DELEGATES SPEAK AT VESPER SERVICE

Nebraska Co-Eds Who Attended Y.M. and Y. W. C. A. Camps at Estes Park Describe Trip

"In the Spring we are all desirous of going to camp, but as this is impossible we will have the pleasure of hearing our delegates tell us about their summer spent at the Y. W. C. A. and Y. M. C. A. Conference camp at Estes Park," began Ruth French, who led Vesper Meeting yesterday afternoon.

"The situation of the camp is superb, being located on an elevated plateau surrounded by mountains. The buildings are very rustic and home-like, creating an ideal spirit of friendship," said Lucile Oscar, in telling of the Conference Grounds. "Camp is not only a place for the deeper things of life, but has wonderful recreational advantages, including hiking, horseback riding, and teas," stated Jeanette Dean.

"I feel that the Quest Groups are the most vital part of the conference," said Hazel Sutton. "Each group is composed of about thirty-five girls who gather together and discuss their daily problems."

Advance Course Men Are To Sign Three Contracts

FRESHMEN FAIL TO WEAR CAPS

Official Roll To Be Checked And List of Rule Evaders Will Be Punished

PLENTY IN STOCK NOW

Examination of records discloses the fact that several hundred freshmen have failed to buy green caps. The thousand first-year men who have purchased the traditional headgear are being listed, since each ticket has the name of a purchaser on it, and by comparison with the official roll it will soon be possible to publish the names of those who have not obeyed the order.

Freshmen may save trouble and inconvenience by buying the caps immediately, from any member of Iron Sphinx, or at Speier's store or the Student Activities office in the Coliseum. A purchaser first receives a ticket which may be exchanged at the store for a green cap. Stocks of the caps are said to be sufficiently large to supply those who have yet to buy them.

The Green Cap committee took no action in regard to freshmen who have disregarded the custom, as was planned, at the Iowa State football game Saturday, because of the bad weather and the fact that there were a number of first-year men in the main cheering section. Iron Sphinx, which has the assignment of conducting the green cap operations, issues warning that less lenience will be shown from now on.

FRESHMAN COUNCIL MEETS

Yearlings Convene Wednesday and Thursday in Temple

The Freshman Council will meet Wednesday and Thursday evenings at 7 o'clock at the Temple. This council is composed of all men who wish to come closer together in fellowship, and who are desirous of meeting in a body to discuss topics vital in the life of the university student.

"What looks wrong to men in university life," will be the topic for discussion Wednesday and Thursday. All freshmen attending will write a paper of their opinions on this subject. These papers will be filed away and next year at this time the same men who have written these papers will again write their views on this subject.

Table of Scholarship Reports

Table with columns for 1926-1927, First Semester, and Second Semester. Rows include: Number of men registered, Number of men delinquent, Number of fraternity men registered, etc.

PLEDGES REMOVED AT FIRST QUARTER

Freshmen Receiving Poor Grades Can Be Dropped from Lists Without Affecting Group Status

Fraternities and sororities having on their lists pledges who are very poor in scholarship will be given an opportunity to erase the offending names from their books, under the plan announced from the office of the Dean of Student Affairs.

A delinquency report will be mailed to each fraternity and sorority in time for the regular meeting following the date of the first quarterly report of each semester. At that time pledges who are seriously delinquent may be dropped from the organization, provided their pledges are broken and they are moved from the house. Unless notice of this action is given the office of the dean the next day after the meeting, records of all pledges will be included in the group's average for the semester, the announcement states.

Since members and pledges who leave school or are dropped from the group after midsemester count in the semester standing, organization presidents are urged to see that all withdrawing students are in good standing at the time.

A. W. S. SPONSORS EVENT

The sale of Homecoming Stamps to downtown firms has been started, and will continue until Monday, October 10, according to a report made by Grace Elizabeth Evans at a meeting of the Associated Women Student's Board held Tuesday at 12 o'clock in Ellen Smith Hall.

For a number of years the board has sponsored the sale of these stamps which are used to advertise Homecoming. The stamps are being used on all business letters, and by fraternities and sororities sending out letters to alumni, aside from use made of them by university students. The sale of the stamps to students opens October 25 and will continue until November 5, Homecoming Day.

The stamp, as used last year is a red N on a white background with the words Homecoming Day November 5 in the N. The profits from the sale will go to a fund, which, when it is large enough, will be used to start a cooperative house.

The members of the committee in charge of the sale include Grace Elizabeth Evans, chairman, Esther Heyne, Ruth Shallock, and Blanche Farrens. A tea for next Thursday, October 13, from 3:30 o'clock to 5:30 is being planned. Helen Van Gilder will be chairman of the committee in charge, which will be chosen of students off the board, and will be announced later.

Co-Eds Lead Men in Hours Over Passing

Scholarship statistics recently published by the University for the year 1926-27 show the men to have been delinquent in 11.6 of their hours of registration at the end of the first semester while the women were delinquent in only 4.0 of their hours. The men reduced their percentage of delinquencies to 7.8 the second semester as compared to 2.8 for the co-eds.

The percentage of non-fraternity men delinquent for the first semester was 36.3 as compared to 20.5 of the initiated fraternity men. Figures compiled at the same time show that 18.2 percent of the non-sorority women were delinquent while only 8.5 of the pledged sorority women were on the wrong side of the dean's records. The men of the University spend more time in outside work, many of them working their way alone through school. This accounts for the higher percentage of delinquencies.

The average registration of men is 14.5 hours, while for the women it is 14.8. Non-sorority women carried an average of 14.5 hours, while sorority members carried 15.2 hours. The corresponding groups of men carried 14.6 hours and 14.5, respectively. A table of the statistics appears in another part of this paper.

Special to Missouri Too Great an Expense

No special train will go to the Missouri-Nebraska football game next Saturday because a \$3,000 guarantee was necessary to float the trip with railroad officials. "Stars Are Suns and the Sun Is a Star," Says G. D. Swezey Over Radio

"If the sun or any other star were brought as close to the earth as the moon is, it would quickly vaporize the earth," said Professor G. D. Swezey, chairman of the Astronomy department, in a talk over the University radio last evening. "Stars are suns and if our sun were removed as far as the nearest star it would diminish to an insignificant point of light like any other star; or if any star were brought as near to the earth as the sun is it would appear like a round globe, intensely hot and luminous."
