FLING SPEAKS BEFORE FORUM

(Continued from Page One.) small minority in the United States Senate.

Minority Blocks Senate Action
 "It is a reflection on us," he charged, "that we let a little bunch of politicians at Washington run over us in this thing. What we need today is intelligence in regard to this thing. What we need today is intelligence in regard to this thing." Dr. Fling prefaced these challenges by pointing out that an overwhelming sentiment for membership in the World Court had been defeated because a minority of only one more than one-third in the Senate could tie the whole thing up. He showed how a Senate minority had amended the proposal for our entry into the Court until it could not be acceptable to the other nations.

Declaring that, in his opinion,

world organization was the only thing which could prevent international chaos, Dr. Fling closed his address by calling attention to the fact that at the close of the war the United States was at the summit morally, but that since the war we have deteriorated.

Law Students Start Action To Get Grades

(Continued from Page One.) mental balance and physical well-being.

"Plaintiffs further allege that said defendants, not being satisfied with placing the welfare and prosperity of said plaintiffs in imminent danger, have further conspired and colluded against said plaintiffs by willfully and wrongfully refusing to publish the results of said examinations in the usual and customary manner. "Plaintiffs allege that due to said refusal and neglect of the defendants, plaintiffs have suffered much loss of sleep and have been compelled to spend several weeks under great mental strain and nervous tension.

"That should said defendants continue to subject plaintiffs to such anxiety and mental suffering the plaintiffs' mental equilibrium and physical well being will be totally and permanently destroyed. "Wherefore the plaintiffs pray this court that an order be issued directing said defendants to publish and make known to said plaintiffs the results of aforesaid examinations by posting the grades thereon upon the official bulletin board of the College of Law P. D. Q."

Flunk & Condition, Attorneys for Plaintiffs.

Moderns Want Something Unique and Speedy

The time has come! Park your car dead in the ash can and stick the door of' skis in the fireplace! Modern youth demands something speedier, more unique, more sensational. He has found it. Just bounce gaily out of the house some one of these bright mornings—and let nature take its course. It will anyway.

Hunter Co-Eds to Run Boat

New York—Seven girls from Hunter College on Thursday are to run a boat containing the new Izel engine manufactured by the Worthington company to demonstrate the simplicity of the engine. Two of the girls are to make observations and the other five, in overalls, are to be "Oilies."

Scholarships Offered Students Wishing to Spend Year in Prague

The Czechoslovak Ministry again offers five scholarships of 15,000 Czechoslovak crowns (equivalent to about \$500.00, which approximately covers room, board and tuition) to American men or women who wish to study in Czechoslovakia. These scholarships are available for 1927-28 in Charles University, the University of Technological Sciences, Arts Academy, or the Commercial College. Requirements for eligibility are as follows: (1) some knowledge of either the Czech or the Slovak language; (2) a Bachelor's degree; (3) Ability to do independent work; (4) a health certificate; (5) good moral character; (6) American citizenship (preference will be given to applicants of Czechoslovak descent). Preference will be given to candidates between the ages of twenty and thirty, who have successfully finished their Slavonic studies at an American university or who intend to specialize in Slavonic studies—primarily those who intend to become professors in the subject of Slavonic languages, or whose major interest is history or any other scientific study.

Governments are advocating that no goods be bought and statesmen are stressing the tariffs as a means of keeping goods out of their countries. "But," continued Sir Paish, "International Trade furnishes the only remedy for so grave a situation."

Facilities for Transportation
 "The great advancement that the world has enjoyed in the past century has been in a great part due to the rapid advancement in the means of transportation," he cited. "America's prosperity is in a large measure the result of their having destroyed distance. Physical barriers have been broken down and that is what is needed now."

It is only through the medium of international trade that the grave financial situation can be prevented because the nations of the world must have a means of paying their debts and this can only be accomplished through the expansion of business with other countries.

"Europe today is sorely in need of American products but they cannot buy because they have no means of paying and until America buys products from other countries, they cannot do business with them," Sir Paish declared. "Don't build up barriers for international trade, but tear them down."

