Blue Shirt Platform

The blue shirt faction asks for the support of the student body to enable it to accomplish a constructive program in the interest of the students and the university.

Its program is as follows:

Proper correlation and intergration of all student organizations and activities

Definition and expansion of the powers of the Student 2. council.

3. Promotion of an all-university spirit by fostering a more intimate relationship between affiliated and unaffiliated students.

 Exertion of a maximum amount of self-government, con-sistent with the practical necessities of university administration. Establishment of a center for student activities in a Stu-5.

dent Union building. The blue shirt faction makes its bid for student support, not on the basis of hypothetical propositions, but on the strength of what it has actually accomplished and fostered during the past year through its preponderant majority of members on the Student council.

These accomplishments are well known: proportional reprecentation to allow the fullest and fairest expression of student opinion in the council, complete control of all student elections, solution of the rally problem, abolition of minor class offices, recognition of the Barb constitution, recommendation of 12:50 weekend nights for university women, and more positive ansertion of the ideal of student self government.

Monday by master politicians on both sides of the fraternity fence when it was said that one of the

blue shirts was deserting the cause and running over to the enemy camp. This was disquieted howcamp. This was disquieted, how-ever, when both the faction leader, Stanley Day, and the representative of the fraternity in question, Don Facka, of Farm House, declared that there was nothing official about it.

The rumpus started when Farm House asked the Student council to list its candidate on the farm campus as an independent instead of as a blue shirt as he was originally filed.

"There is nothing to the rumor of our leaving the blue shirts." declared Facka. "We have just decided that we will not support the blue shirt candidates on the agricultural campus and therefore wished to support our man independently.

Have Not Resigned.

No official resignation of the fraternity had been received by President Day of the blue shirts. He said:

The Farm House has only decided to run independently in this campaign and there is nothing which the faction can do about st As far as we know, Farm House is still one of the faction."

It is difficult to prognosticate just what will happen at the polls today.

In former years, relatively little interest was manifest in student elections due to the fact that the were always sure to win regardless of what sort of fight was put up. They had the majority of voters behind them and they were able to hold them.

Conditions have changed, though and now the two groups of "outs" feel they have a chance.
