"An ounce of reality is worth a pound of romance."

VOL. XXVI. NO. 38

THE UNIVERSITY OF NEBRASKA, LINCOLN, NEBRASKA, TUESDAY, NOVEMBER 9, 1926.

PRICE 5 CENTS

STATE BANKERS TO MEET HERE

Faculty of University And College of Agriculture To Make Talks

PROMINENT MEN TO TALK

Members of the faculty of the college of agriculture of the University of Nebraska will lead discussions on the most important agricultural problems of Nebraska farmers at the Friday morning agricultural program of the Nebraska Bankers association in session at the University of Nebraska, Thursday and Friday of this week.

Dean E. A. Burnett of the college of agriculture will preside at the session, and talks will be given by Mason Yerkes, farm record specialist, Don

Invitations Issued For Bankers Dance Thursday

Invitations for the dance given by the Nebraska Bankers' association Thursday night for students and faculty of the university have been sent to the presidents of fraternities and sororities. Other students may obtain tickets at the registrar's office. No one will be admitted without an invitation.

The dance will be a strictly University affair, sponsored by the Bankers' association and with the addition of out-state bankers. Members of the University Dancing club have agreed to act as chaperons for the party. The University authorities are aiding the bankers in every way possible to make the program successful.

Proceeding the dance a band concert will be held. Other features are being planned, but not definitely decided upon.

B. Whelan, entomologist, P. H. Stewart, crops specialist, and M. B. Posson, livestock specialist, on the problems of agriculture.

Mr. Yerkes will outline his present method of helping bankers and farmers keep records of farm businesses. He has arranged for a number of schools and meetings in Saunders county next spring, and will spend considerable time in that and other counties next year keeping the records in good shape. F. J. Kirchman, banker of Wahoo, will also appear on the program, giving a banker's point of view on Mr. Yerkes' project.

Corn Borer Is Subject

Mr. Whelan will give the bankers an account of the present European corn borer situation, the chinch bug danger of next year, and the progress of the alfalfa weevil toward the western boundary of the state.

Mr. Stewart will stress the value of sweet clover and alfalfa for Nebraska farms, basing his talk on results of Nebraska corn yield contests, his several years of extension work, and his connection with the Nebraska Crop Growers association. His topic is, "More Bushels per Acre."

M. B. Posson will outline the latest developments of the hog lot sanitation system and the Nebraska Pig Crop contest, perhaps the greatest livestock extension projects ever attempted in Nebraska. He may also discuss briefly the big hitch demonstrations conducted this fall, from which he has concluded from the interest of the farmers that the good horse still is a popular source of power for Nebraska farms.

PROGRAM READY FOR EDUCATORS

Delegates For Promotion of Engineering Education Here This Week

Preparations are completed for the entertainment of the visiting delegates to the district meeting of the Society for the Promotion of Engineering Education at Lincoln on November 12 and 13.

The committee in charge, consisting of Oskar E. Edison, Nebraska, F. A. Russel, Kansas, and R. G. Kloofler, K. S. A. C., has arranged the following program:

Friday afternoon—Inspection of Engineering Laboratories.

6:30 p. m.—Dinner at Grand Hotel. Illustrated lecture by Dr. H. B. Alexander on "The Art Features of the Nebraska State Capitol".

8:15 p. m.—Theatre party for the ladies. Technical session for the men.

Will Inspect Capitol

Saturday 8 a. m.—Technical session. Subject "Economics for Engineering Students."

10:00 a. m.—Automobile drive through city.

11:00 a. m.—Inspection of new State Capitol.

12:15—Luncheon at Chamber of Commerce.

2:00 p. m.—Football, Kansas Aggies vs Nebraska.

University R.O.T.C. To Be In Armistice Parade

The University R. O. T. C. regiment will participate in the annual Lincoln Armistice Day parade next Thursday. The first call for formation will be at 1:20, and assembly will blow at 1:30. All cadets in the regiment will attend.

The sponsors of the various units will act as an escort of honor for the University world war service flag.

STUDIOS RUSHED AT LAST MINUTE

Late Students May Be Unable To Get Pictures In Annual Class Sections

A doubt as to whether or not all of the Junior and Senior class pictures which are not yet taken can be taken before Saturday, was expressed yesterday by Alva C. Townsend, one of the official photographers for the 1927 Cornhusker.

"There are so many of the pictures which have not yet been taken that I doubt if the two studios will be able to accommodate the last minute rush which will undoubtedly come before the end of the week," he declared. And because of this some of the students who wish to have their pictures in may possibly not have their wishes granted.

Up to this time the number of pictures taken does not equal that taken at the same time last year. The classes are of about the same size and this means that unless the members of the classes make their reservations soon, it will be too late.