"The Quest" is Title of Farmers' Fair Pageant

The pageant, "The Quest," was selected as the one to be presented by the home economics department of the College of Agriculture at the Ninth Annual Farmers' Fair by the 1927 Farmers' Fair Board at their meeting Wednesday evening.

They also planned to hold a convocation of Ag College students on Thursday, March 3. They hope to create some spirit in this meeting of the students and at the same time present the plans for the 1927 Fair to the student body.

Pool to Give Summer Course

A six-weeks botany course under the direction of Dr. R. J. Pool, chairman of the department of botany, will be given in the Rocky Mountain National Park in Colorado this summer, according to an announcement by the University extension division. The course will be held from June 7 to July 13. Both beginning and advanced work will be offered. Camp Olympus, not far from the village of Estes Park, will be the headquarters of the group taking the course.

Womens' Student Pilgrimage to Visit European Countries Next Summer

A student conference in England; the sights of London; a glimpse of Scotland; a chance to know a few Dutch students; a week of roughing it with the German Youth movement; leaving a bit about Poland; and attending the annual International Student Service Conference will be just a few of the widely diversified experiences of the members of the Women's Student Pilgrimage.

The personnel of the pilgrimage will include twenty-four college women who will tour Europe during the summer of 1927 under the auspices of the National Student Council of the Young Women's Christian Association.

The party will sail from New York on June 25 and will return on September 6. It may include undergraduates, faculty members and secretaries. Passage has been booked for twenty-six persons, including two leaders.

The Pilgrimage will be under the care of two members of the student staff who have previously travelled in Europe. The party will be divided into two groups, one leader traveling with each group. Due to the wide contacts of Conrad Hoffman, executive secretary of the International Student Service, who is making the arrangements for the pilgrimage, access will be gained to practically every student organization in Europe.

Attendance at the International Student Service Conference will be the high point of the trip this year. The conference is held at Schiers, Switzerland, August 5 to 12. The American representation has been limited to twenty persons, ten men and ten women. The official women representatives are to be appointed by the different regional councils from among the pilgrimage personnel. The members of the pilgrimage who do not have the privilege of representing American women students at the conference will have the privilege of visiting Italy and also the Geneva Institute of International Relations, connected with the League of Nations.

The cost of the trip, including living expenses and passage is seven hundred dollars, a very low price considering the travel and experience and the valuable contacts gained with foreign students.

Persons interested in the trip or interested in finding out more about it are urged to see Miss Erma Appleby at her office in Ellen Smith Hall, immediately, as the personnel of the party must be made up as soon as possible.

WRITERS WILL HEAR STUDENTS

(Continued from Page One.) symposiums upon topics of "Juvenile Literary Contributions," for the student writers. W. B. Kerr of Omaha will be the leader for the round table discussion on "How and Where I Placed My First Marketed Published Work," and Martin Harris of Omaha will be the leader for the subject "When and How I Hope to Place My Next Published Marketed Work."

The afternoon program is being outlined by a committee of which Dale P. Stough is chairman. He is being assisted by Robert P. Crawford, Gayle C. Walker, of the University School of Journalism, and Miss Dorothy Colburn of the high school faculty.

A number of noted Nebraskans will be in Lincoln for the meeting, including Bess Streeter Aldrich, Elmwood; Mr. and Mrs. Keene Abbott, Harry G. Shedd, Eugene Konecky, Grace Sorenson, Hester Bronson Cooper, Omaha; Mrs. Jack Burton, Beatrice; Awanda Slaker, Hastings; and Mart J. Appar, St. Edward.

New Members Invited To Discussion Group

The discussion group of the Arts and Sciences College will meet in the Temple Saturday morning at 10:30 o'clock. All persons, whether they have attended previous meetings or not, are invited to come.

Two hundred and seventeen volumes of French works, including some of Victor Hugo's masterpieces, French encyclopedias, modern novels, and poetry, valued at approximately one thousand dollars, have been added to the Denkmann Memorial library. Professor Kling, head of the French department at Augustana college purchased the books from a French bindery at a price far below their value.
