Fifty-Eight Schools Entered To Date Indicate Record Number of Teams

### MARKS ARE ENDANGERED

Nebraska high school athletes will gather in Lincoln Friday and Saturday for the twenty-sixth annual Nebraska Interscholastic Track and Field championships, to be held at the Memorial stadium this week-end. The large entry list received thus far, indicates that the 1928 meet will surpass any previous year in the number of teams competing for laurels. To date fifty-eight schools have entered.

Last year a total of eighty schools were represented with an entrance list of 8666 athletes. The Saturday and Sunday mail should bring a goodly number of entrance blanks, completing the list, as the final day for mailing contestants names was Friday, May 3.

The annual high school meet, which is one of the largest in the middle west, has rapidly grown and developed in the last six years. Schools are divided into three groups, according to the enrollment given on April 1. Until 1920, all the schools competed in one class, making the entrance lists very large for each event. The rapid growth of the meet necessitated the dividing of the teams into different classes.

Several Nebraska high school track and field records are held by men now competing for the Cornhuskers. Easter, sprint ace of Coach Schulte's squad, is credited with a mark in the 220-yard dash and is one of the eight joint holder of the century dash record.
