(Continued from Page Three).
 "Others, equally beautiful, are: An Eleventh Street fairway to the engineering group; a Stadium Walk with gateway on Twelfth Street which is to be closed to traffic; Fifteenth Street from the State Capitol to the new Library Building; the Library to the Women's gymnasium; the Coliseum to a new building to be erected at the Thirteenth Street entrance to the campus.
 "Note, also, the use of lower ground to the north of the Coliseum and proposed women's gymnasium by a sort of sunken garden effect, to be used for athletic fields.
 "After careful study of all the details of this model, we invite all friends of our University to contribute any thought suggestive of improvement.
 GEORGE N. SEYMOUR,
 Chairman,
 Campus Planning Committee,
 University of Nebraska."

INDIANA STUDENT FINDS USE FOR FIRE ALARMS

The student body at the University of Indiana is discussing the question "Shall we take our fires seriously?" The alarm seemed to indicate the Kappa Sig house. Bigger and better fires seems to be the slogan of the "blind daters."
