

SOCIETY

Of great interest on the campus was the announcement of the marriage of Margaret Schleyer, Lincoln, to Wayne Hatcher, Indianola, which took place Feb. 17 in Glenwood, Ia. Mrs. Hatcher is affiliated with Kappa Alpha Theta, and Mr. Hatcher with Delta Upsilon.

Members of Phi Psi Will Give House Party.

A house party will be given by members of Phi Kappa Psi Saturday. Festoons and streamers of fraternity colors will make up the decorations. Larimer's orchestra will furnish the music. About fifty couples are expected to attend the affair. Chaperones will be Prof. and Mrs. Joe Hunt, and Mrs. Woodbury, housemother of Sigma Alpha Epsilon.

Farm House to Have Party Saturday.

Members of Farm House fraternity will entertain thirty-five couples at a house party Saturday. Mr. and Mrs. Harold Hedges and Mr. E. C. Shadenhelm will chaperone the affair.

Farmer's Fair Board Sponsors Ag Mixer.

An Ag mixer, sponsored by the Farmer's Fair board, will be held Saturday evening at the Student Activities building at Agricultural college. Two hundred couples are expected to attend. The Goldenrod Serenaders will furnish the music. Jere Mielke is host to D. S. L.'s.

Jere Mielke entertained at dinner Sunday evening at his home in University Place. Guests were Mrs. H. C. M. Burgess, Wayne Owens, Norman Hansen, John Alden, Roland Miller, and Francis Obst. An informal evening followed the dinner.

Mrs. Margaret B. Roe has taken the position of housemother for the Chi Omegas. She is replacing Mrs. Lily H. Williams.

ENGINEERS HOLD INITIAL ROUNDUP HERE YESTERDAY

(Continued from Page 1.)

basis for the morning discussions. A. W. Andrews of Lincoln, office engineer of the engineering department, lines west, C. R. & Q. railroad and prepared one under the title of "Federal Land Grants as a Basis for the Development of Nebraska" which proved most interesting and offered a great deal of material along the early historical engineering in the state.

"Pioneer Highways and City Pavements" was the title of the paper read by Guy P. Dorsey, deputy county engineer of Douglas county. F. T. Darrow, chief engineer of the engineering department, lines west, C. R. & Q. railroad had an extensive paper prepared on "Pioneer Railroad Construction in Nebraska" which owing to Mr. Darrow's absence was read by A. W. Andrews.

Other papers read during the morning session was one titled "Outline History of Irrigation in Nebraska" given by R. H. Willis, chief of bureau of irrigation, department of public works and one read by E. R. Heiny, vice president and general manager of the Lincoln Traction company on the subject of "Street Railway Systems of Nebraska."

Hold Noon Luncheon.

At noon time the group lunched at the chamber of commerce where a program of Nebraska engineering reminiscences was given. Dr. G. E. Condra, department of conservation and survey of the University of Nebraska, presided at the luncheon.

Shortly after 2 p. m. the afternoon session convened with E. O. Green, executive secretary of the Nebraska chapter, Associated General Contractors of America, presiding. Eight papers were presented during the afternoon, the speakers being: J. D. Wood, state extension engineer, department of agricultural engineering of the University of Nebraska; R. L. Ferguson, president of the Yankee Hill Brick company of Lincoln; T. J. Byrnes, plant engineer of the Cudahy Packing company, Omaha; Donald D. Price, district engineer of the Portland Cement association, Lincoln; A. J. Doman, manager of the American Beet Sugar company of Grand Island; Jack Singleton, district engineer of the American Institute of Steel Construction of Topeka, Kas.; Morton Steinhart, vice-president and manager of the Ote Food Products

Rifle team at 12:30. Intramural board at 12:30.

meeting of the seniors. Members of the group will be given a chance to voice their opinions on the situation.

Blue Shirts Pledge.

The consideration of a union building, however, will be the main subject on which interest will be directed. The progress of the movement has been given added impetus since the Blue Shirt faction carried the election of class presidents last week. The Blue Shirts pledged their support to the project with much enthusiasm during pre-election time.

The matter of a permanent gift by the senior class to the university is expected to be taken up by the senior class in the business session. The Blue Shirt faction included in its platform the promise of such a gift.

There is strong possibility, however, according to Grau, that the discussion of the student building will crowd out other matters which are slated to be taken up if time allows.

WORLD FORUM HEARS HUNT ON MILITARISM

(Continued from Page 1.)

ion. There can be no war without the complete militarization of a people's life.

"War Psychology."

"To bring about the ends of the militarists," said Dr. Hunt, "the psychology of war has to be put in the minds of the people."

