

STAGE SET FOR ANNUAL FROLIC OF THE GREEKS

Crawford's Orchestra Arrives To Fill Engagement At Pan Hel Ball

SPRING IS COLOR SCHEME

Decorations Abound With Bright Colors; Many Tickets Sold

Jack Crawford and his 10 piece Chicago Jazz Band arrive this afternoon to fill their engagement at the Pan Hellenic Ball tomorrow night. An orchestra such as Crawford's with an exquisitely decorated ball room assure the success of this year's "Frolie of the Greeks." The affair will take place at the Scottish Rite Temple at 9:00 o'clock.

The Pan Hel will mark the first appearance of Crawford and his orchestra in Lincoln. He has just completed a very successful season in Chicago and is now on tour under the management of the Music Corporation of America.

Although the orchestra is to be the main feature of the evening, the decorations are indeed worthy of mention. An effort is being made to decorate the Scottish Rite Temple in a way that will surpass all previous attempts.

Spring colors will be used entirely in the decorations. The present plan places the orchestra in a flower covered pagoda in the center of the floor. Flowers will also be used to cover arches over the entrances. The spirit of spring will be featured throughout.

Special attention has been paid to the lighting effects. The decorators have devoted much time in producing a scheme that will harmonize with the decorations.

Arrangements are being made with local broadcasting stations to broadcast the music and entertainment of the Pan Hel. The program will begin at 9:00 o'clock and continue until 11:30.

Crawford, who is known as the "Crown Prince of Jazz," and his orchestra are not only noted as musicians but also as entertainers. They present a mixed program of excellent dance music and clever comedy.

Ticket sales indicated that a large number of students will enjoy the Pan Hel. This year all sales were handled through representatives of the Kosmet Klub in each of the Fraternities. This system has proven to be a success.

COEDS ANXIOUS TO USE RIFLE RANGE

W. A. A. Finds Ready Response In Initiating New Activity; Scores Practicing

The rifle range is being invaded this week by scores of the fairer sex anxious to learn the fascinating art of hitting the bull's eye. Practices started Monday and will continue six weeks longer. The Woman's Athletic Association is initiating this campus activity and any co-ed may try out for the Varsity team.

Telegraphic matches are being held with the woman's teams of the leading Universities of this country, Porto Rico and Hawaii. Individual members of last year's team averaged higher scores than many of the men. It is rumored that perhaps women's scores will be set this year against some of those schools challenged by the men.

The range is open for practice and instruction all day long. The signed practice target not only provides an attendance record, but will give Helen Schrader, rifle manager, a basis for choosing the final team members.

Museum Is Busy Moving

The Museum and department of geology is busy getting their material packed and moved over to their new building, Morrill Hall, but the offices of these departments will not be moved until the workmen are practically all out of Morrill Hall.

Kindig and Mills Visit Museum

Recent visitors to the Museum and the department of geology are: Ira N. Kindig, a former student, now of Beatrice, called on Wednesday, and William Mills of Los Angeles, who also called this week.

Has Story in Nature Magazine

"The Story of Seven Stowaways" by Marjorie Shanagelt, secretary to Dr. Barbour, an interesting story of a mother opossum and six young which came to Nebraska in a crate of bananas from British Honduras, appears in the last number of the Nature Magazine. This is one of a number of stories written by Miss Shanagelt for this magazine.

Seniors Scare First Year Law Men; Post Fake List of Grades

Freshmen law students were very much excited Thursday morning to find that their grades were already posted. The commotion increased as the various freshmen looked at them. Irrate students interviewed less perceptive professors to see why so many of the good students had failed and why the poor ones had grades that ranged from 90 to 100. Several prominent freshmen law students, not well known however for their scholastic averages, received such grades as 93 percent in crimes.

Professors were at a loss to explain this fact since they denied all responsibility for the posted grades. The mystery increased as more freshmen with worried expressions ran through the halls interviewing one professor, then another.

Investigation showed that a group of seniors was the cause of all the trouble; they had posted the grades on an arbitrary scale to put a scare in the freshmen.

Contributing Editors Will Be Named Soon

The staff of contributing editors for The Daily Nebraskan will be announced early next week. The editor is still considering applications, and will be glad to interview prospective applicants in the Nebraskan office any day from 3 to 4 o'clock. Qualifications in the main are 1—a background for successful editorial writing, 2—evidence of some literary ability, 3—willingness to contribute regularly.

