

TRICOLOR MEETS WILL COMMENCE THIS AFTERNOON

Medals Will Be Awarded to Men Having High Score in Six Events.

FRESHMEN ARE ELIGIBLE

Twelve Points are Required For a Numeral Track Jersey.

The first of six tricolor meets for all track and field members of the varsity will be held this afternoon in the stadium, starting at 4 o'clock.

It is planned that the first five to place in any event are to receive points: six for first, five for second, four for third, three for fourth, two for fifth, and one for sixth.

The tricolor meets also offer an opportunity for competition in setting marks to be used toward numeral awards, and numeral sweaters. A point scale has been worked out for the awarding of track jersey numerals, and a set of standards have been completed for the award of numeral sweaters.

Twelve points are required to win the numeral which is worn on the front of the track jersey. Points made in or out of doors may be added together. Only the best performance in each event is counted for points.

Freshmen or novices who equal or better any of the marks in this column are awarded numeral sweaters.

Freshmen or novices who equal or better any of the records in this column three times are also awarded numeral sweaters.

The standard is purposely set high. Coach Schulte states that a man who makes a numeral in this manner is of varsity caliber. It is required that men earning numeral

Tricolor Meet Begins At 4 p. m.; All Non-Varsity Men Eligible

The order of events in the tricolor meet which is to be run this afternoon in the stadium, with all nonvarsity men eligible to compete, is as follows: 4:00 o'clock—1 mile run, 4:15 o'clock—60-yard dash, 4:30 o'clock—440-yard run, 4:45 o'clock—8-yard high hurdles, 5:00 o'clock—2 mile run, 5:15 o'clock—60-yard low hurdles, 5:30 o'clock—880-yard run, 5:40 o'clock—relays.

Field Events. 4:00 o'clock—Pole vault, shot put, and high jump, 4:45 o'clock—Broad jump.

GETTING OUT OF THE VALLEY By Elmer Skov

We are almost out. Bill McCleery and Carl Andersen get joint credit for thinking of a name to replace the temporary one, and just as soon as it has been properly decorated and embellished by a competent artist it will appear at the head of this column. It's really a good name.

A start was made on the problem of figuring out just what could happen in the remaining five games of the Big Six conference basketball schedule. After figuring out seven possibilities, and discarding those that were more or less covering it up as a bad job. But with Kansas playing the three toughest teams in the circuit, Nebraska, Iowa State, and Missouri, while Missouri has but one other game, that with Oklahoma, it is obvious that several things might happen.

One thing is certain. Nebraska is sure of at least a third place. But there are two chances to finish in a three way tie for first, and at least one chance to place second. Should Kansas lose to Nebraska and bow to Missouri, the Cornhuskers would find themselves in a tie for second. If Kansas loses both the Iowa and Nebraska games, and beats Missouri, the Huskers will be in for a third of the title. If you have a lot of spare time, you might figure on the possible final standings. There are plenty more.

Coach Schulte did something new for spectators at the Husker-Cyclone dual track meet Saturday afternoon, when he provided them with mimeographed sheets carrying the names of the entries in each event, and a column for keeping scores. The device added materially to the enjoyment of the meet by those who made use of it, enabling them to keep constant check on the standings of the two teams.

Cornhusker teams have been going hot the last two weekends. It is rather interesting to note that out of nine starts in the past week and a half in basketball, swimming, wrestling, and track, the men in red have won eight, losing only the swimming meet Saturday night against the strong University of Iowa crew. The coming weekend is comparatively dull, with nothing more exciting than the annual Kansas-Nebraska basketball scrap Saturday night in the Coliseum. The swimming, wrestling, and track teams rest.

HUSKERS PREPARE FOR JAYHAWKERS SATURDAY NIGHT

Nebraska's Victory Over Iowa State Insures Third Place.

TIGERS STAND SECOND

Maclay Still Leading in Points With Iowan Climbing Up.

With third place in Big Six standings clinched by virtue of the narrow 50-52 victory over Iowa State Saturday night, the Cornhusker basketball team started preparation for its clash with the league leading Kansas Jayhawkers in the Coliseum next Saturday.

The Kansans hold a 27-20 decision over the Nebraska five, taken in a game played at Lawrence two weeks ago.

In addition to playing at Lincoln, the Jayhawkers are scheduled for a clash with Iowa State at Ames. While these games are being played, the Missouri Tigers, holders of second place, and strong bidders for the championship, engage the cellar occupying Oklahoma team at Columbia.