The whole international outlook of Germany was changed in one generation. If the German people were militarized in one generation, the people today can be educated for world peace and co-operation in the same time."

Dr. Hunt maintained that the time had come when it was essential that modern educators turn from that time-worn cry against the horrors of war as a means of educating the people against it and teach a positive preparation of public mind for peace, which is the only true cure, since the public gets that for which it has been prepared.

Likes Kellogg Pact.

He advocated adoption of the Kellogg Pact as an adequate and sensible safeguard for peace throughout the world, reading and explaining the pact to his audience. During his address he touched but lightly upon the right or wrong of compulsory military drill in colleges throughout the United States other than to say that, in his opinion, such organizations tend merely to instill a feeling of glamor and romance around war rather than to promote a conservative unbiased opinion of the futility of warfare.

Concluding his address, Dr. Hunt stated that if there is another war the common people must bear full share of the responsibility. "War," he quoted Rabbi Silver, "is a curse upon the nations. War comes only as the nations prepare for war, and peace will also come only as the nations prepare for peace. It is a characteristic of man that he will ultimately rely upon that which he is accustomed to."

BOTANY DEPARTMENT NEEDS MORE SPACE FOR HERBARIUM

(Continued from Page 1.)

the upper floor of what is now known as Pharmacy hall when Professor Bessie came here. It was known as Chemistry hall at that time. Professor Bessie was the only member of the department for a little while, conducting all the classes and handling all of the administrative duties. He quickly reorganized the department, however, and gave more courses which necessitated the hiring of more instructors. A number of outstanding students came to Professor Bessie in those early days, among them being Roscoe Pound, present dean of the Harvard law school, and Albert F. Woods, now director of scientific work for the department of agriculture. Both of these students received a doctor's degree in botany.

Seminar Established.

The botanical seminar took up the study of the plant life of Nebraska shortly after Professor Bessie took charge. Many papers were published on the subject and this really made the plant life of the prairie country known to the world. The seminar is still quite active in this respect and puts out several papers and pamphlets.

Professor Bessie died in 1915 and at that time Dr. Pool took over the chairmanship of the department. In 1917 the department was moved into the new building which was named Bessie Bessie took charge. Many papers were published on the subject and this really made the plant life of the prairie country known to the world. The seminar is still quite active in this respect and puts out several papers and pamphlets.

COMMERCE CLUB HEAD

FRANK B. SMITH who was elected new president of the Commerce club.

and no doubt from entirely different motives.

Green Troops.

I do feel strongly on the matter of some preparation of our country for an emergency. Since entering the army I have been in three wars, and have followed the flag into strange places. In each one of these wars I have, in compliance with my duty, had to lead untrained troops into battle. In the last war I had to lead 2,700 men who had less training than the federal troops had at the first battle of Bull Run. With these untrained men, we had to assault the heights of Manassas. It was always a question in my mind as to how far we would get remembering all the time what happened at Bull Run. I hope that this unfairness to our young Americans will be realized and measures of preparation be taken in peace time to prevent a recurrence. You have only to read the story of the last war by General Pershing to realize our utter lack of preparation for that emergency. Much of this lack of preparation was due to peace time influence.

I am averse to publicity of any kind and think that little can be gained by it in matters of this sort. I will comply with your request and have this letter published in the Lincoln State Journal and in the Nebraska Alumnus provided of course they see fit to publish it. Very truly yours,

W. H. OURY,

Col. Inf., (DOL)

R. O. T. C. CADET LEADER BEHN DIES FROM PERITONITIS

(Continued from Page 1.)

He sank rapidly, however, after the onset of peritonitis. Both his parents were present at the time of his death, his mother having been with him throughout his entire illness.

This morning's funeral services will be attended by his many student friends and local acquaintances. A battalion from the military department will be present and form a guard of honor as the casket of their late student commander is transported from the church.

Military Funeral Held.

A military funeral will be held for the services at Battle Creek, Ia., Friday afternoon at 2 o'clock. Eight fraternity brothers, Stanley Kiger, "Bud" Bramman, Burton Bridges, Robert Dobson, Carl Hahn, Everett Mead, Otis Detrick, and Raymond Frerichs, who are enrolled in the advanced military course will act as pallbearers, and Captains Lehman and Flegle will represent the regular United States army staff of this school.

A volley will be fired at the cemetery by a Pershing Rifles squad under the charge of Capt. Claud Gillespie, one of Behn's fraternity brothers. Five members of the squad will be Sigma Nu's and three others will be selected by Captain Gillespie.

PROM TICKET SALES CAMPAIGN NEARS END

(Continued from Page 1.)

nished by Beasley Smith's National Broadcasting company crew. The organization has played various college proms and balls, among them those at Purdue, Illinois, and South Dakota university.

