

KFNP WILL RADIO NEBRASKA - DRAKE DEBATE THURSDAY

Debate between the University of Nebraska and Drake university will be broadcast Thursday at 8 p. m. over station KFNP at Shenandoah, Ia. according to announcement by Dr. H. A. White of the English department.

Each side will be represented by only one speaker. Nebraska will be represented affirmatively by Carl C. Fishbaugh of Shenandoah, Ia. and negatively by John P. McKnight of Auburn, Neb.

FACULTY MEMBERS HOLD CONFERENCES

(Continued from Page 1.) the American meteorological society on "Summer and Autumn Pressure Anomalies Affecting Winter Temperatures in the Upper Mississippi Valley." Professor Marvin visited at Grinnell, Ia., before returning to Lincoln.

From the department of botany in attendance at Des Moines were Dr. R. J. Pool, Dr. J. E. Weaver, Dr. W. J. Himmel, Dr. Elda R. Walker and A. E. Holch. Dr. Pool, who is chairman of the department, presented a paper before the botanical society of America on "Experimental Modification of Plant Succession by Fire and Grazing." He visited at Des Moines and Ames, Iowa, where he attended meetings of the Iowa State college, before returning.

Weaver Gets Position Dr. J. E. Weaver was elected president of the ecological society of America to which society he read a paper on "Relation of Underground Plant Parts to Range and Pasture Management." He also prepared a paper in conjunction with Dr. W. J. Himmel on "Aeration and Root Development in Hydrophytes." This was presented to the association of American plant physiologists. Dr. Weaver also attended the meetings at Iowa State college.

Instructor Doesn't Know Santa Claus, Student Discovers

This happened in a University of Nebraska classroom: A test was given in a certain mathematics class on the Friday before the Christmas holidays. There was but a single question, and the student, believing it to be an unimportant quiz, answered thus: "God knows. I don't. Merry Christmas."

His paper when returned Monday read: "God gets a hundred percent. You get zero. Happy New Year."

paper read by Dr. Walker before the general section of the botanical society. Dr. Walker is first national vice-president of Sigma Delta Epsilon, graduate women's society in which membership is based on advanced degrees and research.

Kisselbach Reads Paper Dr. T. A. Kisselbach of the agronomy department read a paper before the agriculture section on "Morphology of the Corn Plant." This was an invitation paper as part of a symposium on corn. Dr. Kisselbach is a member of the committee for this section of the meeting.

At the meeting of the American society of parasitologists in Des Moines, Dr. H. W. Manter read a paper on "A Disease of Acaaris Lumbricoides."

Dr. D. A. Worcester read two papers before the education section and the psychology section of the Des Moines meetings.

"The Permanence of Learning in High School Subjects," was read to the first named section and "The Value of the Photograph in the Selection of Teachers," to the second.

Others who attended the A. A. S. meetings are Dean O. J. Ferguson, Prof. M. G. Gabe, Prof. W. C. Brenke and Prof. T. A. Pierce. Professor Gabe read a paper before the American mathematical society on "A Set of Axioms in Terms of Points, Ordinals and Ideals." Professor Pierce read a paper to the same group on "Matrices Whose Characteristic Equations are Cyclic."

Other Meetings Attended Included in those who attended meetings elsewhere are Dr. Neils A. Bengtson, Dr. Julia M. Shipman and E. E. Lackey of the department of geography, who were present at meetings of the national council of geography teachers and the Association of American Geographers in Columbus, O.

Bengtson was president of the first named group last year and presided at the meetings. He was elected to a position on the executive committee of the organization for the coming year. Mr. Lackey was elected secretary of the national council of geography teachers.

"A Statistical Study of the Correlation Between Geography and History in the High School," was the subject of a paper presented to the council of geography teachers by Mr. Lackey. He was one of the directors of the group and is associate editor of their official publication, The Journal of Geography. Dr. Bengtson visited in Washington, D. C., where he did special work in the library of the department of commerce, before returning to Lincoln. Dr. Shipman spent Christmas with friends at the University of Indiana, at Bloomington.

Seniors Visit New Orleans Dr. J. P. Senning and Dr. C. M. Kneier of the political science department attended the annual meeting of the American Political Science association in New Orleans. Dr. Senning led a round table discussion on the theory of state administration and Dr. Kneier was director of a round table discussion on county government.

The meeting of the American Historical association at Duke university, Durham, N. C., was attended by Dr. J. D. Hicks, dean of the college of arts and sciences. Dr. Hicks also stopped at the meeting of the Modern Language association at Cleveland, O.

