WEATHER FORECAST

Thursday: Unsettled, with probably showers. Weather Conditions

Light northerly winds and somewhat cooler weather have overspread the middle Missouri Valley, but southerly winds and high temperatures continue in the lower Missouri and middle and lower Mississippi valleys, due to a trough of low pressure which now extends from New Mexico to Iowa. Showers have resulted in Arizona, New Mexico, and western Texas, and in Wisconsin and Michigan. The weather is mostly fair elsewhere.

THOMAS A. BLAIR,

Alumni Association Asks

Before leaving Lincoln next week, seniors in the University of Nebraska are urged to report their addresses for the coming year to the alumni office in the Temple Building. Complimentary membership cards and subscriptions to The Nebraska Alumnus have been sent to all seniors, with the request that they report their addresses for the next year at once. Seniors who are not certain what their addresses will be should give their home addresses. Later they can have that changed. Wherever possible, the occupation should be given.
