FARMERS HOLD GALA PARTY ON CAMPUS TONIGHT

Hiram Will Step Out With Mirandy to Fourth Annual Formal

FROSH DECORATE HALL

Aggies Elect Queen; Blue Denim Becomes Proper School Fashion

Final preparations, and decoration of the activities building to carry out the barnwarming scheme, will be done this afternoon and the stage will be set for the first strains of the orchestra to open the fourth annual Farmers Formal at 8:30 p. m. this evening on the college of agriculture campus.

All Ag college freshmen will be dressed in blue denim this afternoon's dress and will be required to appear at the activities building at 1 p. m. to help with the decorations under the supervision of the committee in charge. The interior of the activities building will be transformed into an old-fashioned country dance pavilion with the use of baled hay, corn, brush lumber and possibly harness and other fixtures customarily found in such a place. The orchestra will be stationed on the north side of the main floor on a raised platform to give the best acoustics possible. A successful effort has been made to procure hay with the characteristic new brown color to impart the proper atmosphere to the party.

Arrangements for a special "hay-ride" entrance will be carried out along with the other additional features designed to give the farm spirit to the party.

The presentation and crowning ceremony of the Farmers Formal queen is scheduled for a short interval between the second and third dances. The queen will reign from a throne of baled hay and will be crowned and introduced by Dean W. W. Burr. The identity of the queen will not be known except by those in charge of the election until the ceremony takes place. All votes have been cast choosing the queen from a list of nominees submitted by the home ec committee for the party.

Novelty invitations and programs have been distributed each carrying out the scheme of the party. The invitations which were distributed to each "farmer boy's" girl friend consisted of a miniature churn with a note on the inside. The last words of the note read as follows: "I'll be snappin' corn that day but I'll quit early so's I can cum around by your place about eight." They were addressed to Mirandy and signed by Hiram.

ESKIMOS ARE TOPIC OF MUSEUM LECTURE

Talk and Motion Picture Deal With Life of Northerners.

"The Top of the World," a lecture on Eskimo life, and a motion picture "People Who Live in the Arctic" will comprise the children's program to be given at Morrill hall next Saturday morning at 10:30 a. m. and Sunday afternoon at 2:30 p. m. Miss Marjorie Shansfelt announces.

Mr. F. G. Collins, curator of the university museum, assisted by E. L. Bleu and Henry Reider, will conduct lecture tours through the museum and galleries of Morrill hall beginning at 3 p. m.

Museums Improve in Interest Since Time of Famous American Novelist

When Nathaniel Hawthorne wrote about a century ago that going to the British museum was a "wearisome and depressing task," he would have felt much better about museums had he been able to view the exhibits in Morrill hall. That, at least, was the opinion expressed by F. G. Collins, assistant curator, in his radio talk Thursday. Mr. Collins told something of the lives of three great men of that period, Hawthorne, Charles Darwin and Alfred Russel Wallace.

The great American novelist, author of "The Scarlet Letter," "The Marble Faun" and other works, often visited the British museum when he was an American consul, according to Mr. Collins. He managed to keep a diary and notebook, and from that it is plain that he was bored for he said "just glancing at a thousand things and getting hardly any good from the visit."

But now, said Mr. Collins, the museum is well lighted and the exhibits are labelled.

The story of the co-formulation of the theory of evolution by Darwin and Wallace was related by the radio speaker, Wallace, working independently had come to almost the same conclusions as Darwin, but the latter had been about twenty years earlier in drawing his conclusions.

PHI DELTA PHI INITIATES SIX MEN WEDNESDAY

Phi Delta Phi, honorary legal fraternity, initiated six new men into the organization Wednesday according to Russell Mattson, president. The ceremony was held in the supreme court chamber at the Nebraska state house.

Following the initiation the fraternity was the guest of Beta Theta Pi where a dinner was given in honor of the new members. G. W. Gray, professor of history, spoke upon a subject concerning the history of the law. Those initiated were Robert Lecron, Jay C. Rogers, John Chambers, Thomas McLaughlin, Bartlett Boyles and Harold Rice.

PLAYERS ANNOUNCE SECOND PRODUCTION

'John Ferguson' Is Title of Play Which Opens Next Friday.

NATION PRAISES DRAMA

"John Ferguson" by St. John G. Ervine, the second play of the season to be given by the University Players, will open Nov. 15, one week from today.

