SENATE GRANTS HOLIDAY AFTER THANKSGIVING

University Body Decides to Dismiss School on Friday Following

RESPONDS TO AGITATION

Day Will Be Made up Later in Year; Students Able to Go Home

There will be no school on the Friday following Thanksgiving, the University Senate decided Saturday morning.

The Senate's action comes in response to student agitation led by the Student Council which some time ago petitioned the Senate for the granting of the holiday in order to enable students living outside of Lincoln to spend the Thanksgiving holiday at their homes. There will be no school from Wednesday, November 24 to Monday, November 29.

Chancellor Avery, Dean Chaburn and the student body have been endorsing the Student Council action in regard to the dismissal of school. This rule does not apply, however, to years when Nebraska may play football on her own gridiron. There is no football game here this year and according to the Council petition presented to the Senate, vacation on this day would make it possible for many students to go to their homes. This day will have to be made up sometime during the year probably at the Easter vacation time.

FORUM ANNOUNCES SERIES OF TALKS

Good, Lincoln Attorney, Reverend Palmer, and Prof. Sears to Discuss Religion

A series of three talks on the "Basis of Religion" fill the program for the World Forum for the next three weeks according to an announcement made Saturday by the World Forum committee.

These talks will present the basis of the three principal religious outlooks of the day, covering briefly for the student, one of the much discussed problems of the time. Lincoln Frost, Jr., Y. M. C. A. chairman of the World Forum committee, says that he thinks the series will be one of the best ever presented by World Forum. "It will be of worth," Mr. Frost says, "not only from the standpoint of the interest the subject must hold for thinking students today, but also because of the quality of speakers who will handle the subject."

Tickets for this week's meeting will be put on sale Tuesday in the Social Science building. They will also be on sale at the Y. M. C. A. and Y. W. C. A. offices and from members of the committee. About two hundred twenty-five can be taken care of in the regular World Forum luncheon room at the Grand Hotel where the remainder of the meetings will be held.

U. S. NAVY BAND TO APPEAR IN CONCERT HERE

Students Will Hear Famous Organization November 6 At Coliseum

ENDORSED BY COOLIDGE

Premier Musical Group Result of Seven-Year Development; Annual Tours Made

An event of unusual interest for music lovers of Lincoln was assured Saturday when it was announced that arrangements had been concluded for the appearance here in concert of the United States Navy Band. This famous organization will be heard on November 6 at the University Coliseum, under the auspices of the University of Nebraska.

Development of the Navy Band was begun some seven years ago and the legislation establishing it as the premier musical organization of the nation's sea forces was approved by Calvin Coolidge on the day he was inaugurated President in his own right, March 4, 1925. Prior to that date it was officially attached to the presidential yacht, Mayflower, and had become a great favorite with the late President Harding—so great that he took it with him on his memorable trip to Alaska that was to have such a sad ending in San Francisco.

Radio Concerts Famous

It was on this tour that people as far West as the Pacific Coast had their first opportunity of hearing the Navy Band, but since that time annual concert tours have been made by the band that have earned it national recognition as a musical organization of the first rank. It had already attained widespread fame through its radio broadcasts from Washington—fully ten million people having heard it on the air—while really to endear itself to its audience a band must be seen as well as heard. There must be a personal contact to make the band more than a name, however inspiring or thrilling its radio music may be. Hence it is that the concerts on tour have added so greatly to the popularity.

Y. W. C. A. CADETS WILL BE CHOSEN

Upperclass University Students To Conduct Courses in Americanization

Seventy-five upperclass women, desirous of obtaining some teaching experience are waiting by the University Y. W. C. A. to hold Americanization evening classes on Monday, Tuesday, and Wednesday of each week, beginning October 18.

