#### Idea Given.

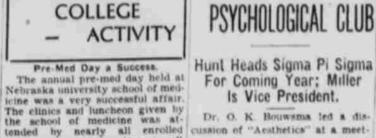

Mortar Board's idea of a scholastic society is for the stimulating of higher scholarship among omen of the freshman class. The society has stated its plan is to recognize a group with membership based solely on scholarship. This group could then petition membership in a national group if the members wished to do so. The petition submitted by Mor-

tar Board follows: "Mortar Board at the University of Nebraska requests permission the faculty committee on student organizations to organize and sponsor a group to be known as "Freshmen Women's Honorary Scholastic Society."

that definite recognition should be the members of Alpha Omicron given for superior scholarship. So many students come to college with the idea that the only worthwhile recognition comes in activi-200 ties. We feel that a recognition for superior scholarship would stimulate greater scholastic tivity and a realization that scholarship is the true end of a college education. There are several honorary na-

tional groups in existence for the express purpose of recognizing freshman girls. Our plan is to rec-ognize a group, membership of which shall be based solely upon scholarship, which could petition membership in a national group membership in a national group if the members wished to do so.
