil engineering department, will present his scholarship award to the engineering student who has raised his scholastic average the most during the previous semester. The prize is generally an engineering handbook.

Sigma Tau Donates Picture
Lester Shields will present a picture for the Hall of Fame in the Mechanical Engineering building. This picture is of a prominent engineer and is given annually by the Sigma Tau fraternity.

O. J. Fee of the Evans Laundry will give a short talk on engineering. Fee is a graduate of the University of Nebraska and although he did not receive an engineering degree he took most of his work in that college. Plans for open house, Engineers' Night, this evening, will also be discussed.

A parade was held Wednesday afternoon advertising Engineers' Night. Each department of the College of Engineering and also the Geology department, were represented with a characteristic display of the work done in the various departments.

Displays in Store Windows
Many business houses in the city have exhibits from the various departments in their windows. A model of the "Cathedral of Learning" being erected at the University of Pittsburgh has been placed in position south of Pharmacy Hall. The model will be lighted up at night.

Saturday is "field day," and activities will be transferred to Antelope Park. Trucks will leave Mechanic Arts building during the morning. At 9 o'clock the freshmen and sophomores clash in their annual baseball game. The juniors and seniors play

(Continued on Page Three.)

DAILY NEBRASKAN AND CORNHUSKER APPLICATIONS

Applications for the following positions will be received until Thursday noon, May 13:

1927 Cornhusker—Editor, junior managing editor, business manager, assistant business managers. The Daily Nebraskan (first quarter, 1926-27)—Editor, contributing editors, managing editor, news editors, assistant news editors, business manager, circulation managers.

Awgwan (first semester, 1926-27)—Editor, associate editor, contributing editor, business manager.

Applications may be got at the office of the chairman of the Board and of Secretary J. K. Selleck.

M. M. FOGG,
Chairman, Student Publication Board.

MUSEUM WORK FORUM SUBJECT

Curator Collins Discusses Place of Museum in Providing Liberal Education

LAST MEETING OF FORUM

"The museum, when installed in the new Morrill Hall, should greatly aid students and the general public in securing liberal education, liberal education, not a liberal education," declared F. G. Collins, curator of the University museum, in his address at the World Forum in the Grand Hotel yesterday noon. This was the last meeting of the Forum for this year.

Mr. Collins stated that it was an open secret that faculty and students had been discussing this year the courses of the Arts and Science college. "But so far," he said, "never a word have I heard concerning the value of the museum in providing liberal education."

Mr. Collins then pointed out that in the museums are the relics of bygone days, which indicate changes of passing ages. "It is sad to say that this country of universities is strewn with derelict museums. Some enthusiastic professor starts the museum and it flourishes until his death or removal to another school. The University of Nebraska museum is destined to survive its infancy and render a great service to the West."

Tribute to Morrill
The success and importance of the

(Continued To Page Four)

WEATHER FORECAST

Thursday: Partly cloudy and somewhat unsettled; cooler.
Weather Conditions

Low pressure in the Mountain region is centered over Wyoming, and warm weather has resulted throughout the Missouri and upper Mississippi valleys, the Great Plains and the Mountain states with increasing cloudiness in the Southwest and showers in Arizona and New Mexico and the Texas Panhandle. Rain has fallen in all states west of the Rocky Mountains and in the western Canadian provinces. High pressure and clear, moderately cool weather prevail from the Ohio and lower Mississippi valleys eastward to the Atlantic coast.

THOMAS A. BLAIR,
Meteorologist.

EIGHTY TEAMS IN HIGH MEET

Nearly 400 Men To Compete In Track Championships Friday and Saturday

EIGHTEEN IN GROUP III

Team entries for the annual Nebraska high school track and field meet to be held in the stadium Friday and Saturday afternoons, now total eighty, with the men entered running close to 400.

The latest entries include Columbus in Group III, Callaway, Central City, Seward, and Teachers' College High in Group II, and Stamford, Ullyses, and Valley in Group I. Forty are entered in Group I, including teams from Fairfield and Tilden, first and second place winners last year. Cambridge, winner of the Group II championship last year, is doped as a likely repeater over the other twenty teams entered.