Those people who have not yet made their reservations will be unable to get their pictures in the fraternity and sorority sections, as the same pictures are used for the class and the organization sections.

WORLD FORUM WILL DISCUSS SOCIETIES

J. M. Rosborough Will Defend Present Fraternity-Society System At Forum Luncheon

A defense of the present fraternity-society system will be presented by J. M. Rosborough, instructor in the University School of Music, before World Forum, Wednesday at the Grand Hotel. Tickets are on sale today.

Mr. Rosborough will be followed next week by an attack on the present system by Professor J. A. Rice of the classics department. The World Forum committee anticipates two stirring discussions as both speakers are capable and vigorous thinkers and speakers.

Tickets are on sale for twenty five cents today in Social Sciences, at the Y. M. C. A. and Y. W. C. A. offices and from members of the World Forum committee.

Museum Construction Nearing Completion

Construction work on Morrill Hall had proceeded far enough last week so that it was possible to install radiators and turn on the heat on the first two floors. The pouring of the roof will be completed early this week, and interior finishing is being pushed as rapidly as possible.

Old houses standing between Morrill Hall and the new Coliseum are being torn down and the ground will be cleared in a few weeks. The new building will house the museum, the department of geology, and the School of Fine Arts.

Northwestern University Will Use Films In American History Course

Northwestern University's department of history is about to begin the teaching of American history with the aid of motion pictures. Through the generosity of Frank S. Cunningham, president of Butler Bros., Chicago, and a trustee of the university, a set of films, eventually to be thirty-three in number, has been purchased and as soon as the projector arrives, lectures will begin, with Dean James A. James and Dr. Isaac J. Cox cooperating in the course. A special lecture room, 107 Harris Hall, Evanston campus, seating over 300 persons will be utilized for this interesting series.

Mr. Cunningham presented the set to Northwestern University and for the use of the Evanston Township high school. Northwestern will be the depository of the pictures. He made the gift in memory of his son, Captain Oliver Baty Cunningham, 15th United States Artillery, who gave up his life in the world war after a brilliant record.

Fifteen of the films, already com-

LARGEST RALLY IS FRIDAY NIGHT

Huge Pep Meeting, Greatest of The Year, Planned on Eve Of Kaggie Game

TWIN RALLY NEXT WEEK

With only two football games on the home field remaining, two huge rallies are planned to give the Cornhusker eleven all the encouragement possible. The pep meeting this week for the Homecoming game with Kansas Aggies will be worthy of the traditional battle which old Nebraska graduates come back to see. The rally for the New York contest will be in reality for two games, as the team leaves for Seattle to play Washington within a half hour after the game.

This Friday's game with the Aggies will have a crucial bearing on the Valley standing, aside from the fact that it is Homecoming. The Kaggies have a dangerous team and have been feared since the first of the season.

Coliseum Place of Rally

The pep gathering Friday will be in the Coliseum. Half an hour before the meeting, flares will be sent up to warn the students and Cornhusker supporters that the time has come to show the "Nebraska Fight". Preceding the rally, the Corn Cobs with a six piece band will visit every sorority house on the campus and the Tassels will visit the fraternity houses. The attendance for the Homecoming rally is anticipated as the largest at an indoor rally this season.

The following week, Husker supporters will have to cheer their warriors against opponents on both coasts. New York University plays here and the Nebraska team leaves immediately afterward for the Pacific coast. The twin rally will take place on the campus and will finish with the annual torch parade to the hotel where the New Yorkers will stop.

A memorial reception is planned for Coach Meehan's first visit to Lincoln.

It is now planned that after the game with New York, the football fans will go directly to the station and give the Huskers a send-off before the trip to Seattle.

Daily Nebraskan Inquiring Reporter

Today's Question: What do you think of fraternities and sororities as part of the University social system. Where asked: In front of the Main Library.

Arnold Lorentz, Bizad '30, Loup City. "I am in favor of fraternities and sororities. It gives students a greater chance to enter social activities."

Ted Ratcliff, Law '27, Central City. "I am in favor of fraternities and sororities as a part of the campus social order for the reasons that it solves the university's problem of housing and also promotes a good fellowship that cannot be promoted by any other means."

William Ledwich, Bizad '30, Lincoln. "Fraternities and sororities solve the problem of dormitories and creates a feeling of brotherhood and better social life."

Allan Champe, Bizad '30, Lincoln. "I am in favor of fraternities and sororities because it unites the friendship of the student body into a student body spirit that cannot be found otherwise."

William Lawyer, A. & S. '30, Lincoln. "I am in favor of fraternities and sororities because it constitutes a spirit among the students."