Team Standings in the Big Six.

Individual Scores.

Maclay, Nebraska, 22; Iowan, 18; Fisher, Nebraska, 18; 19; 20; 21; 22; 23; 24; 25; 26; 27; 28; 29; 30; 31; 32; 33; 34; 35; 36; 37; 38; 39; 40; 41; 42; 43; 44; 45; 46; 47; 48; 49; 50; 51; 52; 53; 54; 55; 56; 57; 58; 59; 60; 61; 62; 63; 64; 65; 66; 67; 68; 69; 70; 71; 72; 73; 74; 75; 76; 77; 78; 79; 80; 81; 82; 83; 84; 85; 86; 87; 88; 89; 90; 91; 92; 93; 94; 95; 96; 97; 98; 99; 100.

EAVESDROPPING IDEAL STUDENTS HAVE AMBITION.

TEXAS CHRISTIAN UNIVERSITY, Fort Worth.—The ideal student, according to Dean Hall here, is the one whose curiosity to learn and industry in adapting himself to live, carry him into creative activity far beyond the requirements of any given course or any prescribed degree.

However, the dean believes that "even a flapper" derives much benefit from college life, in spite of her "flapping." A small percentage of them derive so little benefit that it is questionable whether or not it is worth the cost. But many beautiful and happy looking girls are often casually ranked as flappers when they do not deserve the imputation of vacuity which this term implies.

WILL MEETS EQUAL. NEW YORK.—Will Rogers, who prides himself on being considerable of a conversationalist, met his match when he called on George Bernard Shaw, he said today on his return from Europe aboard the Ile de France.

WORKS WITHOUT WORKS. WASHINGTON.—A clock which will run itself from its own "ticks" is to be added to the science of time measurement.

BIZARDS NEED HIGH SCHOLARSHIP. UNIVERSITY OF TEXAS, Austin.—Requirements in the college of business administration here have been raised so that an average of "C" in at least nine hours of work will be necessary for students to keep off probation.

HEADLINE CAUSES SUPPRESSION. MCGILL UNIVERSITY, Toronto, Canada.—Suppression of the student council by action of the president of the student council caused the student body to pass a resolution by a vote of four to one that the action of the president was an arbitrary attempt to suppress freedom of expression on the campus.

HONOR SYSTEM FAVORED. OREGON STATE COLLEGE, Corvallis.—The results of a straw vote taken at the recent student body election at Oregon State college showed that the overwhelming majority of students voting was in favor of the honor system

Interfraternity Basketball TUESDAY, FEB. 25.

Court I (Class B). 7:00 o'clock, Sigma Alpha Epsilon vs. Sigma Phi Epsilon, 7:25 o'clock, Alpha Sigma Phi vs. Pi Kappa Phi, 8:40 o'clock, Phi Sigma Kappa vs. Sigma Chi.

Court II (Class B). 7:00 o'clock, Beta Theta Pi vs. Pi Kappa Phi, 7:25 o'clock, Kappa Sigma vs. Delta Chi, 8:40 o'clock, Delta Sigma Lambda vs. Delta Upsilon.

Court III (Class A). 7:00 o'clock, Beta Theta Pi vs. Delta Chi, 7:25 o'clock, Kappa Sigma vs. Sigma Alpha Mu, 7:50 o'clock, Delta Chi vs. Phi Gamma Delta, 7:25 o'clock, Sigma Alpha Mu vs. Alpha Gamma Rho.

HUSKER SWIMMERS FALL BEFORE DRAKE

Nebraska Wins 440 and 100 Freestyles and 150 Backstroke.

Cornhusker swimmers fell before the Drake swimming team in the 43 to 32, at the dual meet held at Des Moines last night. Nebraska succeeded in capturing but three firsts, the 440-yard freestyle, the 150-yard backstroke and the 100-yard free style.

Dille took first place in the 440, with the time of 6 minutes and 26.2 seconds. Hestrich took second place with Strosmider of Drake coming in third.

Moekler made the best time in the 150-yard backstroke, 2 minutes and 5 seconds. McClelland of Drake took second, while Cannon took third place for Nebraska.

Drake took the 100-yard relay with the time of 1 minute and 24 seconds. Squiers of the opposing aggregation made the best time in the 200-yard breaststroke, 2 minutes and 48 seconds. Goldberg, also of Drake, took second, while Chaloupka of Nebraska had to be content with third place.

