

DR. E. S. JONES TALKS ON FEAR AT SAINT PAUL'S

Speaker States Condition Is Universally Common in Everyone's Life

PROGRAM NEARS FINISH

Final Lecture Will Be Held At Trinity Methodist Church Tonight

That the basis of all fear lies in the fact that we know that we do not have enough resource within ourselves...

"No one can fail to recognize the huge part that fear plays in our lives," stated Dr. Jones in opening his lecture...

"If I had one great gift to make to the Christian churches," he said, "it would be a gift of pure courage, unimpaired by any shadow of fear."

Dr. Jones went on to compare the difficulties of life to bodily illness. "A quack offers temporary relief from an illness," he said...

There are three sorts of fear. First, there is fear of the past, the feeling that we have not done wisely or well...

The last of his series of religious lectures will be given tonight at Trinity Methodist church, at a special meeting for students and young people.

Infection Fatal

—Center of The Nebraska Journal. Lloyd Wells, senior in Teachers' college, died Wednesday night as result of blood poisoning...

cooking tests have been made regularly on lambs from other experimental lots in an effort to determine the effect of length of feeding period and ration on the carcass...

Indians Draw Large Number To Watch Work

Three Navajo Indians created a good deal of excitement around the art galleries in Morrill Hall yesterday. They are brought here by Mr. E. L. Staples...

The three Indians, one a silver-smith, one a sand painter and the other a weaver, construct various pieces of work similar to those which Mr. Staples has on exhibit...

Exhibits will remain in Morrill Hall all day Friday. Thursday night not only a great number of university students...

WAITE TALKS TO COUNTY MEDICS

University Doctor Explains Possible Elimination of Undulant Fever

Dr. E. H. Waite, of the department of bacteriology and pathology, spoke before the Lancaster county medical society at their meeting last Tuesday evening...

The chief sources of human infection of the disease are goats, cattle, hogs, sheep, and occasionally horses. Undulant fever is co-extensive with the geographical distribution of domestic animals...

NEBRASKA MAKES SHEEP SHIPMENT

Ag College Experiment Men Study Results of Feed Upon Animals

Second shipment of experimental lambs from the University of Nebraska, College of Agriculture, was made early this week closing one part of the experimental work with sheep at the Nebraska experiment station at Lincoln...

These lambs have just finished a 140-day feeding period. The first fifty-six days they received only alfalfa hay and were put on full feed of corn and alfalfa hay...

ACCEPTS PRESIDENCY AT SOUTH DAKOTA

for the present the amount of his salary. He has been receiving \$6,000 per year in his capacity at the University.

Dr. James was born in 1887 in Philadelphia, where his father was then a professor in the University of Pennsylvania. Later he went to the University of Chicago...

He graduated in 1903 from Northwestern university academy, received his A. B. degree from the University of Illinois in 1906 and his J. D. degree from the University of Chicago in 1906...

During the summer of 1920, Professor James went with the American delegation to the fourth Pan-American conference at Buenos Aires...

Professor James married Genevieve Campbell Kuby of Chicago on Aug. 12, 1912. Shortly afterwards, he accepted a position as adjunct professor of government at the University of Texas...

Another phase of the work has been in connection with carcass studies of lambs. Slaughtering and

Welcoming of Foreigners in Schools Is War Prevention, Says Dr. Hurrey

"The fact that foreign students who are making American a medium of education are being well received is all-important to the nation as a means of preventing war in the future..."

Dr. Hurrey mentioned many interesting examples of students who have come to this country for greater educational advantages especially in the fields of agriculture and engineering...

Another point he stressed was economic importance of personal contact with foreigners. The advertising that can be accomplished by a few people on their return is remarkable...

The University of Nebraska has twelve foreign students representing twelve different nations. All told, there are about one thousand in the United States...

Dr. Hurrey is a graduate of the University of Michigan at Ann Arbor. He is affiliated with the Sigma Chi fraternity and has been visiting the local chapter...

famous star, the scintillating star of them all, Madame Mary Garden herself! Head erect, proud, graceful, she passed through the crowd...

Dr. James is the author of several books among which are the following: "Introductory Articles on the Constitution of Illinois..."

SENIOR DIES FROM INFLECTION ON HEEL

York college the past three years. It is reported he had accepted a position as principal of the Benedict, Nebraska, schools after graduation...

HONOR GROUPS FINISH REUNION DINNER PLANS Professor Hicks said, and reservations will be received either at his office in Social Sciences, or at the office of Prof. Emma N. Anderson...

LAZZARI MUST MAKE HIMSELF FEEL WICKED

"It is hard for me to say, too, 'I love that crimson stream.' But when one is absorbed in his character, it is not difficult to portray it. It is only difficult when one lets himself become self-conscious."

Masket Makes Appearance Charles Hackett came up and "Mephistopheles" introduced him by saying, "This is my dear friend, 'Faust.'"

A little tremor of attention ran through the group of artists and others who were standing near. They seemed to be all attentive and respect for the moment...

CLEO'S Beauty Shop 227 No. 12th B-5313

spot supposedly haunted by demons. Saint Outhbert made tridubs with a species of wild fowl that lived there. Now these birds are so tame, more than any of the kind to be found elsewhere that a legend has grown up around them...

Describes Museum Work This led to the work going on in connection with the birds of the museum in Morrill hall. A label has been made to be placed in an introductory bird case...

Some of the statistics in the label are as follows: The number of different kinds of birds in the world is 12,500. In North America (excluding Mexico) and Greenland there are 1,200 different kinds of birds living and in the rocks of the country there have been found fossil remains of some seventy fossil kinds. The state of Kansas is particularly rich with fossil remains of birds.

Of the living species of bird in North America over 400 are to be seen during some time of the year in Nebraska. Mr. Collins mentioned that these were the birds that would soon be so well represented in the University Nebraska museum due to the generous gift of Mr. Eiche.

There are ten different kinds of Gallinaceous birds in Nebraska. These are birds more or less akin to the domestic fowl. These include the five or six different kinds of grouse we have here as well as the bob-white, the prairie-bens and the pheasants and turkeys.

There are forty-six different kinds of water-pheasants in Nebraska. Among the other information included in the label is that there are two hundred and twenty kinds of perching birds, more than all the other kinds of birds we have put together.

Have you seen the new Black and white printed 'Shorts' and Shirt sets? Our buyer just returned from New York, where all the smart men's shops were featuring these

THE SHORTS are regulation style, with striking black and white printed patterns - modernistic and geometric in design. Tailored for comfort and good fit. Each \$1

IN DEMAND—College Men With a Knowledge of Aviation

MORE than any other industry today, aviation offers you a real opportunity. The rocket-like growth of aviation to a place along side the automobile industry has created an unprecedented demand for young executives. Men with a college education and a sound knowledge of the flying business are the kind that are wanted.

Aviation offers you as a college man an immediate outlet for your talents. Unlike other professions or businesses, it imposes no long years of struggling to get recognition. Aviation is growing so fast that the men who go into it today must be the executives a few months from now.
