

The Daily Nebraskan

Station A, Lincoln, Nebraska
OFFICIAL PUBLICATION
UNIVERSITY OF NEBRASKA
Under direction of the Student Publication Board

Published Tuesday, Wednesday, Thursday, Friday, and Sunday
morning during the academic year.
Editorial Office—University Hall 4.
Business Office—University Hall 4A.

Entered as second-class matter at the postoffice in Lincoln, Nebraska, under act of Congress, March 3, 1879, and at special rate of postage provided for in section 1103, act of October 3, 1917, authorized January 20, 1922.

JUSTIFIED HONOR
Announcement of the newly elected members of Phi Beta Kappa will be made this morning at a University convocation to be held in the Temple.

THE BULL SESSION
A first year student said something the other day that pithily expressed the experience of the freshman in college.

THE STUDENT'S HAT IN THE RING
College students have manifested a keen concern over political problems as evinced by the organization of campus political parties.

Students activity such as this refutes the charge that collegiate youth is uninterested and scornful of participation in governmental affairs.

Games for the furtherance of the horseshoe singles tourney were scheduled yesterday. They follow: Tuesday, Court 1, Phi Kappa Psi vs. Sigma Alpha Mu, 4 to 5; Delta Sigma Phi vs. Delta Tau Delta, 5 to 6.

grade per cent in the office of the registrar on March 5, at least twenty-four hours of these credits being in the group requirements.

No student who is considered for membership at the time of the annual election, being eligible under the foregoing rules, shall again be considered for membership except as an alumnus.

Phi Beta Kappa, founded at William and Mary College in 1776, has for its object the promotion of scholarship among the students and graduates of the American colleges.

The Alpha chapter was founded in 1896. The chapter elects from one-tenth to one-sixth of those eligible whose scholarship average is the highest.

The initiation banquet will be held later in the year at which time addresses by both the man and the woman with the highest averages of the newly elected members will be included in the program.

'Old Buck' Is Nerve Wrecker

(Continued from Page 1)
right, but there is something wrong."

The coach lies down beside the man and consols him like a baby, pat him on the back and tells him, "Now, Bill remember each shot counts ten. Fire each shot. Don't think of your total score, but think of the shot you are firing only. You have the 'Buck', forget it Bill. You know 'Buck' is not material it is a condition one gets into when his nerves fail to function properly.

If you relax completely and forget you ever had nerves, your next shot will be a 'bull'." With this consolation, he finishes his ten shots, makes 97 out of 100, gets "bawled" out for getting the "Buck" in the first two shots, and not making a perfect score.

So ends six weeks firing for an 'N'.

Omaha, where it will be put on April 11 in the auditorium of Omaha Technical high school. Persons who intend to be in Omaha during the spring holidays may make seat reservations for "The Love Hater" with Austin Sturtevant at the Delta Tau Delta fraternity house.

The Kosmet Klub pony chorus, whose picture appeared in the Daily Nebraskan last week, is causing considerable comment. Their clever dancing and modern antics, together with five complete changes of costume, will constitute one of the highlights of "The Love Hater." The chorus is being developed by Ralph Ireland.

Civil Service Places Open to Astronomers

Applications Will Be Received at Washington, D. C., Not Later Than April 28

Applications for junior astronomer are being considered, according to an announcement made by the United States Civil Service Commission. Applications must be on file with the Civil Service Commission at Washington, D. C., not later than April 28, 1928.

The Navy department states that men in the naval observatory are desired for this position. Other positions may be secured when vacancies

occur that require similar qualifications.

Mathematics Are Basis
Applicants will be rated on mathematics, including algebra, geometry, trigonometry, plane analytics, calculus, and mechanics; elementary questions in general and spherical astronomy and related branches of physics; and practical computations including the use of logarithms.

The entrance salary is \$1,860 a year. A probationary period of six months is required, advancement after that depends upon individual efficiency, increased usefulness, and the occurrence of vacancies in higher positions.

Full information may be obtained from the United States Civil Service Commission at Washington, D. C., or the secretary of the United States Civil Service board of examiners at the post office or custom house in any city.

SKILL

THE twist of the wrist, the "throw" of the arm, the shifting of the weight—these are among the many little points which make the skill that you admire in the javelin thrower as he hurls the shaft two hundred feet or more.

As on the track or the football field, in the gymnasium or on the water, so in industry progress is the result of fine improvements—a thousandth of an inch here—a minute variation in a curve there—slight changes foreseen by engineers and carried out by skilled workmen.

It is this attention to detail that is constantly improving General Electric apparatus and contributing to the electrical industry, which, though still young, is already a dominant force, increasing profit and promoting success in every walk of life.

Whether you find this monogram on an electric refrigerator for the home or on a 200,000-horsepower turbine-generator for a power station, you can be sure that it stands for skilled engineering and high manufacturing quality.