Billick made the best time in the 400-yard free style for Drake, 21 seconds. Shaw of Drake took second, and Young of Nebraska third. Nebraska won the 100-yard free style, Sutherland taking first place, Bulish and Shaw, both of Drake, taking second and third respectively.

Shaw of Drake took first place in diving, with Sutherland and Pattanna winning second and third places respectively for Nebraska. Drake won the medley relay. The Cornhuskers made the time of 3 minutes and 33.3 seconds.

as it now stands. The vote was taken merely to determine the sentiment of the student body and thereby help the honor council come to some decision as to what should be done. Out of 1875 votes cast on the amendment, 1245 were for revision, 275 for leaving it as it is, and 254 for the abolition of the whole system.

MINORS BUILD A VOLCANO. OREGON STATE UNIVERSITY, Corvallis.—All who are unfamiliar with the mines building, beware!

The mines students are preparing a miniature volcano, showing the original formation of Crater lake. This famed Oregon lake is merely the crater of an extinct volcano cone which has become filled with water.

Fire will belch from the model crater and lava will pour from its brim. The miniature mountain itself is made from rock that has been melted in the mines laboratory and poured into place to form the model.

ACTOR OR "ACTRESS?" UNIVERSITY OF WASHINGTON, Seattle.—To fit himself for feminine roles, Mei Lan Fang, a Chinese actor, habitually paints the pupils of his eyes. Not satisfied with womanly eyes, he goes further and walks on his toes like a ballet dancer when playing the part of woman of the old Chinese empire.

Mei is reported to be a millionaire as a result of his popularity as an interpreter of historical drama in his native country.

PROTEST SUSPENSE. UNIVERSITY OF MINNESOTA, Minneapolis.—Five university of Minnesota organizations registered protests this week with the dean of student affairs, condemning his action in suspending for the period of a year two seniors who violated the "no-smoking" rule of the library.

The organizations, which include the senior commission, a drama group, the board of publications and both a professional and an honorary journalistic fraternity, are unanimous in the opinion that the punishment is too drastic and that a review of the case should be granted. The dean made no statement.

PI KAPPA PHI LEADS IN BOWLING TOURNNEY

Fourteen Teams Entered in Contests for Trophy And Medals.

WALTERS HIGH SCORER

The interfraternity bowling tournament which is being run off at the Lincoln bowling parlors, has entered its fifth week of competition with the Pi Kappa Phi's in front with a score of 300.

There are only fourteen teams entered in the tournament. The winner of the affair, beside being awarded a trophy and medals for the individuals will win points toward final standing in interfraternity athletics.

The competition among fraternities has brought out some accomplished kleglers from the ranks of the Greeks. Walters of the Kappa Sigs leads the individual scorers with a total average, for the 12 games, of 193 pins per game. Clair Sloan is also adept at bowling over the pins, as he has averaged 190 a game for the Pi Kappa Phi House, Des Jardine, Phi Gamma Delta, has also bowled 190.

Standings of all teams that have played at least 12 games:

Table with columns: Team, W, L, Pct. Pi Kappa Phi 12 3 .800, Kappa Sigma 9 3 .750, Sigma Phi Epsilon 10 5 .667, Alpha Theta Chi 10 5 .667, Phi Gamma Delta 10 5 .667, Delta Tau Delta 10 5 .667, Phi Alpha Delta 8 7 .533, Delta Upsilon 8 7 .533, Omega Beta Pi 6 6 .500, Kappa Psi 6 6 .500, Phi Kappa Psi 6 6 .500, Sigma Chi 5 7 .417, Theta Xi 4 8 .333, Beta Theta Pi 6 9 .250

High individual scorers in the first 12 games: Walters—Kappa Sigma, 193. Sloan—Pi Kappa Phi, 190. Des Jardine—Phi Gamma Delta, 190.

Davidson—Phi Kappa Phi, 176. Hirst—Sigma Phi Epsilon, 176. Krouse—Kappa Sigma, 174. Jallas—Alpha Theta Chi, 172. Hopewell—Phi Gamma Delta, 172. Bernard—Phi Gamma Delta, 170. Vandenburg—Kappa Sigma, 169. Adair—Delta Tau Delta, 167. Eggleston—Sigma Phi Epsilon, 165. Pumphrey—Pi Kappa Phi, 164.

