## INNOCENTS GIVE OUT STATEMENT ON SELECTIONS

Extracts From Constitution Give Eligibility and Balloting Rules

### EXPLAIN ALUMNI ACTION

Students To Be Eligible Must Have Made Seventy-Five Hours and Be Passing in Fourteen

To show upon what basis and in what way the members of the Innocents, senior men's honorary society, are selected, the following extracts from the constitution were submitted to The Daily Nebraskan Tuesday by the society:

Extract from the Innocents Society constitution:

"The Innocents Society, founded in the year Nineteen hundred and three, shall be composed of thirteen male students of the University of Nebraska who have affiliated with the class in which they expect to graduate during their sophomore and junior years in succession, and who are about to take their first college degree.

"Any man entering a college requiring two years liberal preparation, shall be considered as a junior in his freshman year in that college.

"No student shall be eligible to membership in the Innocents Society unless he shall have, at the close of his junior year in the University of Nebraska, enough college credits to permit his graduation with the senior class the following spring.

"This section shall not be interpreted to include any student who has sufficient credit hours, but whose credits are so low that his graduation with the senior class the following spring" is improbable.

"The minimum hour requirements at the close of the first semester of the junior year must be seventy-five hours and enough additional hours must be carried so that there is every reasonable possibility of fourteen hours credit being granted the second semester."

### Alumni Control

"At the first regular meeting following January 1 of each year, three resident alumni members (not honorary) of the Innocents Society shall be selected by majority vote of the active members as an Alumni Election Committee. It shall be the duty of those members to choose a date for the annual election which may, in the discretion of this committee, be unknown to the active members. It shall be the duty of this committee to meet with the thirteen active members on the date chosen for election and to review and tabulate the results. The ballots for both the Tentative List and for the final thirteen men shall be taken on the same night in one continuous meeting. No adjournment shall be permitted between the balloting for the Tentative List and for the selection of the thirteen Innocents. Each man balloting shall sign his name to his own ballot. If in the opinion of the Alumni Committee there has been any apparent attempt to elect a slate, the ballot shall be declared invalid and the members so voting required to justify their action before the association of alumni Innocents of the city of Lincoln. In such cases and after such a hearing another election will be called for by the Election Committee."

### The Tentative List

"In preparation for balloting a complete list of all eligible men shall be certified by the Registrar at the earliest date possible following the beginning of the second semester, and each man shall be certified as qualifying for election as provided in the constitution. Thirty

The largest increase is in the list of applicants for Daily Nebraskan positions.

All applicants are requested to be near when the Board meets. The election will be held in the following order, editorial staff coming before the business staff on each publication: Daily Nebraskan, Cornhusker, and Awgwan. The Ag Club intends to make use of the new Students' Activities building that is being erected on the agricultural campus for a number of its activities. ## Distributing Campaign For Cornhuskers Will Extend Over Round-Up

As many students have not yet called for their Cornhuskers the active distributing campaign will be extended over the Round-up week. Students, however, are urged to buy their copies today as the remainder of the week will be devoted mainly to the Alumni. Enough copies have been printed to enable those who did not reserve their Cornhusker last fall to purchase their books now.

The artwork and arrangement of the book has aroused much favorable comment, and subscriptions from former students are already being received. The detailed plans for the future campus makes the book a desirable keepsake for Nebraskans throughout the state. Books are being distributed through the Extension Department to the high schools and to several libraries in the state.

## INTRA-MURAL ATHLETICS TO BE EXTENSIVE

Athletic Department Plan for Greater Number Of Contests For Next Year

### WILL HAVE ALL SPORTS

Inter-College, Inter-Class, Inter-Fraternity and Non-Fraternity Tournaments To Be Held

A greater number of inter-mural athletic contests than have been held formerly have been planned by the Athletic Department for the year of 1926-27. The completion of the Field House will allow winter-time sports on a much larger scale. One new feature planned by the Athletic Department is the participation of non-fraternity men in the contests. This has been recognized as a poor feature of the present system and it is being so arranged that non-fraternity teams can take part in most of the tournaments.

As planned now, the inter-mural athletics will include a scoring system for the whole year, by which the organization having the highest number of points will be given a trophy. This championship will be reckoned on two factors, first, the rating the organization receives in the various contests, and second, the number of men competing in the athletics. The latter basis for judging the champion lays stress on getting a larger number of students interested in athletics that for various reasons do not take part in the Varsity sports.

Acting Athletic Director Gish intends to make a trip to Michigan this summer for the purpose of studying the system of intra-mural athletics. The system used by the University of Michigan is recognized as one of the best in the country, and Mr. Gish wishes to incorporate the better points of their system into that used at Nebraska.

### Have Three Fall Sports

In the fall the sports that will be conducted by the Department are football, cross-country, and tennis. Football will be inter-college only. Each team representing the various colleges will play three or four games. The extent to which this will be carried out depends upon the fields and equipment available for the contests. The college elevens will be coached by students who are registered in the four-year course of athletic coaching.

Cross country teams may be entered by colleges, classes, fraternities, and other organizations. The champions of each of the groups, such as inter-class or inter-fraternity groups will be run separately. Then the All-University championship will be decided in a run in which the representatives of the groups will compete. Both the individual and organization points will be scored in this run. The extent of tennis competition next fall cannot be ascertained very accurately, as the construction of Morrill Hall will probably hinder tennis playing.

A heavy schedule, although much of it is tentative, has been arranged for the winter season. Basketball, of course, will be the principal sport. Four tournaments are planned, inter-college, inter-class, inter-fraternity, and non-fraternity. These tournaments will be played off on a league basis, and the winners will meet to decide the All-University champion. Any organization not included under the other three groups will be eligible to compete in the non-fraternity tourney. Another feature that will be introduced because of the added floor space in the Field House is a free-throw tournament. This will be for both individual and teams.

### Need More Equipment

Several tentative plans for other sports depend upon how much of the Field House the Athletic Department can equip by next year. There will be tennis, volley-ball, hand-ball, squash-tennis, horse-shoe pitching, indoor baseball and bowling. Several tennis courts will be put in the basement of the Field House. These will be dirt courts and it will be possible to conduct the racquet sport on a minor scale at least throughout the winter. Volley-ball should prove popular, as much floor space will be available. Tournaments will be run off in the inter-college, inter-class and inter-organization groups. It is doubtful whether the Athletic Department will be able to construct the courts for hand-ball and squash tennis. This will be done eventually, however. A limited number of courts will be made for horse-shoe pitching, but there will probably be no great participation
