## CHEMICAL SOCIETY IS SPONSOR OF CONTEST

Purpose Is to Familiarize Students in Science Of Chemistry.

A prize essay contest, sponsored by the American Chemical Society, will be held as a part of a national contest at Chemistry hall lecture room at 1:00 p. m., Saturday, Feb. 21, for all university or college freshmen. The contest is being conducted by B. Clifford Hendricks of the department of chemistry. The purpose of the contest is to encourage students to acquire a greater familiarity with the science of chemistry.

Six prizes of \$500, six prizes of \$300, and six prizes of \$200, will be awarded, to those freshmen who write the first, second and third best essays, respectively, on topics listed under six general subjects.

The contest was established in 1924 by Mr. and Mrs. Francis Garvan of New York City, in memory of their daughter, Patricia. The purpose, as expressed by them, was that "the youth of our country may have an intelligent appreciation of the vital relation of the development of chemistry to our national defense, to the intensification and purification of industry and agriculture and to the progress of medicine through the 'Age of Chemistry' upon which we have entered." Since its establishment in 1924 the contest has been participated in by three million students, it was said.

All contestants are privileged to bring notes and an outline which they may have previously prepared, for use in the composition of the essay. The paper prepared during the three hour period from 1:00 to 4:00 p. m., upon that day, will be validated by the instructor in charge and may be taken by the student to his study room to use the basic first draft from which the finished paper is to be built.

When the completed typewritten essay is brought to the chemistry department office, on or before Feb. 25, it is to be accompanied by this validated first draft. All students are asked to familiarize themselves with the rules issued by the national committee before starting the contest.