Kaggie Mentor and Punter

The man who has developed the Kansas Aggies into perhaps the strongest football team in the Missouri Valley is C. W. Bachman, former Notre Dame player. "Give me a heavy line, and I'll trim the Cornhuskers," Bachman has said repeatedly. This year he has that line he has been waiting for and next Saturday he will attempt to make good his prediction.

The great punter of the Kansas Aggies is "Chilo" Cochrane, one of the truly great kickers of the Missouri Valley. The Aggies are relying on his long spirals to make the going tough for the Nebraska Cornhuskers in the Aggie-Husker game next Saturday at Lincoln.

Candy Sellers Wanted For Homecoming Game

Hazel Olds, concession manager for the Woman's Athletic association announces that passes to the homecoming game will be procured for all girls who wish to sell candy at the game. Since actual selling time during the game is limited, a huge staff of girls will be necessary to supply the demands of the crowd. A poster has been placed in the W. A. A. bulletin board at the east entrance of the armory. Previous experience is unnecessary as instructions will be given upon reporting to the Stadium at 1:30 Saturday. Members of the W. A. A. executive board are in charge of the supply tables in the hall.

GREEK DISTANCE RUN IS WEDNESDAY

Schulte Hopes For Large Entry List In Annual Interfraternity Cross-Country Race

The interfraternity cross-country meet will be held Wednesday afternoon starting from the stadium at 4:30. The snow yesterday prevented the completion of the interfraternity track and field meet; the remaining events will be held the first favorable Monday, Tuesday, or Wednesday.

Coach Schulte is hoping for a good turnout for the interfraternity cross-country meet. Eight fraternities and thirty-nine men took part in the interfraternity run last fall. The meet last year was won by Alpha Sigma Phi. Phi Tau Epsilon, now Theta Chi finished second with Farm House third and Pi Kappa Alpha fourth.

Members of the varsity team are not eligible for the meet. Each team must register at the athletic office; one dollar fee is charged. Five men may be entered by each fraternity although only four can count for places.

If the weather turns today, the discus and javelin throws in the interfraternity track meet will be held. Interested participants should hold in mind that they will be held the first warm Monday, Tuesday, or Wednesday afternoon.

Foods Class of Home Ec Department Pays Visit to Ag Dairies

The Foods 41 class of the Home Economics Department of the College of Agriculture was the guest of the Dairy Husbandry Department last week. The object of the visit was to assist the members of the class in becoming better acquainted with the modern dairy and the modern ways of handling dairy products.

The class was shown through the main parts of the dairy building. This included the butter and cheese making rooms, the sales room, the cooling rooms, and the storage rooms. The girls were given samples of the different products such as, ice cream, cheese, and milk.

After a thorough inspection of the dairy building, the class was taken through the new all modern dairy barn which is on the east side of the campus. Here it was explained to the class how the barn was planned so that the milk could be kept in as sanitary a condition as it is possible to keep milk.

Observatory Open House This Evening

The University observatory will be open to the public from 7 to 10 o'clock Tuesday evening for a view of the moon through the University telescope. At 8 o'clock Dr. G. D. Swezey, professor of astronomy, will give an illustrated lecture on "The Astronomy of the Earth" in which he will discuss the relation of the earth to the other planets and the stars. The lecture will be given even though the skies may be so cloudy as to prevent use of the telescope.

REGENTS MEET ON SATURDAY

Two Resignations Received By Board; Appointments Are Approved

The Board of Regents of the University met Saturday at 11 o'clock in the office of the Chancellor. All the members were present except Judge H. D. Landis of Seward. Official court duties prevented him from attending. The meeting adjourned at 3 o'clock.

The resignations of W. H. Thomas in Dental Pathology and of L. F. White, Deputy Finance Secretary, were received.

A number of ad interim appointments made by the Chancellor since the last session were approved. These represented no change in the budget previously adopted.

Dr. Frederic W. Webster, Professor of Operative Dentistry, was given the additional title of Instructor in Dental Pathology in the Department of Bacteriology and Pathology.

Charles Mayard Kneier, now in the University of Texas, was appointed Assistant Professor of Political Science beginning September 1, 1927 in the place of R. S. Boots, resigned. Professor Boots' work for the year has been carried by his colleagues without the place being filled.

A small apportionment was made to the School of Journalism for supplies. A committee, consisting of Mr. Webster, chairman, Dean Keegan and Mr. Seaton, operating superintendent, was appointed to care for minor changes in the plans of the new hospital building at Omaha, such as might come up during the process of construction.

It was voted that hereafter the Regents will not re-issue diplomas lost by fire or otherwise destroyed, but the Corporation Secretary is authorized to issue an appropriate certificate setting forth the degree conferred and the diploma issued.

The Board spent considerable time in discussing the budget to be presented to the next Legislature. An agreement in regard to the University's most imperative needs was reached and a special committee appointed to handle the matter with the proper State officials. The details will be announced later.

