

## HUSKERS WILL DEBATE PITT IN FINAL CONTEST

### Nebraska Forensic Squad Will Meet Eastern Team in Tilt Thursday

### JUDGE DEAN TO PRESIDE

Affirmative Will Be Upheld  
By Morrison, Ginsburg  
And McMillan

Cornhusker debaters meet representatives of the University of Pittsburgh Thursday evening in the last debate of the season. It will be held in Social Sciences auditorium, starting promptly at 8 o'clock, with James R. Dean of the Nebraska Supreme Court presiding.

The question to be debated, "Resolved: That Secretary Kellogg's policy in regard to Central America should be discontinued." Nebraska will uphold the affirmative on this question, listed as number three on the University of Nebraska debate schedule.

### Opponents Are on Tour

Archie S. McMillan, '30, Lincoln; Frank B. Morrison, Law '30, Manhattan, Kansas; and Joseph Ginsburg, Law '30, Ponca City, will represent Nebraska in the debate against eastern forensic delegates. The University of Pittsburgh team is traveling through the United States debating prominent college teams, and promises the Nebraska men considerable opposition.

The Pittsburgh debate brings Nebraska's season, which has included twelve debates, to a close. Each debate has been of the open forum type, so that no summary of results can be given. Professor H. A. White, director of debate at Nebraska favors the open forum idea, for it brings out the value of the question rather than the merit of the individual debaters.

### Question Is Familiar

The question concerning the Nicaragua trouble is one which Nebraska has debated many times during the season. Each debater is familiar with every phase of the topic, and, according to members of the forensic squad, everything points to the most successful debate of the year Thursday evening.

Twenty-five cents admission to the debate will be charged at the door of Social Sciences. The question is one which has been drawing fairly good crowds, although, according to Professor White, "Nebraska debates are not favored with large audiences." Those who attend the debates are citizens of Lincoln, as a rule, rather than students.

## Masked Lady Dispenses Bids To A.T.O. Party

(By Bill McCleery)

After numerous attempts the A. T. O. boys have finally done something spectacular. Alpha Tau Omega is a fraternity (of sorts) on the Nebraska campus (of course). Having ambition they have attempted to do things that other fraternities could not. Of course they have more men in the Kosmet Klub show than the D. U. s. have candidates for president of the United States, but that isn't enough.....This is.

Last evening after dinner a Nash (just another Nash) filled with A. T. O. s and a lady in white drove around to fraternity houses. The lady tripped gracefully out of the car. She had a pink mask over her face, white knickers (don't snicker—we mean regular golf pants)—pardon us while we start over again. Her face was covered with a pink mask. She wore white knickers, blouse, stockings, shoes and what not.

She carried in her hand some rolls (this is no bakery ad.) of paper. Stepping into the fraternity house (Continued on Page 2.)

## Garlic Is Main Course Served to Neophytes At Initiation Banquet

Advantages of a college education were received by some twenty aspirants to membership in Scabbard and Blade, honorary military fraternity, at the annual rough initiation at the College of Agriculture Tuesday evening.

Garlic was the favored flavor of spring imbued by the neophytes. Campus exploration via the crawling on hands and knee method took the place of the sawdust roll used by Perching Rifles. Speed was encouraged or discouraged by aid of the seven paddles apiece furnished by the crawlers.

The initiation was easy though (in accordance with orders from the dean), all of the paddles weren't broken this time. And one bath was enough to put the initiates into good humor again.