Gayle C. Walker, acting director of the school of journalism, attended the annual meeting of the American Association of Schools and Departments of Journalism, at Baton Rouge, La., and the American Association of Teachers of Journalism, held in the same city. Mr. Walker was vice president of the first named group. Memphis, Tenn., New Orleans, and Ft. Worth, Tex., are other cities that were visited. Mr. and Mrs. Walker joined Prof. and Mrs. C. E. Rogers of the department of industrial journalism at the Kansas State agricultural college at Manhattan,

driving from there to the Dixie land. Condra in Washington. Dr. George E. Condra spoke before the geological society of America, in Washington, D. C., on

Frosh Football Star Answers Attack of 'Buddy' McBride on Grid System

Jack Miller, flashy freshman football player who was one of the outstanding yearling grid-ders during the 1929 season, offers an answer to the newspaper interview of Clark "Buddy" McBride which appeared in the Omaha World-Herald on Dec. 14. It seems that Miller, who aspires to a avrity position next season under Dana Bible disagrees with all that McBride stated in the Omaha paper and in a letter to the sports editor of The Daily Nebraskan answers the interview. His letter follows:

"Football makes bums out of players? Well, you know best, Buddy. It is unfortunate, however, that after eight years of football limelight you should have to "grandstand" in this particular manner.

"I haven't learned a damned thing that will help me earn a living when I get out." Eight years of football and you can't earn a living at it? You can't, Buddy. You should have gone to a vocational school.

"If I can overcome the reputation of being a football player—do you think that will be so hard, Buddy?"

You claim that a football player hasn't time to accomplish anything scholastically. Buddy, haven't you heard of a scholar called "Chris" Cagle? Buddy, don't you know that "Dutch" Clark is an honor student? And

don't you know that it would take a full column to list other scholarly football players?

Buddy, did the Athletic Department use physical force to get you to play on Nebraska's great team? Or was it blackmail? Since you dislike the game so, did you play for the same reason that you wrote your article?—to be in the limelight?

Buddy, you'd better wring yourself out and hang yourself up to dry. If you are a bum, it is your own fault. Bums, Buddy, are bums because they are bums, not because they happen to play football. Some bums blame booze. Some blame women. Some blame money. Some blame poverty. Some blame football. But no real bum ever blames himself.

Buddy, if you had spent your afternoons seeing movies, playing bridge, or doing some of the other useless things that most students do, would you have been less of a bum? I doubt it, Buddy.

Because I love the sport as such, because I believe in it as a maker of virile manhood, and because I find so few bums engaged at it, I intend to continue devoting my spare time to football. Then, if I haven't sense enough to do the things I came to the university to do, I shall not blame football. Only a bum would do that. Good-bye, Buddy.

JACK MILLER '33."

Prom Committee Applicants Asked To File by Friday

Applications for positions on the Junior-Senior Prom committee must be filed with John Selick, manager, for student affairs, by 5 p. m., Friday, Jan. 10. Six junior men and six junior women will be selected for this committee which will be in charge of all arrangements for the prom. No seniors will be included on the committee.

Students seeking membership on the committee must comply with the regular university requirements for activities. They must have made twenty-seven hours with an average of seventy in the two preceding semesters and must be carrying twelve hours in good standing.

No announcement has been made as yet concerning the date or detailed arrangements for the Prom.

Physical Education Meet. The university was represented by Herb D. Gish, Henry F. Schulte and R. C. Clapp at the national collegiate athletic association meetings in New York. Mr. Gish and Dr. Clapp also attended the sessions of the society of directors of physical education. Dr. Clapp is a member on the committee on nomination of officers for the N. C. A. A. He read a report as chairman of the wrestling rules committee of the N. C. A. A., and also made a motion that the next meeting be held March 28 and 29 at Penn State university. Coach Schulte was retained as a member of the track rules committee of the N. C. A. A. Dr. Clapp attended several other related meetings in New York during the week.

itary training and women, as well as men enter into athletics freely and with zest. The dress and manners of the German people are in general quite similar to those of us Americans.

Another story "Hitch-Hiking" "Seggern" is also featured in the "Countryman." He hitch-hiked the entire state in a month and it cost him a pair of thick-soled shoes and forty-five dollars. He, with a companion, left his home at West Point and started for Denver. They stopped at Cozad the first day, but made the 720 miles in three days and each spent forty-five cents. They carried packs of about twenty pounds apiece and slept on the ground. They spent two weeks in Estes Park roaming around. His partner went directly home but he continued on alone and spent his first night alone on the plain twenty-eight miles south of Cheyenne.

