

LOCKE GOT BAD START IN MEET

Husker Track Star Stepped in Hole But Tied Record Saturday

TO ENTER CHICAGO MEET

What Locke did Saturday is a matter of record. What he might have done is a matter which is likely to stir the thoughtful fan's mind for some time to come.

Nearly everyone knew that he got a bad start. But few knew the cause. On Locke's first step, he hit a soft spot in the track and dug up a hole big enough to put one's fist in. He stumbled but kept on running. Coach Henry Schulte said that it probably cost Locke a yard and a half. Despite this handicap he turned in and ran for a record and set a new Valley record as well as again tying the world's record. What he might have done had it not been for hitting the hole in the track is hard to guess.

The hole was right on the edge of the white lane line. Consequently, it couldn't be noticed until after it had been hit. As far as Coach Schulte and the managers could determine there wasn't another weak spot in the entire track.

Light Watches on Locke
Eight watches were catching him. Two were extras in case anything went wrong with the regular six. These two were away off. One was

9.4 and the other 9.7. Of the other six watches, four of them clocked Locke in 9.5 and the other two in 9.6.

Coach Schulte hasn't decided yet what men will make the trip to Chicago June 11 and 12 for the National Intercollegiate. He is planning on taking six or seven men if they can make the trip. Locke will run there and Coach Schulte is earnestly hoping that he can be persuaded to run in the National A. A. U. meet later in the month that there may be no doubt left as to his superiority.

Weir To Go On Tour
Ed Weir would make the Chicago trip but for arrangements that he had previously made for a chautauqua tour. Weir is starting out on the chautauqua circuit shortly. He is to talk on athletics and clean living.

Perly Wyatt's first in the 440 Saturday was appreciated, but few people realized that his time of 49.2 seconds tied the Varsity record for this distance.

A picture of all men who competed in varsity meets this year is to be taken at the Campus Studio at noon today. The men are to be at the studio at twelve in their suits. A group picture of the winners of the mercury foot medals in the recent tri-color meets will be taken at the stadium this afternoon at five o'clock.

LAST ISSUE FRIDAY
After the issue of Friday, May 28, publication of The Daily Nebraskan will be suspended until next fall.

CALIFORNIA PLANS TRAVELING COURSE

University Would Combine Six Weeks of Summer School With Trip in America

Schoolboards and prominent educators throughout the East have been approached in the interest of an educational novelty originating in California that is expected to attract attention in various sections of the country in the months preceding the school and college summer holidays.

The plan combines with a summer program of six weeks' study at the University of California, 8000 miles of travel "around and across America," arranged to bring the students into contact with places and scenes closely associated with the early history of the western hemisphere, and the discovery and development of the great west, as well as with some of the most interesting scenic wonders of the United States. Not only students from various colleges, and teachers and college instructors, will be invited to avail themselves of the opportunity for travel and study presented by the plan, but also persons from other professional walks of life, such as lawyers, doctors and clergymen.

Flexible travel arrangements have been worked out for the students preparing to take the University of California course, by S. B. Nylander, of Berkeley, California, a traveler of wide experience and a former teacher, who believes firmly in the wisdom of travel and study in American environment.

Groups may proceed westward by sea, on a 5000 mile voyage from New York to San Francisco, by ships of the Panama Pacific Line, visiting Havana, with its associations of the Spanish discoverers, and the Isthmus, where eight hours will be spent in traversing the Panama Canal, greatest of modern engineering works, and half a day at the picturesque city of Panama, and the ruins of Old Panama, associated indelibly with the names of Morgan and his sea rovers, or they may go to the coast by rail and return by sea.

Special rates have been made that include both the sea trip and the rail journey.

Particulars regarding the trip will be furnished Eastern inquirers by J. S. Maholl of No. 1 Broadway, New York City.

TO ALL SUMMER SCHOOL STUDENTS

WE WANT YOU TO GET ACQUAINTED WITH

DON'T BUY a STRAW HAT

Until you've inspected the new styles on display in our window at 1028 O Street — because if you do — you'll regret it; for the very simple reason that you're sure to see one that you'll like a whole lot better than the one you have on — It's too late then.

Every Hat

A brand new one — not a single hat left over from last year.

Every one of them — crisp, clean, fresh and up-to-date.
