Black Drills Men Hard

(Continued from Page 1.) was the only basketeer to sink under plenty of action between the two the basket shots with any degree of closely matched teams. regularity while Johnny Kimball and Morrie Fisher contributed the points ing off scrimmage this afternoon and for the freshman total.

Gloomy Forecast more than doubled the score a few year follows: weeks back at Columbia and witnessing a poor exhibition of the basket art last night, Coach Black assumed a gloomy attitude toward Nebraska's prospects Saturday evening. A prolonged drill with the guard candidates will be on the schedule for today's practice as the basket mentor believes they were too lax during the workout with the freshmen.

Bleachers are in place, goals established at each end of the court, and everything in readiness for the reception of Missouri, 8 o'clock Saturday evening. The Coliseum doors will be open at 7 o'clock for early basket fans.

Lineup Not Known No definite starting lineup could e obtained from Coach Black after

America Discovered for \$7200

Old records show that the cost of Columbus' first expedition to America amounted, in modern exchange, to only \$7200. To finance Columbus, Isabella, Queen of Spain, offered to pawn her jewels. Today word comes from Spain indicating that a twentieth century importation from the new world is fast effecting a sufficient saving to ransom many royal jewels. The Spanish Northern Railway reports that the American equipment with which in 1924 the railroad electrified a mountainous section of its lines from Ujo to Pajares has accomplished the following economies:

1. A 55% saving in the cost of power.

2. A reduction of 40% in the number of engine miles for the same traffic handled.

3. A saving of 731/2% in the cost of repairs and upkeep for locomotives.

4. A saving of 63% in crew expenses.

5. A reduction of 31% in the cost of moving a ton-kilometer of freight.

In every part of the world, electricity has replaced less efficient methods and is saving sums far greater than the ransom of a queen's jewels. You will always find it an important advantage in your work and in your home.
