Average Temperature for Last Three Months Above Normal.

3 ...

N 10 P

4

a)

Lincoln this year has experienced the warmest winter since the weather bureau began keeping records here in 1887. According to H. G. Carter, meteorologist, the average temperature for the months of December, January and February was 34.7 degrees, or 9.2 above normal.

The average mean temperature for the three months were 31.8 degrees for December. 34.0 degrees for January, and 38.3 for February.

The amount of precipitation the past winter has been below nor-mal. There being a total of 1.40 inches. This is fifty-nine percent of normal. Snowfall during the three months was exceptionally low being 3.7 inches, or twentyfour percent of normal.

This winter has also been un usual in that the temperature has not been below zero. The last time the thermometer registered zero or lower was on January 23, 1930. The lowest temperature for this year was recorded on Jan. 4 when the thermometer dropped to two degrees.

This semi-California weather, which Nebraska has been having, may yet see zero temperature. According to Mr. Carter there has been zero weather thirteen times during March in the past fortyfive years. The lowest temperature on record for Lincoln during March was eleven degrees below zero on March 6, 1888.

Bible Are Gifts to Museum.

An elaborately wrought Chinese work-box and one of the earliest printings of the King James edition of the Bible are among the donations recently received by the museum from Miss Florence Taylor of Oakland, Calif.

The work-box, more than one nundred years old, is an unusually perfect piece of lacquer work. It is a large hox with many compartments holding carved ivory spool holders, and bobbins

Handwritten entries in the King James Bible record marriages and deaths dating as far back as 1621. Among the remaining contributions are several large specimens of bark from the California Sequoia Redwood trees.

University Professors Have Hobbies Ranging From Pets to Writing Texts; From Traveling to Collecting Books

Nearly everyone is familiar with the story concerning the mail carrier who chose hiking as his hobby, but not everyone realizes that most university professors have hobbies ranging from pets (the four legged kind) to writing text books.

Elizabeth Wittmann, a member of the German department, is the proud possessor of a small "dachshund" which is better known in this country as a "stovepipe" or "weiner" dog. She has the oldest book that he has. It was given the dog a very appropriate name as she calls him Wauzl (bow has 40 or 50 of them. wow.)

The old saying "See America First" is well observed by Lillie M. Park, for she has visited every his leisure moments in writing laboratory manuals and scientific state in the union except four. "I text books for college freshmen. have a real travel bee in my bon-net," confessed Mrs. Park, "for I He has already had several books published, the most recent being no sonner get one trip over than I want to start on another one. 7 hope to go to Europe or Alaska year. next.

Wimberly Explores Sites. Exploring old Pawnee and Otoe Indian sites near Ashland is the favorite Sunday pastime of Prof. Lowry Wimberly. The booklet, which will be distributed to the friends of the chancellor and to those who made the

painting of the portrait possible contains addresses given at the honor banquet of the American Society of Animal Production held at Chicago last November. Life History Given.

The two leading talks printed in this unique booklet are by Prof. H. J. Gramlich and Dean W. W. Burr of the college of agriculture. Both of these men gave a brief account of the life history of the

chancellor, emphasizing his work in the field of animal husbandry. Chancellor E. A. Burnett's reponse to the honor bestowed upon him occupies the next few pages of the booklet. In his address, the chancellor brings back memories

cites the progress made at the college in the past decade.

Scandinavian Club . Offers Lantern Slide Speech By Botany Head.

Dr. Raymond Pool, head of the botany department will give an illustrated lecture on Norway at the Scandinavian club meeting Tuesday night, March 10. The meeting will be open to all university students as well as to the people of Lincoln.

Doctor Pool will discuss the history and natural features and culture of that country and people. Dr. and Mrs. Pool took an extensive trip in Norway in 1925 and his colored slides will help bring out his lecture. The meeting will be held in Morrill hall, room 20. The lantern slides to be used are colored.

In announcing the meeting featured by Pool's address officers of the club are extending a cordial invitation to Nebraska students and Lincoln people. They feel that the address will be one of the features of the year. Students do not have to be members of the club in order to attend.

MARTIN VISITS SCHRAMM.

John C. Martin, '30, of Omaha, visited Prof. E. F. Schramm of the geology department Monday.
