### HUSKER TRACK TEAM ENTERS TWO RELAYS

Drake Carnival, Annual K.U. Games Appear Next on Nebraska Card

### DUAL MEETS FOLLOW

Renewed activity greeted Coach Henry F. Schulte's outdoor coach, Tuesday evening, when the veteran Nebraska mentor started putting his scarlet-jerseyed performers through their paces in anticipation of the coming Big Six outdoor season.

Hurdles, sprinters, and quarter milers were put over the 300-yard distance in an individual contest to develop strength and stamina for their pet events.

### Kansas and Drake Next

The Nebraska schedule calls for the Kansas and Drake Relays next before the series of dual meets with Big Six representatives swings into the limelight.

This week's activities calls for a varsity vs. varsity tri-color meet Friday. Representatives of the varsity have been divided into two teams and two members from the tri-color events will be eligible to take part in Friday's affair.

### TRACKSTERS VIE FOR HONORS IN TRI-COLOR

Two Best Men Each Event Will Be Placed on Official Team

Weekly tri-color meet, which was postponed Monday because of high winds, was held yesterday afternoon. The two best men in each event will compose a tri-color team to compete against varsity "A" and "B" teams Friday afternoon.

Summary: Mile: Neurenberger, senior orange, first; Skov, senior green, second; Manning, junior red, third; Hopewell, junior red, fourth. Time, 1:57.3.

440-yard dash: Rodgers, senior orange, first; Cassford, senior red, second; Linville, senior red, third. Time, 33 flat.

112-yard dash: Lieben, senior red, first; Stefan, senior green, tied for first; Rubrecht, junior orange, second. Time, 10:3.

High hurdles: Jackson, senior green, first; Carlson, senior green, second; Panek, third. Time, 16:3.

880-yard run: Fuhlrott, senior red, first; Carlson, senior green, second; Selfis, senior red, third; Hartly, fourth. Time, 2:04.1.

220-yard dash: Lambert, senior orange, first; Rodgers, senior orange, second; Nevins, junior orange, third; Lieben, senior red, fourth. Time, 22:2.

High jump: Morgan, senior orange, first; Jackson, junior green, second; Bailor, senior green, third. Height 5 feet 8 inches.

Javelin: Hokuf, senior red, 176 feet 1 inch. Two-mile run: Rumer, first; Graham, junior orange, second. Time, 11:21.4.

Pole vault: Kuns, senior red, and Bell, junior orange, tied for first; Warner, second. Height 10 feet 6 inches.

220-yard low hurdles: Smutny, senior orange, first; Jackson, senior green, second; Raugh, senior orange, third; Carlson, senior green, fourth. Time, 26:5.

Broad jump: Young, first; Ely, senior green, second; Gray, junior red, third; Craig, senior orange, fourth; Bailor, junior green, fifth. Distance, 22 feet 3 inches.

### TWELVE COMPETE FOR VARSITY TENNIS TEAM

Round Robin Schedule for Court Men Goes Into Second Lap

The round robin of Varsity competition on the tennis courts went around on the second lap yesterday afternoon with twelve men competing for places on the Varsity special eight-man team.

Results of the first matches played Monday afternoon are as follows: Cameron won from Anderson with two wins out of three sets by the score, 6-3, 6-2. Fullbrook beat Fishbaugh 6-2, 6-4. Sherman took Del Rosario 6-4, 6-0. Zelen won from Stephens, 6-1, 6-4. Roberson beat Gant 6-3, 8-6.

### Entries Close Today For Coed Court Meet

Entries for girls' singles tennis tournament will close today noon. No names will be accepted after that time. A bulletin of all those who have entered, and their opponents will be published in the Thursday's edition of The Daily Nebraskan, and will also be posted at the women's gymnasium. First rounds of the tournament are to be played by Saturday April 13. Courts can be reserved from the caretaker one day in advance.

