# New Worlds for Old

TIKE Galileo, every pioneer seeks new worlds. In the telephone industry this has led to discoveries of ways and means to better service.

Telephone pioneers of yesterday hewed a way through intricacies of science, finance and business management to establish the era of "distance speech." Telephone pioneers of our own day imagined a 'cross-ocean service-and then made it.

Telephone pioneers of tomorrow will face the challenge of new and greater problems sure to arise.

BELL SYSTEM A nation-wide system of 18,500,000 inter-connecting telephones