Grand Island Looks Best

Eighteen Group III teams are entered, with Grand Island, last year's victors, doped to repeat, although only after a stiff battle in the face of the best competition ever offered in a Nebraska high school meet.

A few of the teams will arrive in Lincoln today and the rest will be in early tomorrow for the opening of the meet with preliminaries in both track and field events Friday afternoon. Preliminaries will begin Friday at 2 o'clock with the 120-yard high hurdles. The other track preliminaries to be run Friday are the 100-yard dash, 220-yard dash, 440-yard run, 220-yard low hurdles, and possibly the 880-yard run. The contestants will be eliminated down to eight contenders in each track event for the finals Saturday.

Preliminaries will be held in all the field events, with the five best men in each event in each event going into the finals Saturday.

Railroads Grant Special Rates

Admission to the preliminaries will be twenty-five cents and to the finals seventy-five cents.

Special railroad rates are being given all teams coming in for the meet and the Lincoln and Lindell Hotels are also offering special rates for the accommodation of the high school teams.

Medals will be awarded for first, second, and third place in each group in each event. A special Event Championship medal will also be awarded for the best mark in each event, regardless of the group in which the mark is made. Special trophies will be awarded to the teams placing first in each group and banners to those placing second and third. Similar awards will be made in the relays.

First Exhibition Comparable To Engineers' Night Given in 1895

Engineers' Week at the University of Nebraska is of comparatively recent origin, although some of the events comprising its celebration date back many years.

Engineers' Night is perhaps the oldest of all. The first exhibition of which there is any authentic record was held in 1895 in what is now the Electrical Engineering laboratory. It was originated by Bruce Benedict. In those early days the celebration was held on the evening of Charter Day, February 15. The mid-year graduating exercises and other features took up the early part of the day, and the Annual Electrical Show was given by the engineers as the climax of the evening.

As the other departments in the College of Engineering grew, other features were added and the name was changed to Engineers' Night. The place of exhibit was also changed and for several years the exhibition was given in the Armory. Whether or not Engineers' Night was put on during the period from 1903 to 1913 is not definitely known, but it is very probable that some kind of a celebration was given during these years.

In 1903 the first annual Engineers' Banquet was held. It has now become a traditional part of Engineers' Week.

Engineers' Week as it is known to

May Breakfast Tickets On Sale at Book Store

Tickets for the May Morning Breakfast, which will be held Saturday morning at 8:30 o'clock, are on sale at the College Book Store and at the various sorority houses. Tickets are thirty-five cents and both men and women are invited to attend.

A feature of the program will be the inter-sorority sing, a cup being awarded to the sorority winning first place.

STATE DEBATE OPENS TONIGHT

Thirteen District Champion High School Teams in Annual Tournament

SIX CONTESTS TONIGHT

The nineteenth state debate of the Nebraska High School Debating League — thirteen schools in twelve debates — start Thursday evening, May 6, at 7:45 sharp. The district-championship school, each representing by three speakers, will battle for state honors on the proposition "That the Members of the President's Cabinet should have the right to the floor of Congress."

Sides and pairings for the Thursday evening contests — six simultaneous debates — were decided by lot-drawing in the office of the president, Prof. M. M. Fogg, director of the School of Journalism; and the programs for the succeeding debates will be determined by lot-drawing immediately after each round.

The Pairings

The program for Thursday evening is as follows, the schools named first maintaining the affirmative:

- Holdrege-Norfolk, Social Science 107.
- North Platte-Bayard, Social Science 101.
- Hastings-Beatrice, Social Science Auditorium.
- Hebron Academy-Brock, Law 101.
- Aurora-Cathedral High, Lincoln, Memorial Hall.
- Geneva-Hartington, Law 201.
- Omaha Technical drew a bye.