### IOWA STATE APPOINTS DEPARTMENT HEADS

### President Hughes Reveals Changes in Personnel To Fill Vacancy

Ames, Iowa, March 23.—The appointment of two heads of departments at Iowa State college was announced today by President R. M. Hughes.

Dr. A. G. Black, associate professor of agricultural economics at the University of Minnesota, will become head of the agricultural economics department here the first of July. J. R. Derby has been appointed head of the English department, effective September 1.

Dr. Black, who has won a national reputation in the field of production and land economics, has been at Minnesota for five years. Before that he was an examiner for the federal farm loan board at Washington, D. C.

### Extensive Program Planned.

Not only will Doctor Black have charge of the teaching work of the department but he will direct the extensive research program in agricultural economics. This program is pointed along three main heads: Farm organization and management, farm marketing, and farm finance. Doctor Black believes the Iowa State's work in co-operative marketing is outstanding in the country.

Doctor Black is a graduate of the University of Illinois. He received both his master's and doctor's degrees at Minnesota. He succeeds Dr. C. L. Holms, who left the department in February to become chief of the farm management section of the United States department of agriculture.

### HUSKER SANDLOTTERS TURN IN CLOSE GAME

### 'Choppy' Rhodes Sends Two Nines Through Tilt at Landis Field

"Choppy" Rhodes "A" team squared accounts from Monday night's game yesterday afternoon, taking an 8 to 7 decision from the "B" team at Landis Field. The "B" team were leading at the end of the fourth, but a fifth inning rally turned the tables.

Ther Pickett was on the mound for the "B" team and was displaying a nice brand of hurling before he was relieved by Urban, a newcomer on the Husker mound. "Dutchman" White tried his hand at the pitching business, and stayed in the game for three innings, but the "B" batters finally chased him to the showers.

### St. Paul Quintet Loses In First Round of Play

Naugatuck, Conn., high school upset the dope yesterday afternoon in the national basketball tournament at Chicago by defeating St. Paul, Nebraska high school team by a 25 to 31 score. St. Paul was not only favored to win this game but was one of the favorites of the meet.

Although the Nebraska champions were eliminated in the first round they are not eliminated from further play. A consolation tourney begins for all first round losers, Thursday.

### College Professor Is Obligated to Know Actual Facts Before He Talks

This is the second of a series of articles on "The Obligations and Rewards of the College Professor" sponsored by Chancellor E. A. Burnett, Chancellor Burnett, at the same time that he asked for essays from university students on "Obligations and Rewards of the College Student" made the announcement that anonymous articles from professors on the subject above mentioned above would be welcomed.

A college professorship implies many and varied obligations. Perhaps the most important of these obligations is that a professor should know his subject. He should know not only what was taught when he was a college student but he should be thoroughly conversant with the new discoveries and current literature in his field. This means that college professors as a group, and particularly those who teach science or applied science must always remain students.

A college professor is under an obligation to know the actual facts or to have in his possession the best information available before he speaks. He should be judicial, fair minded, and able to present both sides of mooted questions without prejudice or unfair partisanship.

### Should Know Home

A college professor should know something of the home and community interests of his students. This does not mean that he need to know where each student lives or the condition of the family bank account. It does mean that in a college where the majority of the students always have lived in a large city that the professor should know the conditions of city life, and in a college where the major part of the students are from the farms and country towns, the instructor should know and sympathize with the problems that the young people and their parents must solve.

The professor who teaches in a state supported college should certainly be familiar with the geography, the industries, and the economic conditions of the state. Knowing the background of the students assists him in selecting illustrative material. Students appreciate the instructor who knows their problems and has had experiences similar to theirs.

