Fundamentals in interpretative dancing, including rhythm and body control, composed the first part of the program presented by the entire group. These were later combined into patterns which expressed the emotional selves of the girls.

According to Signs, Spring Must Be Here

(By Bill McCleery)
Spring is here tra-la (try a trolley) tra-la. Vacation starts tomorrow. (Tra-la again.) Spring is one of the seasons that rates a vacation. "How many seasons are there in a year?" asked a professor of "Jug" Brown. "Four," replied John. "Football, basketball, track and baseball."

For the benefit of those who have drill Saturday morning the period of rests starts at 12 o'clock (noon) Saturday. This gives the students in Lincoln a chance to go home for dinner Saturday evening. Not that it makes any great difference whether they do or not, but then have you noticed the mist that comes from the University Power Plant? Feels just like rain.

Thursday was a beautiful spring day. Yeh! We heard of a lad who almost froze Wednesday night because one of the brothers took his blankets to go on a picnic. The (Continued on Page 2.)

HUSKERS OPEN TRACK SEASON WITH SOONERS

Schulte and Cinder Candidates Will Depart for Oklahoma Camp This Week-End

FIRST OUTDOOR CONTEST

Larger Squad Will Journey To Southland for Pair Of Dual Meets

Coach Henry F. Schulte and his Cornhusker track team will entrain for Norman, Oklahoma, either Saturday afternoon or Sunday, where they will open the outdoor track season with a dual meet with Coach John Jacob's powerful Sooner cinder team on Owens field, Wednesday, April 11.

Coach Schulte desired to meet the Oklahomans on Tuesday, April 10 so that his men might have an extra day's rest before they competed against the Missouri Tigers at Columbia, the following Saturday, April 14, but the Sooner athletic officials could not come to an agreement. As a result the Husker mentor is forced to take a larger team on the spring vacation southern campaign so that some of the men will not be overworked in the meet at Norman and be weakened for the Tiger contest.

Since he will take a large squad of probably twenty-two or twenty-three men on the Oklahoma-Missouri trip, Coach Schulte said Thursday (Continued on Page 2.)

Late Ohio Senator Is Former Mathematics Instructor of Sealock

Frank B. Willis, late senator of Ohio, was the mathematics instructor of Dean W. E. Sealock of the Teachers College when the latter was attending preparatory school at Ada, Ohio, according to the dean.

Senator Willis and Dean Sealock were members of the same literary society, and frequently exchanged letters during the last few years. In 1925 Dean Sealock wrote him, "A large number of us are looking forward to the time when we will vote for Frank B. Willis for president." The political career of Willis was exemplified by many of the characteristics he had shown as a teacher, Dean Sealock said. "His democratic attitude and interest in people was one of the dominant distinctions of his character."

Later in the spring an initiation banquet will be held at which the Beta Gamma Sigma pins will be awarded to the new members.

Easter Brings Co-Eds Out in Pert Apparel

(By Alene Miner)
Little co-eds must have lilies, chickies, bunnies, and pretty colored eggs, for Easter time is here, and ye man on the curb sees ye Nebraska Primma Donna on dress parade. It is at Nebraska that the most fascinating girls are found with their wistful appeal perfectly framed in creative dresses and flattering hats. Bill would use parenthesis now and say the flattering hats, which obstruct the view.

At this dress rehearsal most any type can be picked from the picnic costume to the most quaint frock. Over at the Theta house (Bill told you yesterday that they had a fine lawn.) You might take a tour from Miami, Florida, to the Yellowstone National Park via the Spirit of St. Louis. Two little maidens appeared, each with scenic views from these places on their dresses, while their comrade swooped along in her sport frock with the Spirit of St. Louis painted on the front of her waist. Miss Katherine Dugan of the Joint Stock Land Bank, spoke at the monthly luncheon of the Girl's Commercial club, Thursday at the Chamber of Commerce on "The Clearing House Association," as a subject of interest to any woman intending to enter the business field.

"In four distinct cases, 1873, 1893, 1907, and 1914, panics were avoided when runs were threatened by issuing notes on the clearing house association," declared Miss Dugan after she had explained the technicalities of canceling, certifying and balancing which is done by the Chicago clearing house. This association handles more than one hundred millions of dollars daily in clearing the checks of about thirty banks with only seven per cent done in cash. (Continued on Page 3.)

No Show Boat, But Pullman Car Will Carry 'Love Hater' Troupe on Tour

(By Fritz Daly)
"Here comes that show boat!"—only in this instance it is somewhat different. In the first place, the Kosmet Klub and the cast for "The Love Hater" will travel abroad a pullman of the C. B. and Q., which does not resemble a boat in the least, and in the second place they will not present Uncle Tom's Cabin. The show troupe (notice the word used) will embark on their voyage for points west, north and east early Monday morning at 10 o'clock on aforesaid Burlington Route railroad. A special car has been chartered to carry the fifty-three persons taking

Arriving in Hastings they will spend the afternoon, for it will be then when they arrive, placing the scenery in position for the evening performance. Perhaps it would be better to withhold the synopsis of the show and activities of the leading performers until patrons see it (Continued on Page 3.)