LAX STUDENTS MAKE DELAY IN YEARBOOK

Fraternity and Sorority Departments Halted by Failure to Order Prints Made

A delay in the make-up of the fraternity and sorority pages for the 1927 Cornhusker has been caused by students failing to call the photographers and order prints to be made for these sections, it was learned at the yearbook office yesterday.

"Many people have had pictures taken for the class sections and have let the matter drop, expecting that their pictures will be put in the other sections where they belong without any more trouble on their part. The photographers, however, have put a charge of fifty cents on each extra print, and unless this is paid and they are given the order for new prints to be made for use in other sections, they also let the matter drop," W. F. Jones, editor of the annual, declared.

When last year's prints are to be used, the student should advise the photographer of this and pay the fee, Jones continued. Otherwise the studio is left under the impression that no further prints are to be made. The main cause of the delay is due to students failing to provide for the making of a sufficient number of prints to be used in all of the sections they wish their pictures in. In some cases people have had their portraits made and failed to tell the photographer what it was to be used for. In this event no record at all is kept for the Cornhusker.

Members of the staff are at present calling members of professional and honorary fraternities, class officers and class honoraries, urging them to make immediate arrangements for having their pictures in these sections.

MATMEN LEAVE FOR MISSOURI

Seven Husker Wrestlers Journey To Meet Tiger Grapplers This Week End

Coach Kellog and his Nebraska matmen will leave this afternoon at 1:45 o'clock for Columbia, Missouri where the Husker grapplers will meet the Missouri Tigers in a Valley mat contest this week end.

Seven wrestlers will make the trip to Missouri. Davis will represent Nebraska in the heavy weight division and Albro Lundy in the light-heavy weight class. Joe Toeman of St. Paul will defend Nebraska in the 158 pound weight and Max Karrer, Benedict in the 125-pound division. Luff will handle the 135-pound weight and Kish the 115 pound.

Two of the weights were undecided until last night when Albro Lundy, letterman of 1924 qualified for the meet by throwing Verle McBride in the light-heavy weight division. Max Karrer of Benedict wrestled it out in the 125-pound class with Lindskog of Lincoln.

Many Colleges Already Aiding In Peace Problems, Declares Libby

Many colleges in the United States are sending out teams of speakers to urge the problem of world peace to people of surrounding towns; two Indiana colleges are doing this, and Nebraska Central College already has a team of speakers which has travelled 500 miles in their effort to convince people of the significance of permanent world peace. This, according to Dr. Frederick J. Libby, executive secretary of the National Council for the Prevention of War, is the real service which all colleges and schools may render in doing their share towards the promotion of peace and arbitration among the nations of the world in the future.

"The United States is the most powerful nation in the world, and as such will have a deciding voice for

now on as to whether there will be peace or war," he declared. "It is our purpose to educate the youth of the world to the fact that people may be heroes in a constructive manner, and thus encourage the tendency away from thoughts of warfare." He pointed out that fact that of the heroes selected by school children the world over last year, in the contest for twelve greatest figures in the world, many, such as Pasteur, Gutenberg, and Livingston, were chosen for their constructive work to humanity, along with George Washington, Abraham Lincoln, and others. This final selection, by school children of the world, is, in Dr. Libby's opinion, a marked step in the path to world peace, which must be achieved for the sake of society's actual existence in the future.

NEXT VARSITY MAY BE HELD IN ARMORY

Coliseum Not Available For Next Party; Valentine Specials Will Feature Event

The next Varsity Party may be held in Memorial Hall, it was made known yesterday, following a meeting of the Varsity Party committee. Complete plans have not yet been drawn up but it was learned from an authoritative source that the Coliseum would not be available for that evening.

Whether the floor will be used for another purpose, or whether it has been forbidden for party use because of the two basketball games which are so close together that it would be useless to make the large expenditure necessary to clear the floor for the dance, it has not been learned. It is certain, however, that if there is a party it will not be held in the Coliseum.

Original plans of the committee included decorations for a huge Valentine party. These plans have not been completely discarded and it seems the committee is very much in favor of carrying them out regardless of where the party is held.

LOCAL TEAM AIDS IN INSTALLATION

Phi Kappa Sends Members to Install New Chapter at Denver This Week End

Denver, Colo., February 3.—A degree team from the University of Nebraska chapter of Phi Kappa will install Kappa Phi Delta, a local fraternity at the University of Denver, here this week end, as Phi chapter of the national organization of Phi Kappa.

