

GISH ANNOUNCES COURT RULES FOR REMAINDER YEAR

Athletic Director Relates Laws Governing Use of Tennis Grounds.

RELEASED WEDNESDAY

Students May Use Indoor, Outdoor Places, But Varsity First.

The following rules governing the use of the tennis courts for the remainder of the semester were given out by H. D. Gish, director of athletics Wednesday.

Tennis Rules.

The rules, which are signed by Mr. Gish, follow:

1. In inclement weather—when weather conditions are such that play on the outdoor courts is impossible, the following rules will prevail on the indoor courts:

a. All courts reserved exclusively for Women's Physical Education classes, 8:00 a. m. to 12:00 noon.

b. From 12:00 noon to 3:30 p. m. courts are reserved for the use of the men students in the university.

c. From 3:30 p. m. to 6:00 p. m. all courts are reserved for the members of the varsity tennis team.

d. Doubles play shall always have precedent over singles. Therefore on the center court and on the north court any players who may be playing singles shall release the court to men who desire to play doubles.

2. In fair weather—when outdoor courts are in shape to play the following conditions will govern playing on the indoor courts:

a. All courts open to men and women students alike, 8:00 a. m. to 3:30 p. m. After 3:30 p. m. all courts are reserved exclusively for the varsity tennis team.

b. If not used by the varsity tennis team, courts are open to other students.

3. Length of playing period—At all times, both during inclement weather and fair weather, the length of playing period for any one student shall be one hour. The playing period shall start and stop on the even hour which means a player starting to play at 1 o'clock shall have the privilege of the court until 2 o'clock.

4. Starting a game a few minutes before the even hour shall not cause the game to end on the even hour. The rule governing doubles matches having precedent shall also govern as regards the length of playing period.

The observance of these rules by the entire student body will be appreciated. Four co-operation will result in our limited tennis facilities being made available to the greatest number of participants.

COACHING GROUP NAMES COOK AS NEW PRESIDENT

PHI ALPHA DELTA WINS INTERFRAT BOWLING LEAGUE

Sigma Chi Is Second, Sigma Phi Epsilon Third and Kap Sigs Fourth.

COMPETITION IS CLOSE

Final Four All Within Two Games Difference Until Final Round.

Phi Alpha Delta came back strong from a poor start to win the annual interfraternity bowling league with an average of 744.

The interfraternity league was one of the closest and most interesting bowling league races staged in Lincoln this season at the new Lincoln bowling parlors, according to the manager.

Pi Kappa Phi began with a good lead but found some handicap teams a little too strong and slipped back until the two weeks before the finish.

Final Standings. Final standings in the interfraternity bowling league:

California's Tennis Team to Play Here

University of California's tennis squad will meet the Nebraska netmen May 26 in Lincoln, when the men from the coast swing east on a long trip.

The BIG SIX SHOOTER

GUY CRAIG and Cobe Tomson, who placed third and fifth respectively in the hop, step and jump at the Drake relay, are very apt at taking coaching, it appears.

Neither of the Nebraska broad jumpers had any experience to speak of in hopping, stepping, and jumping, but decided to learn just a few minutes before the event was called at Des Moines.

The obliging entrants in that contest explained the principle of the thing to the Cornhuskers, and did such a good job of it that they were beaten by their pupils.

For the benefit of the uninitiated, this explanation of the event, contestants after a run, take off from a board as in the broad jump, but when they come down they land on the same foot from which they took off; then they take a step, and following that, a jump.

For instance, if a man takes off from his right foot, he lands first on the right foot, then on the left, and then on both. This according to Guy Craig, is the procedure. It might be fun to watch. Perhaps Coach Schulte can fix us up with an exhibition some afternoon.

GEORGE ORD, Jr., a citizen of Ord, who attends the university and writes great quantities of copy for each issue of the Ord Quiz, has decided that his remarks concerning his home town should be considered as insults, and proceeds to consider them as such.

He even gets personal and tells me that Riverside isn't such a thriving metropolis, in which he is entirely correct. He insists that Ord is original in its variety of unspellable, unpronounceable names, in which he is also correct.

Now, to make the thing perfectly clear, it must be explained to George that I have nothing against Ord. It's all right. What has made me bother me, and what has made it appear that I dislike Ord, is the futility of working on the paper when there is no experience to be gained. I said I liked to work on the paper, I did. But it was no different from the work I have been doing here.

SOMETHING happened in a class yesterday morning which is typical of a certain spirit in the university which should be eliminated. Dean Hicks appeared before his class in American history, after having missed two lectures. The students were glad he was back. It is certain that no one in the class felt sorry about it; several people in the back of the room made an attempt or two at clapping, but not being joined, lost their nerve and subsided.