A professor should be loyal to the institution for which he works. No man can do really good work in a position if he is dissatisfied. It may also be said with equal truth that no man who really respects himself will work for any considerable length of time under conditions which are distasteful to an institution with whose policies he

is not in harmony or under men whom he does not like. Ordinarily the man who remains in a position where he is dissatisfied actually believes, although he would be the last to admit it, that he is being overpaid and that he cannot obtain another position as good. College professors are no exception to the general rule that a man is under a moral obligation to support his man or institution that provides his bread and butter. If a man cannot give such support loyally and willingly he should resign and in that way secure the privilege of telling the reasons for his dissatisfaction.

### Has Freedom of Time

A college professor has greater freedom of time than most salaried men. Even though he works more hours a week than does the clerk or factory employee or many professional men, he nevertheless can so regulate his work that he has some free daylight hours. While classroom hours are definite other hours of work may usually be shifted to some extent.

Most college professors have a three months vacation in summer, two weeks vacation during the Christmas holidays, and occasional holidays during the school year. Of course the really worthy scholar spends a part of this time in study, but nevertheless three months does give opportunity for travel and freedom from an exacting daily routine. A few college men, including major executives, and agricultural experiment station workers do not have the long vacation, but the rule nevertheless holds good for most college professors.

Most college professors are doing the thing that they really want to do, and would continue to do even if they were to become wealthy. A man may be interested in a certain type of research. If he were wealthy he would doubtless use a part of his income in continuing his investigations. Because he is a college professor he is able to do the work that he likes to do, and the institution pays the cost.

College professors ordinarily work in pleasant surroundings and among congenial people. A college campus is certainly quieter and more pleasant than the ordinary factory district, or a crowded office building. The men who are interested in college activities and who consult college instructors in order to obtain information are usually men whom it is a pleasure to meet and know.

Not the least of the rewards of the college professor is the pleasure of mingling with the most ambitious young men and women of America. Their vigor and enthusiasm help him to keep young in spirit. As the years pass by and the students of former years make good and come back to tell of how the things learned in college helped them in their careers, the college professor is indeed a pessimist who does not feel that he has received one of the highest rewards that can be given to any man.

University hall Tuesday night, Jack Elliott, '30, Newton, Kas. was chosen vice president, Cliff F. Sandall, '30, Genoa, secretary, and W. Joyce Arnes, '30, Lincoln, treasurer. - Hatchburn, Delta Gamma and Ottavio, Theta Xi vs. Kappa Kappa Gamma and Hauman, Delta Tau Delta.
- LeHerr, Delta Gamma and Taylor, of Tau Kappa Epsilon vs. Standish, Phi Mu, and Art Schlotter, Kappa Sigma.
- Belmore, Alpha Gamma and Prericka, Sigma Nu vs. Pollard, Chi Omega and partners.
- Mildred Hoff, 1823 B and Clum, of Theta Xi vs. Ada Forster, Alpha Chi Omega and Kappa Sigma.

### Two New Campus Arc Lights Are Installed

Two new searchlights have been installed on the campus. One light is on the corner of Nebraska hall, reflecting toward University hall, and the other was placed on University hall reflecting in the direction of the administration building. Needless to say this action was prompted by the activities of the campus prowler, who is reported to have molested several students.

out the handicap of a rolling deck are in store for tennis in deck tennis which has been introduced

for the first time at the University. There are only two girls on a team and the technique is easily acquired. The game resembles tennis somewhat, in the scoring, but instead of balls and a racket, rubber rings are used. Everyone is new at the game, so all girls are starting out with the same handicaps and advantages.

### "DON'T BE SILLY"

### An empire hung on that strap

THE hitch must be right, the pack must be tight. On details such as that hung the attainment of the day's goal and the final success of the expedition. Lewis and Clark, first Americans to cross the continent, knew the importance of "trifles" in the concerted plan. They saw to it their equipment was right, they supervised every step from man-power to pack-horse-power, they applied sure knowledge and constant vigilance to their task. Today's leaders in business have the same point of view. Men in the Bell System, exploring new country, take infinite pains in preparation. They work toward the smooth coordination of engineering, manufacturing, warehousing, accounting, finance, public service.