Interested in State.

He arrived at Kimball, Nebraska the heart of the wheat country and continued on to Sidney to spend the Fourth of July. He then went to Bridgeport and Scottsbluff. Here he saw sugar beet fields everywhere with Mexicans and Russians working in them. He wanted to visit the Agate fields of western Nebraska, but the scant traffic caused him to take the road to Alliance. On this part of the trip he crossed the edge of the sand hills. Soon he entered the potato domain of which Alliance is the capitol. He then traveled through the Pine Ridge country to Crawford. He took a short trip to Harrison and Fort Robinson and returned to Crawford. He passed through the famous prairie-dog town of Chadron and on to Clinton where he visited the proprietor of the Lyons curio shop, the world's largest distributor of Indian goods.

Mosquito Horde. He again entered the sand hills while traveling through Cherry county. Mosquitoes seem to be the best crop in existence in that county. Von Seggern declared in his article.

He reached West Point after one month of hitch-hiking during which time he covered nearly 1,900 miles. He actually walked sixty-five miles and the greatest distance he covered in one day was slightly less than 49 miles.

E. N. Bressman, a plant breeder from Oregon agricultural college at Corvallis, discusses some problems confronting graduating seniors in his article "After Commencement—What Then?" He is a graduate student taking his doctor's degree in crops.

"Women Versus Drudgery." Other articles appearing are by John Pospisil; Arthur Hauke, graduate student from Wood River and Cyril Winkler, 31, Lexington. They discuss "Box Butte Points the Way," "No Place Like Home" and "Chicken Changes Come," respectively.

Pictures of all the judging teams for 1929 are given prominence in this issue, also, George Round, 32, Ord, has an article on "Home-Made Farm Relief" which deals with the organized agriculture meetings. "When Women Oust Drudgery," by Elvira Benne, 32, Lincoln, discusses what the housewife is doing today to do away with drudgery in house work. Every type of home equipment is discussed.

MEDICAL COLLEGE ACTIVITY PAUL C. PLATT, Editor.

SCHOOL OF MEDICINE OPENS AFTER VACATION.

Monday, Jan. 6 the School of Medicine resumed its student work after the vacation of two weeks. Practically all the students were back in Omaha Sunday night ready to start on the rush of work just before the mid-semester examinations.

A. K. K. INITIATES.

Beta Gamma chapter of Alpha Kappa Kappa national medical fraternity initiated the following men on Tuesday evening Dec. 17: Ray B. Farnsworth, 31, Madison, Wis.; C. Robert Osborn, 32, Grand Island; P. A. Reitz, 32, Reserve, Kas.; L. Rosenblatt, 32, Omaha; Donald L. Anderson, 33,

Chambers, Howard J. Black, 33, Denver, Col.; Albert H. Fechner, 33, Stanton; Lester C. Krotcher, 33, Wynne; Kenneth J. Loder, 33, Lincoln; John J. McCarthy, Jr., 33, Ogalla; G. L. Burns, 33, Manti, Utah; Norman C. Shoenaker, 33, Omaha; David H. Waterman.

The meeting was presided over by John H. Waterman, president. The following officers were elected Anderson, 32, vice president; Harvey L. Runty, 31, treasurer.

Carl F. Hill was elected as delegate-national convention of Alpha Kappa Kappa to be held at the Benjamin Franklin hotel, Philadelphia, Pa., Jan. 2, 3, 4, 1930. The first convention was held in 1893, seven years after the founding of Alpha chapter at Dartmouth medical college in 1888.

LAMB COATS \$50.
CARACULS \$175 and up.

Furs—Fourth Floor.

Miller & Paine

Thirty-five miles from the railroad, the editor got his story

UP on the Gatieneau River, with the mercury clear out of sight, a huge winter construction job was going forward! Here was a story the industry wanted to know... a McGraw-Hill editor covered it.

The railroad ended at Maniwaki; thirty-five miles north lay the job. His "paper" was going to press, so the editor munched through thirty-five miles of snow-choked forestland.

Whether in the frozen north... in tropic areas laid bare by a hurricane... or in flooded regions where army trucks are the only form of transport; if there's a story that industry should know... McGraw-Hill editors get the facts first hand.

Business men, industrialists and engineers—600,000 of them—regularly read the McGraw-Hill Publications. More than 3,000,000 use McGraw-Hill books and magazines in their business.