Kappa Phi Delta, which was organized at Denver University in 1923, was unanimously accepted as the only chapter to be admitted to Phi Kappa this year at the Phi Kappa national convocation held in Pittsburgh last December. Twenty-one men will be inducted by the visiting chapter from Nebraska.

Walter A. Houck and Luke Linan, national supreme secretary and president respectively, will accompany the installing chapter from Lincoln to Denver, and will assist in the ceremonies. The ceremonies will be concluded Saturday evening with a banquet at the Brown Palace.

Oklahoma Plans Tour Into Mexican Cities

Norman, Feb. 3.—(Special)—Enrollments already are being received for the University of Oklahoma's second annual educational tour to Mexico, according to L. B. Fritts, extension organizer who conducts the party each summer.

Last year 18 persons, most of them teachers of Spanish in high schools of the state, enrolled in the course which included eight weeks of class work in the National University of Mexico City. Arrangements are being made to take as many as 60 students on the trip next summer.

Those taking the trip are required to pay a small registration fee, and to pay their expenses on the trip, which includes several days of sight-seeing on the way to Mexico City and return, with side-trips each week-end.

Expenses of those who were included in last year's party averaged slightly over \$250 for the nine weeks' excursion. Fritts, who acts as guide and interpreter for the party, spent a number of years in educational work in Mexico.

Venezuelan Geologist Lectures

Clarence L. Lee '26, geologist from the Lago Petroleum Corporation of Maracaibo, Venezuela, lectured to classes in oil geology in the department of geology on Thursday morning.

WOMEN SELECT HONOR MEMBERS

May Queen, Maid of Honor, and Mortar Board Nominations Are Next Week

REVEALED ON IVY DAY

Nominations for the prospective members of Mortar Board for the year 1927-28 and the election of the May Queen and the Maid of Honor will be made by senior women Wednesday and Thursday of next week from 9 to 5 o'clock. The polls will be in charge of a group of Mortar boards and will be placed in the corridor of Social Science.

Names for May Queen and the Maid of Honor will be placed on a single ballot as in previous years. The women receiving the highest number of votes will be chosen as May Queen, and the one receiving the next highest number of votes will be elected Maid of Honor. The results of the election will not be known until Ivy Day, when the May Queen and her Maid of Honor will be publicly presented and the members of Mortar Board will be masked.

A list of junior women will be posted at the polls from which senior women may select from five to fifteen candidates for Mortar Board. From the group of thirty women receiving the highest number of votes and having proper scholarship standings the Mortar boards will be selected. According to a ruling adopted in 1925 the personnel of the organization may vary from five to fifteen at the discretion of the active chapter.

Y. M. C. A. STARTS DISCUSSION GROUPS

Protection of Foreign Interests Was Subject Sunday; Other Programs to Follow

The Lincoln Y. M. C. A. is holding a series of discussions in the Y. M. C. A. Gymnasium on Sunday afternoons. The first of the meetings was held last week.

The subject held under discussion dealt with the protection of foreign interests abroad. This subject was of particular interest, since the confiscation of American interests in Nicaragua. A motion picture, dealing with a religious topic was shown, and music was rendered by the Y. M. C. A. Orchestra.

A similar program is planned for next Sunday. A motion picture will also be given. The topic for discussion concerns the enforcement of law, and when it should be enforced. Judge Chappell, of Lincoln will speak. The topic of prohibition, and the eighteenth amendment will not be taken into consideration at this meeting.

Whiskers Popular at Marathon

The men of Stanford University, California, have instituted a mammoth Marathon Whisker Contest to last two weeks. The contest is open to every rough in the university who is able to raise a legitimate crop of whiskers; no entrance fee is required. Ten dollars and a beautiful mug are offered as prizes to the contestant whose whiskers furthest attain the apex of business, length, and general tonsorial health and excellence.

Oklahoma Picks Glee Club

Thirty-one men have been chosen for the glee club to represent Oklahoma university at the Missouri Valley contest to be held at St. Louis.

Many Nationalities Represented At Cosmopolitan Banquet This Evening

The Student Friendship Banquet, which is to be held this evening at the Unitarian Church, is expected to be a unique event in the history of the University Y. W. C. A., Y. M. C. A., and the Cosmopolitan Club. It is to be an international dinner, with as many races and nationalities represented among those attending and in the program as possible. The menu is also to be representative of various nations, as it is made up of dishes characteristic of the different countries.