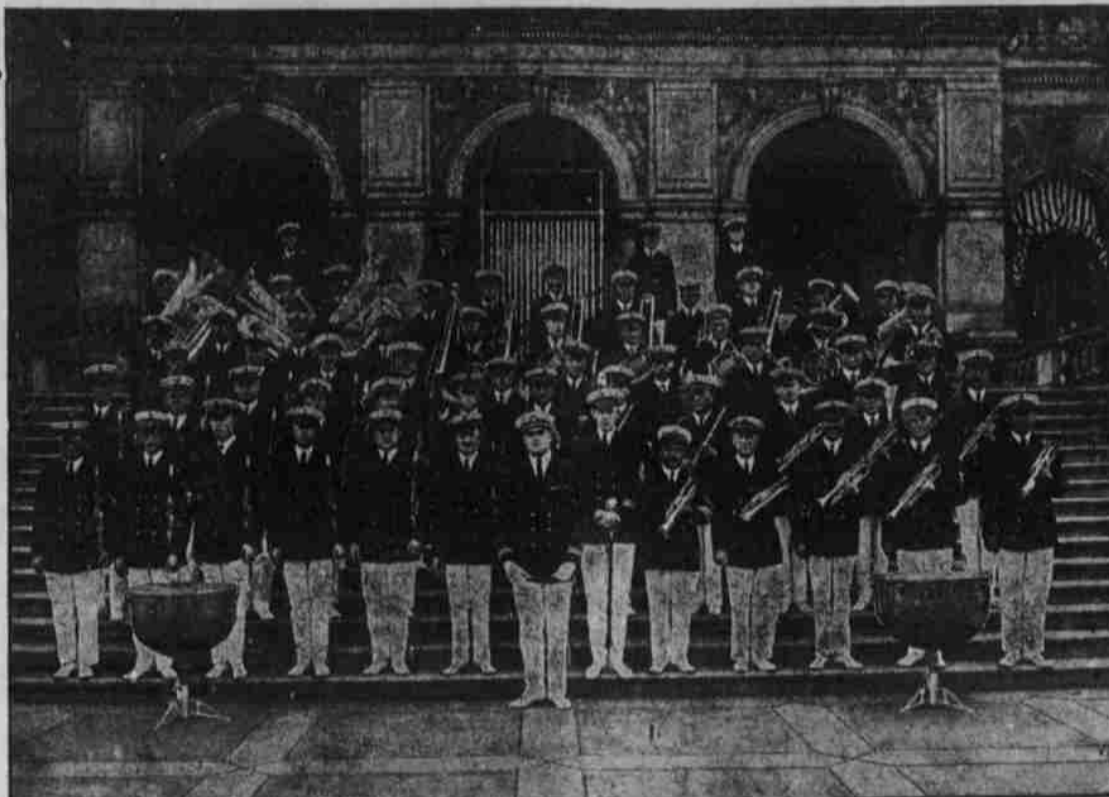

Every girl must sign up for two hours on any one of the three nights. She will be under the direct supervision of the teachers in the night schools who will render the utmost cooperation to the ends of the teaching of the English language and customs to the people from foreign lands.

"The thirty girls who assisted the teachers in their work last year with the new Americans did a splendid piece of service," said Miss Ruth Pyrtle, principal of the McKinley School. "Their work proved valuable both to us and to the girls themselves."

Public School Standpoint

Mr. W. W. Kurfman, of the Board of Education organized the Americanization classes from the public school standpoint while the University Y. W. C. A. has taken charge of the cadeting of the girls. Some idea of the importance and extent of the work can be drawn from the fact that more than seventeen nationalities were represented at one school last year.

U. S. Navy Band Will Appear in Concert

The United States Navy Band will give a concert in the new University Coliseum on the evening of November 6, in its first and only appearance in Nebraska. The band was allowed to make a tour this year by express permission of President Coolidge, whose personal band it is. This organization was selected by President Harding to accompany him on his trip to Alaska which ended at San Francisco at the time of the president's death.

Bronson launched the offensive in the second period, which ended with Marrow plunging 22 yards in two plays for the second touchdown. Stephen booted the extra point.

Washington's turn to score came in the third quarter when Washington advanced the ball into Nebraska territory via the forward passing method and gave Hayes opportunity to break through for a 20 yard run to the goal posts. Before the quarter ended, Presnell started another line smashing attack for the Cornhuskers which was the feature of the game and ended when Marrow found a hole in the Washington line through which to plunge four yards for the last touchdown of the day.