Contestants Arrive Early

Delegations from contesting schools began to arrive in Lincoln Wednesday afternoon. The Beatrice, Hartington, Hebron Academy, and Norfolk delegations will make their headquarters the Lincoln Hotel. The Beatrice team will be accompanied by L. F. Chard; the Hartington delegation by Dean F. McSloy; the Hebron Academy team by Clara L. Leum; and the Norfolk team by Howard McBurney. The Brock and North Platte delegations will be at the Lindell Hotel, the Brock team accompanied by F. J. Hirsch and Supt. M. A. Sams, and the North Platte team by Frances Edwards. The Hastings delegation, accompanied by Bruce P. Caywood, will be at the Y. M. C. A.

The judges for the debates are former members of Nebraska debating teams and members of the University faculty.

Silver Serpent Tea Friday Afternoon

Silver Serpent, society of junior women, will entertain at a musical tea at Ellen Smith Hall Friday from four to six o'clock. All sophomore women are especially invited.

A continuous musical program will be the feature of the afternoon and special dancing numbers will be given. Ferne Maddox is chairman of the committee in charge. Other members are: Wilma Searson, Blanch Stevens, and Helen Cochrane.

Museum Open Engineers' Night

Members of the geology department will take charge of the direction of visitors through the museum, which will be open during Engineers' Night, Thursday.

ENGINEERS ALL SET FOR OPEN HOUSE TONIGHT

Thousands Expected To Fill Buildings on Annual Engineers' Night

ALL LABORATORIES OPEN

Experiments of All Sorts Will Be Demonstrated by Students in Various Departments

Tonight, from 7 until 11 o'clock, all engineering buildings will be open for inspection by students from other colleges and the general public. Engineering students will be working in the various laboratories, operating the various machines, and demonstrating some of the more interesting and spectacular experiments. Over six thousand people attended this event, Engineers' Night, last year.

In the Chemistry building the laboratories will be open, demonstrating many mysterious chemical phenomena. Methods of smelting iron, gold, silver, and other metals will be shown. Electric furnaces, heat measuring devices, and other apparatus used in chemical work will be on exhibit. In the main lecture room welding by means of thermite will be shown. The heat generated by this process will be demonstrated by allowing some of the mixture to fall on a half-inch steel plate, which it will immediately burn through.

Engines In Operation

Equipment in all the laboratories in the Mechanical Engineering building will be in operation. Every machine in the power laboratory, from the small four horsepower reciprocating steam engine purchased over forty years ago to the big Corliss and the complete refrigerating plant, will be in operation. Various types of internal combustion engines will be going and methods of running tests on them will be shown by students in charge.

In the machine shop the methods and equipment used in cutting, plane-

(Continued to Page 3).

SCHRAMM DIGS OUT VALUABLE FOSSILS

Professor of Geology Returns From Louisville With Several New Specimens

E. F. Schramm, professor of geology, who drove to Louisville and Meadow Monday to dig out fossils exposed in a gravel pit near Meadow, returned Tuesday with a number of valuable fossil specimens which will be added to the Morrill geological collections.

The best specimen secured was the skull of the fossil bison, bison occidentalis. The horns of an ordinary bison measure approximately two feet from tip to tip. The horns of this fossil measure at least half again as large. This is an important addition to the large collection of fossil bison already possessed by the museum.

The remainder of the specimens obtained from the same pit consisted of two tusks of mammoths, one with tip finely preserved, the other with pulp cavity preserved; the skull of a fossil beaver which seems to be a new species; and a perfect jaw of an extremely narrow skulled fossil horse. This latter specimen, which was without a blemish, displayed the jaw of a colt shedding its deciduous teeth, with new teeth erupting.

W.A.A. ELECTIONS ARE POSTPONED

Selection of New Sport Leaders To Be Made Friday; Date of Annual Banquet Set

Elections of the new W. A. A. board members, to have been made at the general meeting Wednesday evening, were postponed until Friday, when they will be held in the Armory. Esther Peterson was nominated for rifle marksmanship leader, otherwise the nominations stand as previously announced.

The annual W. A. A. banquet is to be held May 28, at the Garden Room, Lincoln Hotel. This is to be the last meeting of the year, and all honors, including the "N" and numerals, will be awarded.

The tennis tournament will begin May 6, for all women who have completed the necessary five practices.

The Women's Athletic Association is to have charge of the concessions at the state high school track meet Saturday, May 8, and also at the track meets to be held May 12, and May 15.