RACIAL WORK THEME OF VESPER MEETING

Dorothy Nott Will Lead Meeting Tuesday; Will Give History Of Organization

The purpose of the Vesper service on Tuesday evening at the regular Vesper hour, in Ellen Smith Hall, is to bring the work of the Inter Racial group before the women of the University. Dorothy Nott, chairman of the committee, will lead the service.

Miss Nott will give a short history of the committee, Margaret Peterson will speak on "What the Work on the Inter-Racial Committee has Meant to Me" and Cleopatra Ross will speak on "Problems of the Colored Girls". A duet will be given by two members of the committee.

The Inter-Racial staff was established last year after the visit of Miss Julia Derricotte, national Y. W. C. A. secretary for colored girls. The World Forum staff of the Y. W. C. A. at the time was enlarged to include six colored girls. During the present year the Inter Racial committee exists as a separate staff, meeting for discussion every two weeks under the direction of Dorothy Nott. Its membership is made up of an equal number of colored and white girls.

Kindergarten Party Will Be November 18

The Annual Kindergarten Costume Party will be given on November 18 in Ellen Smith Hall from six until eight. During that, a piping dinner will be served to "hungry kids". Good entertainment and funny incidents will make it better than ever.

The tickets are only 50 cents and may be obtained now at Miss Wilson's office or from Orrel Rose Jack, chairman of the Advertising committee. No tickets will be issued after November 15.

KAGGIE GAME TO ATTRACT GRADS

Many University of Nebraska Alumni Expected Here On Homecoming Day

HOUSES TO DECORATE

Alumni of the University of Nebraska are expected to take over this city en masse next Saturday when the annual homecoming day football game and celebration in their behalf is held by the university.

The principal event of the day is the football game between the Kansas Aggies and the Cornhuskers, perhaps the most important game of the year in the Missouri Valley for it will determine whether the Aggies are to continue as an undefeated team or the Cornhuskers will lose their last chance to file their claim on the Valley flag. The Huskers have lost one game but they still have a chance to cop the pennant on the strength of the number of games won and lost.

Decorations Planned

Fraternity houses at the university will take on holiday appearances Saturday. Every organization is laying plans for decorating in honor of the alumni and the visiting opponents. The streets of Lincoln also will be bedecked with flags and the colors of the Kaggies and the Huskers.

A number of organizations are planning luncheons in honor of their returning alumni, while evening parties are also on the day's schedule. The annual military carnival, a make-yourself-at-home event where all formalities are tossed to the winds also is scheduled for the evening.

Y. W. C. A. FUND DRIVE IS SLOW

Team Members Work Hard To Reach \$1000 Mark; \$800 Is Still Needed

"The student spirit in regard to contributions to the University Y. W. C. A. this year is poor" was the opinion rendered by the team members at their luncheon Monday noon. The report of the drive will be given at Vespers Tuesday evening.

Many of the team members were unable to keep their interviews with the girls assigned to them on Monday but it is believed that the bad weather was partly responsible for the breaking of appointments. After 12 o'clock Monday the teams were allowed to solicit any girl on the campus who has not yet contributed.

The thousand dollar mark has been passed and it is expected that the open soliciting yesterday evening and this morning will yield a large percentage of the remaining \$800.00.

Chest Fund Is Cut

The reaching of the \$1800.00 goal is unusually important this year since the annual gift of \$1800.00 from the Community Chest has been reduced to \$1200.00. In spite of the \$600.00 cut the students of the campus were not asked to contribute more than the \$1800.00 which was asked of them last year. The Agricultural college multiplied their annual gift by four, raising over \$200.00 instead of the usual \$50.00.

"I am quite hopeful of the results" said Miss Erma Appleby, secretary of the University Y. W. C. A. "since there is such a large number of girls yet to be seen" The competition between the team captained by Helen Clark and the one in charge of Winifred Sain, is rapidly becoming keener. Yesterday Miss Clarke's girls led by a margin of \$40.00 which has been reduced to \$30.00. The leading eleven has collected \$110.00, an approximate average of \$10.00 for each member. The members of the Y. W. C. A. cabinet will be hostesses at the dinner given in honor of the winning team to be held November 17.

Special Dance Numbers For Military Carnival

Joyce Ayres and his "Cheerleaders" announce that they are at work on some special numbers to be played at the Military Carnival Dance next Saturday night. As a result of many requests, the feature number for the evening will be the "New St. Louis Blues." Aside from this, other musical surprises are ready for the coming party in the form of unique combinations, a variety of vocal selections, and an abundant supply of peppy melodies.

Appropriate uniforms have been secured for the occasion with the intention of adding as much to the spirit of the party as possible.