FRATERNITIES WITHDRAW. OHIO STATE UNIVERSITY, Columbus.—Eight fraternities withdrew from the Interfraternity council Monday night, joining two others in a new organization, to be known as a Fraternity presidents' council. This verified rumors of impending dissension among members which have been current during the week.

The organization resigning from the council are: Phi Gamma Delta, Phi Kappa Psi, Phi Delta Theta, Sigma Alpha Epsilon, Delta Tau Delta, Sigma Nu, Kappa Sigma, and Alpha Gamma Rho. These fraternities joined with Sigma Chi, which withdrew last week, and Delta Upsilon, which has been out of the council for three years,

to form the nucleus of the new body.

A formal resignation, expressing "extreme dissatisfaction with the organization and activities of the Interfraternity council of the State university during the period of its existence," and signed by the presidents of nine fraternities, was mailed to the president of the council.

PHOTOS OF DEEP SEA. UNIVERSITY OF WASHINGTON, Seattle.—Shades of Jules Verne!

Fifty years ago that author wrote his famous book, "Twenty-Thousand Leagues Under the Sea," and aroused the imaginations of the entire world. Now J. E. Williamson is repeating, not with imaginative tales, but with actualities.

A huge metal tube, devised by himself, has made it possible for Williamson to explore many square miles of the ocean bottom, and record with motion pictures the interesting and exciting scenes that he found there. He will illustrate his lecture with submarine motion pictures.

Williamson's tube is not a stiff iron pipe or a telescope arrangement. It is a flexible tube three or four feet in diameter, made of steel and drop forgings, and can be lengthened or shortened within the construction of its folding walls in much the same way as an accordion.

CURFEW EXTENDED FOR PROM

UNIVERSITY OF DENVER, Denver.—Those who go to the senior prom here won't be able to sing "Three O'clock in the Morning," but they can change the wording slightly and sing "One O'clock in the Morning" by special permission of the dean of women. Late hour was extended from 12 to 1 o'clock, for those attending the prom.

Good Haircuts Make A COMMON LOOKING PERSON HANDSOME

This theory has been proven time after time. Massages clean the skin and add attraction. We are experts in all lines of barbering.

LeRossignol Comments on Hertzler's New Textbook, 'Social Institutions'

Editors Note: J. O. Hertzler, chairman of the sociology department recently wrote a textbook, "Social Institutions." Following is a review of the work by Professor A. E. LeRossignol, dean of the college of business administration.

We often speak with reverence of our time honored institutions and of our duty to transmit them unimpaired, if not unchanged, to posterity. But we have not read Prof. J. O. Hertzler's new and timely book, "Social Institutions," published by the McGraw-Hill company, we may not even know it should be treated with respect.

Here is Hertzler's definition: "A social institution is a complex of concepts and attitudes regarding the ordering of a particular class of unavoidable or indispensable human relationships that are involved in satisfying certain elemental individual wants, certain compelling social needs or other eminently desirable social ends."

Definition is Academic. This is academic, of course, as befits a college text-book, but its application may be seen if we consider a partial list of social institutions and institutional products.

Such are marriage, the family, inheritance, government, law, trial by jury, courts, the police, the army, property, contract, money, banks, transportation, labor unions, markets, slavery, religions, churches, schools, languages, games, the fine arts, and societies of every kind.

One wonders whether such diversity can be covered by any definition, however comprehensive, but it cannot be denied that all of these institutions, and many others, are entrenched in social life by so strong a complex of thought, feeling, and habitual action, that they tend to continue indefinitely, even when their usefulness is gone. All institutions have developed in the past, in response to conditions obtaining in those days, so they are all more or less out of date and should be adapted to new conditions as they arise.

Danger in Deep Rooted Habit. However, as Professor Hertzler admits, there is danger here. Institutions are deeply rooted, and cannot be plucked up without disturbing the whole social structure in which they are imbedded and intertwined. Extreme radicalism, therefore, stands condemned as threatening to destroy the whole social structure, without any assurance that a new and better order can be built upon the ruins of the old.

Yet even moderate forward looking progressives may be mistaken in their diagnosis of social mal-adjustments, and in the remedies which they prescribe. The situation, therefore, demands much study of social anatomy and physiology, and almost super-human wisdom on the part of those who would abolish long established institutions or adapt them to the changing times.

Professor Hertzler makes no claim to infallibility, yet his interesting and suggestive book throws light on many dark places and might well be read by all who wish to know in what direction progress lies and how to profit by scientific research and the experience of previous generations, for which they have paid so great a price.