This four act drama was the production which first brought distinction to the New York theater guild. Its scenes are laid among the protestant peasantry of northern Ireland and its action evolves around the religious fanatic, John Ferguson, who considers the destruction of his family as "God's will," and endures all patiently waiting the joy that cometh in the morning."

According to the belief of the author, man is still a victim of blind chance and his salvation depends upon himself not on God. The result is an intensely vivid story developed through profound characterization. It leaves one with an heightened impression of reality, for it is a mixture of chance and character depicted realistically and yet with that enjoyable touch of Irish wistfulness.

The Nation in reviewing the production declared: "The conspicuous merits of the play consist in its perfect naturalness, its progressive interest, the consistency, variety and vitality of its personality and the deep emotional interest in situations. This work puts Mr. Ervine in the first rank of living dramatists."

NEBRASKA UNIVERSITY WILL DEBATE DENVER

Teams Arrange Argument Via University Radio Studio, KFAB.

The University of Nebraska and the University of Denver will debate over KFAB, through the university radio studio, Friday, Nov. 29, at 2:30 p. m. The subject to be discussed is the same one used by the Nebraska high school debating league. Resolved: The present jury system in criminal cases in Nebraska should be abolished.

The team from Denver university is composed of two young women while the Nebraska team is composed of two men. The ladies will debate the first affirmative and second negative and the men will debate the second affirmative and first negative.

This debate is especially for the high schools in Nebraska and Iowa. The schools of these two states using this questions in their debates. All newspapers within fifty miles of Lincoln will be notified so that all who are interested can listen in at the right time.

UNIVERSITY ARRANGES DAD'S DAY PROGRAM

Chancellor and Innocents Will Serve as Hosts To Visitors.

GAME IS DAY'S FEATURE

Gov. Arthur J. Weaver, Chancellor E. A. Burnett, T. J. Thompson, dean of student affairs, and F. D. Eager, president of the Lincoln chamber of commerce, will address the visiting dads of University of Nebraska students at a luncheon at the chamber of commerce on Dad's day, Nov. 16. Other prominent men will be in attendance at the luncheon which will precede the Oklahoma-Nebraska football game. The dads of the members of the Nebraska squad will attend as guests of the athletic department.

Over 6,000 invitations have been sent out to the parents of students urging them to be present for the Dad's day festivities. Chancellor E. A. Burnett and the Innocents society will act as hosts to the visiting fathers.

Arrangements have been made with John Selleck, manager of student activities, whereby student tickets may exchange their season tickets for seats that will enable them to accompany their parents to the football game.

OXFORD MEN MEET GUSTAVUS ADOLPHUS

English Team Debates With Polish in Contrast to American Style.

The Oxford university debaters who will debate with Nebraska at St. Paul's M. E. church on the evening of Nov. 21, debated with Gustavus Adolphus college, St. Peter, Minn., last Tuesday evening, Oct. 29, to a packed auditorium. Many out of town debaters and debate instructors attended the debate in a body. The debate was one of the feature forensic events of the year at Gustavus Adolphus college.

Here is what the St. Peter Herald of Nov. 1, had to say: "Richard Aaland, Bernard Mackenna and William Diplock were British representatives in the contest. They presented the affirmative side of the question, 'Resolved, that the jury system is unnecessary for the administration of justice.' Their style was intellectual rather than forceful and their presentation was highly polished, forming a contrast to the expressive and high power American style of debating. A pronounced Oxford accent was used."

Nebraska is one of the twenty-seven schools in America that is fortunate enough to meet this team. These men will debate on the Pacific coast before coming to Nebraska.

COMMISSION GROUP ORGANIZES FOR YEAR

Sophomores Elect Officers; Divide Into Groups; Have Discussion.

Sophomore commission met Wednesday afternoon at 5 o'clock in Ellen Smith hall to organize into two groups, and to elect officers. Rachel Branson was elected president of the first group; vice president, Lois Hunt; secretary, Aileen Neesley; and treasurer, Dorothy McCall. Lynn Dell Brumback will be the leader of this group. Officers of the second group are President, L. A. Day; vice president, Eleanor Deming; secretary, Marjorie Dickinson; and treasurer, Lois Balduff. Miss Grace Spacht, Baptist student secretary, will lead this group.

