Congratulations To Greek Lodges.

When a band of mischievous fraternity pledges chop down somebody's pet evergreen they find such a juicy bit of collegiate scandal. "Frat Boys Raise Hell" the headlines may shout; and outsiders shudder at the thought of of scholastic delinquencies. these vile fraternity boys. We do not mean to attempt an excuse for such plundering, but the illustration calls for a contrast.

College publications, daily newspapers and many magazines give great emphasis to one type of human interest story concerning college life. It is the story of the young man or young woman who has overcome tremendous odds to earn a college degree

Am Bition, we will call him, entered the university with practically no money or means of financial support. By dint of hard work and an overweaning desire to acquire an education, to use hackneyed terms, he not only earns his way through school but graduates with high honors.

We agree that too much praise cannot be bestowed on a student who has made that kind of a record. But the playing up by newspapers and magazines of this kind of feature story has a harmful effect on the attitude of the general public toward education.

The public dotes on that kind of story. Many fathers and mothers come to believe that it is better that their children should earn as much of their way through college as possible. They put more emphasis on the outside work than here after Miss Lee came to the they do upon the quest for knowledge. It would also be a revelation to find a professor in this school who walks out of the classroom during an examination as R. B. pointed out. It would be nice, but it just isn't done.

At the present time the honor system is impractical for this school due to reasons which the students alone can remedy.