There are many possibilities for development of a greater feeling of world fellowship among students on the campus, for students from many national groups and races are present. In the Cosmopolitan Club, alone, there are about thirty Filipino students, six Chinese, one Japanese, three Russians, one Hawaiian, one Portuguese Indian, one American Indian, one Greek, one Polish and one Korean student, three Italians and a few Scandinavians. There are many negro students on our campus, and also students from Mexico, Panama, Korea, England, France, and Germany and other countries.

The Student Friendship Fund and this movement for international fellowship and good will among students seeks to further this work not only in this country, but also in foreign lands. Representatives from Nebraska to the National Student Conference in Milwaukee heard many foreign students speak in glowing terms of the activities sponsored by the Student Friendship Fund in their countries. Many of those who were there told how they had been personally aided by the work carried on by means of this fund.

It is planned that a feeling of international goodwill and fellowship will be promoted by the International dinner Friday evening as well as some money raised for the Student Friendship Fund. The program especially, will carry out the international idea as it will be made up of selections given by students in costumes typical of certain countries, and of musical selections by foreign students on the campus.

Fling Will Lead Next Sunday Meeting With Biographical Sketch

Prof. F. M. Fling will read from "The Private Papers of Henry Rye-croft," next Sunday afternoon between 4:30 and 6 o'clock at the University Club, 1124 N Street. This is largely an autobiographical sketch of the struggles and aspirations of George R. Gissing, a celebrated writer. All young men who love books are invited to these Sunday readings. Mrs. Harriet Cruise Kemmer will give several songs.

The following Sunday the Reverend Mr. Levers, rector of the Church of the Holy Trinity, will read selections from the Writings of G. K. Chesterton. Mr. H. I. Kirkpatrick of the University School of Music will arrange the vocal numbers.

Professor Fling will introduce his readings this Sunday with a chat about some treasured volumes from his private library.

STARRELS EXPLAINS JUDAISM AT FORUM

Rabbi Discusses Jewish Religion at Ag Forum; Committee Will Continue Luncheons

Rabbi S. E. Starrels was the speaker at the second luncheon of the Agricultural College World Forum, which was attended by over sixty agricultural and home economic students. He spoke on Judaism, outlining in brief some of the conceptions of the Jewish religion.

In his address Rabbi Starrels declared that he likes to think of religion as being full of fresh air and sunshine, and as a closed chapter with all prospects handed down without question. His conception of God is not as a deity to be proven, but rather a God which is the ideal of all that is good, beautiful, and true. According to the speaker the Hebrew takes his God for granted. He also pointed out that the Jewish faith was the first to accept the idea of monotheism and that under this conception, it was impossible to think of a Trinity.

The conception of Rabbi Starrels' of the world and a future place is not that the earth is a place that has fallen in wickedness and needs redeeming, but rather a place for man, a creature of virtue, to exert his best efforts and bring about a future world of peace, truth, and brotherly love. He stated that his people do not believe that heaven is a playground for "good Jewish boys and girls," but a place to be shared by the righteous of all peoples.

The committee plans to continue the luncheons, according to Anton Frolik '29, who was in charge of the sale of tickets. A speaker for each Thursday in February is being secured and plans being laid for a program of interest to the students of the college during the remainder of the semester.

Nineteen Hundred of Oklahoma's Students Help Earn Expenses

Norman, Feb. 3.—(Special)—More than 1700 men and 200 women enrolled in the University of Oklahoma are earning all or part of their expenses while going to school holding down jobs of various sorts on and around the campus, a check made by the Y. M. C. A. revealed.

Men are employed in jobs ranging from shining shoes to clerks and waiting on tables, while girls' employment ranges from working in Norman homes to stenography and teaching.

Geologists Receive Geodes Concretions

The department of geology recently received two dozen large geodes concretions from Burlington, Iowa, of a type which are found in no other part of the world so far as is known. The geodal cavity of these concretions is filled with oil. These fine specimens were sent to the department by J. P. Yoshida, a former student who specialized in chemistry and geology at this University, and who visited the Museum and the Department of Geology one day last week.

Track Team's Shoes Average 11 1-2 to 12

Norman, Feb. 3.—(Special) Track stars who are pictured as flying around the cinder paths on nimble, dainty feet, are few and far between at the University of Oklahoma, according to John Jacobs, track coach, who believes his athletes have bigger feet than those participating in any other sport. The shoes required by these track men average between the sizes of 11 1-2 and 12.