The subject for discussion at the next meeting on Nov. 13 will be "How may we expect to benefit from a college education?"

JEWETT SPEAKS BEFORE AG WORLD FORUM MEETING

Col. F. F. Jewett was the main speaker at the first of a series of world forum programs at the home economics building at the agricultural college campus Wednesday afternoon. "Preparedness as a Way to Peace" was his subject.

The meeting was the first of a series of international relationships, which will continue throughout November and possibly longer. The agricultural college world forum is in charge of the Y. M. C. A. and the Y. W. C. A. student organizations.

BIBLE GROUP HOLDS MEETING TONIGHT

The Lutheran Bible league will hold its monthly social tonight at 8 o'clock at the Parish hall of Trinity Lutheran church at Thirteenth and H streets. A program of vocal and instrumental music, and games has been planned by the various committees. Refreshments will be served.

BIZAD COLLEGE HOLDS ANNUAL MEETING TODAY

Professor Bullock Is Chief Speaker on Program This Morning.

VARIOUS PRIZES GIVEN

Dean LeRossignol is One of Leading Speakers At Convocation.

Business Administration college, the youngest and third largest on the campus of Nebraska University, will meet at 11 A. M., Friday in annual convocation.

Benary Wilson, chairman of the student executive council, will call the meeting to order in the auditorium of Social Sciences hall, with the largest student body in the history of the college in attendance.

Bullock Will Speak.

T. T. Bullock, professor in commercial law, will deliver the main address of the meeting on the subject of "The College Man in Business." He is expected to deliver an entertaining as well as instructional talk on what an aspiring young business man can expect from his university in the way of training and how he can use this training to professional advantage after graduation.

Dean J. E. Le Rossignol of the College of Business Administration, will also give a short talk to his students. He will also announce winners of prizes and scholarships given by various organizations in the colleges including Delta Sigma Pi and Alpha Kappa Psi, men's professional fraternities; Phi Chi Theta, girl's professional society; Beta Gamma Sigma and Gamma Epsilon Pi, honorary scholastic fraternities to which a limited number of men and women elected from the upper classes of the college belong.

Delta Sigma Pi Prize.

The Delta Sigma Pi prize consists of a key which is given to the male member of the graduating class who has attained the highest scholarship average through his entire course.

Zeta chapter of Alpha Kappa Psi will announce the winner of its prize which is given to the man making the highest scholarship average in his professional subjects and in student activities in his college career.

Beta Gamma Sigma and Gamma Epsilon Pi are honorary fraternities to which only the high scholarship students are elected.

Y. W. FINANCE DRIVE MAKES GOOD START

Workers Hold Afternoon Tea in Ellen Smith Hall Today.

GROUP SETS \$2,000 GOAL

"Make a friend for yourself and the Y. W." is the motto of the finance drive being carried on now by the university Y. W. C. A. A tea at Ellen Smith hall Friday afternoon will furnish an opportunity for workers to meet and get in touch with girls whom they are soliciting. The aim of the drive is to raise at least 2000 dollars on the university campus, according to Ruth Hatfield, who is in charge of the campaign. Most of this amount is donated to the support of the national Y. W. organization. The amount received from the Community Chest is proportional to the amount raised in the drive. The Y. W. is planning many projects for the coming year, and for this reason, members of the finance staff earnestly hope to exceed their goal.

Members of the finance staff, and the captains working under them are: Dorothy Weaver, staff; Betty Harrison, Jean Rathburn, Virginia Pollard, Dorothy (Continued on Page 3, Col. 2)

DETECTIVE CHIEF SPEAKS TO SIGMA DELTA CHI GROUP

Members of Sigma Delta Chi, professional journalistic fraternity, last night heard the story of newspaper work as viewed by police officials, described by Chief of Detectives Walter Anderson.

Anderson told how reporters, by co-operation with police officials not only developed stories for their papers but also helped the work of the department. In many cases, he said, the clue to an important case has been found by an enterprising reporter.

A brief business session followed the talk. The dinner meeting was held at the Alpha Theta Chi house.

ARMORY IS SCENE OF ENGINEER'S BARBECUE

Novel Program Features Big Annual Festivities This Evening.

EXECUTIVES EXPECT 250

The annual engineers' barbecue, sponsored by the engineering executive board, will be held at 6 p. m. Friday in the Armory. About two hundred and fifty engineering students are expected to attend.