The trouble is here: The students were willing to applaud, without doubt. Dean Hicks would certainly have appreciated their demonstration of approval. Yet there was no applause because of some strange belief in the minds of most of the students that such a performance would be a form of bootlicking.

For the same reason many university men and women hesitate to visit with instructors for fear they will be accused of pulling wires to get grades without earning them. It is one professor has said, instructors are human after all, and appreciate encouragement. They do not think constantly in terms of grades, as students think they do.

A STORY in The Nebraskan yesterday said that there was nothing to the rumor that the Ivy Day performances might be pulled off in the Coliseum in case of rain. Really, it's too bad the Coliseum is not going to be used.

It would be much more comfortable, especially for the prospective students. A few tumbling mats could be placed around the floor, and the boys who expected to be pushed could unobtrusively take up a position near them.

This plan would save thirteen cleaning bills, because even though it doesn't rain any more, the outdoor area is going to be pretty soft today.

The shooter doesn't know what to do about this challenge of Gilman's to a duel with hot cross buns at twenty paces. Perhaps there is no alternative but to accept. Defend yourself, Lewis!

ATHLETIC TILTS WILL FEATURE BIZAD FEST

Golf and Tennis Tournaments Are Slated Among Major Events.

HORSESHOE TOSS BILLED

Tournaments in golf and tennis will be two of the major functions of Bizad day, scheduled to take place at Antelope park, Friday, May 9.

The golf tournament will be headed by Gerald Phillippe of Basin, Wyo. According to Phillippe, all golfers of Bizad college are urged to enter the tournament. An attractive pennant will be given the winner of the tournament which will be conducted on a strictly low score competition.

It was suggested to Phillippe that the tournament be competitive on the basis that a handicap schedule be worked out, but this idea was rejected.

Entries Wanted. Entries will be closed for the golf tournament at 8 a. m. Friday, May 9. Aspirants may enter by giving their names to Phillippe either by seeing him personally, or by calling him on the telephone.

Edwin Mortenson is in charge of the tennis tournament. As a special feature of the day, a match will probably be scheduled between two of the outstanding tennis players of the city of Lincoln. This exhibition match will be played in the afternoon, probably between lunch time and the beginning of the afternoon baseball games.

Entries in the tennis tournament have been limited to sixteen. It was thought impossible to force the two finalists to play more than two matches in a single day.

Special Pennant. A special pennant will be given the winner of the tennis tournament. The first rounds of the tennis competition will begin at 9 a. m., and the deadline for entries will not come until that hour. All entries will be limited to members of the college of business administration.

A feature event of the day, which probably will be of special interest to members of the faculty, will be the horseshoe tournament. Definite details concerning the horseshoe competition will be announced later.

Active arrangements for the Bizad day celebration were initiated Tuesday afternoon when Bennar Wilson, general chairman in charge of the day, called a meeting of the chairman in charge of the special committee. All committee members began making definite plans Wednesday, and all reported that much co-operation was being shown by students and faculty members of the college.

on one of the lawns of the campus. Trees, shrubs and flowers provide scenery for the production.

Exhibits at this student fair will feature the various departments of research at the college of agriculture. They will be from both agricultural and home economics departments, and the preparation of these exhibits is supervised by Myrtle White, of Tecumseh.

A flower show, featuring a Japanese garden, is a new attraction of the coming fair. An exhibition of rare and fancy quilts has been added this year. Prizes will be given for the oldest and for the most beautiful entries.

Side Shows. These are all high spots, the fair board cautions in reviewing the scope of Farmers Fair. There will be a Snorpeum and a Follies, Fun and Frolic, and other side shows. There will also be a style show.

Riding ponies will be on the grounds. A battle royal will be staged between six negro young-

THE BEST BUSINESS CAREER is what every ambitious senior is thinking about at the present time. Life insurance is one of the best, one of the most desirable, and one of the most satisfactory as a permanent calling.

In assets and volume of business life insurance is one of the three leading businesses of this country, yet the field is comparatively under developed. Only seven per cent of the economic value of human life in the United States is covered by insurance. This gives you some idea of the big field still to be worked.

As to the remuneration, reports of college graduates who have entered the business indicate that life insurance is at the very top as a source of income. Now is the time for you to consider what you are going to do after graduation. If you are ambitious and willing to work hard there is a worthwhile opportunity for you with our company.

Mr. A. B. Olson, our Agency Manager, will be glad to give you further information. Bankers Life Insurance Co. of Nebraska Home Office, Lincoln, Nebraska