ACACIA SWINGS AHEAD IN GREEK TRACK EVENTS

Sigma Nu Drops to Fourth Place; Kappa Sigma Is Second

ONLY FOUR MORE EVENTS

Seven Fraternities Conceded Chance to Gain Final Honors in Meet

Acacia swung into first place Thursday in the inter-fraternity indoor track meet while Sigma Nu, leaders the first half of the week, dropped to fourth place among the twenty-nine competing teams. Kappa Sigma rode on the crest of a scoring wave that carried them from ninth place Wednesday to second place Thursday.

Theta Chi managed to remain in third place through the stellar efforts of Elkins and Dexter. The versatile Indian, competing in his fifth event, was an easy winner in the pole vault. He is allowed to compete in one more event in the meet. Dexter, running his second distance race, took second in the 660.

Raue, Connor and young Wyatt were largely responsible for the sensational rise of Kappa Sigma. Raue and Connor shared a three way tie for second in the pole vault with Oasian, the lone Delta Sigma Lambda entry to date. Wyatt turned in a fast 660 for third place in that event.

Four events remain before the conclusion of the meet Saturday evening. Any of the first seven teams are conceded a reasonable chance of ending at the top of the heap. The 440 yard dash and the broad jump will be run off this afternoon. Saturday afternoon, the meet will be rounded out with the 50 yard high hurdles and the 2 mile run.

Although Sigma Nu dropped to fourth place Thursday, less than 500 points separates them from Acacia, present leaders. Farm House and Delta Tau Delta each moved up a notch in the fourth day's competition while the Sig Eps dropped from fourth to seventh. Tau Kappa Epsilon also dropped, going from fifth to eighth.

Snethen, Phi Delta Theta freshman, whose 2:6.3 in the 880 Wednesday topped the list of half mile marks, repeated with a remarkable 1 minute 29 second time in the 660 yesterday.

The high men in Thursday's events were: Pole vault: Elkins, Theta Chi, 10' 9"; tie for second at 10' 6" between Raue, Kappa Sigma, Connor, Kappa Sigma, and Oasian, Delta Sigma Lambda.

660 yard run: Snethen, Phi Delta Theta, 1:29; Dexter, Theta Chi, 1:29.2; Wyatt, Kappa Sigma, 1:32.2.

The standing of teams now is: Acacia, 10,939; Kappa Sigma, 10,853; Theta Chi, 10,463; Sigma Nu, 10,448; Farm House, 9,621; Delta Tau Delta, 8,568; Sigma Phi Epsilon, 8,376; Tau Kappa Epsilon, 7,789; Alpha Tau Omega, 7,640; Phi Delta Theta, 7,026; Lambda Chi Alpha, 6,746; Alpha Sigma Phi, 6,236; Delta Sigma Phi, 5,491; Beta Theta Pi, 5,478; Pi Kappa Alpha, 4,248; Phi Sigma Kappa, 4,091; Phi Kappa Psi, 2,370; Pi Gamma Delta, 1,400; Delta Upsilon, 1,130; Delta Chi, 938; Delta Sigma Lambda, 910; Alpha Theta Chi, 870; Alpha Gamma Rho, 820; Omega Beta Pi, 820; Kappa Psi, 820; Xi Psi Phi, 800; Sigma Chi, 570; Sigma Alpha Epsilon, 544; Mu Sigma, 100.

MISS TOWNE TALKS BEFORE TEACHERS

Vocational Director of Lincoln Gives Address at Open Meeting Of Pi Lambda Theta

"Vocational Guidance" was the subject of an address given by Miss Harriet Towne, vocational director of the Lincoln Schools, at an open meeting of the Pi Lambda Theta Thursday evening. This is a national honorary educational organization, but all junior and senior women registered in the Teachers College were invited to attend.

Miss Towne, who is an authority on the subject of vocational guidance, illustrated her talk by lantern slides. The speaker is well known as a national authority on this subject which is of such vital importance in the field of education. Elizabeth Morgan presided over the meeting. A short business session was held after the talk had been given.

Splendid Specimens of Copper Ore

Some splendid specimens of covellite and bornite copper ores were sent to the department of Geology by Marcus Banghart '26 from the Anocanda Copper Mining Co. of Butte, Montana.
