

Nebraska Ranks First In Valley Sports in 1912

(Continued from Page One.)
The whole team made Dr. Williams, the Minnesota football mentor say, "Nebraska has a great team."

One of the most gruelling games of the year was the Haskell-Nebraska game which Nebraska won 7 to 6. On November 8, Nebraska went to Ames to take the count of the states, 18 to 9. Then at Lawrence on a muddy field the Huskers took the Kansas eleven to a 9 to 0 beating. As a climax to one of the greatest football seasons Nebraska had ever spent, the Husker eleven routed the University of Iowa eleven 12 to 0. This was one of the most spectacular games of the season and with a team that had the reputation of having the fastest backfield in the west, Mastin, Cornhusker end, played the best game of his football career.

Eckersall Chosen Players
Walter Eckersall, the great sport writer referred the Iowa-Nebraska game and in his All-American choice, he placed Halligan as left tackle on his first team, Rutherford on his second team, and Purdy was given honorable mention.

To Coach Stiehm goes the greater amount of credit for the victorious

year of 1912. He developed a perfectly green team of footballers into one of the strongest football machines in the west and champions of the Missouri Valley. This made his third championship team in as many years as he was coach at Nebraska. During his three years as football coach at the Husker institution, his football team had lost but two games, both being with teams outside of the conference.

Two Are All-American
Six Cornhusker football men found places on the All-Missouri Valley eleven and two on the All-American teams. They were Purdy, Halligan, Beck, Mastin, Towle, and Rutherford. The wearers of the white sweaters, symbolic of Missouri Valley champions were: Leonard Purdy, half; Max Towle, quarter; Richard Rutherford, half; Warren Howard, fullback; Robert Thompson, center; Earl Abbott, guard; Clinton Ross, guard; Roy Cameron and Vic Halligan, tackle; Guy Mastin and Charles Beck, ends.

Looking back over the season of 1912, we find that it is without parallel in the history of the University of Nebraska. It was the most successful in the entire history of the school. The record of having defeated such teams as Minnesota, Haskell Indians, Iowa University, and Kansas is a feat that has never been accomplished since 1913. By winning from Minnesota, Nebraska was awarded the championship of the west, and by winning every game in the Valley, it received the championship of the Missouri Valley.

Seeks Admission to Big Eight
After the successful season of 1912 Nebraska tried to gain admission into the Big Eight conference, now the Big Ten. Nebraska had won the championship of the Valley for so many years in the last decade that the Cornhusker footballers were seeking new and other fields to conquer. The Husker school was known all over the country for the great football teams it produced every season and was also known for the hospitality it gave to its visiting teams and the clean sportsmanship that existed at Nebraska.

Coach Stiehm had turned out a Missouri Valley championship team in basketball the season before and attempted to repeat his feat of 1913 and put a championship quintet on the court during the winter of 1914. His efforts were rewarded in the opening games of the season when the Husker basketballers journeyed to Minneapolis to take the count of the Minnesota Gophers in two games in the second Nebraska defeat for the Gopher that year.

Valley Divided in Two Sections
The Missouri Valley was still divided into two sections as it was the year before. By winning every game with the valley teams, Nebraska won the Northern championship while Kansas won the championship of the

Southern division. In 1913 both teams had won the divisions and in the final play-off, Nebraska won the title by beating the Jayhawkers in the first two games of the three-game series. But this year Kansas would not meet Nebraska to decide who would be champions of the Valley, so the championship went to the two schools.

Captain Haskell, who led the Husker basketballers through their successful season was selected as All-Valley guard for the third consecutive year. The following men made up the team 1913-14; Captain Haskell, Hawkins, Rutherford, Hugg, Warren, Howard, Meyers, Hanzlik.

Poor Track Season in 1915
The 1915 track season at Nebraska may be said to have been the worst season the Husker school ever experienced on the cinder paths. Judging from the list of defeats it was marked down as an unsuccessful season. With only three lettermen as a foundation for the Cornhusker track squad, it was a simple matter for Iowa University, Minnesota, and Kansas to pounce on the Nebraska track team.

Going back again to the gridiron in 1914 the Nebraska team again proved to be all-victorious and won every game on the field. Iowa University, Kansas, Morningfield, Ames, Michigan Aggies, Kansas were the eleven that fell before the mighty Husker machine. Nebraska took the Missouri Valley championship for the fifth consecutive time.

The whole Missouri Valley could not have produced such a football eleven as Coach "Jumbo" Stiehm turned out in 1914. There were several great football men on the Scarlet and Cream grid machine that year, some of them receiving national wide prominence. "Vic" Halligan was mentioned for the All-American and Chamberlain attracted attention all over the east and middle west, Warren Howard, one of the greatest punters in the country and a master of the forward pass were some of the men that made up the Husker football team. The team was as follows; Captain Victor Halligan, Warren Howard, Herbert Potter, Richard Cameron, Guy Chamberlain, Arthur Balis, Harry Corey, Paul Shields, Raymond Doyle, Harry Delamatre, Earl Hawkins, Loren Caly, John Cross, Grove Porter, Milton Selzer, and Kenneth Fouts.

Any industrial worker who moves things by hand is doing work that Electricity can do for about 2 cents an hour

More than 60 per cent of the mechanical power used by American industry is applied through electric motors. But the electrification of the tasks performed by man power has hardly begun. Electric power not only saves dollars; it conserves human energy for better purposes and raises standards of living. College men and women may well consider how electricity can lessen the burdens of industry and of farm and home life.

GE
You will find this monogram on all kinds of electric equipment. It is a symbol of quality and a mark of service.