South Dakota Man Writes.

In a letter received today by Russell Mousel, music chairman for the Prom, Lloyd Moses of Vermillion, S. D., who held a similar position on the South Dakota university military ball committee, said that students there called Beasley Smith's band "the best that ever played on the campus."

Moses added that the biggest feature of the band was its director, whom he described as being entertaining, unique, and different. "All the band is very good," the South Dakota party chairman said. "The trumpet section is especially fine. Smith himself can play the piano and sing plenty."

The band, which drew many South Dakota students to a Sioux City ballroom where it played the night following the South Dakota party, will appear here dressed in white tuxedos.

Miss Mary Thayer of the Omaha Art Institute, gave lectures to art students from 10 to 12 o'clock Tuesday and Wednesday in Morrill hall.

K. U. PLANS CLINICS BY AUSTRIAN DOCTOR

Dr. Franz Hasslinger, From Vienna, to Spend Five Weeks in Region.

LAWRENCE, Kan.—Dr. Franz Hasslinger, of the Hajek Clinic, Vienna, Austria, returns to the United States in a few weeks for a series of post graduate courses in treatment of ear, eye, nose, and throat. Five weeks of his American visit will be spent in Kansas, Missouri and Oklahoma.

Dr. Hasslinger, who was in America two years ago, and conducted graduate courses for the University of Kansas school of medicine at Kansas City, will appear first in a course for the Kansas City (Mo.) eye, nose, and throat specialists, March 23-25, and the following week will be at Bell hospital, Kansas City, director of extension at the university.

A third course in this region, Mr. Ingham announced, will be given in mid-Kansas, probably at Wichita, the week of April 6-10. The course at Wichita will be on the clinical larynx,—the same course that was given at Kansas City by Doctor Hasslinger two years ago. The Kansas City course this year will be on the nose and sinuses.

Preliminary announcement of the courses has brought hearty response from specialist throughout the state, said Mr. Ingham.

Make Fun of Him.

clay, Davey and several reserves.

Missouri will lose Campbell and Huhn who is about 30 percent of their team this year, but Wagner, a sophomore, will be great player in another year.

Oklahoma loses Capt. Lorrie Myers, Roberts and Grady.

Kansas Aggies will lose Nigro, Wiggins and Brockway.

BREAKFAST HIKE WILL TAKE PLACE SATURDAY

Cage Schedule Unchanged; Ping Pong Games to Be Played Off.

An early morning breakfast hike has been planned for Saturday morning for all members of the hikers' club and anyone interested according to Ruth Kier, hiking head. All hikers are requested to meet in front of the women's gymnasium with their breakfast at 6 o'clock.

Each girl participating in the hike receives fifty points and five hikes entitle her to membership in the hiking club. A roller skating hike has also been scheduled to take place this week. Definite announcement of the date will be posted later.

Game Postponed.

The Chi Omega-KEB basketball game has been indefinitely postponed until further announcement. Schedules of other games remain unchanged. The main gymnasium is always open for basketball practice at noon which affords time for an extra practice or two to individuals participating in tournament games. The gymnasium will also be available this Saturday morning from nine to twelve.

Ping pong matches must be played off by Saturday noon. The majority of entrants have not yet completed their matches for the first and second rounds of the tournament. The bulletin board will inform players of pairings for these rounds, and winners are responsible for following their progress and arranging playing times. Third round games are scheduled to begin next week. About eighty-five girls have entered the tournament, which is the first one to be undertaken at Nebraska. Tables are located in the individual gym room in the women's gymnasium and in the lobby.

Miss Richardson is conducting a dance discussion group every Tuesday from 12 to 12:45 o'clock. The group met Feb. 24 for the first time.

THREE K. U. CAGEMEN OUT

Ames Only Big Six School Not to Lose Players by Graduation.

LAWRENCE, Kas.—With the basketball season rapidly drawing to a close, attentions are turned toward prospects of next year's teams of the Big Six schools. Kansas will lose three Big Six champions—Bishop, Cox and Ramsey, but will have three men to bank on, Page, O'Leary and Johnson.

Iowa State looks to be the bell cow, as the entire Iowa State team returns intact. Little Jack Roadcap, Hawk, Reike and Heitman are all juniors this year, while Thomas, their brilliant forward, is a sophomore.

Nebraska will lose Fisher, Ma-

Itinerant Pianist Tells Experiences He Has as Hour Dance Music Provider

BY A STAFF REPORTER.