A novel program, the features of which are not being announced, has been prepared by James Blackman and Ray Prohaska, joint chairmen of the program committee. The master of ceremonies will be Russell Lindskog.

In past years the affair has been held on the agricultural college campus but due to the fact that most of the engineering students live in town and also to the fact that it is so late in the year it was decided to hold the festivities on the downtown campus this year. Tickets for the barbecue are on sale for thirty-five cents.

NEBRASKA POSSESSES FOSSIL COLLECTION

Kansas University Geologist Believes State Has Valuable Beds.

That Nebraska is the possessor of one of the finest collections of Pennsylvania fossils was the opinion expressed by Dr. Raymond C. Moore, state geologist and chairman of the department of geology at the University of Kansas. Dr. Moore is in Lincoln this week in connection with some cooperative work that is being done by the Nebraska and Kansas geological surveys and obtaining specimens for use at the University of Kansas.

Dr. Moore believes that portion of rock formations vital in the search for oil and gas which have been studied in the state of Nebraska, extends into the states of Kansas, Oklahoma, Texas, Arkansas and into Iowa and Missouri. In commenting upon the data which has been published concerning these formations in Nebraska, Dr. Moore emphasized the bearing of the material in determining structure and guiding tests for oil and gas in other fields. The Kansas geologist and G. E. Condra of the Nebraska conservation and survey division spent several weeks in the field, finding that practically all of the thinnest (Continued on Page 3, Col. 3)

NEW EDITION OF ENCYCLOPEDIA IS NOW OBTAINABLE

The new fourteenth edition of the Encyclopaedia Britannica recently added to the shelves of the University of Nebraska library contains more facts and knowledge than has ever previously been published in any group of reference books, according to members of the library staff.

Two thousand five-hundred leaders in every branch of human knowledge have contributed their combined thoughts in two volumes, and an expenditure of two million dollars was necessary to edit the material.

The old monographic arrangement of facts has been improved by a simpler and newer system of articles in alphabetical order.

CHANCELLOR AND WIFE PLAN TRIP TO CHICAGO

Chancellor and Mrs. E. A. Burnett will leave on Sunday for Chicago, where the chancellor will attend the sessions of a convention of executives of land grant colleges and universities next week.

CAMPUS CALENDAR

Friday, Nov. 8.

International fellowship banquet, First Christian church, 6 p. m.

Palladian literary society open meeting at Palladian room in the Temple.

Bizad executive board at Dean J. E. LeRossignol's office, 5 p. m.

Komensky Klub, Temple 205, 8 p. m.

Lutheran Bible league, Trinity Lutheran church, Thirteenth and H streets, 8 p. m.

Sunday, Nov. 10.

Cosmopolitan club business meeting, 2:30 to 4 p. m., 117 Tauszall street, Havelock.

BUSINESS STUDENTS MUST ATTEND MEETING

All students in the college of Business Administration are expected to be present Friday at 11 a. m., at the annual student convocation to be held in the auditorium of Social Sciences hall.

Students who have 11 o'clock classes will be given excuses at the entrance of the convocation assembly which, if presented to their instructors, will excuse them from class. Otherwise they will be marked absent.

FRESHMEN CALL RALLY OFF FOR MISSOURI GAME

Engineer's Occupy Armory Leaving Frosh With No Place to Go.

AUDITORIUMS ARE BUSY

The freshman rally for the Missouri-Nebraska freshman football game, scheduled for Friday night at the Armory has been cancelled due to the fact that no suitable hall can be obtained, according to a statement by Elwood Thompson, president of the freshman class in charge of the arrangements. It was discovered Wednesday that the Armory, originally scheduled as the place for the rally was previously granted to the engineers for their annual barbecue.

Miss M. Lee, of the physical education department, in giving the freshmen permission to use the building for their rally overlooked the fact that it had been already scheduled, causing a mix up in the plans. Last minute attempts to arrange for the use of the Social Science halls were without avail. It was deemed by those in charge that the coliseum was too large to be practicable and the rally was definitely called off at 10 p. m. Thursday night.

"The cancellation of the rally is a big disappointment to all concerned," declared Mr. Thompson, but we hope that all the freshmen will turn out and support the team in the proper style for University of Nebraska freshmen regardless. The action taken was unavoidable in the light of the circumstances and though I regret very much that our plans did not materialize, I am sure that the class spirit will doubly assert itself Saturday afternoon when the game with Missouri that means so much to us all, will be played. And don't forget that if we win we can discard our green caps which we will otherwise have to continue wearing.

