Chancellor Burnett Explains How University Exams Benefit Students

Editor's Note: This is one of a series of brief weekly articles of Chancellor E. A. Burnett. It has to do with the new high school examinations offered by the University.

Many parents are wondering how their children will fare in the university examinations which are now being given in various high schools. To some people, this plan seems like a new departure...

So far such examinations deal only with English and mathematics. They are being given to classify students rather than to debar them from entrance to the University...

Changes Present System. We have always had some qualifying examinations in English. But they have generally been given after students were already in class.

age minister doesn't get very far when he tries to improve on them. There are 216,000 sermons preached in the United States every Sunday morning...

That the average minister be relieved of the necessity of sermon writing. That the task be assigned to men and women who are conspicuously able to perform it.

Girls Have Good Record

Failure and acceleration received considerable attention. In every high school subject except mathematics there were more failures among the boys than the girls. Even in science, in which a boy ordinarily excels, seven times as many boys as girls failed.