There is one type of person on our campus whom almost everybody likes—or at least tries to—but whom no one knows. He is the itinerant piano player, indispensable at all hour dances and such occasions of doubtful importance. That they have their own peculiar experiences and sensations in the opinion of one of their kind who prides himself on his "ivory technique" but who has an entirely different opinion of most of those peculiar people who go to those things. According to his view on this side of university life, existence is merely a succession of people who don't appreciate true art—even if it is only the collegiate variety.

"My life isn't quite all unhappiness," he says, "but it does seem as though there should be some kind of retribution for the poor musician who hangs his heart and soul away on a sorority piano for a union wage when most of the dancers couldn't even so much as identify the tune. Oh, I know, there might be some sort of the improvising we are constantly putting in, but that's just a part of one's art, and the good old hard, steady rhythm we use makes any party go over in a big way."

Make Fun of Him.

"What makes our life hard is the kind of gents who think it funny to make a clown out of the man at the piano. Nothing seems

clay, Davey and several reserves.

Missouri will lose Campbell and Huhn who is about 30 percent of their team this year, but Wagner, a sophomore, will be great player in another year.

Oklahoma loses Capt. Lorrie Myers, Roberts and Grady.

Kansas Aggies will lose Nigro, Wiggins and Brockway.

JAYHAWKS COMPLETE FALL GRID SCHEDULE

Sign Colorado Aggies for One of Six Home Games.

NO LON GTRIPS PLANNED

LAWRENCE, Kansas—The University of Kansas has just closed a football contract with the Colorado Aggies, represented by Director of Athletics H. W. Hughes, for a football game to be played at Lawrence, Saturday, Sept. 26. This will open the season for the Big Six champs.

The Colorado team is coached by Harry W. Hughes, one of Bennie Owen's football players in Bennie's palmyest days at the Sooner institution. Coach Hughes has an enviable record at Ft. Collins, having turned out several Rocky Mountain conference championship football teams.

Arranged by Alumni.

Alfred G. Hill, former Alumni Secretary at the University of Kansas and now editor and owner of the Express-Courier at Ft. Collins, is interested in both teams and was instrumental in getting the game scheduled.

Kansas will play six games at home next year, the greatest number that has been played in any single year on the home grid-iron.

Kansas will not make any long trips next year. The game with the University of Oklahoma, at Norman, Nov. 7, will be the farthest travel, and the other two away-from-home games are with the University of Nebraska at Lincoln, Oct. 24 and Washington university at St. Louis, Nov. 14.

The teams played at home will be: Colorado Aggies, Sept. 26;

to be too silly or dumb to say about us, and of course we just have to sit there and thump away as if unaware of their pseudo-jokes. There are different kinds of this obnoxious type.

"One particularly annoying personage is the inevitable blues-singing blond who persists in rendering a solo sometime during the dance, generally one of those panicky songs that simply sicken one. Even worse is the pest who comes up with a broad, absurd grin on his face and asks for a certain selection right after one has played it. There's something very disheartening and cynical about such an episode. Of course, one must comply with the request, and generally by playing an entirely different piece. They can hardly ever tell the difference, anyway, or else are too kind to show it."

Get Applause.

"Oh, yes, they do get big-hearted every once in a while and give us a hard-earned applause. And I really feel sorry for the poor girls when they have all the arrangements made and no fellows show up. They almost always apologize pretty handsomely in such situations. Things like that make me feel generous and so I sometimes give 'em a few minutes extra."

Yes, we artists lead a sort of hard life, at the mercy of a cruel, misunderstanding world. But it's worth it. After all, one has to hand it to the girls."

Haskell Institute, night game, Kansas stadium, Oct. 2; James Milliken university, Oct. 10; Kansas Aggies at Lawrence, Oct. 17; Oklahoma A. & M., Oct. 31; and Missouri at Lawrence, Nov. 21, thus filling the 1931 schedule of nine games.

FINE ARTS BAND WILL PLAY AT CONVOCATION

Second Program of Year to Be Presented Tuesday Morning at 11.

Appearing in its second convocation concert of the year, the Fine Arts band, under the direction of W. T. Quick, will present a program in the Temple theater next Tuesday at 11 o'clock.

A well balanced program of classical and semi classical numbers has been arranged. Director Quick stated, the main features being William Tell Overture and selections from favorite Herbert operettas.

The Fine Arts band is somewhat unique among concert bands, being composed of both men and women students. Drawing its membership largely from music students, the band is assured of a personnel which compares favorably with that of most professional musical groups. At present there are about forty names on the roster of the organization, a considerable increase in membership over last year's.

At University of Kentucky fraternities and sororities giving the dances during the basketball season have been requested by Coach Adolph Rupp to refrain from sending invitations to member of the squad. It makes the boys feel bad not to be able to accept the bids, and they aren't allowed to be out after 10 o'clock.
