

THREE PARTIES GIVEN TO FRESHMEN WOMEN

Women's Athletic Association, Big Sister Board and Y. W. C. A. Cabinet in Charge.

Three parties in honor of the University freshmen women were held at Ellen Smith Hall on Monday, Tuesday and Wednesday evenings from 8 to 10 o'clock.

The party on Monday evening was sponsored by the Women's Athletic Association with Helen Clark as chairman of the committee on arrangements. Tuesday the members of the Big Sisters Board were hostesses, with Helen Aach as chairman of arrangements. Wednesday evening the series of affairs was closed by a party given by the Y. W. C. A. cabinet with Mabel Doremus, chairman of the social committee in charge.

The three parties were get-acquainted affairs and refreshments were served at the close of the evening. University colors were used throughout in the decorations.

15-Minute Service to Ag Campus Is Started

The interurban line has installed 15-minute service between the city campus and the Agricultural College. This service went into effect September 16.

The first car leaves Fourteenth and O Streets at 7:45 a. m. and leaves every fifteen minutes until 6:15 p. m. The west bound cars leave the

Idlewild station 12, 28, 42, and 58 minutes respectively after each hour. This service will be given until the bus system is installed for the benefit of the students who wish to take work on both Ag College campus and city campus.

Professor Slaymaker Revises Old Textbook

Prof. P. K. Slaymaker of the Department of Machine Design, has been busy most of the summer completing preparation of copy for a new textbook, "Elementary Mechanism." The book is a complete revision of an old standard text by Stahl and Woods which ran thru seventeen editions from 1885 to 1916. Professor Slaymaker has revised the entire text, and made new drawings and illustrations practically throughout, besides writing one new chapter on modern material which has developed since the original editions of the book. All the galley proofs have been corrected, and page proofs are coming in daily. Professor Slaymaker intends to use the book in his classes in machine design this fall, altho the

time of publication will probably be too late for extensive adoption of the book this year by other universities and colleges. The D. Van Nostrand company of New York, publishers, are adding this text to their series of standard textbooks in engineering.

SPORT MANAGER SYSTEM CHANGED

Sophomores Will Go Out for One Game; Football Men to Report

The sophomore managerial system will be changed back to the old plan at the request of the coaches and student managers. Sophomore managers will report and direct their attention to the one sport in which they wish to work. Those desiring to go out for football should report at once to the athletic office or to Wendall Cameron, senior football manager.

The new system installed last year,

in which sophomore managers proportioned their time in all sports throughout the year, failed in its effort to bring about uniform interest and competition in the different sports.

Choose Sport.
In going back to the old system the sophomore will choose his sport and direct all of his attention to it. Twelve or fifteen sophomores are needed for each sport. At the end of the year two will be chosen in each sport to be junior managers for the next season. One of these will be chosen senior manager and will be awarded his letter and, with the exception of voting for captain, all privileges of a letter man.

Logic Textbook Is Being Distributed.
C. H. Patterson, instructor in philosophy, has had his textbook, "Problems in Logic" accepted for publication by the MacMillan company. The book, which is being distributed this fall, will be used for logic courses in the University.

Larson to Teach Music at Columbia.
William Larson, '20, who received his B.F.A. degree in music at Nebraska, has been appointed assistant in the department of music of Columbia University for this year. He received his master's degree there last year.

The Pilot's Letter

Forest Park, Ill.

June 16, 1929

The Parker Pen Company, Gentlemen:

At 4:10 P. M. yesterday I took off in my Yackey plane from Checkerboard field. When I reached an altitude of 3000 feet I leaned over the side and dropped a Parker Over-size Duofold Pen. A few minutes later I made a landing near my starting point, and a crowd was examining the same Parker Duofold pen, which had landed on hard ground. To my great surprise, the pen had not been damaged in the slightest by its 3000 foot drop.

Walter Addams
Signed with the Parker that dropped 3000 feet.

Start School with a Pen that won't break—Dropped 3000 feet!

YES, the Parker Duofold Pen was tossed from an aeroplane at dizzy altitude to test our new Non-Breakable material "Permanite," and landed 3000 feet below — unharmed.

Tests such as this are the best guarantees that a pen will last practically forever.

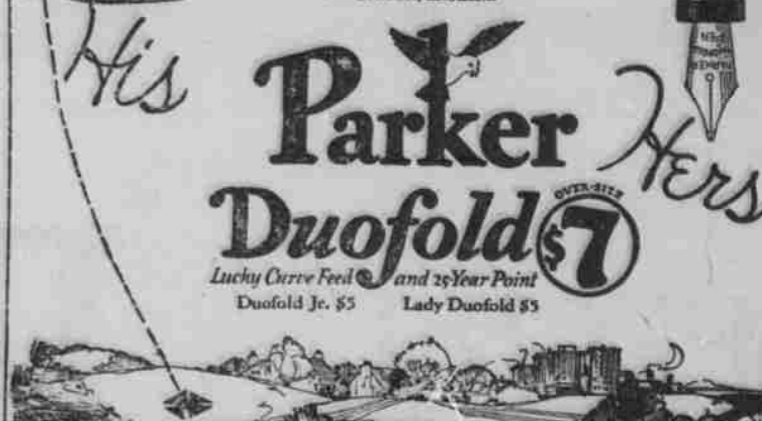

For a year we kept secret the fact that Parker Duofold Pens and Pencils have barrels of this new lustrous, beautiful, light-weight Permanite until a whole series of heroic demonstrations proved that it does not break.

This black-tipped lacquer-red beauty is not only the smartest, shapeliest pen, but the greatest writing instrument the world has ever seen. Its yielding, super-smooth point is guaranteed 25 years not only for mechanical perfection but for wear.

Choose your point and color at any good pen counter. But look with care for the name "Geo. S. Parker" on the barrel—the mark of highest excellence.

Parker Duofold Pencils to match the Pens:
Lady Duofold, 5 1/2 Over-size 7c, \$1.50;
"Big Brother" Over-size, 54