AG ENGINEERS HOLD MEETING WEDNESDAY

Students Discuss Process of New Electrification During Program.

A discussion of electrification, and talks by three students who worked in power companies during the summer featured the American Society of Agricultural Engineers meeting Wednesday evening in the Agricultural engineering building. Wayne Central, who worked in the Western Public Service company plant at Scottsbluff, Eugene White, who was employed by the Iowa Nebraska Light and Power company in Lincoln, and Francis Yung, who worked for the Nebraska Power company at Omaha, each spoke.

Plans for the club include a dinner Nov. 29, a mixer early in December, and the organization of a basketball team to compete in the agricultural clubs league. About forty members attended the meeting Wednesday.

Komensky Club Meets Tonight at 8 O'clock

The Komensky Klub for Czechs, will hold a meeting tonight at 8 o'clock in the Temple room 205.

KANSAS FOLLOWERS CLAIM MORAL WIN AGAINST CORNHUSKERS LAST SATURDAY

Appearing in the Wichita Daily Eagle on Tuesday morning was a special dispatch to the sports editor in regard to the Nebraska-Kansas game which was won by the Huskers on Memorial stadium field last Saturday. It seems that the defeat at the Kansas school does not get over so big and the following story gives Nebraska readers an idea of how the Kaw school is taking the game.

LAWRENCE, Kan., Nov. 4.—Slow officiating, which deprived the University of Kansas football team of two rightfully earned touchdowns, cost the Nebraska football game at Lincoln, Saturday, said the Jayhawkers, who returned from Cornhuskerland Sunday.

Photographs by a Lawrence photographer reveal that Bausch was over the Nebraska goal line on both the second and third downs of that dramatic last moment drive from the Cornhusker five yard line on which Referee Grover gave the Nebraska team the ball on downs on the 2 inch line.

The 65 yard run by Atkeson in the first half of an intercepted Nebraska pass, which was disallowed, was as fair a touchdown as was ever scored. Bill Hargis, coach of the Jayhawkers, emphatically declared.

"There is no use squawking."

DR. J. THOMPSON ADDRESSES NAMED MEN WEDNESDAY

Dr. John C. Thompson addressed the NAMED, pre-medical society on the University of Nebraska campus, Wednesday night. He spoke on the relationship between premedic work and that of the medical profession, especially in regard to the study of chemistry. The doctor presented case histories of two patients and explained the relationship between the symptoms and the final diagnosis of the illness.

R. C. Peterson, president of the society, presided at the meeting.

YEARBOOK SALES WILL END SATURDAY NOON

Kennedy Asks Contestants To Check in Results Before Deadline.

Cornhusker sales campaign will close Saturday at 12 o'clock, noon, according to George Kennedy, business manager of the yearbook. Contestants may turn in their receipts at any time and the Cornhusker office will be kept open until 6 o'clock Friday to accommodate any who may wish to check in.

Everything must be in by Saturday noon, however, or it will not count on the campaign, Kennedy stated. Winners of the campaign will be announced in Tuesday's Nebraska. When questioned as to the success of the campaign Kennedy said that their goal had not been reached but that the campaign had been a successful one.

TASSELS MAY GO TO KAGGIE BATTLE

If the Tassels win the Cornhusker sales, they will go to Kansas. It was decided at the meeting held Thursday night. The Tassels will carry the flag in the Armistice day parade, it was announced.

Sally Pickard, vice president and chairman of social activities, chose Lucille Ackerman and Helen Manning to take charge of the skit for the Cornhusker party.

BANQUET CELEBRATES SIGNING OF ARMISTICE

Crowd of 200 Is Expected At World Fellowship Dinner Tonight.

About two hundred and fifty guests, including representatives of seven nations, faculty members, and students, are expected to attend the annual international dinner in celebration of Armistice day, which is to be held this evening at the First Christian church at 6 o'clock. The following students from foreign nations will speak: James Cuneo, Argentina; Emilio Del Rosario, Philippines; Shun Cho Myung, Korea; Claude Gordon, Jamaica; Jack Solomon, Poland; and Anatole Mozer, Russia.
