## Nebraska Has Two on All-Eastern Team That Plays at San Francisco

When the All-Eastern football team representing thirteen colleges, faces the All-Western team at San Francisco, December 26, Nebraska fans will have two men to boast.

Glenn Presnell, All-American half-back, high point scorer of the Missouri Valley Conference, and Cornhusker flash, will probably start the game at halfback position. Ray Randels, honorable mention for All-American selection, All-Missouri Valley conference selection with Presnell, and line captain of the Cornhusker eleven, will also be suited up ready to go in at any time. This is a distinction for these men to have conferred upon them by Andy Kerr, coach of Washington and Jefferson.

The roster of the All-Eastern team was completed yesterday. The squad making the trip to San Francisco will be composed of twenty-one players.

The purpose of these meetings is to organize non-fraternity basketball teams to play on a regular schedule much as the fraternities are organized into leagues. It is hoped that there will be a good response to this call for it is felt that an enthusiastic league would be worked out and give more men an opportunity to play.

The halves will be 15 minutes in the first rounds and the time will be increased to 20 minutes in the final round. It has not been decided as yet when the pairings will be made, but they will be made as soon as possible so that the games may be run off without interfering with the other basketball programs.

### On the high seas of industry

NORSEMEN of old roamed the seas and boasted of the strange worlds they saw. But today Bell telephone men are discovering worlds a glimpse of which would make the Viking gasp with wonder. Whether exploring the realm of submarine cable or the sub-microscopic world of electrons or the unsolved equations of efficient management and broader service, telephone men are seeking and finding intellectual adventure. To men of this type it is reassuring to know that the telephone industry, in spite of the amazing progress it has made in a few short years, is yet far from its ultimate development.
